Begonias, Cannas, Dahlias, Lilies, Gladiolus, Summer Flowering Bulbs, Peonies and Iris will be shipped from here, either with seeds or separately, later, if there is danger of freezing. Perennial Plants, Ferns, Chrysanthemums, Phlox, Shrubs, Vines, Roses and Small Fruits will be shipped direct from our Painesville Nursery at proper planting time.

A Personal Message On Our 60th Anniversary

his Socoe For Mariet Granter

Sixty years is a long time. It is a long time for one firm to do business, especially when this business has been done largely by mail with customers who have never

been able to come to our place of business.

It is obvious that the foundations for this business must have been well laid by its founder, Mr. R. L. Templin. It is also obvious that the founder had high ideals not only in his transactions with his customers, but in his transactions with his producers of seeds and plants in the eleven foreign countries and the twenty-two states in this country, who have furnished a steadily improved quality as their experience and familiarity with the habits of plant life increased from year to year.

From 1911 to 1929, a period of eighteen years, I was fortunate in being in close, daily association with our founder, who passed away in Amsterdam, Holland, in 1929, at the age of 76 years, after having spent 53 years serving the interests of

gardeners in every state in the Union and in several foreign countries.

Mr. Templin made his start in the seed branch of our business the year he was married. He had been trained in his father's nursery and greenhouse and it was under Mr. Templin's personal direction that I had all of my training in producing plants on our own property. I never heard him mention how many dollars of sales he hoped we could make. But how many times I heard him say what our customers could do with the different kinds of seeds and plants we offered; the money the customers could make from crops of vegetables and flowers they could sell; the decorative effects in the garden and in the home with the flowers they would grow; the delicious food they would enjoy from the fresh vegetables.

All of the above had a marked influence on me as I grew in understanding of the business in which I am engaged. I know nearly every seedsman and nurseryman in America and I do not compare Mr. Templin with any of them, but I do feel that could I have known all of them when I started as well as I know them now, I would have selected Mr. Templin as my mentor in this, my life work. As it is, I was fortunate

in having been brought in contact with him.

Every year, I get thousands of letters from our customers and a remarkably large number of them have been buying their seeds and plants from us for forty and even fifty years. Of this I am proud, for it means that they have been well pleased with the results of their plantings. I look on each satisfied customer as one more assurance that we have been properly thinking of the most important thing in our business relationship with our customers and that is, the interest of the customers. That has guided us in our care to see that stocks are the best available in the whole world, in giving full measure and in keeping prices within the reach of the pocketbooks of all of our customers.

What I am telling you here, is something we do not attempt to put in the seed catalog every year. But on our 60th Anniversary, I feel that you will understand why I feel moved to pay a deserved tribute to Mr. Templin's long life and high

standards.

We do not offer you a NEW DEAL in seeds and plants, but just the 60 year old SQUARE DEAL for which Templin-Bradley has come to be known in the United States.

Alvyd Maulley
President.

Floyd Bradley and Ernst Roggli, the Pansy Seed grower in Switzerland.

Templin-Bradley has every facility for serving your garden needs, quickly and accurately.

Electric seed germinators of our own design give us accurate results.

Our own Trial Grounds where type tests are conducted.

Our own Nursery assures you carefully grown plants.

A corner in our Seed Department handling 7,500 orders a day in our busy spring season.

U.S. Postal clerks, right in our own building cancel stamps and route packages direct to trains.

For Your 1936 Garden

To Our Customers-

You have before you the 60th annual spring seed and nursery catalog issued

by our company. With this catalog, we extend our greetings to you for 1936, our best wishes for a successful garden and thanks for the orders you have sent us in the past.

When you begin to plan your garden, you will find this catalog a real help to you. The full page charts on Annual Flowers, Perennial Flowers and Vegetables, give you easily understood information which would require hours of study if you were to find such concise information elsewhere. The descriptions and illustrations will be helpful too and the color plates will show you the true beauty of many items.

The best new things in Annual Flowers which have been introduced recently, are grouped on pages 2, 15 and 16. These are the All-America and other new kinds you have been reading about and talking about in your garden club or wherever gardeners gather.

You will find that our list of seeds and plants will provide you with everything your garden needs. The wide assortment we offer you here, is the result of years of experiencing the varied requirements for seeds and plants for our hundreds of thousands of customers in all parts of the United States.

Prices have been reduced in a great many cases this year, due to two things, first better harvest season last fall, and second, increased sales last year over the previous year. The resulting savings to us are being passed on to you in the form of lower prices on many items.

All of the seeds and plants we offer, have been carefully grown from tested parent stock. All of our growers are men of long experience, always watchful for quality and productivity. Our test gardens in Cleveland and Medina give us further check on quality and habits of the various items.

Located as we are, practically in the center of population in the United States, parcel post, express and freight service is very fast, to every corner of our big country. We are even prepared to ship in emergencies by air mail or express from the Cleveland Airport, for which latter and for heavy freight shipments, only, regular cost of such transportation is added. Everything else is shipped post paid

We shall be happy to have you send us your order just as soon as you can for the seeds and plants you will need for your 1936 garden.

Floyd Bradley, President

thing in this catalog except where noted, prices include delivery to your mailbox or express office. This means you have no extras when you buy here. Prices Include Delivery

When Do We Deliver? Seed will be shipped as soon as your order is received. Begonias, Cannas, Dahlias, Gladiolus, Summer Flowering Bulbs, will be shipped from here, either with seeds or separately, later, if there is danger of freezing. Perennial Plants, Ferns, Lilies, Mums, Peonies, and Iris, Phlox, Shrubs, Vines, Roses and Small Fruits will be shipped direct from our Painesville Nursery at proper planting time.

When to Order I am sending this you When to Order lam sending this catalog to you early enough so you can make up your order with the least amount of rush. We like to have the orders come in as early as possible so we can spread our work over a longer period than if everyone waited until planting time. But if you cannot order early, send your order in any time and we will take good care of it. How to Order just alike are bound in this book, perforated, so you can tear them out easily. We like to have you use the order blank in ordering because it insures accuracy in filling your order when we receive it. When you are ready, tear out one of the order blanks—print or write your full name and full address in the spaces provided at the top. Then list all the flower and vegetable seeds you need. Do the same with the bulbs, shrubs and plants you wish to order. You will see a column on the order blank, headed "Variety Number." Every variety in the catalog has a number just in front of the name. If you wish, you only need to fill in those numbers on the order blank instead of writing out the names of varieties. We do like to have you use the numbers, even though you use the names, too, for it speeds things up here when we fill your order and helps us to be accurate. A tough, self-addressed envelope is enclosed with the catalog. Use it when you mail us your order. You may pay by Money Order, Check, or if you must send cash or stamps, be sure to register the envelope.

P. T. Bradley Vice-President

The Templin-Bradley Guarantee

We guarantee the safe arrival of all seeds and plants you order from us, that they will be as represented and in condition to grow satisfactorily if planted and cared for properly.

Any item or items not found to be satisfactory, will be replaced free of charge or we will refund the price you paid us for same. It is agreed that we shall in no case be liable for more than the actual price paid for items found to be unsatisfactory, if any. We do not guarantee fertilizers, insecticides or other manufactured articles.

All-America Selections

The Meaning of "All-America"

For the past four years, the All-America Selections Committee, of the American Seed Trade Association, has been conducting trials of all new varieties of flowers submitted by plant breeders from all over the world. These trials are located in ten widely scattered test gardens from the Atlantic to the Pacific, in the charge of experts. By voting on the merits of each variety in each location, the best possible judgment of merit can be obtained and all articles bearing the name "All-America," in this catalog have passed the test of these judges. We recommend that you try as many of them as you can, for it is the new things in your garden that add so greatly to its interest. Mr. Bradley has worked very closely with members of the Committee, so this project is very close to The Templin-Bradley Co.

1935 All-America Rust-Proof Snapdragon

54 University of California Mixed Pkt. 15c; ½ oz. 50c. See Page 14. 7 Separate Colors. Each Pkt. 25c. See Color Page 15. Description Page 14.

Asters

292 Super Giant El Monte 2. 1936
All-America. The only really large-flowered crimson
Aster. It is a dcep crimson, composed of quantities
of daintily interlaced, plume-like petals. The flowers
are extremely large and fluffy, borne on heavy nonlateral, basal branched stems. Very early and long lasting blooms. Pkt. 25c; ½ oz. 40c.

286 Aurora Golden Sheaf Wilt-Resist-deepest yellow Aster yet developed. Attractive double flower, with full-cushioned crest-like center supported by several rows of short ray petals. See illustration at lower right. Fully Wilt-Resistant and decidedly pleasing in color and type. Pkt. 15c; ½ oz. 40c.

Calendulas In Color on Pages

427 Orange Shaggy All-America 1935 Gold Medal. Unusual in appearance. Rows of long fringed or laciniated petals, deeply overlapping in irregular fashion, giving the flower a shaggy effect. Deep orange. See color page 16, also listed on page 17. Pkt. 15c; ½ oz. 25c.

428 Jewel A real jewel. The petals are so regular and perfectly formed and overlapped so beautifully and the color of deep orange so sparkling that it resembles a jewel. It is the finest Calendula yet introduced. The plants are semi-dwarf and free-flowering, making it equally desirable for bedding and cut-flower use. See color page 15. Pkt. 10c; 1/8 oz. 30c.

Cosmos In Color On Pages 2 and 16

616 Sensation All-America 1936. The Sensation of the year. A wonderful new Cosmos that far surpasses all existing strains in size of flower. It is a real giant, blooms measure 4 to 6 inches across. It will bloom in eight weeks from sowing, is 4 to 5 feet tall and invaluable for cut-flowers. Sensation Mixture of pink and white. Pkt. 25c.

626 Orange Flare Klondyke Cosmos. All-vivid orange Cosmos has exceeded our expectations in that its beauty of color, new in the Cosmos family, its early and continuous bloom, its attractive bright green foliage, its uniformity in height and size of plant and its abundance of flowers, combine to make it the Outstanding All-America of 1935. Pkt. 15c; 1/8 oz. 35c.

Dixic Sunshine Marigold, Color Page 2

lpomed See Color Page 15

Morning Glory. As blue as the sky. A most outstanding annual vine. The flowers are enormous, averaging 3½ inches across. The color is a fixed sky-blue, beautiful beyond words to describe and the abundance of blooms, open from sunrise until late afternoon, make it ideal for covering a trellis or arbor. The vine is a bit late flowering, so it is well to start the seeds indoors in pots. It is a rapid grower and will bloom all summer. Also listed on page 31. Pkt. 10c; ¼ oz. 35c.

Marigolds In Color On Pages 2, 15, 16.

1357 Dixie Sunshine All-America 1936. gold. An entirely new type of Marigold, comes 100% double and is without the familiar Marigold odor. The flowers are brilliant golden yellow, really heads of hundreds of tiny 5-petalled chrysanthemum-like florets, with laciniated effect. Tall, bushy growth, rich green, finely cut foliage, supporting masses of the beautiful flowers which keep 10 days as cut-flowers. Pkt. 25c; 1/8 oz. 50c.

1359 Yellow Supreme 1935 Gold Medal. This new Marigold is the result of years of careful breeding. It is similar to "Guinea Gold" but of a pure lemon-yellow color, fully Carnation-flowered, nearly 3 inches across, quite early and a very profuse bloomer. For better description, see natural color on page 16. Pkt. 15c; % oz. 40c.

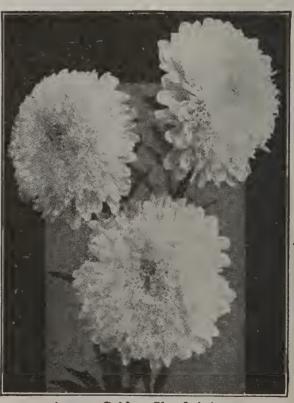

1369 Mexican Dwarf Orange from Mexico, the original home of many of our garden flowers, this handsome new type of Marigold grows 15 to 18 inches tall, and bears large double flowers of a bright orange. The petals are broad, deeply crinkled at ends. The flowers are 4 inches in diameter and so very double that they resemble oranges. Sown indoors in March, and planted outdoors in May, it will bloom from July until frost. Pkt. 15c; \frac{1}{16} oz. 40c.

1375 Royal Scot A most striking color commahogany, well-formed double flowers are produced in abundance on plants 24 to 30 inches tall. Very modernistic. Sec color page 16. Pkt. 10c; 1/8 oz. 35c.

1381 Tagetes Little Giant Mila. The highest development yet attained in a neat, dwarf, really compact strain of this type. Very dainty, with slender foliage, plants 4 to 6 inches high, with a spread of 8 to 10 inches, covered with gay, single, deep orange flowers. An ideal edging plant, a perfect mass of gold. Pkt. 10c; ½ oz. 40c.

And Other Flower Novelties

Make a Modern Garden This Year

NOTE. All the items on pages 8 and 9 have been selected and placed here to show you quickly just what Is new in the All-America selections and the other outstanding Flower Novelties this year. Plant them and enjoy a modern garden, one that you will be happy to enter in any garden contest, one that will give you an abundance of cut-flowers through summer and fall.

Nasturtiums Color Pages 2 and 70 ALL SWEET-SCENTED

1437 Dwarf Double Golden Globe

1936 All-America.

The first named color variety in the new Gem Type. Well formed, double golden yellow flowers in profusion. Plants 9 to 12 inches high, of compact dwarf form. It is a sport of Golden Gleam and is sweet-scented. See its real beauty in color, page 2. Pkt. 25c; ½ oz. 35c.

1435 Dwarf Double Gem Mixed

Shades of yellow, orange, scarlet, crimson, ceries, cream, maroon and spotted varieties. Compact, gemlike plants, ideal for edging and border use. These lovely, sweet-scented Nasturtiums created a sensation at the California Exposition in San Diego last summer. Pkt. 25e.

New Double Gleam Nasturtiums

Double Gleam Nasturtiums are the result of years of scientific plant breeding and selection. A most remarkable achievement in plant breeding.

See Color Page 70

1438 Golden Gleam. Immense golden yellow. All-America 1933. Pkt. 10c; Oz. 25c. 1439 Scarlet Gleam. Dazzling orange-scarlet. All-America 1935. Pkt. 10c; ½ oz. 85c.

14-14 Orange Gleam. Deep glowing golden orange. Pkt. 20e; ½ oz. 15c.

1445 Moon Gleam. Light golden cream. Pkt. 15c; ½ oz. 10c.

1446 Salmon Gleam. Delicate salmon. Pkt. 15c;

1440 Gleam Hybrids. Magnificent color range.
See page 70 for flowers in natural color. All-America
1935. Pkt. 10c; Oz. 30c.

Pansies See Color
Page 15

1545 Roggli's Swiss Giants Strain
This wonderful strain of Pansies comes from the heart
of the Swiss Alps and comprises all the beautiful colors
known to the Pansy world. The richest red, deep blue,
copper, bronze, gold, yellow. Thick, velvety petals,
huge flowers, often measuring 4 inches across. Pkt.
25c; 16 oz. \$1.00.

Phlox See Color Page 2

1626B Gigantea Art Shades Philox Drumniondi. All-America 1935. A fine new strain of Phlox with flowers 1 to 1½ inches across and comes in a wonderful range of art shades. Salmon, apricot, apple-blossom, soft rose, light blue, light mauve, pale violet and all with cream or white eyes. Soft colors blended in beautiful mixture. Plants 9 inches high. Pkt. 15e; ½ oz. 40c.

Zinnia Fantasy. See Color Page 16

Petunias Color Pages

1573 Hybrida Flaming Velvet

1936 Gold Medal All-America. Rich brilliant velvety scarlet. Outstanding for its color, type and uniformity. A Holland introduction and one that will brighten any garden. See its color value on page 2.

1592 Rose Gem 1936 All-America. Neat, compact plant, 5 to 6 inches high and smothered with a mass of rich rose colored blooms about 2 inches in diameter. A charming new miniature petunia. See its beauty in color, page 2. Pkt. 25c.

1608 Rose King Improved Hybrida. 1936 All-America. Large and free-flowering rose colored variety. Plants 14 inches tall, flowers 3 inches in diameter, long stems from the base, make it an excellent cut-flower. Pkt. 25c.

1593 Martha Washington All-America perfect little ball of beauty, 9 inches tall. Flowers are ruffled, pink, veined wine-red, with violet throat. Resembles a Pelargonium. Pkt. 25c.

Scabiosas Color Pages

1733 Blue Cockade Award of Merit from London Royal Horticultural Society. A lovely azure blue, large, conical, half-hardy. One of the finest flowers for cut-flowers, and one of the most attractive in our Annual Flower Trial Grounds. Pkt. 15c; 1/8 oz. 30e.

1722 New Giant Hybrids The flowers splendid new strain are much larger than the old standard Scabiosas, often measuring 2 to $2\frac{1}{2}$ inches across. They are completely rounded and double and come in a wide range of colors. See color on page 15. Pkt. 10c; $\frac{1}{2}$ oz. 30c.

Zinnias See Color Pages 15, 16, 33.

2294 Fantasy All-America 1935. A striking Novelty. It is of the curled and crested type with flowers of medium size, in a wide range of colors and snades. Reds, yellows, orange, bronze, gold and the pastel pinks and rich cream. The unusual shaggy, twisted petals give it a dainty beauty that makes it most desirable for cut-flowers. You will enjoy its novel type. Pkt. 15e; 1/8 oz. 35e.

2291 Scabiosa Flowered An odd and attractive Zinnia, resembling a Scabiosa in form. The plants are extremely free flowering, 2 to 2½ teet high, giving a wealth of bloom throughout the summer. The color range includes all the beautiful shades of crimson, scarlet, orange, pink and yellows. These Zinnias are ideal for bouquets, especially in low bowls. See color, page 15. Pkt. 15c; ½ oz. 35c.

Verbena See Color Page 16

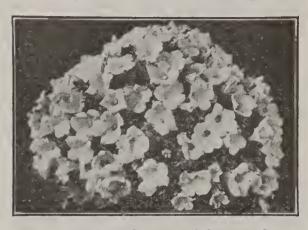

2070 "Eyeful" All-America 1935. Start-lingly beautiful. Medium sized flowers of intense, dazzling scarlet with white eye. Compact plants, useful for bedding or borders. Its sparkling color and its genuine beauty, give it the name, "Eyeful." Pkt. 10c; 1/8 oz. 35e.

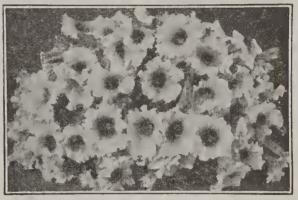

Nasturtium Golden Globe. See Color Page 2

Selecte

336 Begonia Pendula Basket Type Mixed.
Tuberous Rooted. Sec cut.

Very desirable for hanging baskets or wall pockets. The pending rose and red, double flowers on graceful stems, make a striking effect. Pkt. 50c.

350 Brachycome Swan River Daisy. Makes dainty table decoration. See cut. This a most delightful annual. The lovely little Daisy-like blue flowers are as bright as stars, practically cover the foliage. Plants 9 inches high. Pkt. 10c; ½ oz. 25c.

470 Calliopsis Drummondi. A leading novelty for 1936. The color is a rich golden yellow with a reddish brown zone and comes with a double row of mammoth petals Attractive coloring for garden and cut-flowers. Pkt. 15c.

Garden Magic With 12 Monthly \$3.50 Bulletins

See Page 81.

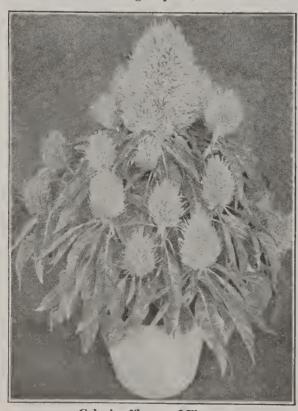

See Page 81.

Brachycome, Swan River Daisy

King Lupines

Celosia, Flame of Fire

A New Perennial 2757 Coreopsis "Double Sunburst" The flowers are double, large, 1½ to 2 inches across, deep golden yellow, and are excellent for cutting as well as for garden decoration. The blooms keep well and the plants are very easy to grow. A pleasant change from the single form. A fine addition to your perennial garden. Pkt. 15c; ½ oz. 35c.

514 Celosia "Flame of Fire" Pyramidalis. below. Decidedly the most dazzling and attractive of all the Celosias. It grows 18 to 20 inches tall, of pyramidal form, carrying a large flame-colored plume on the top, with many smaller plumes below. Strikingly beautiful. Pkt. 15c.

659 Dahlia Orchid Flowering. A new Type of Dahlia. Flowers are of a distinctive character, the petals being curled and twisted in graceful form, the stems are good for cut-flowers and the wide range of colors includes everything from white through all the shades and tones known to the Dahlia family. Pkt. 10c.

Eschscholtzia, Ramona Strain

Dwarf, compact plants, much neater in appearance than the regular Eschscholtzia. The flowers are beautifully frilled and fluted, (see cut), the petals incurving to form a flower which appears to be double. This is an unusual and lovely California Poppy or Eschscholtzia and comes in four colors and in mixed varieties.

S10 GOLDEN BRONZE S12 PINK S11 GOLDEN DAWN S13 WHITE S09 MIXED Price of any color or mixed. Pkt. 10c; 1/8 oz. 30c.

1270 Larkspur, Rosamond All-America Award of Merit by Royal Horticultural Society of London. New pure deep rose, self-colored, fully double. Individual florets are large and closely placed on stems. Distinctly beautiful. Pkt. 10c; 1/8 oz. 40c.

Lupines, New Giant or King See cut at left and full description on page 22.

Begonia, Pendula Basket Type

Eschscholtzla, Ramona Strain

Zinnia, Descrt Gold

Alyssum, Popular Border Plant

Alyssum

The Alyssum is most popular of all for dwarf compact borders and edgings. Quickly in bloom from seed, it is a mass of color all summer. The plants are also useful in porch and window boxes. The flowers have a delicate

21 Sweet White Benthami Maritimum. This is the popular semitrailing sort so nice for boxes and hanging baskets. If planted as a border it spreads out 18 to 24 inches. Flowers white and sweet scented. Pkt. 5c; 4 oz. 15c; oz. 35c.

22 Little Gem Carpet of Snow. The best white, of dwarf neat compact habit, the plants running very uniform. The flowers completely cover the plants. Plants only 6 inches high. Pkt. Sc; ¼ oz. 25c; oz. 65c.

23 Lilac Queen Like Little Gem except in color, which is a delicate lilac, the color being more pronounced in cool, moist weather. Pkt. 5c; ¼ oz. 25c; oz. 65c.

24 Procumbens or Dwarf Bouquet
A very select, compact sort about 2½ inches high and
12 to 18 inches in diameter. The blooms are thickly
massed almost completely hiding the plant. Fine specimen for rock garden. Pkt. 10c; ¼ oz. 30c; oz 85c.

25 Lutenscens Creamy yellow flowers on compact plants 6 to 8 inches high. Pkt. 10c; ¼ oz. 30c.

³ Abronia

Umbellata Grandiflora also called Sand Verbena because of its Verbena-like flower heads, fragrant bright rose with white centers. A charming little trailing plant that does very well in poor dry sunny soils or in sunny rock gardens. Pkt. 10c; 4 oz. 20c.

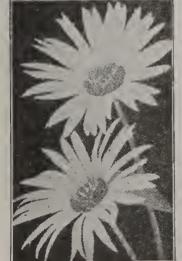

⁵ Abutilon

Flowering Maple or Chinese Bellflower. A very pretty house plant or summer bedding plant. Grows 3 to 4 ft. tall with very ornamental leaves and lovely bell-shaped flowers. If the seed is started in early spring the plants will bloom the first summer outdoors and can be taken into the house in the fall for winter bloom. Fine Mixed Colors Pkt. 20c.

8 Acroclinium See Everlastings Page 20.

For Your Garden
"The Book of Annuals" by Hottes
180 Pages, 155 Illustrations. Price \$1.60.

9 Adonis, Pheasant's Eye
AESTIVALS, Flos Adouis. R. G. A pretty plant with
feathery foliage and rich deep criston flowers, borne erimson flowers, borne early in the summer. Seed rather slow to germinate. Start in April sowing directly where plants are to stand. Pkt. 10c; ¼ oz. 20c.

Arctotls, Lavender Dalsy

Ageratum or Floss Flower

An attractive edging plant easily grown and literally covered with bright blooms from midsummer until frost. Foliage is very dark rich green and forms a pleasing contrast to the bright blue flowers.

17 Blue Ball Dwarf compact bush covered with bright clear blue flowers.

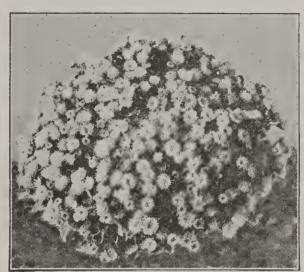

18 Inches, tall not as dwarf as Blue Cap. Pkt. Sc; 1/8 oz. 35c.

19 Swanley Blue A very valuable addition to the "Blue" garden. With about same spread, and thickly studded with downy, brightblue flowers. An excellent variety for cutting. Pkt. 5c; 1/4 oz. 25c.

18 Imperial Dwarf White Best white flowered Ageratum, very pretty in mixed plantings with the blue. Semi-dwarf plants 15 to 18 inches tall. Pkt. 5c; 1/4 oz. 25c.

15 Little Blue Star flowers with rosy tint. Pkt. 5c; 1/8 oz. 30c.

13 Blue Cap The plants are very dwarf, tiny mounds covered with deep blue flowers. It looks to be a great improvement over any other dwarf Ageratum. Only a few inches high like Little Blue Star but has much larger flowers of richer blue. Beautiful for edgings and borders. Pkt. 15c; 1/8 oz. 40c.

Ageratum, Bluc Cap

Makes ideal edge for bed of Rosy Morn Petunias or Dwarf Marigolds.

Amaranthus Pretty Foliage Plants

As the name implies the upper leaves are blazing bright red, the lower leaves maroon. Pkt. 15c; ½ oz. 25c.

29 Caudatus "Love Lies Bleeding." Long, easily grown. Height 2 to 3 ft. Pkt. 5c; ¼ oz. 20c.
30 Tricolor "Joseph's Coat." Very brilliant coleus-like foliage the red, yellow and green beautifully blended. Pkt. 5c; ¼ oz. 25c.

32 Pigmy Torch A new Amaranthus exceptionally valuable for low borders or beds, as it grows only 9 to 10 inches high, with rich crimson foliage. Pkt. 10c; ½ oz.

33 Collection 1 pkt. each of 4 varieties of Amaranthus for 25c.

12 Agathea, Blue Marguerite Daisy Coelestis. Bears clear sky blue daisy-like flowers. Bushy plants 2 to 3 ft. tall that bear profusely if grown on good soil and sunny location. An excellent greenhouse plant. Pkt. 5c; 1/8 oz. 25c.

Agrostis Nebulosa Cloud Grass. See Ornamental Grasses.

19 Alonsoa, Maskflower
Warscewiszi. Little, bright scarlet flowers, fine for Rock Gardens and cut-flowers. 18 inches high. Start seed indoors in March, outside in May. Like protection from hottest sun. Pkt. Sc; 1/8 oz. 20c.

34 Ammobium See Everlastings Page 20.

Anchusa, Blue Bird

Annual Anchusa

(Also called Capc Forget-me-not). An annual form of the popular Anchusa, growing 18 to 24 inches high, and bearing a profusion of flowers like Forget-me-nots, though larger. The plants are freely branched, making good cut flower spikes, and the flowers are produced all summer. Pkt. Sc; ¼ oz. 25c.

36 Blue Bird A dwarf compact annual form of Anchusa growing about 18 inches tall and bearing its flowers in a luxuriant bouquet at the top of the plant. The flowers are of a vivid indigo blue and produce a very brilliant effect. Pkt. 10c; 1/4 oz. 30c.

PERENNIAL ANCHUSA, See page 36.

40 Anagallis
Grandiflora Blue Pretty little rock or edgtall, bearing from July until frost many pretty little turquois-blue flowers. Pkt. 10c; 1/4 oz. 25c.

132 Artemisia, Summer Christmas Tree Sacrorum Viridis. Forms a very ornamental pyramid shaped tree 3 to 5 feet high, resembling an Evergreen Fir. Foliage is rich dark green. You will find it attractive planted as single specimens or as a border like Mexican Fire Bush. Pkt. 10c; 1/4 oz. 30c.

New "Garden Magic" Book Garden Manual Loose Leaf Note Book 12 Monthly Bulletins Complete \$3.50

See Page S1.

4300-8 oz. Can of Watch-cm-Grow only 50c.

Asparagus Ferns

Asparagus Ferns are not hard to grow from seed, though two years is required before the plants are of good size.

137 Sprengerii Emerald Feather. An excellent type of fern for hanging baskets, window boxes, etc. Pkt. 15c; 100 seeds 30c.

139 Plumosus Nanus Lace Fern. A very and much used for cutting because of the graceful feathery foliage, which remains fresh for a long time. Pkt. 15c; 100 seeds 30c.

Arctotis, Lavender Daisy

One of the loveliest of Daisies, and one of the most desirable annuals for cut flowers as well as for show in the garden. Arctotis is also called the Blue-Eyed African Daisy but it should not be confused with our Golden African Daisy or Dimorphoteca.

129 Grandis Large, showy, daisy-like flowers of blush white with a central disk of steelblue, while the reverse of the petal is pale lilac. Pkt. 5c; 1/4 oz. 20c.

128 Hybrida Mixed One of the most beautiful novelties offered in recent years. The flowers are like Arctotis Grandis in form but come in rich colors, each with dark centers. Shades of pink, rose, yellow, and orange are all present. Excellent for cutting or garden display. Pkt. 10c; \(\frac{1}{16} \) oz. 35c.

Asparagus Plumosus

American Branching Aster

Plant Templin-Bradley Asters

²⁸⁷Mixed Wilt-Resistant Asters

For Beautiful Bouquets

Wilt-Resistant Asters Sure To Succeed

For several years our growers have been working on a strain of Asters resistant to the Fusarium wilt disease which has caused so much trouble to both amateur and professional growers in recent years. The plants may be stricken with the wilt at any stage in their growth and yet no method of control of the disease has been discovered. The only assurance of healthy plants and flowers is to plant the Wilt-Resistant strains of Asters.

We are now satisfied with the results of the intensive work that has been put into producing Wilt-Resistant Strains of Asters and offer you here many of them. In every Aster family, we are drop-ping the old strains in favor of Wilt-Resistant, just as fast as our work has been completed.

312 Golden Bartonia

A fine hardy easy to grow annual. The foot high plants carry masses of golden yellow cup-like flowers from July to September. Nice for cutting, as a border, or a golden bed. Pkt. 10e.

Begonias See Color on Page 83
Also eut at left

Tuberous Rooted. These beautiful bedding plants may be produced from seed, and will produce bulbs that you may keep for years. Started early indoors will produce blooming plants the first year.

334 SINGLE MIXED COLORS. Includes all available shades. Pkt. 40e.

335 DOUBLE MIXED COLORS. Few plants exceed them in beauty. Pkt. 50e.

321 Begonia Semperflorens Everblooming, Mixed only splendid House or Pot Plants but are equally desirable for outdoor bedding. Of compact sturdy growth about a foot high, and completely covered with blooms. Pkt. 15c.
358BRIZAMAXIMA. Quaking Grass. See ornamental grasses Page 21

University of California Rust-Proof One 15c Packet of Seed Will Grow many Boquets Like This

Antirrhinum or Snapdragon

Without doubt the Antirrhinums are among the most desirable flowers for general garden culture. With the glorious new varieties that have been recently introduced, there is little left to be desired in coloring and size of plant and flower spike. "Snaps" are not hard to grow. For earliest blooms start seed inside for later transplanting, but you can have good results by planting seed directly outdoors when soil is warm. The seed is fine, so cover lightly and keep moist. You will have more and finer flowers if you pinch back the tops of the plants when they are 3 or 4 inches

Rust-Proof Snapdragons

See Color Front Cover

And Page 15

Large Flowers, Long Spikes, Clean, Healthy Broad Foliage, Rust Free.

If you are a lover of Antirrhinum or "Snaps," and have had trouble with rust, you will welcome these new RUST-PROOF Snapdragons, and get a real satisfaction out of the growing of their beautiful flowers

After a number of years of collaboration with the University of California, our growers were able to produce a strain of Rust-Proof Snaps which we offered to you in mixed colors

last year for the first time. This year, we have something even more wonderful to offer you. This is a real treat for you, for while the University of California Mixture is ideal for those who like mixed colors, there are some who prefer to plant separate colors. We, therefore, take great pleasure and satisfaction in offering you here:

MAXIMUM TYPE Rust-Proof Snapdragons in separate colors.

Alaska. Snow White.

55D Campfire. Luminous Scarlet.

Copper Shades. Name describes. 55H

55A

55G Apple Blossom. Dainty Pink.
55E Canary Bird. Rich Yellow.

55B Loveliness. Soft Rose-pink

H Red Cross. Red and White.

Collection of Rust-Proof Snaps. 1 Pkt. each of 7 colors for \$1.50.

Maximum Type Mixed Colors. Made of above named varieties. Pkt. 20c.

University of California Mixture. See Color Front Cover. Pkt. 15c. 1/16 oz. 50c.

This new type of Giant Flowering is a great advance over the old Snapdragons. They are magnificent in size and coloring, fully twice the size of the old types and with a color range that defies description. Plants 3 feet tall. Do not fail to include some of these in your garden.

42 Cerberus. Crimson with white tube.
43 The Rose. The most popular rose-pink.
44 Canary Bird. A fine clear canary yellow 45 Old Gold. A blending of gold and bronze.

47 Apple Blossom. Delicate pink and white.

Cattleya. A rosy lilac.

49 Purple King. Deep glowing garnet purple.50 Indian Summer. A rich glossy copper color.

51 Snowflake. A pure white variety.
Price, any of above, Pkt. 8c; ½ oz. 35c; Any 6 Pkts. for 40c.
60 Collection. 1 pkt. each of 9 above varieties 60c.

Maximum Mixed A grand color assortment made up from above and others of the best varieties. Pkt. 5c; ½ oz. 30c.

The Majestic Antirrhinums are the very latest development in this popular Annual. The spikes and individual flowers are extra large like the Giant type, but the plants are semi-dwarf and bushy, 18 to 24 inches tall and a mass of color, making a splendid plant for bedding and borders. They bloom profusely and are fine for cut-flowers. You will like the assortment of rich colors we offer you here.

110 Orange King. Rich terra cotta shades and orange with contrasting yellow lip.

111 Red Chief. Well named. A bright, rich deep scarlet.

112 Twilight. Delicate Apricot, rose and salmon.

113 Eldorado. A very rich tone of deep golden yellow. 114 Rose Marie. A delightful light salmon rose.

115 Majestic Avalanche. A pure white.

Prices any of above Pkt. 10c; ½ oz. 40c.

108 Collection. 1 pkt. each of above 6 Majestic Snaps 50c.

109 Majestic Mixed. Includes all above colors. Pkt. 10c; ½ oz. 35c.

Florists Forcing Strains

For forcing into bloom in the greenhouse during the winter, we have made a mixture of the best florists strains available. This mixture contains all the best shades in pink, rose, gold, bronze, yellow and white. These may also be grown out of doors the same as the other types of Snaps. They produce tall plants and long spikes of large flowers. 123 Florists Mixed Colors. Pkt. 25c; Large Pkt. 75c.

Antitrhinum Maximum The Rose

Tom Thumb

Dwarf Snaps This delightful dwarf

variety of Antirrhin-

um grows only 8 or 9 inches tall and is especially useful for

edging or for beds. Very attractive color

mixture containing

almost every shade known in Šnapdra-

116 Tom Thumb

Mixed Pkt. 8c. 1/8 oz. 25c.

These are somewhat smaller than the Maximum type both in size of flowers and height of plants. The plants are bushy and compact, about 15 inches tall, very free flowering, bearing long, dense spikes of blooms. We offer you here a mixture of all the best shades and colors available. Mixed. Pkt. 5c; ½ oz. 25c. Tangerine-Medium A very outstand-

ing new variety in brilliant, fiery orange of great intensity of color. The flowers are freely produced on long spikes. An excellent flower for bedding and for cut-flowers. Pkt. 10c; $\frac{1}{8}$ oz. 25c.

Improved Early Flowering

Early-Flowering **Improved**

These beautiful new Snapdragons, while from the tall large flowering group, are so much improved as to be a distinct strain. The plants grow uniformly 2 to $2\frac{1}{2}$ feet tall and they come into bloom 3 weeks earlier than other Snapdragons. In addition, the spikes are exceptionally long and fine, more flowers being open at a time on each spike.

Mixed Colors An unusually fine mixture of light pink, deep pink, yellow, scarlet and white.
All the colors now available in this type.
Pkt. 10c; 1/8 oz. 25c.

117 Rock Hybrids

Early flowering hybrids forming compact little plants suitable for Rock and Alpine Gardens. 8 inches tall, reselected mixed colors of rose, pink, purpleand mauve. Pkt. 10c; 1/16 oz. 45c.

Scotch Calendulas

Sce Calendulas in Color on pages 15 and 16

If you like a gala atmosphere in your garden, plant Calendulas. They have no rivals for brilliant color and will fill your garden and house with their charming beauty all summer and early fall.

By careful plant breeding through the past years, Calendulas have been greatly improved in size and color and we are able to offer you a wonderful selection of varieties in all the gay shades of orange, yellow and lemon. They come in different types too, double, loose and quilled petals.

Sce Calendula "The Jewell" No. 128, Color Page 15 and Novelty Page 8

⁴²¹ Sensation or Campfire

A new Calendula of vigorous growth and strong stems needing very little disbudding to produce the finest flowers. The blooms are flat and undoubtedly the largest of any Calendula. The color is brilliant orange with a scarlet sheen, and a full yellow center. Pkt. 10c; 1/8 oz. 25c.

419 Orange King A deep orange with dark center very popular with all who have grown it. A favorite with florists and just as fine for the outdoor garden. Flowers are of very good form, fully double and borne on excellent stems. Excellent for forcing. Pkt. 10c; ¼ oz. 20c; oz. 35c.

417 Lemon Queen A beautiful clear lemon yellow. Flowers are large, of excellent form, well rounded fully double and produced on tallstrong stems. Pkt. 10c; ½ oz. 20c; ½ oz. 35c.

441 Ball's Gold A special florist's strain of Calendula by many considered the finest of all. In color a rich golden yellow lighter than Ball's Orange. Pkt. 15c; 1/8 oz. 40c.

A companion to Ball's Gold with same good form and size, but rich orange in color. Extra longstemmed. Pkt. 15c; 1/8 oz. 40c.

423 Radio Trange. Distinct from other Calendulas with its quilled or comet petals. The flowers are glowing orange and nearly globe-shaped, showing practically no center until old. Pkt. 10c; ¼ oz. 25c.

424 Radio Golden Beam Calendula, Orange King

A golden yellow form of Radio. Pkt.

1 Oc; ½ oz. 25c.

Calcudula Radio

427 Orange Shaggy In Color Page 16

All-American
Gold Medal
1935

New Calendula, unusual form. Overlapping petals deeply fringed. See cut. Deep orange, shading to center. Long stems. Plant 18 inches tall. Pkt. 15c; 80z. 25c. Also listed on Novelty Page.

⁴²⁵ Chrysantha or Sunshine

Entirely distinct from other Calendula in form of flower. The flowers are large, of a sunny clear butter-cup yellow with long, loosely arranged petals, giving them the appearance of Chrysanthemums. The long, stiff stems make them ideal for cut-flowers. Lovely when arranged with a blue flower like Delphiniums or Bachelor Buttons. Pkt. 10c; ¼ oz. 25c.

416 Mixed Calendulas An excellent mixture of orange, yellow, lemon, and striped varieties that will give you much enjoyment, many beautiful bouquets, and a very bright showy bed in the garden. Pkt. 5c; ½ oz. 20c.

426 Pastel Shades of Bedding Mixture

As this mixture is made up of the dwarfer growing types of Calendulas, it is especially adapted for bedding or border use. It contains many new shades of apricot, salmon, cream and white as well as orange and lemon shades. A very attractive mixture. Pkt. 10c; 14 oz. 30c.

Calcudula, Orange Shaggy

Calendula, Chrysantha

A brilliant orange and scarlet flowered annual worthy a place in every garden. While not a large flower its brilliancy of color makes it especially noticeable wherever grown. It is admirable for combining in bouquets and is a splendid rockery subject. The flowers are like small tassels borne on long stems. The plants grow about 18 inches tall and bloom from June to frost. Pkt. 5c; ¼ oz. 25c.

Cactus From Seed

Growing cactus from seed is a very interesting undertaking. The best soil in which to start these seeds is a thoroughly decomposed sod broken up and screened with an equal amount of sand added. It is most important that good drainage be provided in preparing the pans or pots for the seed. Full cultural directions will be sent with each packet of seed.

403 Mixed Varieties We offer a fine many sorts that can be successfully grown with ordinary conditions. Pkt. 25c.

Calceolaria, Slipperwort

Growing Calceolarias from seed is not difficult. Use shallow pans or boxes filled with good garden soil unixed with Peat Moss and some sand. Cover the finer seed very lightly. Water very lightly and keep them only moist. Transplant the small plants into small pots and later into large pots.

404 Dwarf Giant Hybrids They are gorgeous beauties with their odd indispensable for a complete collection. Our strain produces many of the spotted or "tigred" flowers, and is of compactgrowth, about 1 foot high. Pkt. 35c.

Cacalla Coccinea

Carnations See Dianthus Page 19.

Canterbury Bells

A new strain of this popular biennial flower in which has been developed the ability to bloom in a few months from seed thus making it entirely satisfactory to use as an annual subject. Resembles its biennial parent in flower and plant, except that it grows but 2 to 2½ ft. tall and each plant producing several spikes of bloom.

186 Mixed Colors. Blue shades, rose and pink and pure white. Pkt. 10c.

187 Liberty Bell. Intense violet or deep blue. Pkt. 15c.

188 Angelus Bell. A beautiful art shade of deep rose. Pkt. 15c.

Calliopsis Coreopsis

Calliopsis is one of the finest midsummer annuals to grow in mass planting or in clusters here and there in the garden or border. They are so profuse and continuous blooming that they will furnish much for cutting and still always maintain a wonderful display in the garden.

466 Tall Mixed One of the leading plants for the flower garden, making a very showy border, producing flowers in nearly every shade of yellow, orange, crimson and brown, on long wiry stems, fine for cutting. Pkt. 10c; ¼ oz. 20c.

467 Golden Wave Drummondi. Grows with large flowers golden yellow with brown red ring. Pkt. 10c; 1/4 oz. 25c.

469 Dwarf Drummondi Mixed A fine color mixture of the Dwarf Orummondi type, including yellow, orange, brown, red, crimson, in many shades and color combinations. Pkt. 10c; 1/4 oz. 20c.

Calliopsis

Canna, Indian Shot

481 Crozy's Hybrids. Did you know that Cannas will bloom in less than four months from the seed? The colors do not come quite true from seed, but our strain has been selected from the best hybrids. The seed is very hard shelled, so file or nick the coat and soak in warm water a few hours before planting. For quickest results start inside, transplanting out when weather is warm. Pkt. 15c; ½ oz. 30c.

Candytuft

One of the most useful and popular annuals. Completely covered all summer with neat clusters of flowers well suited for bouquets; of dwarf spreading habit making it especially desirable as a border or edging plant. Very easily grown and thrives in nearly any soil, although a sandy loam is most desirable. They bloom profusely and their fragrance especially commends them as cut flowers.

471 Giant Hyacinth Very large bold elongated heads of pure white florets. The most desirable for cut flower use and a very fine variety for use as edging plant. Will grow to 12 or 15 inches in height. Pkt. 10c; ¼ oz. 30c; oz. 85c.

border variety of Candytuft of dwarf compact growth. Free flowering in shades of white, lavender, rose and crimson. Pkt. 10c; ½ oz. 25c.

Gt. Hyacinth Candytuft

Chinese Woolflower

The Finest Celosias

The Celosias include some of the finest and showiest flowers than can be grown in the outdoor garden. They are easily raised from seed, either planted directly outdoors or started inside for later transplanting. The Celosias make beautiful cut flower bouquets.

Chinese Wool Flower

Celosia Childsi. Distinct forms of plumed Celosia. Plants average 2 feet in height, branching freely, each shoot bearing beautiful ballshaped flower-heads, resembling a ball of wool.

501 CELOSIA CHILDSI MIXED COL-ORS. Pkt. 10c; 1/8 oz. 30c.

515 Celosia Trio Collection of 1 pkt., each Cocks comb, Woolflower and Ostrich Plume. Catalog numbers—491, 501 and 30c Value for 20c.

Cockscomb

491 Celosia Cristata Bwarf Large Flowering. This type forms large heavy combs or heads as illustrated. Our strain is dwarf, 12 to 15 inches, with extra large flowers of cryyellow. Pkt. 10c; 1/8 oz. 30c. crimson, rose or

492 Dwarf Empress Improved type of Dwarf Cockscomb. Dark crimson, 15 to 18 inches tall. Pkt. 10c; 1/8 oz. 35c.

493 Miracle Tall Cockscomb

Tall unbranching stems, 24 to 30 inches tall, bearing immense solid heads or combs of unusual size and coloring. Colors range from creamy white thru yellow, orange, pink, red, scarlet and purple. Extra finc mixed. Pkt. 15c

Cockscomb

Celosia Plumosa

The plants are of pyramidal form, bearing many graceful feather like plunes of brilliant reds and yellows, 3 ft. tall. They are easy to grow in any fair garden soil.

514 Flame of Fire Celosia Pyramidalls. This attractive new Celosia grows 18 to 20 inches tall, with pyramidal form, carrying large blaze-colored combs on the top. It is very branching and each branch has a proportionately sized comb. The entire plant looks like a "Flame of fire." Every plant grows to the exact size and shape, making it unusual and desirable for effective planting. See picture and description on Novelty page 10. Pkt. 15c.
507 PLUMOSA MIXED, Thompsonii Magnifica. Pkt. 10c; 1/4 oz. 35c.

513 Plumed Knight Celosia

One of the most wonderful flowers ever grown the result of over 20 years of patient toil. Produces waving plumes in dozens of color shades—rose, silvery pink, salmon, red, purple, orange and yellow. Special packets 25c.

Celosia Plumosa

The New Dwarf Feather Celosias

A new dwarf type of this beautiful flower which grows but 15 to 18 inches tall and produces, a mass of brilliant colored feathery plumes. This new type is excellent for bedding or bordering and supplies unlimited quantities of most excellent material for cutting. These attracted more attention and admiration in our trials last summer than any other flower.

511 DWARF FIERY FEATHER. Beautiful plumes of brilliant fiery red. Pkt. 15c; \(\frac{1}{16}\) oz. 75c.

510 DWARF GOLDEN FEATHER. Large plumes of rich golden yellow. Pkt. 15c; \(\frac{1}{16}\) oz. 75c.

512 Mixed Colors. Pkt. 10c; \(\frac{1}{16}\) oz. 50c.

Castor Beans

Strong, sturdy growing tropical like plants, having ornamental greenish-bronze foliage, desirable as center plants for canna beds and to hide unsightly places.

1694 Zanzibarlensis. The largest and freest growing of this family. Foliage from bright green to bronze. Pkt. 10c; oz. 25c.

1695 Red Splre. A very showy variety with large bronze leaves and bright crimson seed pods. Grows quickly 6 to 8 ft. high. Pkt. 10c; oz. 40c.

Annual Chrysanthemum or Painted Daisy-Easy growing annuals forming pretty bushy plants with a profusion of showy flowers, excellent for cut-ting. For best results plant in rich soil and space the plants well apart so that they do not crowd each other.

5 16 SINGLE MIXED. Includes all the showy varieties such as Morning Star, Eastern Star, Evening Star, Northern Star and many others in shades of golden yellow, pink, red and white. Pkt. 5c; 1/4 oz. 20c.

5.17 DOUBLE MIXED. These make splendid bedding or cut flower plants. Pkt. 10c; ¼ oz. 25c. 5.15 SINGLE AND DOUBLE MIXED. An excellent mixture for the garden, containing both single and double flowered sorts. Pkt. 8c; ¼ oz. 20c. 560 Eldorado

A beautiful big golden yellow daisy with dark center. Excellent for cutting. Received special mention by the All American Committee of Selections. Pkt. 10c; ¼ oz. 25c.

Cyanus Bachelor's Button

Also called Cornflower, Ragged Robin and Blue Bottle.

These are among our most popular old fashioned garden ennuals and deservedly so, as they are easy to grow, make very pretty bouquets and boutonnieres, and they go very well with other flowers. Florists grow many of the double varieties for working in their flower pieces. We offer the double flowering in the following colors:

colors:
517 DOUBLE BLUE. A favorite in the Blue
Garden and a rich deep blue.
518 DOUBLE WHITE. Fully double.

Florist's strain.
519 DOUBLE ROSE. A very attractive

shade.

520 DOUBLE MAROON. A new shade, deep rich red.

521 DOUBLE MAUVE QUEEN. A new and attractive shade.

522 DOUBLE RUBY. Very rich and beautiful. New variety.

Price: Any above. Pkt. 10c; ¼ oz. 25c.

524 COLLECTION BACHELOR BUTTON. One pkt. each 6 colors for 50c.

516 TEMPLIN-BRADLEY'S BEST MIXED BACHELOR BUTTONS. Includes all shades of the double flowered. This mixture will certainly give you some pretty bouquets. Pkt. 10c; ¼ oz. 25c. See Color Plate, page 33.

Cineraria

561 Giant Dwarf Mixed What we offer is the large flowered type in dwarf compact plants not over a foot high. Sow the seed from May until September. Pkt. 20c.

562 Multiflora Nana A very distinct type of Cineraria, more dwarf and compact with a great profusion of small flowers in endless variety of shades. Pkt. 20c.

Giant Sweet Sultans

Double Bachelor's

Button

These beautiful long stemmed flowers with their soft velvety heads make very enchanting bouquets. They measure 2 to $2\frac{1}{2}$ inches across while the entire plant stands about $2\frac{1}{2}$ to 3 ft. tall. You can grow them readily in any fair garden soil, and your friends are sure to admire them

526 SNOWFLAKE. Pure White.

527 ROSE. Brilliant shade.

528 YELLOW. (Suaveolens.)

529 DELICATE LAVENDER.

530 AMARANTH RED.

591 Cleome "Spider Plant." Giant Rose. A vigorous plant 3 to 4 feet tall and bearing clusters of rose colored flowers of a curiously attractive appearance. The flower stamens resemble spider legs. Cleome is much used as bcc pasture. Pkt. Sc; ¼ oz. 25c.
601 Coleus Exhibition. Coleus is a plant with richly colored leaves of maroon, green, crimson and yellow. It is the most popular bedding foliage plant grown from seed. The large variegated leaves of this strain are beautiful. Sow indoors. March or April Pkt. 25c.

Cynoglossum Summer Forget-Me-Not. A very desirable annual that blooms in a few weeks from seed. The bushy little plants about 18 inches high are covered with a mass of dainty deep blue flowers, similar to the spring Forget-Me-Nots. Blooms profusely from June through September. It thrives in hot, dry locations where few flowers grow. Makes choice cut-flowers for dainty bouquets. 650 Amabile Bluc, Pkt. 5c; ¼ oz. 20c. 651 Amabile Plnk, Pkt. 10c; ½ oz. 30c.

Large Early Flowering Cosmos

Cosmos, Double Crested

Cosmos

Cosmos are one of the most popular tall growing annuals used for backgrounds and screens. The plant formation and the foliage is pretty—and the flowers in Red, Pink, Rose and White make excellent mass bouquets. For earliest results start seed indoors, though the plants will flower in late summer and fall from sowings made outdoors. They grow 4 to 6 ft. tall, and may be spaced 3 to 4 ft. apart

See 1936 All-America Cosmos "Sensation" No. 616 Color Page 2.

Early Mammoth Single

Large flowering. The best type for the North as it blooms earlier than the late Giants. The flowers are large, in shades of crimson, pink and white. There is no other of the tall annuals that serve their purpose as well as the Cosmos. They are graceful and attractive during all stages of their growth

607 MAMMOTH SINGLE WHITE 607 MAMMOTH SINGLE WHITE

618 Double Crested Cosmos

The flowers are unique and exceedingly pretty. The flowers are unique and exceedingly pretty. Center double with a row of broad outer petals. We have the earlier flowering strains of doubles, the best strain obtainable. In this the flowers are frequently entirely double or else the disk-florets become tufted or crested. The foliage of this type is less finely divided. The seed of the Double Crested should be started indoors early. Mixed Colors. Pkt. 10c; 1/8 oz. 35c.

Orange Flare Klondyke Cosmos

All-American Gold Medal 1935

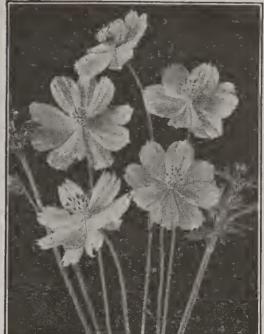

novelties of today. The color is a vivid orange and the foliage a light green, making an unusually attractive flower for show. The stems are long and wiry and the flowers so brilliant that it is especially desirable for cut-flowers. It grows 3 to 4 feet tall and blooms from late July until frost. Pkt. 15c; 1/8 oz. 35c.

See Orange Flare page 16 Early Express Cosmos

In Early Express Cosmos, we have a variety that will bloom in from 45 to 50 days after the sowing of the seed and will bloom continuously from then until frost. The flowers are of medium size and the colors good. Plants 2½ to 3 feet tall.

611 Express Pink
613 Express Crimson
614 Express White
612 Express Mixed
Price on separate colors or mixed. Pkt. 10c;
½ oz. 20c.

624 Miniature Yellow Cosmos Bidens Humulus. Quite different from the ordinary Cosmos in that plants are only 18 to 24 inches tall. The foliage is fernlike and the flowers bright yellow, 1 to 1½ inches in diameter. A nice novelty for you. Pkt. 5c; ¼ oz. 20c.

Klondyke Orange Flare

Early Express Cosmos

Carnations Dianthus, Pinks

681 Double Marguerite Carnations

These lovely, fragrant Carnations produce fine double flowers from seed sown in the garden early in the spring, blooming in about four months. When well started transplant to stand 12 inches apart. They are quite hardy, flowering until late fall and can be potted for winter blooming. Mlxed. Pkt. 5c; \% oz. 30c.

687 Laciniatus Splendens

The most striking Dianthus ever offered. The flowers are very large, over 2 inches across, in a brilliant crimson, with a large, bold white eye. Free flowering and easily grown. Pkt. 15c; 1/8 oz. 35c.

Double Carnations 686 China and Japan Pinks One of the most popular and most eulture, comprising a large variety of types and brilliant colors, many of them deeply fringed. Our mixture contains many varieties of Chinese and Japanese double and single types. Pkt. 5c; ¼ oz. 25c; oz. 40c.

697 Tom Thumb Brilliant

A very bright scarlet, fully double flower, that will make a brilliant display. Grows 5

All-American Special Mention 1935

to 6 inches tall. Pkt. 10c; 1/8 oz. 40c.

China and Japan Pinks

698 Annual Sweet William A valuable new annual blooming type of the popular Sweet William, originated by crossing the common Perennial variety with the Annual Japan Heddewigi Pink. Pkt. 5c; 1/8 oz. 25c.

700 Sweet Wivelsfield

A new hardy annual, the result of a cross between Dianthus Allwoodii and Dianthus Barbatus. Very free flowering over a long season, from June to frost. The color range is unusual, including deep rich reds and purple, through all shades and combinations of pinks to white, both solid colors and with markings. See illustration at right. Pkt. 10c; ½ oz. 35c.

595 Collomia Coccinca. Small plants 9 inches to bright scarlet red flowers. Grow as a hardy annual. Pkt. 10c.

Burridgeaum. Flowers quite like Calliopsis, velvety brown each petal with a broad tip of golden yellow. Blooms continuously all summer. Plants 2 ft. tall. Pkt. 10c; 1/4 oz. 20c.

Dianthus Sweet Wivelsfield

African Daisy Dimorphoteca Aurantiaca

716 Golden Star Rare showy annual from South Africa and yet a flower easily grown in any fairly good soil. The little plants make a fine, low border, almost hugging the ground, and spreading out to a width of 8 to 10 inches. The large daisy-like salmon orange flowers glisten in the sun like molten gold. Pkt. 5c; 1/8 oz. 30c.

721 Pluvialis Ringens A beautiful new form or African Daisies. Compact plants 8 to 10 inches high, bearing daisies of a most attractive color combination. The petals are pure glistening white, the center bluish brown, and right around the center at the base of the petals is a zone of bright blue. Pkt. 10c; 16 oz. 25c.

717 Mixed Hybrids A very beautiful assortment of colors is produced orange, salmon, pink, white and others run riot in a bed of this variety. Produces an abundance of most excellent cut flowers. Pkt. Se; 1/8 oz. 35c.

Queen Anne's Blue Lace Flower Coernleus. This is a shade of heavenly blue that has decided value in the cut flower bouquet or in the open garden. Flower is almost ball-shaped, a compact mass of dainty individual florets, the whole charming and graceful. Plant the seed early in a cool rather moist part of the garden.

Pkt. Sc; ¼ oz. 35c.

Didiscus Qucen Anne's Blue Lacc Flower

Extensively used for edgings and borders for taller plants, especially Cannas, Salvias and Geraniums. The leaves are silvery white and fern-like. Dusty Miller is also very desirable for hanging baskets and porch boxes. The plants grow 12 to 15 inches tall. Pkt. 5c; 4 oz. 25c.

Other Centaurea

538 Centaurea Gymnocarpa

On Page 18

628 Cyclamen

One of the most charming house plants, blooming freely during the winter and spring. The flowers are fragrant and richly colored. Our strain will give you a mixture of the best colors. Mixed, Pkt. 20c.

Dusty Miller

Datura

Horn of Plenty, Cornneopia, Trumpet Flower

661 Fastuosa Double Mixed Bushy plants growing 2 to 3 feet tall bearing large trumpet or cone-shaped delightfully fragrant flowers, often 6 inches long, in several colors, white, purple and yellow. Many flowers are double. Pkt. 5c; ¼ oz. 25c.

Dahlia Grown from Seed

Euphorbia Snow on the Mountain

Eschscholtzia, California Poppy

The state flower of California and one of the most attractive low growing annuals. The foliage is finely cut, fern-like, and silvery green in color. They start to bloom a few weeks after the seed is sown.

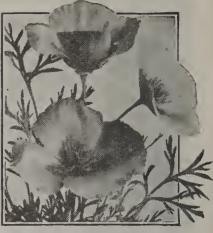

801 Golden Yellow Flowers bright golden-yellow shading California Poppy. Pkt. 5c.; ¼ oz. 15c; oz. 35c.

802 Grandiflora Hybrids Large flowering varieties in the most exquisite shades of gold, copper, bronze, scarlet, purple and crimson. Pkt. Sc; ¼ oz. 30c.

808 Ramona Hybrids A new strain containing many lovely shades. The plants grow compact and upright, with flowers beautifully frilled. Pkt. Sc; 1/8 oz. 25c.

809 Double Eschscholtzia The flowers are like little silken crinkled, double and semi-double. The colors are rich yellow, orange and salmon. Mixed Colors. Pkt. 10c; 1/8 oz. 25c.

1074 Bush Eschscholtzia Sec Hunnemannia Buttercup Poppy Page 21

California Poppy

Grow Dahlias from Seed

Dahlias are easily grown from seed and although they do not come true to color of the parent many new and fine varieties are seedlings. Seed started early in the house will bloom the same season.

Each plant will produce tubers which should be taken up in the fall and planted out again the following spring. The flowers of seedling dahlias improve each year for three or four years.

656 DOUBLE MIXED. Seed taken from the finest double flowers of Cactus, Decorative and Peony types. The seed should grow some wonderfully colored varieties for you. Pkt. 10c; ½ 0z. 35c; ½ 0z. 55c.
660 SUPERFINE SELECTED. This seed has been hand-selected from cross-pollenized blooms of the best named varieties of Decorative and Cactus types, the highest quality possible to secure. Pkt. 30c; Large Pkt. 75c.

657 Dwarf Mignon. A beautiful class of Dahlia with sturdy compact little plants only 12 to 15 inches tall. They bloom from seed much more quickly than the large types, and bear large single flowers in a great variety of colors. Pkt. Sc; 1/8 oz. 25c.

658 Templin-Bradley's Dwarf Hybrids. The bushy plants are 18 to 24 inches high and are remarkably free flowering, in a wide and most charming color range. The flowers are good sized and semi-double. They are early blooming, producing flowers in four months after the seed is started. Pkt. 10c; ½ oz. 40c.

of Dahlia, flowers of a distinctive character, graceful form and in all the colors known to Dahlias. Mixed colors. Pkt. 10c; 16 oz. 60c.

Chinese Delphinium **Butterfly Varieties**

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

2781 CHINENSIS, BLUE AND WHITE. A distinct type with plants 3 ft. tall, and graceful stems with flowers loosely arranged. Develops to full size the first year from seed started early indoors. Blue and White. Pkt. 10c; ¼ oz. 30.

2782 DWARF BLUE BUTTERFLY. R. G. A brilliant blue variety of dwarf compact habit, flowering readily from seed the first year. 15 in. tall. Pkt. 10c; 1/8 oz. 30c.

2783 CHINENSIS CAMBRIDGE BLUE. excellent "Belladonna Blue" form of the Chinensis type. A rich clear blue of fine brilliancy, flowering to a great extent the first year if started early. Grows 2 to 3 feet tall. Pkt. 10c.

Annual Gaillardla Blanket Flower

Four O'clocks

Two Fine Euphorbias

831 Snow on the Mountain Euphorbia Varlegata.

to 3 ft. high, surmounted with broad fleshy green leaves, veined and margined with white. Pkt. 5c; ¼ oz. 20c; oz. 60c.

832 Annual Poinsetta Euphorbia Heterophylla. In plant Mountain but the upper foliage is marked with red instead of white. About the middle of summer the top central leaves turn to a rich orange scarlet, giving the appearance of the wonderful greenhouse plant the Poinsetta. Pkt. 5c; ¼ oz. 25c.

Annual Gaillardia

Blanket Flower. Very showy annuals of easy culture. Blooms from early summer to frost. Flowers on long stems.

915 DOUBLE AND SINGLE MIXED. A grand assortment of both singles and doubles in many shades of orange, bronze, maroon and crimson. A mixture that will delight you. Pkt. 5c; ¼ oz. 20c.

902 INDIAN CHIEF. A rich bronzy red single flowering variety, beautiful for cutting. Pkt. Sc; ¼ oz. 25c.

917 Gamolepis Tagetes

A pretty annual 8 to 10 inches high, producing many bright yellow and orange flowers, daisy like in form. Excellent for sunny border or rock garden and easily grown. Pkt. 10c; 1/4 oz. 30c.

921 Geranium

Zonalc. We have an extra nice strain of the largest and finest colored varieties in mixture. They will bloom the first year from seed started in the early spring inside for transplanting outdoors in June.

Mlrabilis Marvel of Peru Four O'clocks

A popular and easy growing annual of bushy habit, 2 feet high, each plant bearing throughout the summer, hundreds of brilliant blooms. The flowers remain tightly closed until Four O'clock in the afternoon, when they all open together and the plants become a glowing mass of brilliant colors.

Strawflowers **Grow Your Own Gay Winter Bouquets**

8 Acroclinium

An everlasting flower of much merit. Plants 2 feet tall bearing many semi-double daisy-like flowers in pink and white shades. Petals of distinctly strawy texture but very silky in appearance. Flowers are easily dried for winter bouquets and are excellent addition to any collection. Pkt. 5c; ¼ oz. 20c.

34 Ammobium, Winged Everlasting Alatum Grandiflorum called the "Winged Everlasting" because of its airy silvery white, yellow centered flowers. One of the strawflowers so pretty when dried for winter bouquets. Pkt. 10c; ¼ oz. 25c.

1016 Helichrysum Mixed

The most popular Everlastings. The best known and most desirable because of the great improvement in recent years. This Monstrosum or large double is the best type. The plants grow 2 to 3 ft. high and are literally covered with these large double brilliant flowers. In all the gay colors and shades. Mixed Colors. Pkt. 5c; ¼ oz. 25c.

971 Gomphrena Globe Amaranth

Very showy bush plants, bearing attractive clover-like flowers in rose, purple and white. Another good flower to be dried for winter bouquets. Pkt. 5c; ¼ oz. 20c.

1693 Rhodanthe, (Everlasting)

Mixed Colors. One of the prettiest of the everlastings, the flowers star like and dainty with their silken petals, in shades of pink and white. Height 1 ft. Easily grown in a good soil and sunny place. Pkt. 10c; ¼ oz. 25c.

841 Mixed Everlastings

We have made a very special mixture of all kinds, types and colors of Everlastings, all those listed here as well as many others. You will copy this mixture for it will give you many winter bouquets of great variety. Pkt. 10c; 2 pkts. 15c.

Statice Limonium

Not only as a beautiful flower for the garden but one of the best for drying for winter bouquets, as when dry it retains its true colors which is a rare thing among the everlasting flowers.

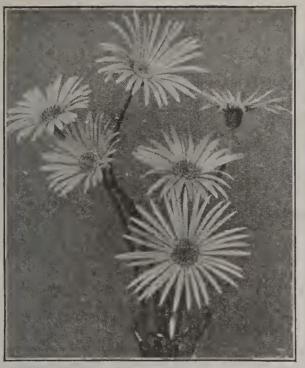

1753 SINUATA MIXED. An excellent variety for cut-flowers. Three colors, bright blue, rose and white. Pkt. 10c; ½ oz. 20c.

1759 BONDUELLI. Strong growing variety producing many heads of bright lemon-yellow. Pkt. 10c; 1/4 oz. 25c.

1760 SUWOROWI. Russlan or Rattail Statice. A nice type of Statice with graceful spikes of soft rose flowers. Easy to grow and attractive. Pkt. 10c; 1/8 oz. 30c.

1754 SINUATA TRUE BLUE. A beautiful clear deep blue. For further description and picture, see Novelty Page 10. Pkt. 10c; ¼ oz. 25c.

2130 Xeranthemum A very charming evergrow 2 feet tall and produce many bright and pretty flowers of silky texture. Rose, white and purple mixed double. Pkt. 10c; 1/4 oz. 25c.

Gerbera, Transvaal Daisy

Godetia, Satin Flower

962 TALL DOUBLE AZALEA FLOWERED. Double Schamlnl Typc. This splendid type of Godetia grows about 2 ft. tall, providing fine long stemmed cut flower spikes. The flowers are like Azaleas in beautiful shades of crimson, rose, and pinks. Pkt. 10c; ¹/₄ oz. 25c.

Godetias, Dwarf Double Azalea Flowered

The dwarf double Godetias are beautiful plants for growing in pots, porch boxes or in the garden. Their colors are brilliant and when blooming they are simply a mass of color as may be seen in the illustration. They are dwarf and compact and while they do well in partial shade in the garden they are at their best as a pot plant.

958 CARMINEA. Delicate pink with crimson blotched center.

959 BRILLIANT. Glowing dark crimson.

960 CORNELIA. Lively bright salmon shade.

961 DWARF MIXED.

Price any color or mixed. Pkt. 10c; 1/4 oz. 30c.

955 Godetia, Sybil Sherwood

A new and outstanding introduction to the Godetia list, Sybil Sherwood is a beautiful single flowering variety of most exquisite color, a glorious shade of bright salmon pink softened by an undefined edging of white. Plant is robust, growing 18 to 20 inches tall, has strong stems for cutting and so free flowering that the foliage is practically hidden by the bloom. Pkt. 25c.

971 Globe Amaranth

Scc Everlastings Page 20

946 Gloxinia

Exhibition Mixture. A mixture, unrivalled for variety and color, of this splendid house plant. Large bell shaped flowers in beautiful colors. Pkt. 25c.

928 Gerbera Daisy

Jamesont Hybrids. The Gerbera is a half hardy perennial and we recommend growing it as an annual by starting seed indoors very early or grow it entirely as a house rlant. The blossoms are daisy-like, often 3 inches across and borne on excellent stems for cutting, and in a variety of beautiful colors—pure white to orange, salmon, rose, ruby red and violet. Pkt. 25c.

Gilia, Thimble Flower

A very graceful annual with fine feathery foliage and nice stems for cutting. Very charming in the garden as it is very free blooming and of very attractive colorings. May also be dried as an everlasting flower.

941 CAPITATA. Lavender Blue. Erect plants 1½ to 2 ft. high. The flowers are globe-shaped and of a delicate lavender blue. Pkt. 10c; ¼ oz. 25c.

942 TRICOLOR. Also called Bird's Eyes. Grows about 1 foot high. Flowers violet, pale lilac or rosy with dark purple throats and yellowish tubes. A fine rockery plant. Pkt. 5c; ¼ oz. 20c.

981 Grevillea—Silk Oak

Robusta. A very graceful and pretty foliage plant used for table decoration and in the outdoor garden in the summer. It grows rapidly from seed and is pretty in all stages of growth. We have seen some excellent specimens in fern dishes. Pkt. 10c; 1/8 oz. 25c.

Gypsophila, Annual Baby's Breath

One of the most popular Bouquet Flowers. Very easily grown annuals, 12 to 15 inches high. Always useful for combining with other flowers in bouquets or small vases. Make several plantings to have the flowers always in the best condition.

991 GRANDIFLORA WHITE, PARIS MARKET STRAIN. The flowers are pure white, very small, star-like, and produced in feathery sprays. We have an extra Select Large Flowering Strain. Pkt. 5c; oz. 25c.

992 ELEGANS CRIMSON. Similar to Common White except in color, which is a pretty rosy-crimson. Pkt. 5c; ¼ oz. 15c; oz. 40c.

993 MURALIS ROSE. A dwarf variety growing only 6 inches high, with delicate rose-pink flowers. Fine for rock gardens or edgings. Pkt. 10c; ½ oz. 20c; oz. 50c.

1016 Helichrysum Sce Everlastings Page 20

1031 Heliotrope, Giant Mixed

The delightful perfume of this plant makes it great for bouquets. Also it is a very pretty house or summer bedding plant, being in bloom all season. Will bloom in the summer from seed started indoors, or the seed may be sown right outdoors in May. Large flowered mixed colors. Pkt. 10c; 1/8 oz. 35c.

Grasses—Ornamental

11 Agrostis Nebulosa Produces airy graceful heads so pretty for mixing with flower bouquets. 18 to 20 inchse tall. Pkt. Sc; 1/8 oz. 25c.

358 Briza Maxima Quaking Grass. The ters are carried on such slender graceful stems that they wave in the slightest of air currents. Valuable for winter bouquets. About 1 foot high. Pkt. 10c.

1172 Job's Tears (Coix) A very interesting ornamental grass. The seed is frequently used as an old-fashioned remedy for sore throat and teething babies. The seed is strung on a linen thread and worn around the neck as a chain. Pkt. 5c.; oz. 20c.

1565 Pennisetum Rueppclianum. "Foundally fine ornamental grass for borders around Canna and Caladium beds or pools. Grows 2½ feet tall. Pkt. 10c. 1/8 oz. 25c.

1134 lonopsidium or Diamond Flower. A delightful miniature plant very rapid growing and free blooming. Flowers are violet in color, small but freely borne and early. Season of bloom may be prolonged by keeping flowers cut. Plant grows about 3 inches tall, forming dense tufts of foliage which is fairly smothered with the dainty little blooms. An unusually fine plant for rockeries or ground cover. Pkt. 15c.

1228 Kochia or Fire Bush

Giant Summer Cypress. A charming and most effective decorative plant, with a habit resembling one of the compact evergreen shrubs. It has light green feathery foliage, which changes to crimson in the fall. May be grown as single specimens or as an ornamental hedge. The plants grow 2 to 2½ feet high with a spread of about 15 to 18 inches. You may plant the seed when soil is warm, just where the plants are to stand and thin them out later. Or you may start the seed indoors transplanting outdoors later. Pkt. 5c: ¼oz. 20c.

Buttercup Poppy Hunnemannia

1075 Sunlite A new strain with semi-double flowers of clear canary yellow, as bright as the sunlight. The extra row of petals adds greatly to the beauty of the flowers. Sunlite received the Award of Merit from the All American Selection Committee. Sow the seed when the soil is warm and it will grow and bloom quickly. Pkt. 10c; 1/8 oz. 25c.

1074 Golden Buttercup Poppy Bush Eschscholtzla. Imagine great long stemmed buttercups over attractive lacy foliage and you have a picture of this Poppy, the only poppy suitable for cutting. They bloom all summer and make such pretty bouquets that if you once try them you will want them always in your garden. Pkt. 5c: ¼ oz. 25c.

1396 Ice Plant See Mescmbryanthemum Page 22

1121 Impatiens

Sultans Balsam. Best Hybrids. A charming plant for the house, blooming almost continuously. The flowers range in color from light pink to reds, and purple violet. The plants are about 18 inches tall. Impatiens is a very satisfactory outdoor bedding plant if placed in partial shade. Pkt. 15c.

Hunnemannia, Sunlite

BE SATISFIED With Your Seed Results

READ THIS LETTER Buskirk, N.Y. Templin-Bradley Co.,

Cleveland, Ohio.

Gentlemen:

I have exhibited flowers at the Floral Dept. of the County Fair for the past seven years.

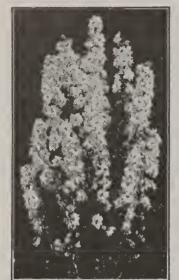

Last year I won 14 first and 4 second prizes out of 22 entries with flowers grown from Templin-Bradley seeds.

I have tried other seedsmen but none have given such good satisfaction as you.

Yours truly, Mrs. Allan Russell

Fire Bush

Larkspur, White Spire

Annual Larkspurs

The annual Larkspurs are beautiful free flowering annuals. The flowers come in many colors and are produced on long spikes, the plants growing normally about 2½ to 3½ feet fall. They make lovely bouquets and garden displays.

Being hardy annuals, the seed may be planted in the late summer or fall to hasten next seasons bloom.

Giant Imperial or Delphinium Type

In this class of Larkspurs, the plants grow upright though freely branched at the base, producing many fine long stemmed branches for cutting. Their type of growth allows closer planting without influencing the amount of their bloom. The plants grow 3 to 4 feet tall.

1280 Blue Bell A new shade of deep Sky-blue.

1276 Blue Spire Intense deep oxford blue.

1279 Carmine King Carmine rose, deepest of the pinks.

1272 Exquisite Pink Improved

1282 Miss California Deep pink on ground.

1274 Los Angeles Improved antrose on salmon ground.

1275 White Spire Beautiful glistening white.

Price any of above varieties. Pkt. 10c; ½ oz. 30c.

1271 Mixed Colors A fine mixture including all the above and other rare colors. Pkt. 10; ½ oz. 25c.

Dwarf Emperor Larkspur

Tall Double Stock Flowered

The plants grow 3 to 4 feet high and bear long cutting spikes of beautiful double flowers.

1270 Rosamond Beautiful pure rose, a shade entirely lacking in Larkspurs up to this time. Plants uniform in height, individual florets are large and very double, closely placed on the stems. Comes into bloom two weeks earlier than other Stock-flowered Larkspurs. Pkt. 10c; 1/8 oz. 40c.

1261 Mixed Colors Includes a great variety of colors, blues, reds, pinks and white of the tall double flowered type, considered the best of all. Pkt. 5c; ¼ oz. 25c; oz. 60c.

1257 Lantana, Dwarf Mixed This pretty plant carries Verbena-like heads of flowers in white, rose, orange and intermediate shades. It is constantly in bloom so an excellent house or bedding plant. Our dwarf strain produces compact plants 10 to 12 inches high. Pkt. 10c; ¼ oz. 25c.

1311 Lavatera Annual Mallow. Very attractive plants growing about 2½ ft. tall and producing large cup-shaped flowers most of the summer. The flowers resemble Mallows or small Hollyhocks. Sow in the garden in May and thin out to stand a foot apart. Mixed colors, rose and white. Pkt. 10c; ¼ oz. 25c.

1319 Leptosiphon, French Hybrids
A pretty little edging plant growing only a few inches high, forming dense cushions of foliage, surmounted by flowers in many colors; cream, yellow, orange to brown, lilac and purple.
Pkt. 10c; 1/8 oz. 25c.

1318 Leptosyne Stillmani A daisy-like flower sis. Flowers, golden yellow, 2 to 3 inches across, borne on good long stems, and the flowers last well in water. Plant 18 inches tall with finely cut foliage. Plants grow quickly, blooming in about 6 to 8 weeks from seed. Pkt. 10c; ½ oz. 25c.

Linaria

1327 Fairy Bouquet Awarded a gold medal by the mittee. Fairy Bouquet is a little beauty. The plants are about 8 inches high covered with the pretty airy flowers, like miniature snapdragons, in a great mixture of shades. Blooms quickly from seed and is ideal as a filler for bouquets or for bedding or potting. Pkt. 10c.

1326 Maroccana Hybrida Excelsior Mixed. A hardy annual with small dainty flowers like miniature Snapdragons, colors ranging through crimson, gold, pink, rose, maroon, dark blue and chamoie. Plant 12 to 18 inches tall and blooms in about 8 weeks. Pkt. 8c; ¼ oz. 20c.

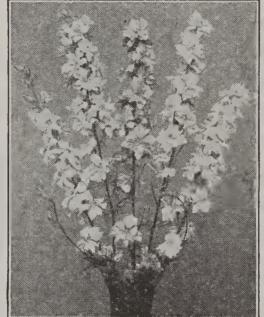

Lobelia, Dwarf and Trailing

For best results sow Lobelia seed indoors in boxes or pots covering the seed very lightly and keeping the surface moist.

1335 Crystal Palace Compacta This is the best strain of dwarf Lobelia, the plants only 5 or 6 inches high, fairly covered with rich deep blue dainty flowers. A fine little border or pot plant, and it is used also for porch boxes and baskets. Pkt. 5c; 16 oz. 25c.

1336 Sapphire Trailing A beautiful new strain of trailing Lobelia, so useful for porch boxes and baskets. The plant is strong growing and the flowers extra large, a rich deep blue with a white eye. Pkt. 10c; 18 oz. 30c.

1340 Blue Stone A dwarf compact variety with large gentian blue flowers without the white eye. A very fine strain. Pkt. 10c; 16 oz. 30c.

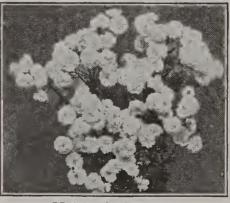

Annual Larkspurs-Stock Flowered

New King or Giant Lupines

Matthiola

1391 Bicornis Evening Scented Stocks. Bears lilac color flowers, which in the morning evening or after a shower emit most delicious perfume. Plants 15 to 18 inches high. Pkt. 5c; ½ oz. 25c.

Matricaria Capensis

Dwarf Larkspurs

1301 Emperor An improved class, more dwarf and compact in growth, making a fine bedding variety. Plant grows about 2 feet tall, producing an abundance of spikes, bearing double flowers of the stock flowered type. Mixed Colors. Pkt. 5c; ¼ oz. 20c.

1302 Enchantress A beautiful new variety of the pact, bushy plant is literally covered with soft, salmon-pink flowers. A splendid variety for potting or bedding. Pkt. 10c.

Scarlet Annual Grandiflorum. A brilliant flowered annual plant 1 to 1½ ft. high, carrying rosy crimson flowers. They make pretty beds or borders. For continuous display make several plantings. Pkt. Sc; ¼ oz. 20c.

Annual Lupines Hardy Lupines on page 41

Easily grown, free flowering annual, with long, graceful spikes of pea-shaped flowers, richly and variously colored. Fine, dark, glossy foliage. Prefers some shade. Height 2 feet.

1344 Mixed Colors Blue, pink, rose and white. Pkt. 5c; ½ oz. 20c.

New Giants or King Lupines

A new and improved sort, growing 3 to 4 feet tall and branching from the ground with four to six spikes to a plant. A big advance in size and beauty over the standard Annual Lupines.

1342 King Blue Rich oxford blue with a white stripe in the standard of each flower. Pkt.

1343 King White Very sweet scented, glistening Pkt. 10c; 1/8 oz. 35c.

1349 King Sky Blue Clear light Blue. Pkt. 15c;
1351 King Heliotrope Rosy purple with white stripe. Pkt. 15c.

1350 King Mixed Shades of blue, rose and white.

Malcomia See Virginia Stocks

The small double flowers resembling button Chrysanthemums are produced in showy clusters.

1384 CAPENSIS, DOUBLE WHITE. Plants grow from 2 to 3 feet high, almost completely covered with pretty, small, double white flowers. Very well adapted for bedding or mixed border. Pkt. 10c; ¼ oz. 20c.

1385 EXIMEA, GOLDEN BALL. The dwarf compact little plants grow 9 to 10 inches high, producing an abundance of fully double golden yellow flowers. This dwarf variety makes an unusually fine edging or border plant for taller annuals. Pkt. 10c; 1/8 oz. 40c.

Mesembryanthemums

1396 Ice Plant Crystallinum. The foliage and stems are covered with crystal-like formations that glisten in the sun. Nice for hanging baskets, porch boxes and for rockeries, being trailing in growth. Pkt. 5c; 4 oz. 20c.

1399 Livingstone Daisy Criniflorum. An ideal plant. Daisy-like flowers of golden, buff, apricot, crimson, 2 inches across. Pkt. 15c.

Mimosa—Sensitive Plant

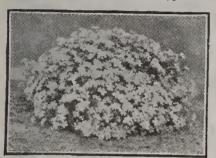

1410 Pudica A curious little plant 12 to 15 inches tall, bearing small pinkish white flowers. Foliage fern-like. The leaves when touched, close up but if undisturbed for a short time again regain their natural form. Pkt. 10c: ¼ oz. 25c.

Mimulus—Monkey Flower

1412 Queen's Prize Tigrinus Grandiflorus. Plants dwarf and bushy about 10 inches tall and bear large flowers. Range in color through white, yellow, golden, rose, crimson and maroon blotched and striped. Pkt. 10c; ½ oz. 25c.

The Best Marigolds

Border of Gold Tagetes

1370 Legion of Honor A single-french Marigold, forming compact bushes 9 inches high. Largely used for borders. Flowers golden-yellow, with brown markings. Pkt. 5e; ¼ oz. 20c.

1374 Dwarf Double French

Monarch Strain. The dwarf French Marigolds have always been valuable for garden display as well as cut flowers. The new Monarch strain shows improvement in its dwarf compact growth, the increased size and doubleness of the flowers and its splendid assortment of colors. Plants uniformly about 1 ft. high. Received the award of merit from the All-America 1934. Pkt. 10e; ½ oz.25e.

1380 Border of Gold Tagetes Signata Pumila A Distinct Type of Marigold

This sunny little flower belongs to the marigold family, growing 12 to 15 inches high and making a compact plant. The foliage is fern-like and dainty. Planted in a row all during the summer and fall you will have a golden stripe of bloom. This plant always attracts a great deal of attention from visitors to our Trial Grounds, as the brightest golden yellow stands out so that it actually compels attention and admiration. Pkt.

1381 Tagetes Little Giant 1359 Yellow Supreme 1369 Mexican Dwf. Orange 1357 Dixie Sunshine Color Pages 2, 15 and 16.

24 to 30 Inches Tall

1355 TALL DOUBLE AFRICAN AND
FRENCH MIXED. The African type has large flowers of a uniform color, yellow or orange and the double are more or less globe shaped. The French Marigolds are combinations of mahogany, brown, yellow and gold. They are single and semi-double. Mixed. Pkt. 5e; ¼ oz. 20c.

1375 Royal Scot The most striking troduced. See Novelty Page and Color Page 16 for description. Pkt. 10e; ½ oz. 35e.

1362 Orange Prince A tall double Bears large, perfectly double flowers of a rich deep golden-orange, a single plant often having 50 or more splendid flowers. Pkt. 10e; ½ oz. 25c.

1364 Orange Alldouble A new and improved strain of African Marigold in which the flowers are practically 100% double. The plant growth and habit is identical with Orange Prince, but the form and doubleness of the flower in this new strain has just about reached perfection. Pkt. 10c; 1/8 oz. 35c. See Color Page 15.

1365 Lemon Aldouble Similar in growth and Tall African, Orange Prince characteristics to Orange Alldouble except in color, which is bright lemon yellow. Pkt. 10c; 1/8 oz. 35c. See Color Page 15.

1360 Primrose Queen A delightful shade of creamy primrose, with a tone of gold. Large double quilled flowers. Pkt. 10c.

1378 Guinea Gold All-America Gold Medal 1933. Brilliant orange, double and semi-double, ruffled, with loose petals. Plants 2 to 21/2 feet tall of pyramidal growth. A very popular Marigold. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

Mignonette

Mignonette

Reseda Odorata. This annual is an old time favorite and with the introduction of new types is one of the most universally grown flowers for fragrant bouquets, bedding plants and pot culture.

1401 LARGE FLOWERING. A highly improved strain of the common variety, producing an abundance of very fragrant flower heads. Pkt. 5c; ½ oz. 25e.

1402 GOLDEN GOLIATH. Immense spikes of golden yellow. Of strong yet compact growth, the giant trusses of flowers borne on erect strong stalks, excel all others. Pkt. 10e; ½ oz. 25e.

1403 NEW YORK MARKET. A select strain desirable for florists. Under favorable conditions plants will grow to 2 or 2½ feet tall, producing long compact flower spikes. Flowers red. Pkt. 10e; ½ oz. 60e.

1405 BISMARCK. Improved Machet. A large flowered variety of reddish shade with dense spikes. Distinct crinkly foliage. Heavy delicious fragrance. Excellent for potting. Pkt. 10e; ¼ oz. 25e.

1456 Nemesia Templin-Bradley Hybrids. A splendid little plant of compact growth about 1 foot high. Nemesia may also be used as winter flowering plants by starting the seed in pots in the fall. This is the best strain of Nemesia with large flowers and many rich and rare colors, from ereamy white through orange to carmine. Pkt. 10c; 16 oz. 30e.

1463 Nemophila "Baby Bine Eyes." Insignis. A cute little Annual growing about 8 inches high and producing an abundance of bright blue, cup-shaped flowers in clusters. Very dainty for cut-flowers. Pkt. 10e; ¼ oz. 15e.

1490 Nigella or Love-in-a-Mist

Also called Devil-in-a-Busir. Compact, free flow-ering, with pretty light blue flowers, nestled in feathery foliage, resembling a mist. The seed pods are curiously shaped and attractive. Plants grow 15 to 18 inches high. Very easy to grow. Pkt. 5e; ¼ oz. 20e.

1498 Nycterinia Capensis. The charman ing white flowers open at night and are very fragrant. The plants are 9 to 12 inches high and are nice for edgings, rockwork or for potting. Pkt. 10c; \% oz. 25e.

1508 Oenothera, Afterglow

Evening Primrose. Evening Primroses should be in every garden because of their enchanting habit of opening their flowers in the evening and allowing you to enjoy their delicious fragrance. Afterglow is a pretty new variety with large flowers of buttercup yellow each with bright red calyx. 18 to 24 incheshigh. Pkt. 10e; with bright r 1/4 oz. 25e.

Oenothera Afterglow

Nicotiana

Flowering Tobacco. A lovely class of fragrant annuals that bloom freely throughout the summer and fall. Plants are bushy, 2 to 3 ft. high and branching. They open towards evening emitting a

branching. They open towards evening emitting a very pleasant odor.

1483 AFFINIS WHITE or tuberose flowered tobacco. A very continuous and profuse bloomer, with waxy white flowers. Plants of branching, bushy habit, starting to bloom a few weeks after sowing. 2½ to 3 ft. Pkt. 10e; ¼ oz. 25c.

1484 AFFINIS HYBRIDS. Like above in growth, a splendid mixture of rose, red, white, and blue. Pkt. 10e; ¼ oz. 25e.

1482 CRIMSON KING. A compact growing variety with rich crimson flowers. Pkt. 10e; ¼ oz. 25c.

Annual Phlox

This splendid genns of plants is unrivaled for richness of color, profusion of bloom, duration of bloom and general compactness, and whether in clumps or masses looks equally beautiful. It is one of the finest annuals in cultivation, and should occupy a prominent place in every garden.

Drummondi Grandiflora Phlox 12 to 15 Inches Tall

- 1630 CINNABAR SCARLET. Very bright orange scarlet.
- 1631 ISABELLINA. Chamois shade of yellow.
- 1632 LILAC. Lavender, white eye. 1637 ATROVIOLACEA. Deep purple. Price any color, Pkt. 10c; 1/8 oz. 25e.

1626-A GRANDIFLORA MIXED. All colors mixed. Pkt. 10e; 1/8 oz. 20c.

Grandiflora Phlox

1633 STARRED AND FRINGED. This beautiful type is quite distinct. The flowers are either star-shaped or fautastically fringed, really two distinct types. Many bright colors. Pkt. 10e; ½ oz. 25c.

1634 BRILLIANT DWARF MIXTURE. The dwarf Phlox grows only 4 to 6 inches tall. Our mixture contains a grand display of brilliant as well as soft rose and cream tones.

Pkt. 10c; ½ oz. 35c.

1635 DWARF FIREBALL. Bright scar-

let, brilliant as a border. Pkt. 10e; 1/8 oz.

1636 DWARF SNOWBALL. Pure white. plant with Fireball. Pkt. 10c; 1/8 oz. 30e.

1638 Poinciana, BIRD OF PARA-ly tall growing plant reaching up 8 to 10 ft. The flow-ers are large, bright and yellow and borne in trusses. They are made even more beautiful by the rich crimson stamens and pistils which are long and incurving. Pkt. 10c; 1/8 oz. 30c.

1624 Phacelia, CALIFORNIA BLUE BELL. Campanularia or Harebell Phacelia. Grows neat little bushes, 9 to 12 inches tall, and bearing all summer pretty gentian bell-shaped blue flowers with white stamens. Very easy to grow, nice for blue borders and rockeries. Pkt. 10c; 1/4 oz. 25c.

Nasturtiums

Flowers iu Color on pages 2 and 70.

For summer display in large or small beds, nothing can surpass Nasturtiums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. You can grow them in practically any garden soil. Plant the seed after soil is warm, covering an iuch deep and dropping a couple of seeds every 3 linehes. They should not be transplanted. Cut the Nasturtiums freely and they will bloom better. Do not pull them from the vlues but suip them off.

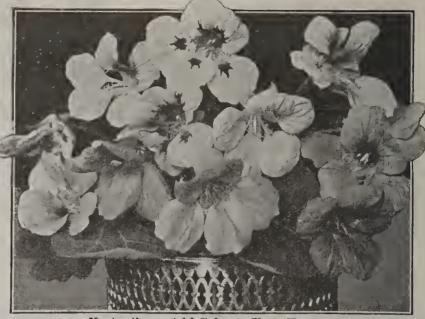

Double Gleam Nasturtiums

New Double Gleam Sweet Scented Nasturtiums

Double Gleam Nasturtiums are the result of years of scientific plant breeding and selection. A most remarkable achievement in plant breeding.

See Color Page 70

- 1438 Golden Gleam. Immense golden yellow.
 All-America 1933 Pkt. 10e; Oz. 25e.
 1439 Scarlet Gleam. Dazzling orange-scarlet.
 All-America 1935 Pkt. 10e; ½ oz. 85e.
- 1444 Orange Gleam. Deep glowing golden orange. Pkt. 20c; ½ oz. 45e.
- 1445 Moon Gleam. Light golden cream. Pkt. 15e; ½ oz. 40e.
- 1446 Salmon Gleam. Delicate salmon. Pkt. 15e; ½ oz. 40e.
- 1440 Gleam Hybrids. Magnificent color range. Sec page 70 for flowers in natural color. All-America 1935 Pkt. 10c; Oz. 30e.

Nasturtiums Add Color to Your Home

Tall Nasturtiums

1441 BEST TALL OR CLIMBING. For trailing over porch lattice or arbors, or for covering old fences or unsightly places, also for vases, we consider the tall varieties most desirable. There is also a greater variety in colors, including the brilliant Lobbianum type. Pkt. 5e; oz. 20e; ¼ lb. 60e; lb. \$1.00.

1442 TALLIVY AND VARIEGATED. Combining two desirable new climbing types, the Ivy with bright green foliage, veined light, and the Variegated with green leaves mottled with creamy-white. Flowers brilliant mixed colors. Pkt. 10c; oz. 20e.

1443 TRAILING TOM POUNCE. The best Nasturtium for porch boxes because of its trailing habit (vines 2 feet long.) At times you hardly see the foliage because of the wealth of flowers. Flowers are a little smaller than the ordinary Nasturtium, very bright yellow and scarlets. Pkt. 10e; oz. 20e.

Nasturtiums in Color Pages 2 and 70.

See Novelty Page 9 for All-America Dwarf Golden Globe and Gem Mixture

Annual Poppies

Poppies will grow most anywhere and you should scatter seed wherever there is any space in your garden, they are so bright. Make several plantings to have fresh flowers throughout the summer. They will not stand transplanting.

Shirley Poppies

The Shirley Poppies are all very attractive because of their good sized, beautiful silken flowers.

1651 SWEET BRIAR. Double Shirley. The color is a deep rose-pink, like a wild rose, and formed like a large double begonia. It is much larger than the standard Double Shirley varieties. Pkt. 10e; ½ oz. 25c.

1652 THE DAZZLER. Double Shirley. A new Double Shirley Poppy of fine size and form. The color is a rich orange-scarlet, very attractive and unusual. Pkt. 10e; 14 oz. 35c.

Shirley Poppies 1654 SINGLE SHIRLEY MIXED. Silk or Ghost. The effect of this mixture of these new Poppies, is what you would expect to see in a Chinese garden, where vivid, glistening, still artistic harmonizing colors hold sway. Pkt. 5c: ¼ oz. 20e; oz. 60e.

1655 DOUBLE SHIRLEY MIXED. Eldorado. Same mixture of brilliant shades as the single mixed but the doubles last longer. There will be some singles and some semi-doubles. Pkt. 5c; ¼ oz. 25e.

Other Annual Poppies
1649 PEONY FLOWERED. Double.
The flower heads are very double and often measure 3½ to 4½ inches across. The petals are shaggy and Peony-like. All colors Mixed. Pkt. 5e; ¼ oz. 20c.
1650 TALL SALMON SHADES, IR-RESISTIBLE. Double. A new strain of Annual Poppies. The flowers are larger than the Peony and Carnation flowered Poppies. The salmon shades are particularly pleasing and worthy enough to draw the Award of Merit from the Royal Horticultural Society. Pkt. 10c; ¼ oz. 25e.
1653 FLANDERS FIELD. Single. The beautiful native Poppy that covers the war fields of France and Belgium. A glorious scarlet Poppy. You must have some of them in your garden. Pkt. 5e; ¼ oz. 25e.
1648 TEMPLIN-BRADLEY BRILLI-ANT MIXTURE. For a brilliant and gaudy effect, plantlarge quantities of this mixture, containing all the bright colors known to Poppies. Pkt. 5e; ¼ oz. 15e; oz. 30e.
1074 GOLDEN BUTTERCUP POPPY, Hunnemannia, Eschscholtzia, See Page 20.

Floyd Bradley "How" Book Garden Helps. 25e per Copy

Ornamental Fruits

¹⁷⁵¹ Jerusalem or Cleveland

Cherry Ornamental pot plant bearing large, bright red cherries. A lovely house plant, Pkt. 10c; ½ oz. 25c.

1752 Ornamental Peppers

Capsicum. Interesting little bushy plants bearing brilliant and curious fruits in many shapes and colors. Pkt. 10c; ¼ oz. 25e.

Rose Moss Portulaca Sun Plant

For brilliant coloring, nothing can excel a bed of Portulaca, with its silky flowers glistening in the sunlight. No bedding plant equals the Portulaca for places exposed to the hot sun.

1641 Double Comprising many brilliant colors. Seventy-five per cent should produce perfectly double flowers resembling small, fully open roses. Pkt. 10c; 1/8 oz. 10c; 1/4 oz. 65e.

1640 Paris Beauty Larger flowered than the old fashioned, and one of the brightest, showiest low border flowers in existence. Colored with the gayest purple. Pkt. 10c; 1/8 oz. 25e.

Single Flowering

The single-flowering Portulaca is unsurpassed for carpet bedding where a brilliant effect is desired. Our strain contains white, yellow, pink and scarlet.

1642 Single Mixed Portulaca. Pkt. 5e; ¼ oz. 25c.

Primulas

1661 PRIMULA OBCONICA. One of the most beautiful Primulas for pot plants and also for the summer border. Fine large flowers in many colors. Start the plants in a light window, using a porous loam but one containing no leaf mold or peat. Giaut Mixed. Pkt.

HARDY PRIMULAS. Hardy varieties of this desirable garden plant arc listed on page 42.

Pyrethrum

1688 PYRETHRUM AUREUM. Golden Feather. A dwarf growing little plant only a few inches high, with golden foliage, which makes it an attractive border or formal bedding plant. Though half-hardy, it is best treated as an annual. Pkt. 10e; ¼ oz. 25c.

Pyrethrum Plants See Page 70

Rogglis Swiss Giant Pansies Are Unexcelled

Pansies Rogglis Swiss Giants
Pietured in Color on Page 15.

Deep down in the heart of everyone is the desire to see Switzerland, the country of beautiful lakes, flowers and snow-capped mountains. Few have the opportunity to spend days in the heart of the Swiss Alps, but all of us can bring a bit of Switzerland into our houses and gardens if we but plant these lovely Swiss Pansies.

Roggli's Swiss Pansies are the result of years of intensive plant breeding, developing this wonderful strain of Giant Pansies with the immense size, 31/2 to 4 inches in diameter, and seemingly, embodying all the rich golds, reds and blues that are to be found in the lakes and mountains of Switzerland.

The separate colors are descriptive of their homeland and the mixture contains a very fine range of colors, with a large percentage of rich dark shades.

1546 ALPGLOW. Rich garnet red, darker markings.
1548 RHEINGOLD. Golden yellow, brown blotches.

1549 BERNA. Violet-blue, darker markings.

1545 Roggli's Swiss Giants

Gorgeous Mixed Colors.

Prices on all Roggli Pansies. Pkt. 25e; 16 oz. \$1.00; 1/8 oz. \$1.75.

Giant Flowering Pansies

The largest of the American grown Pansies We offer year sight weight as a large percentage of rich dark shades.

1547 THUNERSEE. Deep blue.

1549 BERNA. Violet-blue, darker markings.

See Pansles
Colors Page 15.

Separate
Colors Colors

Colors Colors Separate

The largest of the American grown Pansies. We offer you eight varieties, in colors that will give you a fine selection if you too follow a color scheme in your garden planting.

1532 SNOW WHITE. Pure glistening white.

1533 GOLDEN QUEEN. Bright golden yellow.

1534 CARDINAL. Brilliant red, black blotches.

1535 KING OF BLACKS. Rich velvety, near black.

1527 Miracle Pansies

American Strain of Mastodon Mixed. This pansy strain was developed by Steele's Pansy Gardens and is considered the best of the American strains. The plants are hardy, very early flowering, bear huge blooms on long stems and the colors are beyond description. Pkt. 20e; 16 oz. 75e.

1552 Winter-Blooming Giant Pansies Sometimes ealled World's Record. A very early flowering hardy strain. They will bloom several weeks earlier than other pansies so are invaluable for spring bedding. The flowers are of good size and include a splendid assortment of colors. They are delicately fragrant, indicating the violet strain. Pkt. 10c.

1529 A New Strain of Pansies
Templin-Bradley's Rainbow Mixture
This strain has a greater range of color than any other strain we have ever offered. Furthermore, the flowers are enormous in size, when properly grown you will find flowers 4 to 5 inches from top to bottom. The plants are compact but of vigorous growth, producing good length of stems.

And the colors are marvelous. You will find those of bronze and reddish tinge, many with distinct rings, deep blues, purples and the light gold and yellow shades as well. Pkt. 25e.

1536 LORD BEACONSFIELD. Purple,

white, lavender.
1537 PRINCE HENRY.
1538 PRINCE BISMARCK. Bronze shade, black eye.
1539 ADONIS. Light blue with white eye.

Prices on any above 8 Kinds. Pkt. 10e; 1/8 oz. 30c.

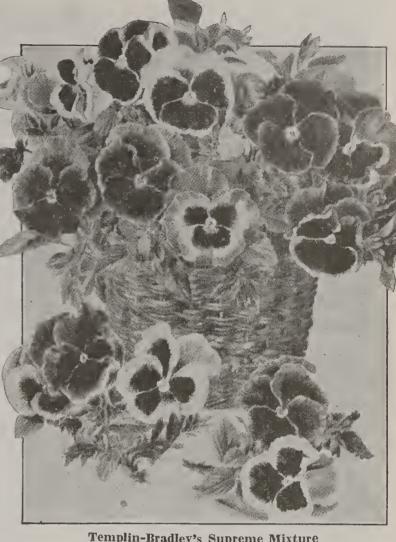

Templin-Bradley's 1526 Giant Exhibition Pansies

The Giant Exhibition is a wonderful mixture of Pansies. It is our own blend of which we sell a great quantity to the most critical pansy lovers and to those who grow for market. In order that you may have the pleasure of growing some of the very best pansies in existence at a nominal expense, we are searching each season—almost to the ends of the earth, among pansy specialists for the very best of their new strains. Included are the ruffled types, the striped and mottled, the blotched as well as solid colors are mixed together to make our Giant Exhibition. Price, pkt. 15e; 3 pkts. 40e.

1528 Popular Bedding Mixture

These are the popular saucy-faced beauties that everybody loves, comprising the finest varieties in all colors. Just what you want for a pretty bed. You will be delighted with this mixture. Pkt. 5e; 1/8 oz. 25e; 1/4 oz. 45e.

CULTURE—Pansies do best in a rich loamy soil, moist but not wet. Beds should be worked up loosely 8 inches deep and humus, or well-rotted manure worked in. Seed may be sown in the garden as early as the ground can be worked up fine or may be started inside in boxes for earlier plants. After sowing cover very lightly with fine soil or sand and keep moist, this is important for pansy seed if allowed to dry out during the first 15 or 20 days will invariably die. Pansies may be sown in the same manner in July or August and carried through winter by mulching with straw or leaves.

Templin-Bradley's Supreme Mixture A Basket Full of Beautiful Thoughts

Templin-Bradley's 1540 Supreme Mixture

"Pansies for Thoughts" is an age-old saying but in this case we have reversed the words and have given "Thoughts for Pansies." In this mixture we have thought out the best mixture of Pansies in all the finest types, colors, sizes, markings and substances available.

Let's make this a Pansy summer and fill our gardens, baskets and homes with the adorable little faces of these colorful Pansies. Their beauty will thrill you. 1540 Supreme Mixed Pansies. Pkt. 30c; Large Pkt. 75c.

Rudbeckia

1697 My Joy A delightful new and desirable variety of this popular annual. The attractive flowers are of rich orange yellow often over five inches in diameter and having a much smaller central cone. Plants are vigorous and stronggrowing, furnishing fine strong stems for cutting. Pkt. 10c; 1/8 oz. 35c.

1698 Kelvendon Star A half-hardy annual and a height and should be planted 18 inches apart. Sow seeds indoors in February or March. Plant seedlings outdoors as soon as ground is warm. Will bloom from July until frost. Flowers of golden yellow with brown central disc, surrounded by shining mahogany. Pkt. 15c; \(\frac{1}{16} \) oz. 30c.

Salpiglossis Velvet Flower

Most attractive annuals, large petunia-like flower in richest color display. The flower coloring is rich indeed—purples, crimson, and each flower veined with a glint of gold. The plants grow 2 feet tall and bear long stems. There is no other flower that has the same purple and gold color combination. Visitors at our Trial Grounds always remark about the magnificent beauty of these flowers.

1704-A LIGHT BLUE

1704-B YELLOW GOLD

Saintpaulia, African Violet 1701 Saintpaulia African Violet

Ionantha. A very useful and charming pot plant that is now in very popular demand. Flowers resembling violets of a very rich violet-blue color enhanced by the golden anthers, which lend a beautiful contrast. Foliage is similar to the Gloxinia. Very easily grown from seed, flowering in six months and continuing all winter. Pkt. 35c.

Beautiful Petunias

Pctunia, Double Fringed

An effective planting of Dwarf Giant Petunia Rosie. For freedom of bloom, variety of color and effectiveness these have no equal. If only a little care is bestowed upon them, Petunias will produce their handsome sweet-scentcd flowers in their delicate and gorgeous colors all summer.

Petunia, Rosc Gem, 1936 All-America

Giant Flowering Double Fringed

The finest Double Petunias. Immense blooms, ball-shaped and 4 inches across. Selected strains, producing practically 100% true doubles.

Make showy bedding plants. Tall, spreading with fairly long stems.

1566 Rose Pink and White New Double Giant Fringed. This is a beauty. Imagine agreat big ball of double Petunia of bright pink having each petal edged with a frill of pure white. The effect is charming. It comes quite true as to color and doubleness. Pkt. 50c.

1579 Super Double Fringed We believe this strain is as near 100% perfect as has yet been attained. It produces a very large number though not 100% of great big doubled and fringed flowers. There will also be a few semi-double and singles. On page 33 in color is a sample of the kind of blooms you may expect, and certainly that is beautiful. The seed is worth many times its weight in gold. A wonderful assortment of colors. See Color page 33. Mixed Pkt. 60c.

1576 Standard Double Fringed Mixed As lovely as Double Hollyhocks. Many colors; large, yet delicate and fluffy. Pkt. 40c.

1567 Victorious All Double Dwarf Giant Mixed Colors. A new strain, more dwarf and compact than the other double varieties. Every plant in our trials produced double flowers, the larger percent being of the Giant Ruffled type and in most beautiful assortment of colors. Pkt. 50c.

Large Flowering Single Fringed

These have large flowers, though not as large as the Giant Ruffled. The flowers are very prettily fringed and ruffled and are freely borne. The group includes all colors, both light and dark. As a general rule the varieties come very true to color.

1581 Heliotrope Blue Heliotrope or steel-blue with veinings of purplish black. Pkt. 20c.

1582 Theodosia Rose the brightest rose-pink, the beauty being enhanced by the yellow throat, veined brown. Pkt. 20c.

1588 Violacea An immense flower of deep, waved velvety petals. Very desirable. Pkt. 20c.

1593 Martha Washington All-America 1935. Plant 9 inches tall, a perfect ball, covered with ruffled pink flowers, veined wine-red, violet throat. Pkt. 25c.

1585 Templin - Bradley's Large Fringed Mixed A very fine color mixture of the above varieties, from bright lively pinks to deep purples. Pkt. 20c; 3 pkts. for 50c.

Dwarf Single Fringed
Distinct from the other fringed and ruffled Petunias,
especially in the habit of growth. This type grows
bushy, compact plants only about 12 to 15 inches tall,
and they are prolific of medium sized prettily fringed
flowers. The dwarf compact growth makes them
obviously better adapted for beds or borders, or as
pot plants.

Setting Sun Bright rose pink. 1591

1599 Nana Erecta Tyrian Rose
1934 Novelty. Color is bright Tyrian Rose, the flowers measure 2 to 2½ inches across, free-flowering, giving a continual array of the most brilliant rose. Pkt. 15c; ½ oz. 40c.

1594 Dwarf Single Fringed Mixed Colors

Small Flowering or Lilliput Double Fringed

As the name implies, the flowers are comparatively small, normally 2 to $2\frac{1}{2}$ inches across, but they run a large percent double. The plants are quite dwarf and compact which makes them very desirable for bedding and for potting and for potting

1577 Double Rosy Morn "Rosa Bon-flowers are like rosy-pink Carnations. Fine for porch boxes. Pkt. 30c.

1578 Lilliput Double Mixed A mix-shades of pink, crimson, striped and blotched red and white. Pkt. 30c.

Balcony Petunias

The plants of this group are very free flowering. They are well adapted to bedding as well as for boxes or hanging baskets, but the long pendulous branches make them especially fine for porch or window plantings. Richly colored, with large plain petaled flowers.

1602 Balcony Rose 1604 Balcony Blue 1603 Balcony White 1605 Balcony Crimson Price of any above colors. Pkt. 10c; $\frac{1}{32}$ oz. 30c.

1607 Balcony Netted Blue Gem Steel blue with attractive netting of deep violet. The flowers are large and freely borne on long branches. Pkt. 15c.

1601 Balcony Mixed A well balanced mixture of lovely

Petunia Setting Sun

Single Bedding Petunias

More generally planted than any other class of Petunias, because of their free flowering habit and their ability to do well under practically all conditions. In this group are found all attractive colors known to Petunias. The normal height is 18 to 24 inches.

1595 Elk's Pride Darkest Petunia Pkt. 15c. 1611 General Dodds Atropurpurea. Velvety blood red. Pkt. 10c; 1/8 oz. 40c.

1610 Howard's Star, Imp. Maroon, white star. Pkt. 10c; 1/8 oz. 50c. Improved

1609 Hybrida Mixed A mixture of pleasing shades. Pkt. 5c; 1/8 oz. 25c; 1/4 oz. 45c.

1612 Templin-Bradley's Special Hybrid's Mixed A select mixture, an improvement over common Hybrida. Pkt. 15c; 1/8 oz. 35c.

Giant Flowering Single Ruffled

The largest flowered of all Petunias, the immense blooms often measuring 5 to 6 inches across. The petals are ruffled and in most varieties the throats of the flowers are beautifully netted or veined. The plant growth varies, the original types being tall and spreading, but as described below, recently dwarf compact strains have been developed.

These ruffled giants are rare and lovely and every garden should have one or more varieties. These varieties do not usually come 100% true to color, some colors being especially difficult to fix.

1572 Dwarf Giant Rosie A dwarf vamoth flowers of rosy lavender, beautifully netted. See large picture at top of page. Pkt. 30c.

1583 Giants of California Mixed Many fine shades of rose, pink, lavender, purple with veined throats of different colors. Pkt. 15c; Large pkt. 75c.

1586 Ramona, Mixed Dwarf Glants. Similar to Giants of California except in growth. The dwarf strain making more bushy and compact growth. Pkt. 25c.

1570 Ruffled Monsters Mixed The flowers are very large and ruffled. Mostly colored in the desirable red and dark shades, neatly marked and veined. Half dwarf and erect in growth. Pkt. 25c.

Dwarf Bedding Compacta

These varieties have been selected for a more compact and dwarf plant growth than the Hybridas. While the different colors vary somewhat, the plants normally are very free flowering, bushy and about 9 to 12 inches tall. As low borders or ribbon beds, they are unexcelled. Suitable for the Rock Garden also.

1616 Bluebird Deep blue. Pkt. 10c; 1/8 oz.

1621 Cockatoo Deep velvety purple. Pkt.

1617 Rosy Morn Best bright rose-pink. Pkt. 1617 Rosy Morn Best bright rose-pink. Pkt.

1619 Rose of Heaven Lively rose pink. Pkt. 10e; 18 oz.

1620 Silver Blue Heavenly blue, silvery sheen. Pkt. 10c; 1/8 oz.

1618 Dwarf Inimitable Many colors, blotched and striped. A fine mixture. Pkt. 5c; 1/8 oz. 35c.

1622 Pink Gem A little gem of a Petunia, deep pink flowers, 5 to 6 inches high with 25 to 30 blooms to each plant, flowers 2 inches across. The first real dwarf or miniature Petunia. Pkt. 15c; 1/6 oz. 60c.

1600 Nana Compacta Mixed F o r t h e time we are able to give you a splendid mixture of many distinct colors in the true Dwarf or Nana Compacta class. 8 to 10 inches tall and one foot in diameter. A ball of growth. Pkt. 15c; ¹/₃₂ oz. 30c.

Lovely Sweet Peas

Most Desirable Varieties Of Finest Quality

For distinctive beauty and exquisite fragrance the Sweet Pea has no rival. We sell more packets of Sweet Peas annually than any other flower. You can have Sweet Peas in your own garden just as fine as those of the florist. Pick the flowers frequently for abundant bloom. One ounce will plant a single row 25 feet long.

CULTURE OF SWEET PEAS. Prepare a deep trench, removing top soil and loosen subsoil, working into it some well rotted manure, replace top soil, leaving it 4 to 5 inches deep. Sow Sweet Pea seed in bottom of trench, 12 to 15 seeds to the foot for each row, then cover seed with 2 or 3 inches of soil and as vines grow, gradually fill up to the level.

Sweet Peas must be sown early in the spring to get the best results, just as early as you can possibly work your soil.

1807 Templin-Bradley's Medal Mixture

If you have a limited amount of space for your Sweet Peas and yet wish to have the best named varieties in the most colorful and gorgeous display of Sweet Pea beauty and daintiness, plant this Templin-Bradley Medal Mixture.

We have combined thirty or more choice named varieties of the Butterfly or Orchid Flowering Spencer Sweet Peas into the finest mixture to give you the best known in the Sweet Pea world. This will give you an unlimited supply of beautiful flowers for dainty bouquets. Pkt. 15e; Oz. 35c; ¼ 1b. 75c; Lb. \$2.25.

4340 GARDEN PACKAGE. (For several lbs. of seed) 25c.
4341 20 POUND SIZE. (For 20 lb. of seed) 50c.

Scabiosa Loveliness

Ursinia

Salvias Scarlet Sage

Salvia is too well known as one of the best bedding and border plants to need description here. Start the seed indoors. With a little effort you can raise many plants from a packet of seed.

Schizanthus, Butterfly Flower

1711 Harbinger One of the finest Salvias. Will bloom early and continue till frost. About one foot tall, compact, with rich green foliage and vivid scarlet flowers, freely borne. Pkt. 20c; 1/8 oz.

1707 Bonfire Clara Bedman. Plant of globular form, 1½ to 2 feet tall, upright spikes of dazzling flowers. Uniform growth, profuse bloomer. Pkt. 10c; ½ oz. 45c.

1706 Splendens Scarlet Most popular bedding variety. A scorching

scarlet. Pkt. 10c; ½ oz. 30c.

These are tender perennials but are best treated as annuals. Start the seed early indoors or in hotbed.

1713 Farincea Blue This beautiful variety is fine Tall graceful spikes. Pkt. 10c; 1/8 oz. 15c.

1715 Blue Bedder Strain of Farincea Blue but more dwarf and compact, free bloomer and deeper in shade. Pkt. 20c.

Creeping Zinnia See Page 30

1720 ROSE AND WHITE. A pretty plant growing 2 feet high and covered with small pink and white flowers, somewhat like large Baby's Breath. Very pretty in the garden and desirable as cut flowers. Pkt. 10c; ¼ oz. 20c.

Scabiosa, Mourning Bride

These lovely flowers are sometimes called 'Sweet Scabious' and "Pin Cushion Flowers." Their delicate coloring and their dainty form with their long graceful stems make them especially adapted for cut-flowers on the dining table. They also look attractive in mixed bouquets.

The flowers are 1½ to 2 inches across and the plants 2 to 3 feet tall. Owing to the delicious sweetness of Scabiosas, they attract the most beautiful types of butterflies to your garden

LARGE FLOWERING TALL DOUBLE

King. 1723 Mixed Colors.

Prices on above varieties and mixed. Pkt. $10c; \frac{1}{4}$ oz. 25c.

1737 Collection. 1 Pkt. cach of 7 varietics, 70c value for only 50c.

NEW TALL DOUBLE

1733 Blue Cockade

See natural color on page 2. Received an Award of Merit from the Royal Horticultural Society. This outstanding novelty is the purest deep azure blue that can be found in any annual. It is absolutely devoid of even a suggestion of rose. The formation of the flower is far ahead of existing varieties, it has great depth, almost conical. An excellent cut-flower. Half-hardy. Height 3 feet. Pkt. 15c; 18 oz. 30c.

1731 Loveliness Varying tones of delicate salmon - rose. Delightfully fragrant. Pkt. 10c; 1/4 oz. 25c.

The color is a rich rosy lilac of

1732 Cattleya The color is a rich rosy lilac of the beautiful orchid tone, a new shade in Scabiosas. Pkt. 10c; 1/8 oz. 25c.

1722 New Giant Hybrids The flowers in this new strain are much larger than the standard Scabiosas, often measuring 2 to 2½ inches across, completely rounded and double. An unusual range of lovely colors. Pkt. 15c; 1/8 oz. 30c.

Dwarf Scabiosas

Only S to 9 inches tall-Fine for Rock Gardens

1734 Coral Rose Neat and compact in growth. Color is rose, with

salmon over-tone Pkt. 10c; 1/8 oz. 20c.

1735 Tom Thumb Mixed Lovely colors. 1/4

Salvia Splendens Scarlet

Schizanthus Butterfly Flower

A charming and dainty annual. Plants are compact and branching, 1½ to 2 feet high, with delicate, fern-like foliage. The flowers are bright, in a bewildering range of colors, all blotched and marked with contrasting shades. Sown in the spring for garden decoration and in pots in the fall for the house. Seed germinates quickly.

1738 CHOICE MIXED. A fine strain of this excellent annual flowers containing many heautiful contrast-

1738 CHOICE MIXED. A fine strain of this excellent annual flowers containing many beautiful contrasting colors. Pkt. 10c; ¼ oz. 25c.

1742 EXCELSIOR COMPACTUS FINEST MIXED. Best for pot plants. 6 inches tall, pyramidal in form, free flowering. Colors, pink, rose, cream, white and all pastel shades, as well as darker colors. Pkt. 15c.

1739 GIANT FLOWERING HYBRIDS. An excellent strain for greenhouse growing but also fine for garden use. Wonderful color assortment. Pkt. 15c; & oz. 60c. garden use. $\frac{1}{16}$ oz. 60c.

Garden Sunflowers

1801 Red Like immense Gaillardias. Height 5 to 6 feet, flowers 4 to 7 inches across, in shades of brown, red, yellow. Pkt. 5c; ¼ oz. 20c.

1802 Double Chrysanthemum While many come single, a proportion of them will come fully double like big Chrysanthemums. Pkt. 10c; 1/4 oz. 25c.

1803 Stella The best of the miniature type. A wealth of golden yellow, single flowers all summer. Fine for cut-flowers. See above picture. Pkt. 5c; ¼ oz. 20c.

Double Stocks

Salvia Farinacea Blue

Stocks, Gilliflower

These popular old hardy annuals have been greatly improved during the past few years. The varieties we list below will give you a fine selection for bedding and potting.

They come in a great variety of soft colors and are very attractive for cut-flowers both by the florist and the home gardener. They bloom in late summer, fall and

1765 Ten Weeks Mixed Colors. The favorites for outdoor bedding because of their dwarf, compact growth and large double flowers. Our strain shows only a few singles. Pkt. 10c; ½ oz. 30c.

1767 Giant Imperial Improved Bisnarck of Giant Imperial Improved Bisnarck of Giant Improved Bisnarch o

1791 Giant Excelsior or Column

In contrast to the branching types, these Excelsior Stocks produce one large flowering spike 3 feet long on each plant. Double. Mixed Colors. Pkt. 20c.

1353 Virginian Stocks Malcomia Chelr-Forget-me-nots. Dwarf plants 8 to 12 inches tall, bearing petaled rose or white flowers, somewhat resem-bling ordinary stocks. Useful for rock gardens, edgings, massing or naturalizing. Pkt. 10c; ¼ oz. 20c.

Ursinia

2036 Anethoides A native of Africa, a novelty in American gardens. Plants form tufts of leaves, flowers borne above on long wiry stems. Daisy-like flowers 1½ inches across, of rich yellow, with purple center. (See cut above left.) Flowers remain open all day. Plants 1 foot high. Pkt. 10c; 16 oz. 25c.

See Natural Color, Page 16.

¹⁷⁶¹ Stevia Serrata

Form nice bushy plants about 2 ft. tall and bearing numerous fragrant pure white flowers. Grow outdoors in summer and indoors in winter, and have the flowers for cutting and mixing with bouquets of other blooms. Pkt. 10c; 1/8 oz. 30c.

Giant Zinnias Old Garden Favorites and yet New Kinds Every Year

Zinnias, the historical flowers of Old Mexico, have been favorites in every garden for as long as there have been home gardens.

In our grandmother's day, Zinnias were gay and colorful but only the common type, small flowers and a few primary colors were to be had. Today, we have Zinnias of huge size, of medium size and the tiny little baby types. Through years of scientific work and intense study, our growers have developed Zinnias that are almost beyond belief in size and beauty of color. We have classified on these two pages, the many types of Zinnias so that you may order the height and color particularly suited to the spot you wish to plant with these colorful flowers.

Zinnias Bloom from July Until Frost

Mammoth Giant or California Giant Zinnias

A newly developed type which carries the same robust habit as the Dahlia Flowered Type. When the flowers are half grown they make a very fine cut flower and when in full bloom they reach enormous size with a flatness that gives them a most graceful appearance.

2242 MISS WILMOTT. A pleasing shade of pink.

2243 ORANGE KING. Cadmium or burnt orange.

2244 SCARLET GEM. A rich glowing scarlet.

2245 CERISE QUEEN. Cerise rose.

2248 VIOLET QUEEN. Rich violet purple.

2249 GRENADIER. Bright dark red.

2250 DAFFODIL. Canary yellow.

2251 BRIGHTNESS. Bright deep rose pink.

2252 PURITY WHITE. Best white zinnia.

2253 SALMON QUEEN. Salmon rose.

Price any above. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

2211 MIXED COLORS. A fine color assortment

2241 MIXED COLORS. A fine color assortment containing all the above varieties and other shades. Pkt. 5c; 1/8 oz. 25c; 1/4 oz. 40c.

Giant Dahlia Zinnias

Giant Dahlia Zinnias

See Flowers in Color on Page 34.

The Dahlia Flowered Zinnias are immense in size, often 4 to 5 inches and more in diameter. They are borne on tall strong plants with long stems, the flowers resembling Decorative Dahlias.

The separate colors of this type are not quite 100% true, there being a little variation in shade. We believe our strains are the finest on the market.

2212 Luminosa. Shades of bright deep pink with a light suffusion of salmon.

2213 Golden State. Very rich orange yellow. Yellow in the young flowers turning to orange.

2202 Canary Bird. A delicate shade of primrose.

2203 Crimson Monarch. The best rich red.

2204 Exquisite. The favorite Rose Pink.

2205 Oriole. Rich Orange and Gold Shades.

2206 Polar Bear. The best White flowered.

2207 Lavender Dream. Lavender, turning to purple.

2208 Old Rose. A real old rose shade.

2210 Purple Prince. A deep rich intense purple.

2211 Golden Dawn. A beautiful shade of yellow.

2214 Scarlet Flame. Bright scarlet-orange.

2216 Illumination. Deep, rich rose.

Price any above Pkt. 10c; ½ oz. 35c; ¼ oz. 50c.

2219 Color Plate Collection. Page 34.

Six 10c Pkts. for 50c.

2201 Gold Medal Dahlia Flowered Zinnias Mixed

A very fine color assortment of the above varieties in well balanced color proportion, a mixture that will give you a beautiful array of these beautiful bright colored flowers. Pkt. 10c; ½ oz. 30c; ¼ oz. 50c.

²²⁸⁷ Pumila Picotee Delight

result of crossing Pumila Salmon Rose with Giant Picotee, presenting a very distinct and desirable type. Delight is a vigorous and floriferous Pumila type. The petals of the flowers are ruffled and curled, many have fringed petals, edged with gold tips. The color ranges through the most pleasing shades of salmon, cream, buff, yellow and lavender. Mixed colors. Pkt. 10c; 1/8 oz. 30c. 2290 Pumila 2290 Pumila Picotee Salmon Rose Most popular of the Delight class. Rich salmon Rose. Pkt. 10c; 1/8 oz. 30c.

A Plant of California Giant Zinnias

Various Large Flowered ²²⁹¹ Scabiosa Flowered Zinnia

A new and very distinct type of Zinnia growing about 30 inches tall and producing an abundance of flowers in many colors. The outer petals are long and flat while all the inner petals are short tubular florets forming a crest or crown somewhat resembling the Scabiosa. Pkt. 15c; 1/8 oz. 35c.

2282 Victory Quilled This type has petals quilled like the Cactus Dahlia. The flowers are large on tall plants. Mixed Pkt. 10c; 1/8 oz. 30c.

2283 Picotee The petals are tipped with a contrasting color giving the flower a very pretty and unusual effect. Mixed. Pkt. 10c; 1/8 oz. 30c.

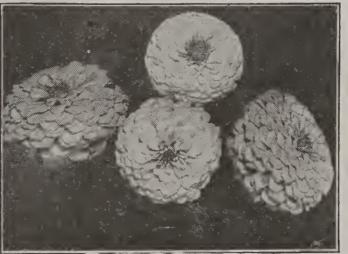

2292 Crown O'Gold Mixture

A new development in the Giant Dahlia Flowered Zinnias in which each petal of the flower is overlaid with a deep golden yellow at the base while carrying out the individual flower color at the tip. The colors include old rose, cream, yellow, carmine red, pink, etc.

Mixed Colors: Pkt. 10c; 1/8 oz. 35c.

²²²¹ Giant Double Zinnias Mixed

This type though not quite as large flowering as the Dahlia Zinnias still are "Giants" borne on plants 2½ to 3 ft. tall. The flower is deeper than the Dahlia Flowered with petals more formally placed. They are great favorites for cutting or garden display. Mixed Colors. Pkt. 5c; ¼ oz. 20c; Oz. 50c.

Giant Double Zinnias Mixed

Fantasy Mixed Zinnias-Color Page 16

Some Real Beauties

2294 Fantasy Mixed

See Color page 16. The most fascinating new type of Zinnias introduced to the flower world in many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal Zinnias to which we are accustomed. The cuts show the type of flower. The ranges includes the brightest shades of red, yellow and orange as well as the popular pastel pinks and cream. This should be the sensation of the year. Mixed colors. Pkt. 15c; ½ oz. 35c.

2293 Desert Gold For the lover of gold colored flowers, here is a real addition to your gold garden. This Desert Gold contains all the rich yellow and golden shades of the Crown O'Gold Mixture that we have been listing in the past. Our grower has segregated all the golden flowers and we are able to give you Zinnias that will thrill you with their beauty by daylight and under artificial lighting. For flower description, see Novelty page 10. Pkt. 10c; 1/8 oz. 40c.

2288 Templin-Bradley's "Little Jewels"

These Little Jewel Zinnlas are reproduced in natural color on the inside front cover. Did you ever see such a gay and gorgeous display of color? Truly the real flower is just as much brighter as nature is brighter than printer's ink. See Color Page 16.

These small flowered Zinnias have a charm all their own. They lend themselves to bedding where a brilliant array of colors is needed. The stems are long enough to make the most wonderful bouquets, whether you wish just a tiny vase of flowers or a huge bowl of them. The mixture contains many combinations of colors in red, mahogany, rose, yellow, salmon and gold. Height 18 Inches. Mixed colors. Pkt. 10c.; 1/8 oz. 30c.

More Zinnias

ZINNIAS—Easy To Grow
CULTURE—Zinnias can be planted in the garden where they are to grow but for early bloom they should be started inside in boxes earlier than they could be put outdoors. One or two transplantings is beneficial to them for it induces more plantings is beneficial to them for it induces more growth, and produces a stronger plant. The root growth and produces a stronger plant. Zinnias will do well in nearly any soil but too rich a soilwill cause more plant growth and fewer blooms.

Dwarf Pumila Double

Lilliput or Pompon

This type has been so improved lately that gardeners everywhere are becoming more fond of it each year. The plants are quite dwarf and compact, but they bear very profusely. The flowers are small, about the diameter of a quarter, fully double and borne on good stems.

2272 Canary Gem
2273 Golden Gem
2274 Salmon Gem
2275 Scarlet Gem
2276 White Gem
2277 Crimson Gem
2278 Flesh Plnk
2279 Rose Bud
Price, any of above colors. Pkt. Sc; ¼ oz. 30c.
2280 COLLECTION. One packet each of above

S colors for 50c. 2271 MIXED COLORS. Pkt. 5c; ¼ oz. 30c.

Liliput and Baby Zinnias

2286 Red Riding Hood the entire season with little button-like double scarlet flowers, not over 1 inch across. Highly effective as a border plant. Brilliantly beautiful. Pkt. 10c; 1/8 oz. 30c.

2289 Early Wonder Mixed 12 to 15 inches tall. A new race of dwarf early flowering Zinnias, bearing many flowers on long stems. The stems start from the ground, have no laterals and very few leaves, making them fine for cut-flowers. The colors are shades of salmon, pink, cerise, orange, red and lavender. Plant these for your early Zinnias. Pkt. 10c; 1/16 oz. 35c.

2295 Tom Thumb or Baby Zinnias Only 4 to 6 inches tall. Cute little Zinnias that are suitable for Rock Garden, edging or for pot plant use. The plants are covered with perfect little double flowers of red, orange, yellow, pink, rose and other pastel shades. See cut at right. Pkt. 10c; 1/8 oz. 30c.

1717 Dwarf Creeping Zinnias Sanvitalla Procumbens. A low growing, trailing plant about 6 inches tall and producing a wealth of small double yellow flowers all summer. Very compact. Perfect for Rock Gardens, edgings and stone wall crevices. Pkt. 10c; 1/8 oz. 30c.

Tom Thumb or Baby Zinnlas

Pumila Double Zinnias

This is the best type for bedding, growing compact plants $1\frac{1}{2}$ ft. tall with a multitude of good sized perfectly double flowers.

2262 Fireball, Bright red.

2263 Golden Ball, Golden Yellow.

2264 Snowball, White.

2265 Salmon Rose. A beautiful shade.

2266 Canary Yellow, Light yellow.

2267 Pinkie. Light rose pink.

Price, any of above, Pkt. Sc; 1/4 oz. 30c; oz.

2270 Collection. 1 Pkt. each, 6 Colors, 35c.

2261 Mixed Colors. Pkt. 5c; ¼ oz. 25c. Oz. 75c; See Color Plate on Page 33.

1995 Torenia Fourneri

Grandiflora. Bushy plants about 12 inches high, bearing curious but very pretty flowers during late Summer and Fall. Fine for beds or for potting and porch boxes. This variety has blue flowers with bright yellow in the throat. Pkt. 10c; 16 oz. 25c.

1984 Tithonia Speciosa
Golden Flower of the Incas or Mexican Sunflower.
A tall shrubby plant, useful in the border or among shrubs, bearing large bright single Zinnia like flowers of dazzling orange scarlet. Blooms over a long period.
Pkt. 10c; ½ oz. 30c.

2130 Xeranthemum Everlastings See Page 20

Verbena Beauty of Oxford

²⁰⁷¹ Verbena Hybrida Grandiflora

This Hybrida Grandiflora Mixture contains a riot of gay and lovely colors. It will make a brilliant bed and will provide cut-flowers for your house from July until frost. They are not quite as large as the Mammoth flowered but of good size and larger than the common Hybrids. Mixed Colors. Pkt. 5c; 1/8 oz. 30c.

Verbena Large White

Verbena Fireball

Verbenas Wonderful Bouquets

Very free flowering annuals of low spreading growth, forming a carpet of bright colors when in bloom, from July to frost. For best results, seed should be started early inside and transplanted to the garden in early May.

2059 Beauty of Oxford Hybrids A beautiful new hybrid, a cross between Verbena Luminosa and Beauty of Oxford. The individual florets are large and arranged in mammoth heads. The color shades from clear rose-pink to rose-red, with a touch of salmon-pink. Pkt. 10c; 16 oz. 35c.

Mammoth Flowering Giants
This is the largest flowering class of Verbenas. 2052 Luminosa Shades of flame, salmon and coral pink.

2053 Lucifer Intense deep cardinal-scarlet.

2054 Mammoth Blue Light to deep blue with white eye.
2055 Rosea Stellata Vivid rose-pink with white eye.
2056 Mammoth White Pure white and fragrant.
2057 Salmon Pink Lovely shade of salmon pink.
2058 Etna Geranium red with creamy eye. One of the prettiest.
Price on above varieties. Pkt. 10c; ½ oz. 35c.

While not quite as large flowering as the others of the Mammoth group, it comes very true to color in bright deep pink. The growth is more compact, less spreading, so it is beautiful as a border. Pkt. 10c; 1/8 oz. 35c.

2051 Mammoth Giants Mixed An excellent mixture of Giant Verbenas, of all colors listed above and other distinctive colors. Pkt. Sc; 1/8 oz. 30c. See Color Page 33.

Various Verbenas

2065 Erecta, Royal Bouquet A new strain of Verbenas of robust compact habit and free bloominff. Plants rather upright, 15 to 18 inches tall. Flowers in mixed colors. Can be used for cutting as well as for bedding display. Pkt. 10c; 16 oz. 30c.

2061 Verbena Venosa A splendid bed-plants quite erect, one foot high. It is a luxuriant grower and the plants are well covered with bright flowers of purple and heliotrope. Very effective used with Alyssum as a ground cover and back-ground for the Verbenas. Pkt. Sc: 1/8 oz. 30c.

2062 CITRIODORA. ALYOSIA Lemon Verbena. A favorite in old fashioned gardens. Has fragrant lemon scented foliage. A tender plant which may be grown in the outdoor summer garden and then potted for indoor garden in the winter. Pkt. 10c; 16 oz. 50c.

One of the finest border plants imaginable. Grows 1½ feet tall, compact and bush y with dark shiny foliage, making an effective backgroundforflowers. White, pink and with crimson eye. Pkt. 5c; ¼ oz. 30c.

Dwarf Compact Verbenas Hybrida Campacta Erecta

This new class of Verbenas is entirely distinct from the older forms. The plants are bushy and compact as the illustration of Fireball shows. They are wonderful for borders or bedding. Height 6 to 8 inches.

2066 Cameo Pink Attractive flowers of clear flesh-pink.

2067 Crown Prince Deep garnet with white 2073 Dark Blue Rich deep blue. Lovely shade of blue.

2064 Fireball Scarlet, as bright as a ball of fire.

2072 Ruby Beautiful ruby-red. A valuable color for display and bouquets.

2068 Violet Bouquet Rich violet, tinged purple.

2069 Mixed Colors Made of the above choice of any above colors or mixed. Pkt. 10c; 1/16 oz. 30c.

²⁰⁷⁰ Verbena "Eyeful" On Color Page 16 and Novelty Page 9.

Venidiums

2046 Fastuosum

A gorgeous Daisy of brilliant orange from Africa.

Plants 3 feet high, flowers 3 to 4 inches across, 90 days from seed. These orange flowers with purple-black center make a striking display. Pkt. 15c. 16 oz. 30c.

2063 ERINOIDES LILAC. Moss Verbena. Spreading bushy plants with pretty finely cut foliage, bearing flowers of purplish-rose or deep lilac. Pkt. Sc; 1/8 oz. 25c.

2081 Vinca, Periwinkle

Canary Bird Flower

Beautiful Climbing Vines

Annual Varieties Nothing adds more to the attractiveness of the home grounds than a well chosen selection of Climbing Vines. They grow rapidly and are indispensable for covering arbors, old fences and for hiding unsightly buildings.

2367 Balsam Apple, Momordica Growing quickly to a height of about 10 ft., this vine bears ornamental fruits of golden yellow, resembling an apple. When the fruit is ripe it opens revealing a bright red interior. Pkt. 10c; ¼ oz. 20c.

2366 Balloon Vine, Love-in-a-Puff A rapid growing climbing vine, having pretty, light green foliage, with inconspicuous flowers. The seedpods are like miniature balloons. Vines grow 8 to 10 ft. high. Pkt. 5c; 1/4 oz. 15c.

2447 Black Eyed Susan Thunbergia. A delightful slender growing vine from Africa. Can be easily trailed to a trellis and is very attractive when grown in this way. Unusually good as a trailing vine for hanging baskets, vases, porch boxes, or rockeries. Large single flowers in white, yellow and orange with distinct black eye. Blooms from July to October. Pkt. 5c; ¼ oz. 25c.

2372 Canary Bird Vine A pretty and rapid growing climbary yellow flowers remind you of a canary bird with wings half extended. Very useful on trellises or as a screen to cover old fences or other unsightly objects. Flowers appear in sprays early and continuously during the season. Pkt. 5c; ½ oz. 15c.

2373 Cardinal Climber A very showy, distinct and valuable rapid climber with dark green, fern-like, deeply laciniated foliage and clusters of fiery cardinal-red flowers 1½ inches in diameter. The vines grow 10 to 20 feet and bloom all season long. Very ornamental. Pkt. 10c; ¼ oz. 25c.

2378 Cobea Scandens Cup and Saucer Vine. This rapid growing vine is very attractive and useful. Although not an annual it should be treated as such in the North. The vine grows to a height of 15 to 20 feet, flowers large and bell shaped, color ranging from pink to purple, blooms followed by plum-shaped fruits. Best started early indoors. Pkt. 10c; ¼ oz. 25c.

2380 Cypress Vine One of the daintiest of vines having flowers, scarlet and white mixed. Very desirable for covering small ornamental trellises. Also a good climber to grow in pots during winter. Grows 15 to 20 feet. Pkt. 5c; 1/4 oz. 20c.

2442 Smilax One of the prettiest of all vines for baskets, porch boxes, or conservatory where its graceful twining glossy green foliage is unsurpassed. Also much used for cutting as it lasts several days when used for bouquet trimming. Vine grows about 6 ft. Pkt. 10c; ½ oz. 25c.

2399 Hyacinth Bean, Dolichos Of extra rapid growth, making a dense and attrac-tive screen, flowering freely in racemes or upright spikes not unlike Hyacinths. Pkt. 5c; oz. 25c.

2395 Ipomea Heavenly Blue

A trellis, arbor, or doorway covered with this vine is one of the most beautiful sights imaginable. Bright sky blue flowers, almost as big as saucers, are freely borne on the rapidly climbing vines. The vine is late flowering and the seed should be started in pots indoors. Pkt. 10c; 1/4 oz. 35c.

²⁴⁰⁵ Ipomea Double Rose Marie

A beautiful new addition to the annual climbing vines. This new Ipomea is vigorous and rapid growing, producing beautiful double flowers of a delightful shade of deep rose. Rose Marie is early and free flowering and promises to become extremely popular. Pkt. 10c; ½ oz. 30c.

2397 Japanese Hop Vine Humulus. A beautiful rapid arbors, or screens. Foliage mottled green and yellow. Once planted the seed will come up each spring. Pkt. 10c; ¼ oz. 25c.

2416 Maurandia Vine A beautiful slender growing Climber, which blooms first season from seed started early. In the South it is hardy but in the North, use as an annual or take up and transfer to the house, where it will be very pretty. A fine variety for window boxes or hanging baskets. The foliage is pretty and the flowers tube shaped in mixed colors, purple, blue, white, rose. Pkt. 10c. 2418 Mina Lobata A very pretty climber or luxuriant feart shaped, large and deeply lobed. Flowers are borne in sprays and are rich scarlet when in bud turning to an orange color as they mature. A rapid grower quickly covering a trellis Pkt. 10c; 16 oz. 35c.

2419 Moonflower Large dense foliage and rapid grower, climbing 20 to 30 feet. Immense pure white flowers often 5 to 6 inches in diameter. open in the evening and on cloudy days. A very rapid covering can be obtained with the Moonflower. Pkt. 10c; ¼ oz. 20c.

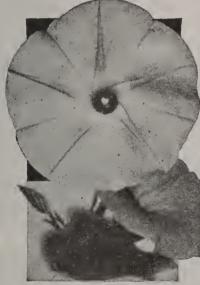

2392 Ornamental Gourds Very novel and interesting annual climber with ornamental foliage, and singular fruits of many shapes and colors that are attractive for decorations. When ripe, shells can be hollowed out and dried, and are useful. Many varieties mixed. Pkt. 10c; oz. 20c.

Cardinal Climber

money's worth in this package as it contains a general mixture of most of the varieties of Annual Vines that we list. Pkt. 10c; 1/4 oz. 25c.

2368 Scarlet Runner Bean

This ornamental grows 8 to 10 ft. high, and bears sprays of bright red pea-like flowers, which are followed by pods of edible beans. Beans when ripe are dark red blotched with purple. Pkt. 5c; oz. 15c.

Ipomea, Heavenly Blue

Four Excellent Morning Glories 2421 Common Tall Very easily be included in every garden. They climb rapidly, bloom freely all summer and will thrive in nearly any location. Make an excellent screen on a trellis or fence. A mixture of many colors. Pkt. 5c; oz. 20c.

2422 Imperial Japanese Without doubt the handsomest of all Morning Glories. They quickly cover a large area, and bloom profusely. Foliage very desirable and interesting on account of its varied forms and good color. Blooms immense and in many colors from white to dark purple, solid colors, striped, flaked and spotted. Pkt. 5c; oz. 25c.

Japan, with immense flowers in a splendid variety of bright colors. Flowers are twice the size of the common morning glories. Pkt. 10c; 14 oz. 20; oz. 50c.

2424 Rochester Blue A very pretty ing variety with beautiful flowers 4 to 5 inches across, deep violet blue in the throat blending to an azure blue and margined with a broad white band at the edges. One of the prettiest varieties. Pkt. 10c; ¼ oz. 20c.

2426 Morning Glory Collection 1 pkt. each of the above 4 varieties for 25c.

These Hardy Vines

Can Be Grown From Seed

Ampelopsis Veitchli Boston Ivy

See Ipomea Heavenly Blue in Color, Page 15.

2362 Allegheny Vine

Mountain Fringe Adlumia. A very graceful climber with fine feathery foliage like Maiden Hair Fern. The plant is really a biennial but reseeds itself. It likes a shaded sheltered situation, and moist soil. The flowers are numerous, in form like the Bleeding Heart and in colors—white and purple. About 15 ft. high. Pkt. 10c; 1/8 oz. 30c.

2364 Ampelopsis Veitchii

Boston Ivy. The best vine to grow on stone or brick walls, because it adheres to the surface so closely. During the summer the leaves are rich green and form a dense mat overlapping themselves. After fall frosts the leaves change to bright tints of scarlets, orange and yellow. Pkt. 10c; 1/4 oz. 20c.

2413 Kenilworth lvy Linarla Cyming vine, free flowering and very nice for baskets, window boxes or rockeries. The flowers are borne throughout the summer and are of dainty lavender and purple. Vines 3 to 6 ft. Pkt. 5c; 1/8 oz. 30c.

2410 Japanese Kudzu Vine

Pueraria, "Jack-and-the-Bean-Stalk." The Pueraria, "Jack-and-the-Bean-Stalk." The fastest growing hardy climbing vine in existence. Often growing 8 to 10 ft. the first year from seed and later sometimes as much as 50 ft. in a single season. Perfectly hardy everywhere. The foliage is dense, making good shade. The flowers are in small racemes of rosy purple, borne in August. Pkt. 10c, ¼ oz. 20c.

2498 Collection Hardy Vines 1 pkt. each 4 varieties 25c.

Choice Varieties of Hardy Vine Roots Are Listed on Page 68

Ornamental Gourds Make Gay Decorations
They are very popular right now.

Annual Flower Chart

The greatest degree of success with flowers is acquired by knowing the likes and dislikes, the natural habits and the best treatment of each individual variety. We hope this chart will help you to this knowledge.

Templin-Bradley's Popular Annual Flower Seeds

1426 Dwarf Mixed Nasturtiums. Pkt. 5c; Oz. 20c. Plant plenty for cut flowers. See page 24.

Several Separate Colors. See Page 13 221 Mixed Colors. Pkt. 15c; ½ oz. 30c.

The finest double fringed petunia.
1579 Super-Double Fringed. Pkt. 60c. See page 26.

(A) 1603 White. (B) 1602 Rose. (C) 1604 Blue. (D) 1605 Crimson. Any Pkt. 10c. See page 26.

129 Arctotis, Grandis. Lavender Daisy. Pkt. 5c; ¼ oz. 20c. See page 11.

2051 Verbenas, Mammoth Giants. Mixed Colors. Pkt. 8c; ½ oz. 30c. See page 30.

Bachelors Button. Centaurea Cyanus. 516 Double Mixed. Pkt. 10c; ½ oz. 25c; Oz. 75c. See page 18.

Templin-Bradley's Annual Flower Seed

For 60 years we have been working with flower seed and believe we know and love them as do few people in America.

Our ideal is to have the best seed in the world, ready for you when you need it.

1617 Petunia Rosy Morn. Excellent Bedding Variety. Pkt. 10c; 1/8 oz. 50c. See page 26.

Dwarf Double Pumila Zinnias. 2261 Mixed Colors. Pkt. 5c; ¼ oz. 25c. See page 30.

1583 Giants of California Mixed. Pkt. 15c. The largest Petunias in existence. See page 26.

(A) Rose of Heaven. (B) Howards Star. (C) Silvery Blue. (D) Gen. Dodds. (E) Blue Bird. Any Pkt. 10c. Page 26.

1582 Theodosia Rose, Pkt. 20c. See page 26. A splendid variety for bedding or porch boxes.

Watch-Em-Grow Plant Food Grows Healthy Plants

Watch-em-Grow is Easy to Use. Watch-em-Grow is a clean, odorless powder that readily dissolves in water. It can be easily applied to plants just as you would water them. Complete instructions are printed on each can, both for house plants and for all other uses.

4300 Big 8-Ounce Can for only 50c.

Templin-Bradley's Best New Sweet Peas

No garden is complete without some of these beautiful Sweet Peas that are so fine as cut flowers, especially these seven marvelous colors, most of them new varieties. Not only will they add much color and interest to your garden but they will also supply cut flowers for a surprising number of beautiful bouquet arrangements throughout the summer.

The seven varieties in color are:

- Red Boy. Glowing Crimson.

- Powerscourt. Lavender.
 Model. Pure White.
 Rosabelle. Rose Pink.
 Smiles. Glistening Salmon.
 Magnet. Delicate cream pink.
 Campfire. Vivid Scarlet.

Any one of above 10c per packet. Collection No. 1856. One packet each of all seven for only 50c. Other Sweet Peas In separate colors and fine mixtures are offered on Page 27.

The First Step to a Successful Garden is the Selection of Good Seed

Dahlia Flowered Zinnias

The largest and most gorgeous of all Zinnias are included in the Dahlia Flowered Type. Six of the most popular and distinct colors we picture in color here.

here.

1. Canary Bird, Bright yellow.

2. Lavender Dream, Lavender and purple.

3. Polar Bear, best white variety.

4. Oriole, rich orange and gold.

5. Exquisite, most popular rose pink.

6. Crimson Monarch, best deep red. Prices: Any of the above varieties Pkt. 10c; ½8 oz. 35c.

Collection No. 2219. One pkt. each of the above 6 color plate Dahlia Zinnias, regular value 60c; for 50c; postpaid.

2201 Gold Medal Dahlia Zinnias Mixed. An extra fine mixture of the above and many other shades. Pkt. 10c; ½8 oz. 30c.

Quality Zinnia Seed

We are offering you the finest Zinnia seed obtainable. Seed carefully grown so that it will produce beautiful, true to type blooms. See page 29.

This Catalog Contains Hundreds of Good Varieties of Seeds, plenty at 5c per pkt.

Perennial Flower Chart

Because of the increased interest in perennial plantings we have compiled this chart in the hope that it will be of help to you in making better plantings of this valuable class of flowers.

Hardy Perennial

Seeds

Hesperis

Hardy Pinks

Coreopsis (above) Campanula

The term Hardy Perennial is used to distinguish that class of plants whose life cycle is not completed within one or two years, but grow year after year, increasing in beauty and size and are hardy enough to withstand the severe weather of the winters.

Great Horticulturists and Plant Breeders in many parts of the world have spent their lives developing and improving many varieties of these lovely flowers. Not until our trial grounds have proven that we are giving you something that will benefit your garden, do we offer you a new variety or strain. The Perennial Seeds we offer to you on the following pages will please you and will make your garden a thing of beauty for many years.

Perennials from Seeds (See Roots on pages 71-75)

around it, thus insuring drainage.

Work the soil fine, sow the seed in rows 2 inches apart, cover lightly. Shade the soil by covering the bed with paper or burlap, remove it when plants appear. Never let the bed become dry.

The simplest and most commonly used method of growing Perennial plants is by making a small seed bed right in the corner of your garden.

Early in May, select a rich light soil, raise the bed above the surrounding ground by slightly trenching The letters R. G. after the name means the variety is especially fine for Rock Gardens.

fine for Rock Gardens.

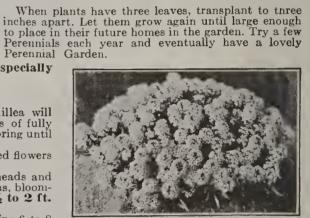

Achillea, Milfoil

2505 THE PEARL. Ptarmica Double. If sown early Achillea will bloom the first season. When established it gives you quantities of fully double pure white flowers like little snowballs, all season from spring until fall. Fine for cutting. 2 ft. Pkt. 10c; ½ oz. 30c.

2506 AGERATUM YELLOW. R. G. Yellow, sweet scented flowers and Ageratum-like leaves. 1½ to 2 ft. Pkt. 10c; ½ oz. 30c.

2507 MILLEFOLIUM ROSEA. Rosy red flowers in dense heads and finely cut, deep green foliage. Does well even in adverse conditions, blooming fully in June and to some extent for balance of Summer. 1½ to 2 ft. Pkt. 10c; ½ oz. 35c.

2508 TOMENTOSA YELLOW. R. G. A dwarf variety growing 6 to 8 inches tall, with mats of fern-like foliage and umbels of golden yellow. Bloom July to September. Pkt. 15c; ½ oz. 50c.

Beautiful

Flowers

Year

After

Year

Alyssum Saxatile

Achillea

Aconitum, Monkshood
Carry tall spikes of hooded flowers, valuable for cutting and garden display. Thrive best in rich moist soil in partial shade. The seed is slow to germinate.

slow to germinate.
2510 NAPELLUS DARK BLUE. Flowers of rich deep blue produced July and August. 4 to 5 ft. Pkt. 10c; ½ oz. 30c.
2512 WILSONI. Producing its violet-blue flower in September. Strong grower and very hardy. 5 to 6 ft. Pkt. 15c; ½ oz. 45c.

2516 Adonis Vernalis

These bright yellow flowers like large Buttercups are out in April and May. The plants grow 15 to 18 inches tall, and carry attractive fernlike foliage. After blooming the plants die down to the ground. Best to sow seed in summer or early fall. Pkt. 10c; $\frac{1}{16}$ oz. 30c.

Agrostemma, Mullein Pink

2521 CORONARIA, ROSE OF HEAVEN, Atrosanguinea. R. G. Has brilliant blood red flowers like small single pinks, open from June to August. Early sown seed will bloom the first year. A fine cutting flower, and a clump in the border is very showy. 2 ft. Pkt. 5c; ¼ oz. 20c.

Anchusa, Bugloss

2533 ITALICA GRANDIFLORA. Dropmore. Lovely deep blue flowers which are trumpet shaped and borne freely from May until mid July. You can plant in partial shade. 3 to 4 ft. Pkt. 5c; 1/4

Anemone, Windflower

2541 CORONARIA, ST. BRIGID. R. G. The Anemones are among the prettiest of perennials and the St. Brigid strain with large, double and semi-double flowers, with their wide color range are called the best of all. The flowers are 1 to 1½ inches across. Flowering in May and June. 1 ft. Pkt. 10c; \(\frac{1}{16} \) oz. 30c.

Aubretia Deltoides

The Aubretias are beautiful low growing spring flowering plants, very valuable in rock gardens or as edgings and borders. Transplant in fall where they are to bloom the following spring

2607 LILAC BLUE. R. G. Charming lilac-blue or lavender blooms on dwarf compact plants. Blooms freely during April and May. 6 inches. Pkt. 15c.

2606 LARGE FLOWERED HYBRIDS. R. G. Plants 6 inches tall producing a wide range of colors. Pkt. 10c; 16 oz. 10c.

Agrostemma

Aconitum Napellus

Hardy Alyssum Plant and flowers quite similar to annual Alyssum. A fine border plant. 9 to 12 in. tall. Pkt. 5c; ¼ oz. 30c. 2529 ARGENTEUM. R. G. Pretty yellow flowers and silvery foliage. An excellent rock garden variety of dense growth and blooming all summer. June to August. 12 to 15 in. tall. Pkt. 10c; ⅓ oz. 50c. 2530 SERPYLLIFOLIUM. R. G. A most desirable variety for the rock garden. Producing tiny plants only a few inches high with silver gray foliage and bright yellow flowers. One of the earliest blooming. Pkt. 15c; ⅓ oz. 50c. 2531 ROCK GARDEN SPECIES MIXED. R. G. A mixture of the rarer dwarf varieties such as Montanum, Rostratum, Corymbosum, etc. Bloom from April to August. Pkt. 10c.

Anthemis, Golden Marguerite

2548 KELWAYI. Bright golden yellow, daisy-like flowers on long stems with finely cut foliage. Blooms June to September. 2 ft. Pkt. 10c; ¼ oz. 25c.
2549 MONTANA. White flowers, very fine blooming, nice for massing in the border. Blooms all summer, one foot high. Pkt. 10c.

Arabis, Rock Cress

2581 ALPINA. R. G. These flowers will greet you in April and May, a sheet of pure white fragrant flowers over low carpet-like plants. A fine flower for edging or for covering bare spaces as it will grow in any sunny place. 6 in. tall. Pkt. 10c; ¼ oz. 25c. 2582 ROSEA. R. G. A lovely variety of Arabis only an inch or two taller than Alpina with flowers of vivid rose. Pkt. 20c.

2586 Arenaria, Sandwort

Montana. A very desirable trailing sort of nearly evergreen foliage forming a dense carpet of green foliage covered with large white flowers in Spring. A fine subject for the rock garden. Pkt. 10c.

Armeria, Sea Thrift

2591 FORMOSA. Attractive dwarf plants that will succeed in most any soil, forming evergreen tufts of bright green foliage. Many rose-pink flowers appear in June and July. 24 in. tall. Pkt. 10c; ¼ oz. 30c.

2592 MARITIMA SPLENDENS. R. G. A dwarfer variety growing 6 inches high and producing beautiful bright rose flowers in May and June. Pkt. 15c.

2593 LAUCHEANA, DWARF THRIFT. R. G. Best of the Armerias for Rock Gardens Grows only 6 inches high with heads of Rosy crimson flowers in July and August. Pkt. 15c.

2594 MAURITANICA. A new strain of Armeria in clear pink. Flowers measure 2 to 3 inches across on stems 18 to 24 inches tall. Heaviest bloom in June and July, later blooms also. Pkt. 15c.

2601 Asperula, Sweet Woodruff Odorata. An herb, the leaves used for making beverages, or when dried to lay among linens. Nice for carpeting shady places, growing 6 to 8 inches high. From May to July the plants bear heads of sweet scented snowy-white flowers. Pkt. 10c; ¼ oz. 30c.

Aquilegias or Columbines

You are all familiar with these graceful beauties which bloom in spring and early summer. They are excellent for cutting or massing in clumps in the border. Will succeed in partial shade. 2½ to 3 ft.

2556 Templin-Bradley's Long Spurred Hybrids
See Cut at Right. A selection of the finest long spurred Columbines including the famous strain known as Mrs. Scott Elliotts, which has received many awards wherever exhibited. Many rare and pleasing color shades and combinations. Pkt. 15c; ½ oz. 25c; ½ oz. 45c.
2565 DOBBIE'S IMPERIAL HYBRIDS. A very fine strain of English origin, sure to charm you with the excellence of the color assortment, of the long spurred heauties. Pkt. 15c; ½ oz. 45c.

2564 Crimson Star A new long-spurred variety having deep blood-crimson sepals and spurs and white petals, a very delightful and attractive color effect. Plants are erect and vigorous, 2½ feet tall and very free flowering. Pkt. 20c.

Long Spurred Hybrids

Dobbie's Imperial Hybrids

2557 BLUE SHADES. Very beautiful.
2558 ORANGE and SCARLET. Brilliant.
2559 PINK SHADES. Very delicate.
2560 ROSE QUEEN. Rich darker pink.
2561 SNOW QUEEN. Very fine pure white.
2561 SNOW QUEEN. Very fine pure white.
2566 ROSE QUEEN. Rich darker pink.
2566 ROSE QUEEN. Rich darker pink.
2566 SNOW QUEEN. Very fine pure white.
2566 Clumbine native of our Westeru States. Pkt. 5c; ½ oz. 25c.
2566 CHRYSANTHA YELLOW. Large canary yellow flowers with long spurs. Blooms from May to August. 3 to 4 ft. Pkt. 15c;
31 oz. 25c.
2567 RED SPURRED (Lastechyl)

with long spurs. Blooms to 1270. 25c. 25c. 2567 RED SPURRED (Jaetschul). A lovely large flowered yellow with most attractive Peach Red long spurs, an extra good new variety. Pkt. 10c; ½ oz. 40c. 2571 FINE MIXED. A lovely mixture of all colors single and double short spurred varieties. Pkt. 5c; ½ oz. 25c.

Asclepias

2596 Butterfly Weed ing during July and August very showy umbels of bright orange flowers. Flowers are followed by long curious pods containing white feathery seeds. The opened seed pods may be dried for winter decorations. Easy to grow, but start where plants are to stand as plants have long tap roots and dislike moving. 2 to 2½ ft. Pkt. 15c; ½ oz. 40c.

Asphodeline, Jacob's Rod
2600 LUTEA. Stately plants 3 to 4 feet tall, with beautiful foliage, producing large spikes of golden yellow fragrant flowers in June and July. A very striking and attractive plant for the perennial border. Pkt. 10c; ½ oz. 30c.

Hardy Asters

Dalsy

2602 Wartburg Star, Subcoeruleus. A spring flowering aster of bright lavender-blue with yellow centers. Plants 2 to 2½ feet high, flowers 3 to 3½ inches across. Blooms May and June. Pkt. 15c.

2605 SUBCOERULEUS BLUE, R. G. A distinct variety bearing daisy-like azure blue flowers with golden centers. Flowers often 2½ to 3 inches across on long slender stems well above the foliage. Blooms during June and July. 15 inches. Pkt. 10c; ½ 02. 25c.

2603 LARGE FLOWERED MIXED. The hardy Asters are among the best of the late summer and fall flowering plants. They do much to lighten up the perennial and shrub borders, with their graceful masses of bright flowers. Excellent for cutting. Pkt. 10c; ½ 02. 30c.

2604 ALPINUS MIXED. R. G. Excellent species for rock gardens, growing 12 to 15 inches high and bearing light airy flowers of rose, lavender, and blue shades. Contains many of the early May and June flowering varieties. Pkt. 15c; ½ 02. 30c.

Australls. This is a good blue flower for June and July. The plants reach up 2 to 3 ft. high, carrying racemes of pretty pea-shaped indigo blue flowers. Pkt. 10c; 1/8 oz. 30c.

2626 Bocconia, Plume Poppy
Cordata Japonica. Great handsome plants 5 to 8 ft. tall with attractive foliage and large plumes of small pinkish-white flowers. A mass of color in July. Fine as a background. Pkt. 10c; 1/4 oz. 20c.

Hardy Candytuft, Iberis

2701 Sempervirens

R. G. One of the prettiest of the hardy low border plants. In April and May the low compact plants are covered with white flowers, resembling the annual Candytuft. Excellent for rock garden, naturalizing, or as a border to taller plants. It does well in sun or shade and on practically all soils. The foliage is evergreen. 8 inches tall. Pkt. 10c; 1/8 oz. 35c.

Bellis. Monstrosa

Hardy Aster

Bocconla, Plume Poppy

2702 Gibraltarica R. G. A lilac white flowering variety, blooming in April and May. 10 to 12 inches high. Pkt. 10c; 1/8 oz. 25c.

²⁷³¹ Cerastium Snow in Summer

Tomentosum. The foliage is a pretty silvery white; the stems rather creeping, loaded with small single snow-white flowers in May and early June. Ideal for a ground cover. 4 to 6 ln. tall. Pkt. 10c; ½ oz. 35c.

Rock Garden Varieties

Rock Clarden Varieties

2569 AQUILEGIA ALPINA BLUE. R. G. A
dwarf variety of much value and charm. Plants
grow from 12 to 18 inches tall quite compact and
branching. Flowers of beautiful clear blue, are
freely produced and are unusually fine for cutting.
Pkt. 10c; ½8 oz. 30c.

2570 AQUILEGIA COMPACTA
ERECTA EDELWEISS. R. G. Beautiful snow-white blooms borne in
profusion on neat compact plants.
An excellent variety both for the
garden and for use as a cut flower
variety. Pkt. 15c; ½6 oz. 40c.

2573 FLABELLATA NANA, Dwarf White. R. G. A very

2573 FLABELLATA NANA, Dwarf White. R. G. A very early flowering variety, growing one foot high. Pure white flowers. Pkt. 25c.

Double Bellis, English Dalsy

The double, ball-shaped flowers of white, pink, rose and red show their faces in spring—April to early June. Perhaps the most popular for low edgings in cool shady spots. For best results raise new plants from seed each year. Good rock garden subjects.

2617 MONSTROSA DOUBLE MIXED. Large flowered strain, All shades. Pkt. 10c; 1/8 oz. 40c.

Boltonia, False Camomile

The Boltonias grow 6 to 8 feet tall and are a showy perennial, excellent for a tall border or for a background planting. They bear great quantities of star or daisy-like flowers in August and September. Easy to grow tember. Easy to grow.

2632 LATISQUAMA. Lavender-pink. Pkt. 10c; ½ oz. 20c.

Alpina. R. G. A splendid dwarf rock plant about 6 inches high with small blue flowers in June, and spreading tufts of foliage. Equally good for the front of the border. 6 in. tall. Pkt. 15c.

Callirhoe, Poppy-Mallow

2635 INVOLUCRATA. R. G. A trailing perennial with bright attractive foliage and bearing saucer-shaped rosy crimson flowers almost all summer and fall. Very useful in the rockery where it enjoys creeping about among the rocks. **Pkt. 15c.**

Hardy Centaureas
The hardy Centaureas are showy perennials with large thistle-like flowers on stems 2½ ft. tall. They are easy to grow and are not particular as to soil.

2715 MONTANA BLUE. Large flat flowers 2 inches in diameter, called Perennial Cornflower or Blue Bottle. June to September.

2ft. Pkt. 10c; ¼ oz. 30c.

2719 MACROCEPHALA. Has very large, globular, bright yellow flowers often 3 or more inches in diameter. One of the most showy Centaureas, in bloom during July and August. 4 ft. Pkt. 10c; ¼ oz. 35c.

2720 DEALBATA Persian Centaurea. Bears striking rose pink flowers. July to September. Graceful silvery foliage. 1½-2 ft. Pkt. 10c; ½ oz. 30c.

Chelone Turtlchead Shellflower

2736 BARBATUS TORREYI. This variety has slender, tube-like, deep scarlet red flowers on graceful branching stems. Foliage rich dark green and very attractive. July and August. 2 feet. Pkt. 10c; ¼ oz. 25c.
2737 HYBRIDA PRAECOX. An early flowering variety which produces large flowers in great profusion and in a great variety of rich color shades of pink, rose and red. The flowers are greatly desired for cutting because of their beauty and gracefulness. 3 to 3½ ft. Pkt. 10c; ¼ oz. 30c.

Cheiranthus

Sce Wallflower, page 43

Crucianella, Crosswort

2764 STYLOSA. R. G. Trailing plant producing masses of elegant bright green foliage, making an unusually fine rock garden subject. Flowers are rosy-red and produced in clustered heads above the rich foliage. Blooms June to September. Pkt. 10c; 4 oz. 25c.

Hardy Ceutaurea Montana

Hardy Candytuft

Campanula Medlum

Popular Campanulas

There are few groups of plants which possess such beauty as do the Campanulas. Some are perennials, other biennials. They like sunny situations and the seed may be sown any time from spring until August. Sow seed of the biennials each season. To prolong blooming season, cut off flowers as they fade. Give protection over winter.

Campanuia Medium
Very showy plants growing 2 to 3 ft. high and bearing quantities of large bell shaped flowers, popularly known as "Canterbury Bells."

2637 Dark Biuc 2639 Pink Price either color: Pkt. Sc; ¼ oz. 25c.

2636 Medinm Single Mixed. Pkt. 5c; 1/4 oz. 25c.

2644 Mcdinm Double Mlxed. Pkt. 10c;

Cup and Saucer

Campanuia Calycanthema
The flowers are tubular bell-shaped with a saucer-like petal fringed at the base, giving the appearance of a cup and saucer. They bloom in June and early July on plants 2½ ft. tall. Biennials blooming the second year from seed sown in June own in June.

2652 Dark Blue 2654 Plnk Price either color: Pkt. 10c; 1/8 oz. 30c. Campanula Rotundifolia Olympica 2651 Campanula Calycauthema Mixed. Pkt. 10c; ½ oz. 25c; ¼ oz. 35c.

2660 TEMPLIN-BRADLEY'S PRIZE MIXTURE. A splendid mixture of Medium and Calycanthema, both singles and doubles in all available shades. Pkt. 10c; 1/8 oz. 25c.

Campanula Carpatica, Harebells

Campanulas For The Rock Garden 2693 TURBINATA BLUE. R. G. One of the best of the rock garden or border species of Campanula. Bushy compact plants 15 to 18 inches tall, bearing erect cup shaped lavender blue flowers. June to August. Pkt. 10c; 1/8 oz. 40c. 2694 PUSILLA BLUE. R. G. Very dwarf or miniature plants only 3 to 4 inches high. Makes dense mats of fine foliage with little lavender blue bell flowers. Excellent for rock gardens. Blooms June and July. Pkt. 25c.

Excellent for rock gardens. Blooms June and July. Pkt. 25c.

2696 ROTUNDIFOLIA BLUE. Blue Bells of Scotland. R. G. A very fine border or rock garden Campanula about 1 ft. tall. Flowers of pendant nature, clear blue, and borne from June to August. Pkt. 15c.

2697 ROTUNDIFOLIA OLYMPICA. R. G. An Alpine species of most deserving merit. Plants grow to 10 inches and are fairly covered all summer with pretty light blue bells. Pkt. 25c.

2688 GLOMERATA SUPERBA. R. G. Compact plants growing 15 to 18 inches tall bearing large clusters of long bells of a deep rich violet. A very attractive plant either in the border or rock garden. Blooms June and July. Pkt. 15c; ½ oz. 40c.

2690 Fragilis. R. G. A trailing variety with long flower branches, carrying very pretty light blue flowers. Fine for Rock Gardens or hanging baskets. Pkt. 25c.

A dwarf Campanula forming compact clumps only 8 to 10 inches high. The flowers are dainty, cup-shaped, 1½ inches across and evident from June to October.

2682 Blne. 2683 White. Either color. Pkt. 10c; ¼ oz. 35c.

2681 Campanuia Carpatica Mixed. Pkt. 10c; ¹/₄ oz. 35c.

Coreopsis Lanceolata Tickseed

Large golden yellow fringed flowers on long wiry stems fine for cutting, and blooming practically all summer. One of the showiest and best of all perennials, and you should plant several masses of them in your border. They grow about 2 ft. high.

2756 Mayfield Giant A splendid new strain growing 3 to 3½ ft. tall and bearing masses of extra large golden yellow flowers on long firm stems. Superior to original semi-double.

2754 GRANDIFLORA SINGLE. Large single yellow flowers fine for cutting and a fine addition to the garden. Pkt. 10c; ¼ oz. 15c.

2757 Double Sunburst If you want some of these new Coreopsis. The flowers are 1½ to 2 inches across and of deep golden yellow and about 80% double. Pkt. 15c; ½ oz. 35c.
2755 GRANDIFLORA DOUBLE. Improved. Similar to Grandiflora single, except that each flower has double row of petals. Pkt. 15c; ¼ oz. 35c.

Corydalis CHINESE
BLEEDING HEARTS
2761 CHEILANTHIFOLIA. A dainty little plant
related to the Bleeding Heart, with yellow flowers in
terminal racemes and with fernlike foliage. Plants 10
to 12 inches high, growing easily in rich, well drained
soil. Does well in shade, Blooms April to June. Pkt.

DIELYTRA
See Color Piate on Page 52

OLD FAVORITES, with their long graceful racemes of beautiful heart shaped rose and white flowers. Excellent for the perennial border and do well in the shade.
2812 SPECTABILIS. These beautiful flowers are at their best in May and June. Hardy and easy to grow. Bloom from April through June. 2½ to 3 feet tall. Pkt. 20c.
2813 EXIMEA—Plumy Bleeding Heart. The flowers are rosy-pink and bloom from June to September. Very lovely foliage, much dwarfer than Spectabilis, growing only 10 to 15 inches tall. Pkt. 20c.

2810 Dictamnus, Gas Plant

FRAXINELLA. Forming bushy plants bearing long showy spikes of flowers which are suitable for cutting. The foliage is fragrant. The seeds are slow to germinate, but once established the plant is practically permanent. The pink and white flowers are borne in June and July. In still hot weather the leaves give off a lemon scented gas which will ignite in a puff of flame from a match. 3 ft. Pkt. 10c; ½ oz. 35c.

²⁸²⁶ Dodecatheon, Shooting Star

Clevelandi. R. G. Sometimes called the American cowslip, bearing umbels of drooping flowers, formed like small cyclamen. Flowers are of a delicate lilac tint and borne from April to June. They like cool moist soil and a shady location. 1 foot. Pkt. 15c.

Edelweiss, Alpine Snowflower

2854 LEONTOPODIUM, Alpinium. R. G. This is the famous Edelweiss of the Swiss Alps. Silvery gray leaves almost flat on the ground. Stalk, spring up from the center, bearing 3 to 4 starlike flowers. Plants easy to grow in any good sandy garden soil. 4 In. tali. Pkt. 20c.

Euphorbia Flowering Spurge

2879 COROLLATA. A branching plant 2 feet tall, with fine stems and foliage. Bears loose umbels of pretty white flowers from June to August. Very lovely for cut-flowers by itself or with mixed flowers. Pkt. 15c.

Hardy Carnations

Campanula Persicifolia, Peach Bells One of the finest Campanulas with large handsome bell-shaped flowers of blue or white. A delightful addition to the garden. 2 ft. June and July.

2666 Campanula Persicifolia Mixed. Pkt. 15c;

Every garden should have room for some of these fragrant beauties which rival in charm, the greenhouse sorts. They like some protection over winter if left in the open, or winter them in the cold frames. You may also pot them for indoor bloom.

2708 CHABAUDS. Produces large double and semidouble flowers on stems 16 to 20 inches long and in a great variety of colors. A tender Perennial which for outdoor growing in northern states, must be treated as an annual. An excellent greenhouse strain. Pkt. 10c; 1/8 oz. 35c.

outdoor growing in northern states, must be treated as an annual. An excellent greenhouse strain. Pkt. 10c; 1/8 oz. 35c.

2709 EARLIEST DWARF VIENNA. An early strain of dwarf growth, 12 to 15 inches high. The color range is magnificent, including the lightest pink, yellows, rich reds and purples. Flowers are large and a great proportion double. Pkt. 10c; 1/8 oz. 35c.

Carnation Grenadin

A valuable class of Carnations blooming the first year from seed sown early. Large double flowers, with good stems and rich colors. Grow 18 to 20 inches tall.

2711 WHITE GOLD. Carnation, Chabauds Carnation, Chabauds A new variety of soft yellow shade. It produces a large percentage of full size, perfectly double flowers. Pkt. 15c; 15 oz. 40c.

Grenadin in Separate Colors 2703 HARDY ROSE-PINK SHADES 2705 SCARLET 2710 GRENADIN MIXED COLORS Price on any above; Pkt. 10c; 1/8 oz. 35c. 2704 HARDY YELLOW. Pkt. 15c; 16 oz. 60c.

Hardy Chrysanthemums Shasta Daisy, Leucanthemum

Sec Sirasta Daisy, Page 42

Chrysanthemum Japonica JAPANESE MOUNTAIN OR CASCADE CHRYSANTHEMUMS

CHRYSANTHEMUMS

27.47 JAPONICA SINGLE AND DOUBLE MIXED. White, yellow, bronze, pink, rose, red and crimson. Single, semi-double and double flowers 2 to 2½ inches across on drooping stems. Fine for hanging baskets as well as for garden display. Not absolutely hardy so are best treated as annuals. Pkt. 10c; \(\frac{1}{16}\) oz. 25c.

Doronicum, Leopardbane

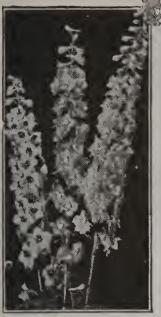

Very early blooming perennial producing largeyellow daisy-like flowers on long wiry stems. While the Doronicums begin to bloom with the earliest bloomers in the spring, they continue to produce their flowers until mid-autumn.

2831 CAUCASICUM. A semi-dwarf variety growing 1½ to 2 feet tall and producing its large yellow flowers in profusion. See color plate on page 51. Pkt. 25c.

Double Coreopsis

Delphinium, Hardy Larkspur

Their popularity is growing each year because of the stately magnificence of the flower spikes, and their beautiful shades of coloring. Belladonna, Bellamosa, and Hybrids with good culture grow 3 to 6 ft. tall, bloom in June and July, and if cut back and fertilized after bloom, will give more flowers in late summer or early fall.

2775 Templin-Bradley's English Hybrids
BLACKMORE AND LANGDON'S PRIZE STRAIN DELPHINIUM
This strain is the product of many years of patient hybridizing and selection by one of the outstanding horticulturists of England. It is the best strain seen in Europe's wonderful Delphinium plantings, on a personal trip by Mr. Bradley. The recipient of many gold medals and awards, a realprize strain. The shades of coloring and the size and refinement of the flowers are unexcelled. Pkt. 25c; \(\frac{1}{32}\) oz. 40c.

2774 Hollyhock or Wrexham Strain Delphinium

A distinct new type of Delphinium with massive yet refined spire-like spikes that taper to the tip. The individual florets are very large and closely arranged on the stems. The flowers are in the most beautiful shades of blue, lavender and purple, singles, semi-doubles and doubles. Pkt. 20c; \(\frac{1}{2} \) oz. 40c; \(\frac{1}{16} \) oz. 75c.

WREXHAM TYPES IN SEPARATE SHADES.

We offer this splendid strain this year in separate shades for the discriminating grower.

2776 ART SHADES.

2777 BLUE SHADES.

Price, any of above shades. Pkt. 25c.

English Hybrlds Delphinium

Separate Shades

Regal Hybrid Delphinium

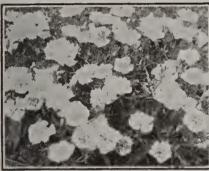

delicate and beautiful and are most popular. Pkt. 10c; ½ oz. 35c.

2771 BELLADONNA IMPROVED. A very carefully selected strain of the popular Belladonna type giving excellent uniformity of type and color. Pkt. 15c; ½ oz. 35c.

2772 BELLAMOSA Similar to Belladonna in form and habit but with a color of much deeper and richer blue. Price 10c; 1/8 oz. 35c.

2773 Gold Medal Hybrids

A good strain at a low price. These hybrids embrace a nice collection of hybrid Delphiniums. The shades range from pale lavender to deep indigo blue, a glorious mixture. Pkt. 10c; 1/8 oz. 30c.

Perennial Chart on

Page 35

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

2781 CHINENSIS, BLUE and WHITE 2782 DWARF BLUE BUTTERFLY 2783 CHINENSIS, CAMBRIDGE BLUE. Pkt. 10c. See Also Annuals Page 17.

Chinese Delphinium, Butterfly Varieties

²⁷⁸⁰ Regal Hybrids

A new and outstanding strain of hybrids which we believe is the equal of many of the very high priced strains. Large double flowers of the richest color tones and of the finest flower forms, yet achieved in the Delphiniums.

the Delphiniums. Plants are vigorous and hardy growing to 6 feet in height. We inspected the field of blooming plants from which this seed was harvested and assure you it was one of the finest displays of Delphiniums we ever saw. If you buy this seed you will certainly have a strain of the finest parentage. Pkt. 15c; 1/8 oz. 45c.

A new perennial variety of Delphinium producing lovely white bloom on spikes 18 to 20 inches long and growing 3 to 4 feet tall. Plants are of strong healthy growth and will produce by their second year tall heavy spikes of bloom. Pkt. 25c; 16 oz. \$1.00.

2787 YELLOW ZALIL. Yellow Delphiniums are rare and Zalil is worth trying. About 3 ft. tall, with flower formation quite similar to the blue kinds. Seed germinates slowly. Pkt. 15c; 16 oz. 60c.

2788 SCARLET CARDINALE. Having bright scarlet flowers, but dwarfer plants than the other strains, about 2 to 2½ ft. tall. Germinates slowly. Pkt. 15c; 16 oz. 40c.

Dianthus, Hardy Garden Pinks

Spice or Clove Pinks

Every garden should contain at least a few clumps of these old fashioned fragrant pinks. Excellent for border, blooming in June. 15 to 18 inches tall.

2798 DOUBLE MIXED COLORS. A very fine mixture of all shades. Pkt. 10c; ½ oz. 25c.

2796 SEMPERFLORENS (Florist's Perpetual Plnks). R. G. These beauties are almost everblooming and come in a nice variety of colors, in double, semi-double and single blooms. 15 in. tall. Pkt. 10c; 1/4

2802 SCOTICUS, DOUBLE SCOTCH MIXED. Large double fringed flowers profusely borne during spring and early summer. Flowers are very fragrant. A very fine color assortment. Pkt. 20c.

2801 HIGHLAND QUEEN. R.G. One of the most brilliant of all Dianthus, bearing an abundance of lustrous scarlet. Blooms over a long period, June to November, so exceptionally good for bedding, borders, and the rock garden. Pkt. 20c.

2791 ALLWOODI MIXED. Large and for the most part fully double, almost like carnations. Splendid clusters of bloom borne in June and throughout the summer, splendid color assortment. 15 inches. Pkt. 25c.

Rock Garden Pinks

The following varieties of Hardy Pinks are especially well fitted for use in the Rock Garden and they seem to give their best results in such a situation.

2793 CAESSIUS, CHEDDAR PINKS. R. G. A dwarf compact form producing very dense green mats of foliage. The bright rosy-pink fragrant flowers are produced freely in May. 6 in. tall. Pkt. 10c; 1/8 oz.

2794 DELTOIDES BRILLIANT. R. G. A delightful small compact plant with narrow leaves producing an abundance of glowing crimson red flowers during May and June. 4 in. tall. Pkt. 10c; 1/8 oz. 35c.

2800 NEGLECTUS, or Glacier Pinks. R. G. Bearing in May and June very attractive cherry red flowers. Splendid for your rockery. **6 in. tall. Pkt. 25c.**

2805 GRANITICUS. R. G. Very lovely dwarf variety with deep red flowers 4 to 5 inches across. Blooms May and June. Pkt. 10c; 1/8 oz. 40c.

2799 ROCK GARDEN PINKS MIXED. R. G. A mixture of the species best adapted for rock garden plantings. Suitable for border plantings also of course. Pkt. 10c; 1/8 oz. 40c.

2792 ALLWOODI ALPINUS. R. G. A most excellent hybrid of the Allwoodi type producing diminutive plants useful in rockery. Fine color assortment and free blooming. 9 inches. Pkt. 25c.

Echinops Globe Thistle

2846 RITRO. Globe shaped bristly flowers of metallic-blue, borne in July and August. Popular for drying for winter bouquets. Grow 2 to 3 feet tall. Pkt. 10c; ¼ oz. 20c.

Erinus, Liver-Balsam

2859 ALPINUS R. G. In May and June these little plants with their rosettes of leaves, bear pretty rosypurple flowers. Fine for planting in the crevices of old walls or between steps or in the Rock Garden. Grow 4 to 6 inches high. Pkt. 15c.

Erigeron, Fleabane

2856 SPECIOSUS GRANDIFLORUS. Bright purple Aster-like flowers, freely produced all summer. Fine for cut-flowers, desirable for the perennial border. Pkt. 15c; 1/8 oz. 35c.

Gentiana, Gentian

Beautiful low edging plants that produce their welcome flowers in the spring. They are also among the best plants for rockeries. They like moist shady location and light loam soil, and are rather difficult to establish and once established they should not be disturbed. Use no lime in the soil no lime in the soil.

2896 ACAULIS, Blue Gentian. R. G. Best variety of rich gentian blue. 4 in. tall. Pkt. 15c; 16 oz. 40c.

Possible of Foxglove

Foxgloves are biennials, so after blooming cut down and sow more seed each season. Wherever planted Foxgloves give the appearance of dignified beauty. Bloom June and July.

2815 The Shirley It is agreed among experts that this is the finest strain of Digitalis ever introduced. Of the same form as common types but withstill longer and larger flower spikes, the flower head often being 3 ft.long, covered with big bell-shaped flowers. The color assortment is rich indeed, from white and shell-pink to deepest rose, many dotted with crimson or chocolate. 5 to 6 fect tall. Pkt. 10c; ¼ oz. 25c.

2816 Good Mixed A good mixture of white, pink, rose and mottled colors. Pkt. 10c; ¼ oz. 20c.

2817 Salmon Hybrids 4 ft. tall. Pkt. 15c; ½ oz. 30c.

Eupatorium Ageratum

Dainty little flowers produced in dense heads at the top of the branches. Make adorable cut flowers.

2877 COELESTINUM. Light blue flower heads, bloom during September and October. 3 feet. Pkt. 15c.

Digitalis, Shirley

Hedysarum Honeysuckle
2923 CORONARIUM. Attractive shrubby border plant, bearing in July, racemes of deep red, fragrant flowers. Does best in well drained soil in full sun. Grows 2 fect tall. Pkt.
15c; ½ oz. 40c.

Helleborus

Christmas Rose

2948 NIGER. A delightful perennial with pure white flowers that bloom early, often blooming in the snow and continuing through March. Grows 9 inches high and prefers a location that is partially shaded in the summer. 9 in. tall. Pkt. 15c; ¼ oz. 30c.

Echinops Ritro

Gaillardia Dazzler

Hardy Gaillardias

Easily grown, very showy, fine for cut-flowers and almost perpetual bloomers, July to November. If sown early, will bloom the first year. 1½ to 3 feet tall.

2890 BURGUNDY. Solid maroon except slight tips of yellow. Grandiflora type. Pkt. 20c; \(\frac{1}{16}\) oz.

35c.
2891 MAXIMA. Flowers of solid color in yellows and golds. 2½ to 3 feet tall. Pkt. 10c; ¼ oz. 35c.
2889 TANGERINE. Beautiful tangerine orange flowers of good size. Pkt. 15c; ½ oz. 30c.
2887 DAZZLER. An improved strain with immense flowers of bright, golden yellow with rich maroon center. Pkt. 10c; ½ oz. 30c.
2888 PORTOLA HYBRIDS (In color, page 19). Extra large flowers, often 3½ inches across. The petals are broad and overlapping. Brilliant scarlet, tipped yellow 2¼ to 3 feet tall. Pkt. 10c; ½ oz. 25c.
2886 GRANDIFLORA MIX-ED. Combinations of yellow and maroon-red. Rich for garden display. Pkt. 5c; ¼ oz. 25c.

Gypsophila Baby's Breath

2914 PANICULATA SINGLE. See picture. Immense panicles of white gauze-like flowers. 2 ft. Pkt. 10c; ½ oz. 25c.
2915 DOUBLE FLOWERING, "Snow White." Popular for winter bouquets. Showier than the single. Pkt. 20c; ½ oz. 45c.
2919 PACIFICA. Tall Bushy plants with tiny pink flowers. Blooms after Paniculata so prolongs cutting period. Pkt. 15c; ½ oz. 40c.

Gypsophila for your Rock Garden 2916 REPENS, Prostata, R. G. Grows 6 inches tall, prefers a dry open place. Graceful white flowers. Pkt. 10c; 1/8 oz. 30c.

2917 REPENS ROSEA. Pink flowers of dwarf trailing habit. Beautiful for Rock Gardens. Pkt. 15c; 1/16 oz. 30c.

Heleniums Heleniums are large, Daisy-like flowers in shades of yellow, bronze and orange with conspicuous centers. Grand for cutting or for garden display.

2932 AUTUMNALE HYBRIDUM PRAECOX. Highly developed strain of hybrids producing beautiful shades of yellow, bronze, crimson and brown. 3 feet. Pkt. 15c.

2933 RIVERTON GEM. Old gold, suffused with terra-cotta, changing to Wallflower-red. August to October. 3 to 4 feet. Pkt. 15c.

Helianthemum, Sun Rose
2936 MUTABILE HYBRIDS. R. G. An excellent ground cover and rock garden plant for dry sunny slopes and terraces. Tolerates very hot dry soil. A shrubby plant growing 12 inches high with evergreen foliage. Flowers of pale rose, lilac, and white—pretty with their yellow stamens. Blooms June and July. I ft. Pkt. 10c; ¼ oz. 35c.

Double Hollyhocks

The Geums are becoming more popular each year, for their free flowering and attractive plants are a valuable addition to any hardy garden. Very easily grown from seed and produce a continuous supply of flowers for

Geums Color Page 51

2901 MRS. BRADSHAW. This variety bears double bright red flowers 1½ inches across during May and June on stems about 18 inches tall. The foliage is at the base. Pkt. 10c; 1/8 oz. 35c.

2902 LADY STRATHEDEN. A beautiful new variety similar to Mrs. Bradshaw in growth, but bearing bright golden yellow flowers. Pkt. 10c; 1/8 oz. 35c.

Insecticides

Fungicides To make Healthy and Vigorous Plants See Page 79

Heuchera

Coral Bells
2961 SANGUINEA SPLENDENS. R. G. Very desirable plants, the foliage in compact masses 8 to 10 inches high. The flower stems reaching up 18 to 24 inches bear graceful spikes of the showiest bright coral red flowers. Excellent for the hardy border and especially good for the rock garden. Blooms fine for cutting, borne during July and August. 2 ft. Pkt. 15c; ½ oz. 40c.
2962 SANGUINEA GRANDIFLORA HYBRIDS. Includes all the attractive shades known to Heuchera, white, pink, scarlet and crimson. 2½ ft. Pkt. 15c; ½ oz. 40c.

Geum Color Plate, Page 51

Hibiscus, Mallow

Large free growing shrub-like plants forming clumps 4 to 5 ft. high, with handsome green foliage bearing throughout the late summer immense single flowers 4 to 6 inches across. Plants are easily grown from

2972 MALLOW MARVELS MIXED. Produces giant flowers in August and September, white, pink and crimson. Mixed Pkt. 10c; 1/4 oz. 25c.
2971 GIANT GOLDEN BOWL or SUNSET. Very large flowers of rich cream yellow with maroon center. Pkt. 10c; 1/4 oz. 25c.

lberis Handy Candytuft See Page 37

Incarvilled Gloxinia

Comparatively new in American gardens, but it well deserves a place as it produces many showy fine flowers throughout the summer. The flowers are trumpet-shaped, attractive and gloxinia-like.

3007 VARIABILIS HYBRIDS. Colors ranging from white and yellow to deep pink. 2½ to 3 ft. Pkt. 15c; ½ oz. 35c.

3008 DELAVAYI. Bright rosy purple flowers borne freely in June and to a less extent throughout the summer. Likes sun and need light protection over winter. 2 to 2½ ft. Pkt. 15c; ½ oz. 35c.

Lavendula Sweet Lavender

3026 A shrubby perennial about $1\frac{1}{2}$ ft. high with grayish green foliage, and bearing during July, August and September whorls of small blue flowers. The leaves have a very pleasant aromatic odor, much sought for. The plant requires some winter protection in most Northern States. Pkt. 10c; \(\frac{1}{4} \) oz. 30c.

Lewisia

3030 HOWELLI. R. G. A rare and lovely creeping plant forming a rosette of narrow crinkled leaves. Flower stems 6 inches above foliage, carry star-like flowers of apricot, streaked rose. Spring sown seeds will bloom the following year. Give the seedlings a well drained, sunny place and do not over-water them. Pkt. 25c.

Helianthus

Helenium

Heuchera

Hollyhocks

These stately, majestic, handsomely colored flowers, growing 5 to 7 feet tall are attractive for screens and backgrounds and are one of the most popular of all the hardy garden flowers. They are necessary for the old-fashioned garden and with their colossal spikes of rose-like blooms, produce bold and showy effects. They are easily grown from seed but it is best to treat them as biennials, sowing fresh seed early each spring. They bloom July and August.

Lovely New Hollyhocks

Helianthus Sunflower

2939 AUGUSTIFOLIUS or Autumn Glory. Excellent for back ground, clump in the border, with its branches bearing masses of clear golden yellow flowers in October and November after most flowers

2954 Hesperis Sweet Rocket

are past. 5 to 6 ft. Pkt. 10c; 1/4 oz. 35c.

3003 TRIUMPH DOUBLE FRINGED. New, of branching habit, waved and fringed flowers in shades of crimson, pink, white, yellow and purple. Early bloomer, 4 to 5 feet tall. Pkt. 15c; 1/8 oz. 40c.

3002 IMPERATOR. Color ranges through shades of pink to salmon. Flowers 6 inches across, frilled and fringed with central double rosette. Pkt. 10c; 1/8 oz. 35c.

3001 EXQUISITE FRINGED MIXED. Contains the most artistic shades of pink, rose and red. Striking semi-double variety. Pkt. 10c; 1/8 oz. 35c.

Liatris Gay Feather

Also called Blazing Star. Showy and beautiful when massed in the perennial border. Leaves are slender and grass-like, thickly covering the stems, tall graceful

spikes of flowers.

3034 PYCNOSTACHYA. Brightest rosy-purple, bloom in July and August. Grow 6 feet tall. Pkt. 15c; 1/8 oz. 35c.

Linaria Toad

3047 MACEDONICA. Speciosa Hybrids. R. G. Spikes 3 feet tall, bright yellow flowers resembling Snapdragons. Foliage of silvery tint. Will bloom the first year if seed is sown early. Pkt. 10c; ½ oz. 30c. 3048 ALPINA. Alpine Toadflax. R. G. A trailing plant, bearing flowers of violet-blue, blotched orange, in July and August. 6 inches tall. Pkt. 15c. 2113 CYMBALARIA. Kenilworth Ivy. R. G. A trailing plant or vine with foliage throughout the summer and an abundance of small lavender flowers in the fall. Pkt. 5c; ½ oz. 30c.

Linum Perenuial Flax

3055 PERENNE BLUE. R. G. Small flat flowers of azure blue, borne in May and June. Erect plants with branching leafy stems. 1½ to 2 feet tall. Pkt. 10c; ¼ oz. 20c.

3056 FLAVUM, GOLDEN FLAX. R. G. Masses of yellow bloom in July and August. 15 to 18 inches tall. Pkt. 10c; 16 oz. 25c.

3058 FLAVUM NANUM COMPACTUM. R. G. A new dwarf strain only 6 inches high with golden yellow flowers in June and July. Pkt. 15c.
3057 NARBONENSE, R. G. Azure blue flowers with white eye, freely borne in May. Spreading clumps of foliage. 2 ft. Pkt. 15c; 16 oz. 30c.

Lobelia Cardinal Flower

3061 CARDINALIS. A native perennial used frequently for naturalizing in swampy spots. Flowers are intense cardinal red, slender about 1 inch long, borne in spikes on erect leafy, unbranching stems. Blooms July to September. Grows 2 to 2½ feet tall. Pkt. 15c.

Lythrum, Loosestrife
3092 ROSEUM SUPERBUM. Tall erect plants producing graceful spikes of bright red flowers during July and August. An excellent cut flower. 4 to 6 ft. Pkt. 10c; ¼ oz. 25c.

Lychnis Camplon

3086 CHALCEDONICA, Scarlet Maltese Cross. From June until the middle of July the plants are covered with the most fiery scarlet flowers, and it is sometimes called Burning Star. Each individual flower forms a small Maltese Cross. The plants will bloom the first year from early sown seed. 2 ft. Pkt. 10c; ¼ oz. 20c.

3085 CHALCEDONICA SALMON QUEEN. Large flower of glowing salmon, a new shade in Lychnis. Pkt. 10c; ½ oz. 30c.

3087 ARKWRIGHT HYBRIDS. A valuable variety the result of a cross of Chalcedonica with Lychnis Haageana. These hybrids attain a height of 2 ft. and produce in midsummer an abundance of large flowers of brilliant colors, varying from orange scarlet to soft salmon pink. Pkt. 10c; ½ oz. 30c.

3088 VISCARIA SPLENDENS. R. G. Also called Viscaria and German Catchfly. The bright rose flowers are most useful for cutting. The large clumps of foliage are attractive and almost evergreen. Blooms in May and June. 15 in. tall. Pkt. 10c; ¼ oz. 30c.

3089 ALPINA. R. G. In April the tufted little plants with attractive olive green foliage bear clusters of pretty rose pink flowers. 6 in. tall. Pkt. 15c.

Hardy Lupines produce long spikes of softly colored flowers, the individual flowers resemble Sweet Peas, the spikes grow 3 to 4 feet tall. The leaves are palm-like and form thick ornamental clumps of light green. Bloom May and June.

Inoculate Lupine Seed with Nitragin. By treating Lupine seed before planting, you will get better growth of plants. Garden size pkg. Postpaid, 25c.

3080 New Hybrids Mlxed. Wonderful new strain. Long beautiful spikes. Colors range through blue, rose, buff, flesh, salmon to white. Pkt. 10c; 1/4 oz. 30c.

3083 Downers Hybrids. Early and perpetual blooming, fine range of colors, bold spikes. Sometimes bloom first year from seed if sown early. Pkt. 10c; ¼ oz. 25c.

3081 Polyphyllus Sunshine. Bright yellow. Pkt. 10c; 1/8 oz. 25c. 3076 Polyphyllus Blue.

3077 Polyphyllus White.
3078 Polyphyllus Rose.
3079 Polyphyllus Mixed Colors.

Prices on Above 3 Colors and Mixed, Pkt. 10c; 1/4 oz. 20c.

A Clump of Lupines

Lunaria St. Peters Penny

3068 BIENNIS. This is grown for the beautiful silver pods which are used for winter decorations. Purple flowers are borne in the summer and the plant is a biennial which self sows. It may be grown as an annual. 2 ft. Pkt. 10c; ¼ oz. 30c.

Matricaria See listing with Annuals, Page 22

Although Matricaria is a perennial, it is best grown as an annual and is listed under annuals.

Meconopsis Poppy

3098 BAILEYII. This beautiful blue perennial Poppy from Tibet, throws from its root stock, half a dozen leafy stems 3 feet high with broad sea-green leaves. The flowers are four-petaled and a glorious sky-blue with golden yellow anthers. Awardeda Certificate of Merit from the Royal Horticultural Society. Blooms in July. Pkt. 15c.

CULTURE. Being rather difficult to grow, we will give you a leaflet on Culture of Meconopsis free, if you ask for one.

Monarda-Bergamot

3106 DIDYMA HYBRIDA MIXED. Bee Balm, Oswego Tea. Flowers of brilliant scarlet-crimson, rose or purple, born on coarse stocks 3 feet high. Makes a showy display, excellent for massing and for naturalizing. Pkt. 15c; 16 oz. 10c.

Myosotis, Forget-me-not

r 3126 Isolde Krotz Bright, heavenly blue with yellow eye. 1 foot high and semitrailing. Though it is a perennial, it needs slight protection over winter. A lovely flower for a ground planting for Spring-flowering bulbs. Sometimes grown as an annual. Pkt. 15c.

3120 Everblooming Palustris all summer. Small bright blue flowers, borne in clusters on half creeping stems. Fine for carpeting shady and moist places. The best Forget-Me-Not for naturalizing. Pkt. 10c; 1/8 oz. 30c.

Nepeto
Mauve Catmint
3146 MUSSINI R. G. Dwarf
edging plant with blue-gray foliage
and nale mauve flowers during and pale mauve flowers during practically the whole summer. Very delightfully effective. 9 to 12 inches tall. Pkt. 10c.

Oenothera Primrose Lychnis Chalcedonica tall. This variety blooms in the daytime except in bright sunlight, as well as in the evening. Pkt. 10c; 16 oz. 40c.

3163 MISSOUR-IENSIS R. G. Dwarf species, only 10 inches tall, solitary flowers, often 5 inches across from June to August. Pkt. 10c; 16 0z. 30c.

Phlox 3197 DECUSSATA GRANDIFLORA MIXED.
Lovely colors taken from named varieties of Hardy Phlox.
Large blooms on 3 foot stems. Seeds slow to germinate but worth waiting for. Pkt.
10c; ½ oz. 30c.

Myosotis, Everblooming

Llnaria Macedonica

Lillies To Grow From Seed

Lilium Phllliplnense

3041 LILIUM REGALE, Regal Lily. See this Lily in color on the back cover. Easily grown from seed, blooms the third year. One of the loveliest of all lilies. Pkt. 10c; 1/8 oz. 25c.

3042 PHILIPPINENSE FORMOSANUM. A wonderful new lily grows easily from seed. At the Arnold Arboretum seed produced flowering plants in seven months, Similar to the Easter lily, white trumpet-shaped flowers, slightly marked with reddish brown on base of petals. Perfectly hardy. 2 to 3 feet. Pkt. 15c; 1/8 oz. 30c.

3045 PRAECOX WHITE QUEEN. A beautiful lily of the Longiflorum family, producing long snow-white trumpets. Under good conditions will bloom in 12 months from seed. Pkt. 30c.

3044 TENUIFOLIUM, Coral Lily. Bears quantities of small, glossy scarlet flowers with recurved petals. Perfectly hardy, blooming in June and July. Seed is sometimes slow to germinate but well worth patience as it is beautiful. 2 ft. Pkt. 15c; 1/4 oz. 35c.

Oriental Poppy

Hardy Poppies

Papaver For a gorgeous display, few flowers can compete with the brilliant Poppies in June and July. Immense silken cups of glowing colors with black blotch at base of petals.

base of petals.

If, after blooming, the tops are carefully taken off, not to injure the crown, they often bloom again in the fall. Height 2½ to 3 feet.

3176 ORIENTAL SCARLET. Tremendous cup of brilliant scarlet, with purple-black blotches. Pkt.

10c; ½ oz. 25c.

3178 BEAUTY OF LIVERMERE. Deep oxbloodred with black throat. 3 ft. Pkt. 15c; ½ oz. 30c.

3179 THE FELTHAM. New distinct strain with various colors, scarlet, orange, arricot and salmon but with no black blotches. Pkt. 15c.

3180 MRS. PERRY. Shrimp pink or apricot. The best of the pink Orientals. Pkt. 15c.

3177 ORIENTAL HYBRIDS. Some brilliant new shades have been developed, running through

shades have been developed, running through orange, salmon to scarlet. Pkt. 10c; 1/8 oz. 25c.

Alpine Poppy, Papaver Alpinum 3187 ALPINUM MIXED. R. G. A charming miniature Poppy in brilliant shades of scarlet, orange, yellow, apricot, pink and white. Rock Garden Poppy. Neat little tufts of attractive foliage, Rock Garden favorites. Flowers of tissue-paper appearance, on stems 1 foot long. Fine for cut-flowers.

3185 COONARA PINK. New variety in shades of pink, salmon and apricot. Pkt. 10c; ½ oz. 25c.

3183 EL MONTE. Extra large flowers of rich tangerine orange. Pkt. 15c; ½ oz. 30c.

3186 FAKENHAM HYBRIDS. Gorgeous new Poppies, twice the size of other Iceland Poppies. Bloom later. These Hybrids cover every known Poppy color and many new shades and tints. Pkt. 15c; ½ oz. 35c.

3189 GARTREF STRAIN. Reselected from the range of art shades. Unusually large flowers with dark edges on petals, making pleasing contrast of colors, from shell-pink to carmine, creamy yellow to gold tones and amber and apricot shades. Pkt. 15c.

3181 SUNBEAM GIANT MIXED. Lovely mixture of white, yellow, orange and scarlet. Pkt. 10c; ½ oz. 25c.

3184 SINGLE MIXED. Variety of colors. Pkt. 5c; ½ oz. 25c. 6 inches high. Pkt. 15c; $\frac{1}{16}$ oz. 45c.

Primulas—Hardy Primroses

Delightful little flowers in all the brilliant colors that mean so much to your garden in April and May. They have few rivals for planting along shady paths or in the Rock Garden. Seed germinate slowly and fall planting is preferable. You will enjoy their

3251 AURICULA ALPINA MIXED. Combinations of yellow, brown and red. Early,

3251 AURICULA ALPINA MIXED. Combinations of yellow, brown and red. 22.19, 6 inches tall. Pkt. 15c.
3252 JAPONICA MIXED or Japanese Primrose. Sometimes called "Queen of Primroses," very showy, blooms in June. Mixed colors, purple, lilac and pink. 18 to 24 inches tall. Pkt. 15c; ½ oz. 40c.
3253 CASHMIRIANA. Large spikes, similar to Red Hot Poker. Heads before opening are bright red, opening to lilac and purple shades. 2 fcct tall. Pkt. 20c.
3250 VULGARIS, The True English Primrose. Fragrant canary-yellow, 6 to 8 inches tall. Pkt. 10c; ½ oz. 40c.

Polyanthus Primulas

Polyanthus Primulas

3248 PERFECTION MIXED. Select strain of large flowering Polyanthus, containing all available colors and combinations of white, pink, rose, crimson, yellow and gold Pkt. 10c; ½ oz. 40c.

3247 GIANT MUNSTEAD. Large flowered variety, early blooming and includes pleasing shades of yellows and white. Pkt. 15c; ½ oz. 40c.

Physostegia, False Dragonhead

An attractive flower for the Perennial border. Long blooming season, rich foliage, easy to grow and lovely spikes of delicate rosy pink flowers. Excellent for cut-flowers. Prefers rich soil and sunshine.

3208 VIRGINIA PINK. July and August. 3½ feet tall. Pkt. 10c; ½ oz. 35c.

3210 COMPACTA ROSEA. R. G. Compact, deep pink. 12 to 18 inches tall. Pkt. 10c.

Chincse Dhysoglic Chinosol antorn

Physalis, Chinese Lantern

Chlnese Playtcodon Bellflower

A bushy perennial growing $2\frac{1}{2}$ feet tall and bearing in late summer, many large five-pointed, bell-shaped flowers. The buds are like little balloons. The separate colors do not always come 100% true from seed, the blue usually containing some white flowers and vice

3222 GRANDIFLORA BLUE. Pkt. 10c; 1/8 oz.

3221 BLUE AND WHITE MIXED. Pkt. 10c; 1/8 oz. 30c.
3226 MARIESI DWARF BLUE. Compact, bushy plants only 12 to 15 inches high. Deep blue flowers often 3 inches across. Pkt. 10c; 1/6 oz. 40c.

Hardy Salvia Meadow Sage

3291 AZUREA GRANDIFLORA. Small tubular flowers of sky-blue, borne in long terminal spikes. Blooms in August and September. Easily grown on light sandy soil in a sunny location. In Northern states, protect over winter with a light mulch. 4 to 6 feet tall. Pkt. 10c; ½ oz. 30c.

SALVIA—Farinacea is a tender perennial which we suggest growing as an annual and list it on page 26.

Shasta Daisies Chrysanthemums Leucanthemum

These hardy Chrysanthemums are of the Shasta Daisy type, so wonderful for garden display or cut flowers.

2738 BURBANKS SHASTA DAISY ALASKA. The finest hardy daisy, pure white, $2\frac{1}{2}$ to 3 inches across. July and August. $2\frac{1}{2}$ ft. Pkt. 10c; $\frac{1}{8}$ oz.

2744 DOUBLE SHASTA DAISY. A new and unusual strain which produces a large percentage of big double Daisies, almost like Asters. Pkt. 30c.

2748 MAWH. A new pink Shasta Daisy. Flowers 1½ to 2 inches across. Plants one foot high. Rare. Pkt. 20c.

2739 MRS. C. LOWTHIAN BELL. One of the largest flowered. June to October. 3 ft. Pkt. 10c; 1/8 oz. 30c.

/8 02. 30c.
2741 LACINIATUM MAXIMUM. This is a beautiful daisy with white flowers about the same size as the Shasta Daisy but the petals are recurved, twisted and fringed giving the flower a most graceful appearance. 1/2 to 2 ft. Pkt. 10c; /8 0z. 30c.
2743 MAY QUEEN. Spring Marguerite. A very excellent variety most desirable for its early bloom, which often begins to appear in late April. Flowers medium sized and on good stems. 2 feet. Pkt. 10c; 1/4 0z. 40c.

2742 ELDER DAISY. Very valuable early variety as you can cut flowers in May for Memorial Day. Flowers not quite as large as Shasta but more are produced on each plant. 2 ft. Pkt. 10c; ¼ oz. 30c.

3287 PURPUREA (Echinacea) Purple Cone Flower. Rosy purple with dark central disk. Blooms in September. 3 fect tall. Pkt. 10c; 1/8 oz. 35c. Saxifraga, Rock Foil Hardy Scabiosa **3293 MOSSY VARIETIES MIXED.** These varieties produce tufts of mossy leaves with white, pink and purple flowers. They are among the best Rock Garden subjects. **Pkt. 25c.**

Perennial Scabiosa are quite like the Annuals, though a little more graceful in form. Long blooming season, June to September. In the extreme Northern states, give a slight mulch for winter protection.

3204 FRANCHETI. An interesting plant with its pods of bright orange-red. They greatly resemble Chinese Lanterns and make gay and colorful winter bouquets. Pkt. 10c; ¼ oz. 30c.

Ranunculus, Buttercup Daisy
3278 ASIATICUS SUPERBISSIMA. Large semidouble and double flowers. Brilliant colors, the center
often differing from the balance of the red and yellow
of the flowers. May and June. Like partial shade. I to
1½ ft. tall. See illustration. Pkt. 10c; ¼ oz. 30c.

Romneya, Bush Poppy

3283 COULTERI. Also called California Tree Poppy. Shrubby growth, woody stems and large Poppy-like white, fragrant flowers. Satiny in texture, golden yellow stamens. June and July. 4 to 5 feet tall. Pkt. 10c; 76 oz. 35c.

Rudbeckia, Cone Flower

3297 CAUCASICA BLUE. Blue Bonnet. Single row of broad petals, center consisting of many tiny florets. Clear lavender-blue, very dainty. Extra long stems. 2½ to 3 ft. Pkt. 10c; ½ oz. 30c.

3306 JAPONICA. This Japanese variety forms bushy plants 2 feet high and bears beautiful lavender-blue flowers on long wiry stems. Long blooming season. Pkt. 5c; ¼ oz. 25c.

3300 ISAAC HOUSE HYBRIDS. See these in color on page 51. An improved Caucasica, having longer stems and larger flowers, in lovely shades from light lavender to deep heliotrope-blue. Petals are ruffled and fringed. Attractive. Pkt. 10c; 1/6 oz. 40c.

3301 COLUMBARIA PINK. A South African Scabiosa, dwarfer than Caucasica. Short, compact flowers 2 to 2½ inches across on long stiff stems. Pkt. 10c; 16 oz. 30c.

Sidalcea

A desirable hardy perennial that is very little known. Well worth a place in every garden. Produces spikes $2\frac{1}{2}$ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch across.

3327 ROSE QUEEN. Bright Rose. Pkt. 5c; ½ oz. 30c. 3328 Hybrids Many shades. Pkt. 10c; ½ oz. 45c.

Polyanthus Perfection

Sidalcea

3184 Shows 25c.
3182 DOUBLE MIXED. Selected strain. Large percentage will produce double flowers. Pkt. 10c; 1/8

Penstemon 3192 SENSATION GLOXINOIDES. Resembles. Gloxinias and comes in lovely shades of pink, rose, red, lilac and purple. Grows 2 feet tall. Pkt. 10c; 16 oz. 35c. 3194 BLUE GEM. A dwarf or prostrate form, excellent for the Rock Garden. Rich shade of blue. Pkt. 10c; 16 oz. 25c.

cellent for the Rock Garden. Rich shade of blue. Pkt. 10c; ½ oz. 25c.
3195 GRANDIFLOROUS MIXED. One of the showiest Penstemons, with its leathery leaves and stems that rise up 2½ to 3 feet with spikes of pretty lilac and pink flowers during May and June. Fine for cutting. Pkt. 10c; ½ oz. 30c.

Polemonium, Jacobs Ladder
3236 COERULEUM GRANDIFLORUM BLUE. Produce during May, June and July, erect stems bearing terminal heads of attractive violet blue flowers. The leaves are clustered mostly at the base of the stem. They like partial shade and considerable moisture. 2 ft. tall. Pkt. 10c; ¼ oz. 25c.

Pyrethrum

Low compact growth with lace-like foliage of bright green, quantities of Daisy-like flowers. They bloom during June and July.

3261 SINGLE MIXED. White, rose and pink. Pkt.
5c; ½ oz. 30c.
3262 DOUBLE MIXED. (See illustration.) They are not all double flowers but percentage increases as plants become older. White, pink and rose. Pkt. 15c; ½ oz. 50c.

3264 HYBRIDUM GRANDIFLORUM. Single. Large flowered, fine for cutting. Very attractive. Pkt. 10c; ½ oz. 25c. 3263 ATROSANGUINEUM. Select strains of dark, blood-red. Excellent quality Pkt. 10c; ½ oz. 30c.

Ranunculus, Buttercup Daisy

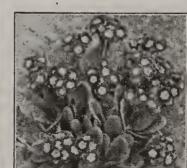

Single Pyrethrum

Stokesia

A Few Heads of Templin-Bradley's Giant Sweet William

Sedum, Stone Crop

Sedums are excellent for Rock Gardens and for border plants. They prefer sandy soil.

3316 ACRE. R. G. Gold Moss or Wall Pepper.

Leaves of bright green and peppery in taste. In June the plants are covered with small bright yellow flowers. This variety makes a splendid ground cover as it grows only 2 to 3 inches high. Pkt. 10c; \(\frac{1}{16} \) oz. 50c.

3317 SPECTABILE. R. G. Showy Stonccrop. Fine tall variety. Bears flat clusters of rosy-red flowers in August and September. Leaves are thick and ornamental. Fine for barren spots. 1½ to 2 ft. Pkt. 20c.

Sempervivum

3321 HEN AND CHICKENS, Perennial Species Mixed. Very useful border and Rock Garden Plants. A mixture of a great many sorts which will enable you to raise a fine collection of plants at low cost. Grow 4 to 6 Inches high. Pkt. 25c.

Silene, Catchfly
Charming rock plants, blooming nearly all summer.
Easy to grow under ordinary conditions.
3338 SCHAFTA. R. G. Masses of bright pink double flowers from July to October. Very easily grown from seed. 4 to 6 inches tall. Pkt. 10c; 1/8 oz. 40c.
3339 ASTERIAS GRANDIFLORA. Globular heads of carmine scarlet flowers. 1 1/2 ft. tall. Pkt. 10c; 1/8 oz. 30c.

Stokesia, Stoke's Aster

3354 CYANEA BLUE. Another very fine subject for the blue garden, the plants bearing large flowers (3 to 4 inches) of lavender blue that resemble the Aster and also the Cornflower. The long blooming season of Stokesia (July to October) is rare in perennials. Plants of erect growth. 1 to 2 ft. high. Pkt. 10c; 1/8 oz. 30c.

Thalictrum Rue

Stately plants with foliage resembling Maiden Hair Fern, fine for bouquet trim. Dainty flowers in terminal clusters. Protect slightly for winter as they are not extremely hardy.

3396 DIPTEROCARPIM. Posservers in Augustin.

and September, 4 to 5 feet tall. Pkt. 10c; 16 oz. 30c.

Veronica, Speedwell

A beautiful and desirable family of plants at home anywhere in your garden but exceptionally fine for the border or Rock Garden. Thrive well in a well drained soil in an open location where they receive plenty of sun.

3141 LONGIFOLIA BLUE. R. G. Graceful, slender spikes of lavender-blue from July to September. Naturalize well, make beautiful cut-flowers and grow 2 to 3 feet tall. Pkt. 10c; ½ oz. 25c.

3442 SPICATA MIXED. R. G. Smaller type, 1 to 1½ feet tall, blooms in July. Bear pretty spikes of blue, rose and white flowers. Pkt. 10c; ½ oz. 40c.

3443 TEUCRIUM BLUE. R. G. Delightful dwarf variety only 1 foot high and one of the finest blue plants for the Rock Garden. Beautiful Gentian Blue with ornamental foliage. Pkt. 10c; ½ oz. 35c.

3444 REPENS. R. G. Creeping Specdwell. Fine carpet, bedding or Rock Garden plant with its attractive trailing stems and small white flowers, blooming July and August. 4 inches tall. Pkt. 15c; ¼ oz. 40c.

Sweet Williams, Dianthus Barbatus

Sweet Williams need no long description, they are so well known and popular. Easy to grow, splendid for massing in perennial border, make a gorgeous display during May and June. Plants are normally 15 to 18 inches high.

3372 SINGLE MIXED. Pkt. 5c; ¼ oz. 20c.

3373 DOUBLE MIXED. Pkt. 10c; ¼ oz. 30c.
Single Giant Sweet Williams in Separate Colors.

3366 DARK CRIMSON. 3364 SCARLET BEAUTY. 3365 WHITE. 3362 **MOLBORN GLORY.** Giant flowering in many colors with white eye. 3363 PINK BEAUTY or NEWPORT PINK. Watermelon or rosy-pink. Large

Price any of above varieties. Pkt. 10c; 1/4 oz. 25c. 3370 Sweet William Collection One packet each of five separate colors of Single Giants listed above. A 50c value for only 40c.

3361 Single Giant Mixed Sweet Williams
Fine mixture of brightest colors and shades, not present in other mixtures, and
Margined and Auricula varieties. Pkt. 10c; 1/4 oz. 25c.

Ihymus or Ihyme

3399 SERPYLLUM. Mother of Thyme. R. G. A tiny Rock Garden plant with creeping purple scented foliage. Fine for stepping stones. Violet, white and rose. 2 to 3 inches tall. June and July. Pkt. 15c.

Trollius Globe Flower or Golden Bali See Color Plate, Page 52.

Beautiful gold and yellow perennials. Stems 18 inches long, flowers large double globe-shaped, usually 1½ inches across. Bloom in May and June, sometimes a second crop is produced in the fall. Like moist, cool spots in partial shade. Seed slow to germinate, sometimes not starting until the year following the sowing.

3404 FINEST HYBRIDS. Rich shades of yellow, gold and orange. Pkt. 15c; \(\frac{1}{16}\) oz. 45c.

3405 EUROPEUS GOLDEN BALL. Large globular flowers of soft, rich yellow. 20 inches tall. Pkt. 10c. 3403 LEDEBOURI. Deep orange. 2 ft. Pkt. 15c.

Tunica, Coat Flower

3410 SAXIFRAGA. R. G. A neat little plant producing small light pink flowers all summer. It somewhat resembles Gypsophila and if started early will bloom the first season. It is suitable for edgings in almost any location and for rock gardens. 5 to 6 inches tall. Pkt. 10c; 4 oz. 25c.

Hardy Violas

Viola Cornuta, Hardy Tufted Pansy
Hardy Violas combine the free blooming habits of
the Pansy with the hardy character of the Violets.
Plants will not run out like the Pansy nor are the
flowers as large, but are produced in profusion during
the entire season.
3440 INDEXES

3449 JERSEY GEM, CORNUTA HYBRID. Compact plant, flowers of deep violet-blue with an occasional variation in tint. Continuous bloom over long period. S inches. Pkt. 25c.

3452 APRICOT. Cornuta Hybrid of rich yellow, suffused orange. Very showy. Pkt. 15c; ½ oz. 30c. 3457 ARKRIGHT'S RUBY. Beautiful Viola of bright ruby-crimson with terra cotta shadings can now be produced true to color from seed with only a slight variation in shade. Pkt. 15c; Large Pkt. \$1.00.

3450 ADMIRATION. Rich rosy-purple. Pkt. 10c; 1/8 oz. 35c.

3453 ROSE QUEEN. Beautiful rose. Pkt. 15c; 16 oz. 50c.

3448 Viola Cornuta Mixed A splendid assortment of all available colors in the large flowering varieties. Pkt. 10c; 1/8 oz. 35c.

3460 Viola Bosniaca A very lovely small desirable for the border or Rockery. Small deep purple flowers freely produced all summer. 3 inches. Pkt. 10c; 16 oz. 30c.

New "GEM" Violas

These are the Jersey Gem type of flower as shown in the illustration. Free and long blooming.

3465 Lavender Gem. Brilliant lavender blue.

3466 Rosy Gem. Rich deep rose.

3467 White Gem. Pure white.

3 168 Yeilow Gem. Bright pure yellow.

Price of any variety, 25c. Any 3 packets 60c.

3346 LATIFOLIA BLUE. See illustration above. 3346 LATIFOLIA BLUE. See illustration above. Graceful panicles or sprays of light purplish-blue that cover the plants in July and August. Prized for winter bouquets, lovely for the Rock Garden. 2 ft. tall. Pkt. 10c; ½ oz. 30c.

3347 DUMOSA. Bushy plants, carrying cushions of silvery gray flowers. Provide a wealth of cutting material and fine for winter bouquets. Stiff, wiry stems. 2½ ft. tall. Pkt. 15c; ½ oz. 25c.

3348 CASPIA. Long graceful sprays of delicate minute flowers of lilac-blue. Desirable for cut-flowers for summer or winter bouquets. 2 to 2½ feet tall. Pkt. 15c; ½ oz. 35c.

Tritoma, Red Hot Poker See Color Page 83

Flame flower or Torch Lily. Tritomas are really

Flame flower or Torch Lily. Tritomas are really perennials but the roots are tender and in the Northern States should be taken up and stored like Dahlias.

3406 HYBRIDA MIRABILIS. 3 ft. Bright yellow, will bloom the first year from seed sown in February or March, transplanted out in May. They will bloom August to late Autumn. Pkt. 10c; 16 oz. 25c.

3407 ELEGANS MULTICOLOR. Early flowering Hybrids in a rich variety of shades flaring orange. Hybrids in a rich variety of shades flaring orange, yellow and scarlet. Pkt. 10c; 16 oz. 45c.

Valeriana, Garden Heliotrope
3426 OFFICINALIS. Charming hardy plants, producing quantities of rose tinted white flowers in showy heads on tall strong stems. Delightfully fragrant with strong heliotrope odor, borne freely during June and July. Easily grown and very hardy. 3½ ft. Pkt. 10c; ½ oz. 50c.
3427 RUBRA MIXED. Produces an abundance of old rose and white flowers, from June to October. 2 ft. Pkt. 10c; ¼ oz. 30c.

Hardy Violets

Viola Odorata. Fragrant hardy English Violets.

Require abundant moisture and partial shade. Seed may be sown in late fall, early spring and transplanted or sown in a cool shady place after cold weather is over

3458 THE CZAR. Blue. Pkt. 15c; $\frac{1}{16}$ oz. 40c. 3459 SNOWFLAKE. White. Pkt. 15c; $\frac{1}{16}$ oz. 40c.

Well known, delightfully fragrant perennials, blooming in the spring with spikes of beautiful flowers in many colors. In the Northern states, they will need protection during the winter.

3462 TALL DOUBLE BRANCHING MIXED. Colors like the above, flowers double. Pkt. 15c; ½ oz. 40c.

2734 ALLIONI, Siberian Wallflower. Bears an abundance of dazzling orange flowers during June and

abundance of dazzling orange flowers during June and July. Excellent for Rock Gardens, growing only about one foothigh. Treatas a biennial. Pkt. 10c; 1/4 oz. 25c. 2735 LINIFOLIUS, Alpine Wallflower. A dwarf variety especially fine for bedding or Rock Garden use. Very free flowering from June to August. Lilac flowers in compact heads. 9 inches tall. Pkt. 10c; 1/8 oz. 30c.

Two Fine Perennial Mixtures 3471 Tall Sorts Most desirable varieties for border planting or for cut-flowers. Most all grow 2 to 3 feet tall. Very interesting to grow. Pkt. 10c; ¼ oz. 35c; oz. \$1.00.

3472 For Rock Gardens This mixture includes the varieties that are best for Rock Garden use. All semidwarf and low growing and will thrive well in the rockery. Pkt. 20c; ½ oz. 25.

VEGETABLE PLANTING TABLE

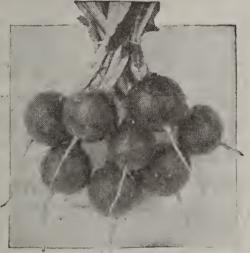

If you are in doubt about how or when to sow the seed or plant the plants of certain vegetables, this table will give you the required information. Full cultural instructions are given for each vegetable on the page where it is listed. We are always interested in providing any information that will enable our customers to achieve the greatest possible success with their gardens. Caution: Don't cover the seed too deep. It will germinate more quickly if only a little soil is on the seed.

Tomato, Searlet Dawn

Muskmelon Imperial

Radish, Glowing Ball

3766 Cucumber, Straight 8

All-America 1935 Gold Medal. The most outstanding variety of Cucumber developed during the past decade. Ideal in size, 8 inches long; shape, uniformly cylindrical; color, the desirable deep dark green. Extremely productive, attractive, superior quality. Pkt. 15c.

Restremely productive, attractive, superior quality. Pkt. 15c.

3854 Lettuce, Creamy Hearts

One of the easiest to head and best quality to eat of all the head lettuce. The heads are medium large, the leaves are thick and buttery yet crisp. Really a splendid home garden variety. Pkt. 5c; Oz. 15c.

3940 Parsley, Paramount 1936 Award of Merit. Unusually rich dark green, triple curled and the uniformity of plant is most striking. 12 inches high with 20 inch spread. Triangular frond, 4 to 5 inches at base. Pkt. 10c; Oz. 20c; 14 lb. 50e.

3972 Peas, Giant Early Cropper An extra early, very heavy cropping new variety of much merit. The pods are large, dark green, 4 inches long and contain usually 7 large, sweet, light-green peas. Earliness, heavy bearing and fine table quality make this a most desirable variety both as a home garden variety and for market growing. See illustration above. Pkt. 5c; 1/4 lb. 12c; lb. 40c; 3 lbs. \$1:10.

4012 Radish, Comet Award of Mcrit. This wonderful new Radish is perfectly ball shaped, bright scarlet and with thin tap-roots. If left in the ground, Comet grows a larger size than other strains and still remains solid and crisp when other Radishes become pithy. Pkt. 10c; Oz. 20c.

4010 Radish-Glowing Ball All-America Gold Mcdal 1931. Bright fiery scarlet with a suffusion of orange. Perfectly round, small top and a thread-like tap-root. Recommended by the Royal Horticultural Society. Pkt. 8c; oz. 15c; 1/4 lb. 35c.

All-America Selections And Other 1936 Vegetable Novelties

Which We Especially Recommend

It is the new and special varieties that help to make your garden of more interest, more pleasure and more profit.

Vegetables for Your Own Table

There is no more satisfactory way of obtaining good fresh vegetables of the best quality for your own use than to grow them in your own garden, and gather them just as you need them. Vegetables begin to lose their tenderness and good flavor very soon after they have been gathered, and when they have lain in the market for a day or even several hours they have lost much of their best qualities. Consider also the convenience of being able to step into your garden and select a nice fresh lot of several varieties just when you are ready to prepare your dinner.

Templin-Bradley's Vegetable Seeds

One of the essentials of a good vegetable garden is good seed. In our selection of varieties and strains within varieties we are looking through the eyes of the planters of vegetable seeds, the home gardeners and commercial growers. Every possible care is taken to provide you gardeners with the finest vegetable seed obtainable.

All-America Have You Been Reading In The Magazines About The All-America Flower & Vegetable Selections? For the past four years, the All-America Selections Committee of the American Seed Trade Association, have conducted trials of new introductions in ten widely scattered locations in the United States for the purpose of determining the usefulness of all new varieties of seeds offered in this country. Gold Medals, Awards of Merit and Honorable Mention have been distributed on the basis of merit by unbiased judges. All new varieties so honored in the past four years appear in this catalog with the indication of the exact award in the description. This will guide you in keeping your garden up to date on the really worthwhile new things. The purpose of this All-America Selection is to prove the worthiness of a new variety before offering it to you and is therefore directly in your interest.

3516 Bean-Tendergreen All-America Gold Medal 1933. Long round, tender, meaty, light green snap bean of finest flavor. Matures early and the vines are exceptionally strong and vigorous, a delicious Bean. Pkt. 5c; ¼ lb. 15c; lb. 10c; 3 lbs. \$1.00.

3578 Beet-Perfected Detroit All-America Award of Merit of blood beet yet created. Early, round, dark red, no white rings. Produced by inbreeding and reselection over a period of 8 years. Pkt. 10c; oz. 25c; ¼ lb. 60c; lb. \$1.50.

3620 Cabbage-Just Right All-America Special Mention tish round heads and short stems. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25.

3631 Cabbage-Penn State Ballhead of Merit 1934. A short stem dark bluish green Ballhead type, 12 inches high. Heads are extremely hard, heavy, uniformly globe-shaped and with small cores. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35.

hard, heavy, uniformly globe-shaped and with small cores. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.35.

3673 Carrot Morse's Bunching All-America Gold Medal drical with rounded shoulders and well stumped, 2 inches in diameter and 9 inches long. Color deep red-orange, roots free from wrinkles. A fine bunching Carrot. Pkt. 8c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

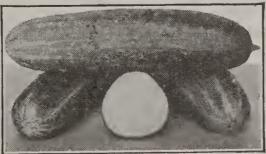

3715 Corn-Golden Colonel Mcrit. Sec Corn in natural color, page 51. A yellow companion to the ever popular Country Gentleman. Identically the same in height, 8 feet, length of ear, 7½ to 9 inches, diameter of ear, 3 to 3½ inches, cylindrical shape of ear, zig-zag, shoe-peg kernel. Golden Colonel was produced by crossing Golden Bantam with Country Gentleman. The results are the delicious flavor and golden color of Golden Bantam and the wonderful shape, size and quality of Country Gentleman. One of the greatest developments in vegetables in recent years. Pkt. 10c; ¼ lb. 25c; lb. 75c; 3 lbs. \$2.00.

3712 Corn-Kingcrost Bantam 1934. This is a double cross among four inbred strains. Early and uniform, 4½ to 5 feet tall, yellow grained ears 7½ inches long. 10 to 12 rows each. More uniform and better quality than Golden Bantam. Pkt. 5c. ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

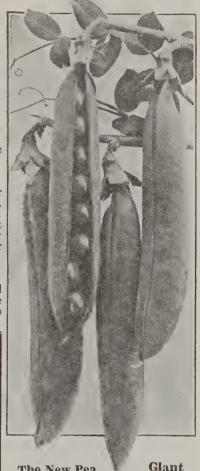

3876 Muskmelon-Imperial All-America Award of Merit 1935. cellent flavor. See page 55. Pkt. 10c; oz. 25c; ¼ lb. 70c; lb. \$2.00.

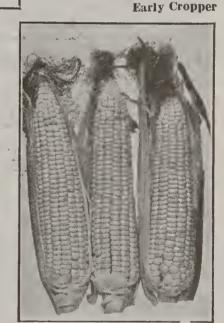

Lettuce, Creamy Hearts

Cucumber, Straight 8

The New Pea

Corn, Kingcrest Bantam

4052 Spinach-Viking
All-America Award of Merit
1935. A meritorious variety, medium
to dark green, longstanding, giant
leaved. The leaves are smooth in summer but inclined to crinkle in cool
weather. Pkt. 5c; Oz. 10c; 1/4 lb.
25c; lb. 65c.

4072 Squash, Buttercup A new type of winter Squash. Buttercup is just the right size for the average family, fruits weigh 3 to 5 pounds. Outside color is dark green, the flesh is a rich orange, untinged with green. The texture of the flesh is smooth, the flavor mild like a sweet potato, cooks dry and mealy, without strings. Shape similar to small sugar pumpkin. Pkt. Sc; Oz. 20c.

4101 Tomato, Rutger's Disease Resistment over Marglobe. It was brought out by the New Jersey Experimental Station, where it was the heaviest yielding variety in that territory. Almost round in shape, ripens from the inside out, is bright red and of wonderful quality. You will like it. Pkt. 10c; ½ oz. 40c; Oz. 75c.

4094 Tomato-Scarlet Dawn All-Ameri-Medal 1935. Wilt-Resistant, Rust-Resistant. Wonderful new Tomato of deep Marglobe red color, globe-shaped. Ranked second in the All-America trials. Pkt. 10c; ½ oz. 65c; oz. \$1.25.

Burpee's Stringless

Beans

TO HAVE PLENTY OF BEANS THROUGHOUT THE SUMMER—A fine idea is to plant both early and late varieties every two weeks from early Spring through the Summer. As most beans are ready to eat in from 45 to 50 days, keep planting just as long as there is that much time left before frost. This will give you plenty of the luscious health-giving beans for your table and for canning from early Summer to late Fall.

CULTURE—Make your first planting as soon as the soil is warm and danger of frost is past. Plant in rows 2 feet apart, dropping the seed 3 to 4 inches apart and 2 inches deep. Cultivate thoroughly but not when the vines are wet.

QUANTITY OF SEED—One pound of beans (except Limas) should plant a 100 foot row, 90 pounds will be required for an acre of ground, Bush Lima beans—one pound will plant 75 hills and 40 pounds will plant an acre.

Dwarf Green Pod Beans

3516 Tendergreen

All-American Gold Medal 1933 (Round pod.) If you want a wonderfully delicious early snap Bean, plant Tendergreen. It is long, round, tender, meaty, light green and the finest flavor. Our customers friends tell us it is the best bean they ever ate. It matures early and the vines are exceptionally strong and vigorous. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3lbs. \$1.00.

3510 Full Measure

(Round Pod). One of the best round podded varieties. (Round Pod), One of the best round podded varieties. Yields large quantities (even more than Tendergreen) of fine-grained, large, dark green tender pods. Very good table quality. Pkt. 5c; 1/4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

Cracker Jack Wax

(Flat Pod). Broad, flat, golden yellow, gracefully curved. In our experience, Webber is invariably ready to pick be-

3507 Burpee's Stringless (Round Pod). The most popular of the round podded varieties. Early, very productive—pods tender, fleshy and free from strings. Ready in 50 days. Pkt. 5c; ¼ lb. 12c; lb. 35c.

3509 Giant Stringless (Round Pod). Similar (Round Pod). Similar to Burpee's Stringless, but pods are a trifle longer, straighter, and a shade lighter green, Exceedingly productive. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lb. 90c.

3515 Early Red Valentine (Round Pod). An excellent and dependable early variety. Pods are round, fleshy, of medium green color and average 4½ to 5 inches long. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3527 Stringless Refugee Wax (Round Pod). Tender enough to melt in your mouth and absolutely stringless. Better in all ways than the old Refugee Wax. Early and productive. Round pods 5 inches long, very fleshy and curved. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3528 Pencil Pod Black Wax (Round Pod). The best of the black-seeded wax varieties. Early. Podslarge, round, 6½ to 7 inches long, straight and entirely stringless. Pkt. 5c; 4 lb. 15c; lb. 40c; 3 lbs. \$1.00. 3529 Round Pod Kidney Wax

(Round Pod). Also called Brittle Wax. An excellent variety that deserves much attention. Produces handsome pods 5 to 6 inches long, bright, rich yellow in color and absolutely stringless. For table use this variety is hard to equal, its tender fleshy, yet brittle pods are of the finest quality and are freely produced. Seeds are white with brownish-black eye. Pkt. 5c; 1/4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

Inoculate Your Beans with Nitragin see 57

Dwarf Wax Pod Beans

3521 Sure Crop Wax (Oval Round Pod). Certainly one of the best black seeded varieties as it is early, has attractive tender pods 5½ to 6½ inches long, nearly straight and is a "sure cropper." Pkt. 5c; ¼lb. 12c; lb. 35c; 3 lbs. 90c.

bean of great value and well named. Long, slim almost transparent, nearly round, only slightly flattened, quite straight. a little curved at tip, very tender. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3526 Wardwell's (Flat Pod). Yields heavy pickings of the finest looking, largest and best quality pods imaginable. Long, straight, broad and golden yellow, fleshy but brittle and fine-grained. Delicious flavor and tender. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3530 Stringless White Wax Davis Wax has long been a favorite because of the handsome

has long been a favorite because of the handsome appearance of the pods. This new strain has much better eating quality, being free from fibre or stringiness. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3522 Webber or

Webber

ed. In our experience, webber is invariably ready to pick before any other wax bean and will yield more than any other except Sure Crop Wax. It is very vigorous, healthy and wonderfully productive. Pkt. 5c; ¼ lb. 15c; lb. 40c.

3523 | m proved

Golden (Flat Pod). Pods perfectly straight, very broad, flat, but thick through, fleshy and stringless. An early abundant cropper. It is a greatly improved strain of the old style Golden Wax. It will pay you to plant this strain of Golden Wax. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c. Field or Baking Beans

3552 New Robust The best white bean for baking. Also called "1000 to 1" Field Bean. The dry beans are the same shape and color as the popular Boston Pea Bean, but it has been proven by Experimental Stations that the New Robust out-yields all other white beans. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 75c.

3555 White Marrow Large, plump, oval-shaped, white beans for baking. Vigorous vines that are very productive of the highest quality beans. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 75c.

3553 White Kidney Also called Royal large upright plants, bearing plenty of pods, which are dark green and about 6 inches long. Seed large, white, kidney-shaped and of excellent quality. Use as green, shelled or dry. Pkt. 5c; 1/4 lb. 10c; lb. 30c; 3 lbs. 75c.

3554 Red Kidney Quite like White Kidney except that the beans are deep red in color. Pkt. 5c; 1/4 lb. 10c; lb. 30c; 3 lbs. 75c.

Bountiful (Flat Podded.) Best flat-podded stringless variety. Pods 6 ½ to 7 inches long, stout, flat and nearly stringless. Calor light, or

Full Measure

stringless. Color light green. Very early, vigorous, hardy, productive. Fine quality. Pkt. 5c; ¼ lb. 15c; lb, 45c; 3 lbs. \$1.10.

3514 Refugee Stringless (Round Pod). A stringless strain of the popular Refugee. Pods round, light green, stringless and of high quality. Pkt. 5c; 1/4 lb. 12c; lb. 35c; 3 lbs. 90c.

3513 Ruby Dwarf Horticultural Agood variety for green shell beans, or can be used early as a green pod snap bean. Plants are productive and mature pods are broad five inches or more long, color yellow splashed with red. They are about equal to Limas in quality. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

Lima Beans

Two Fine Pole Limas

3546 King of the Garden A favorite with gardeners because of the great size of pods, which contain 4 to 5 very large fine quality green beans. The vines produce continually until killed by frost. An improved strain of Large White Lima, Pkt. 5c; 4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3547 Siebert's Early The earliest of the Pole Limas, vigorous and remarkably productive of large curved pods about 5 inches long. The beans are very easy to shell and of excellent quality. Pkt. 5c; ¹/₄ lb. 12c; lb. 35c; 3 lbs. 90c.

Dwarf or Bush Lima

3536 New Wonder or Burpee's Improved Bush Lima. The recognized standard of Bush Lima Bean quality. Large robust, compact, plants; productive. Pods uniformly large, produced in clusters and maturing in midseason. Large flat beans of superior quality. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3537 Fordhook

The plant is ideal for productiveness and disease resistance, bearing the large pods in clusters of 4 to 6 well up above the ground. The pods and beans are of the Potato Lima type, large, thick and handsome. Early, being ready to eat in 75 to 80 days yet productive over a long period.

40c; 3 lbs. \$1.00.

3538 Henderson's Early The earliest of ali Linia Beans—by planting it gardeners in even the northernmost States can enjoy Limas from their own gardens. Pods are small but borne so plentifully that the yield is large. Beans of excellent flavor. Pkt. 5c; 1/4 lb. 12c; lb. 35c; 3 lbs. 90c.

3501 Asparagus, Mary Washington

This is the best of the newly developed Rust Proof varieties, and is recommended by the U. S. Dept. of Agriculture. It is a selection from Martha Washington and produces large straight tender green stalks of excellent quality. SEED. Asparagus is not hard to grow. Start seed in early spring, covering an inch deep. Cultivate well during the summer, transplanting the roots to their permanent bed the their permanent bed the following spring. One ounce should sow a 60 ft. row and produce 200 to 300 plants. Pkt. 10c; Oz. 15c; ¼ lb. 30c; lb. 75c.

Pole or Cornhill Beans

CULTURE—Same as bush lima beans except that they must be provided with something to climb upon. If planted in hills, poles will answer the purpose, or if planted in rows a continuous wire or heavy twine trellis is good. Pole Beans yield many more pods per plant than dwarf varieties. One pound will plant 100 hills.

3557 Kentucky Wonder or Old Homestead. The green podded Pole Beans. Early, wonderfully prolific, bearing continually until frost. Long pods in clusters. May be planted with corn. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3563 Kentucky Wonder Wax One of the earliest tive of the wax Pole Beans. Pods 7½ to 8 inches long, thick, fleshy and brittle. Light yellow, seed chocolate brown. Pkt. 5c; ¼ lb. 15c; lb. 40c; 3 lbs. \$1.00.

3558 Golden Cluster Wax A splendid Wax Pole inches long, golden yellow, thick, fleshy and stringless. White seeded. Pkt.5c; 1/4 lb. 15c; lb. 40c; 3 lbs. \$1.00.

3559 Lazy Wife Popular for snaps, shell beans or for beans clusters, long, broad, thick, fleshy, green pods, white seed. Pkt. 5c; 1/4 lb. 12c; lb. 35c; 3 lbs. 90c.

3561 Horticultural Cranberry Wren's Egg. Used for Dry seed speckled. Pkt. 5c; 1/4 lb. 12c; lb. 35c; 3 lbs. 90c.

3562 Yard Long Asparagus Bean. An interesting novelty from the old country. Long, slim, round pods, often 2 to 3 feet long. The pods are edible. Pkt. 10c.

Beets

GROW YOUR OWN BEETS—Root crops give more food value for the space occupied than any other vegetable. Beets are the most popular of all root crops. Beets may be stored for winter use. Best of all, the small beets pulled and used soon after, are much sweeter and more tender than any you could buy. Try some buttered tender baby beets from your own garden this year. Make at least two plantings of beets so that you have plenty for early use and for winter storage as well.

3576 Detroit Dark Red The most popular of all beets.

Detroit makes a beautiful appearance served on the table or bunched for market, as it retains its deep red color. A big cropper with small upright tops, permitting close planting. The roots are globe shaped, see picture at left. Skin and flesh dark, blood red with very little lighter zoning. An excellent winter keeper. Pkt. Sc; oz. 20c; 1/4 lb. 50c.

TABLE BEETS CULTURE. Beets like well enriched moist soil. Sow the seed 1 inch deep in rows 12 to 16 inches apart, and thin out to stand 4 inches apart. First sowing may be made as early as the soil is in good workable condition, later plantings up to July 1st.

QUANTITY OF SEED. One ounce should sow a 50 to 75 foot row, 5 to 6 pounds an acre. Packets of the standard varieties will contain about 1/4 ounce.

3581 Ohio Canner A beet that has been meet the exacting demands of the canner and which therefore makes an unusually fine home garden variety. Roots very round and uniform and with small tops. Flesh is tender and extremely dark red, retaining its color after canning. Slower in growth than Detroit so gives a long period of use in the home garden. Pkt. Sc; oz. 20c; 4 lb. 50c. All American 1933.

Detroit Dark Red

Sludstrup

Detroit Perfected

All American 1934.
An improved strain with which we are coming close to perfection in uniformity of size and shape of roots and extreme depth of color. Pkt. 10c; oz. 25c; 14 lb. 60c.

3579 Extra Early Egyptian One of the very earliest, especially valuable for forcing for early market. Tops small, roots distinctly flat and moderately thick. Flesh dark red with lighter zones. Pkt. 5c; oz. 15c; 14 lb. 40c; lb. \$1.00.

3580 Edmand's Blood Turnip Roots nearly round, dark red. Flesh purplish-red with very little zoning. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3573 Crosby's Egyptian An improved strain of old Egyptian and now the standard for early market. The

roots are flattened globe shaped (see picture below). Skin deep red, flesh slightly zoned. This strain of Crosby's Egyptian is suitable for the most critical market gardeners planting. Much extra work has been done on this to perfect uniformity in shape and color of roots. Pkt. 5c; oz. 15c; 1/4 lb. 40c.

Broccoli, Hardy Cauliflower

3601 Large White Broccoli A vegetable very similar to Cauliflower, but hardier and less particular of conditions. Produces large white compact heads, tender and of delicate cauliflower flavor. Grow like Cauliflower. Pkt. 10c; oz. 50c; 1/4 lb. \$1.50.

Italian Green Broccoli

3602 Italian Green Sprouting A distinct variety and a vegetable that has become very popular. Served as Asparagus it is very tasty, some considering it better than Cauliflower, yet it is easier to grow than Cauliflower. Grows quickly producing a cauliflower-like bluish green head in about 90 days. After the head is removed to

days. After the head is removed the plant produces branches bearing smaller terminal heads, which may also be used. Pkt. 5c; oz. 40c; ¼ lb. \$1.25.

Crosby's Egyptlan

Mangel Beets for Poultry and Stock

QUANTITY OF SEED. One ounce should sow a 75 to 100 ft, row. 5 to 6 pounds an acre.

3586 Mammoth Long Red 'The heaviest yielding of all mangels, often 2½ ft. long and very heavy. Grows half out of ground, easy to harvest. Oz. Sc; ¼ 1b. 20c; lb. 60c.

3589 Danish Sludstrup

Produces large oval orange colored roots than grow more than half above ground. Flesh white tinged yellow and of extremely high sugar content. An unusually valuable dairy beet. Oz. 10c; ¼ lb. 25c; lb. c.65

3588 Giant Half Sugar

The richest of all mangels in sugar content and feeding value. Ready to harvest earlier than others. Skin rose colored; flesh white. Oz. 10c; ¼ lb. 25c; lb. 65c.

Brussels Sprouts

3612 Long Island Improved

Small heads of delicious quality are abundantly produced along the stem, the plants growing about 2 ft. high. Cultivate same as late cabbage. Produces tender little heads from October to December. Pkt. Sc; oz. 25c; ¼ lb. 75c; lb. \$2.00.

Brussels Sprouts

Swiss Chard or Spinach Beet

3596 Lucullus

Has very large heavily crumpled, thick leaves and creamy white stalks. Pkt. 5c; oz. 15c; 4 lb. 35c.

³⁵⁹⁷Large White

Ribbed Dark Green.
Has enor.
mous leaves not quite as crumpled as Lucullus and pearly white stalks extremely thick and broad.
Pkt. Sc; oz. 20c; 1/4 lb.
45c.

Swiss Chard

Cabbage—Selected Strains

Many Inferior strains of Cabbage are offered on the market at low prices because prices on the super-selected strains seem high. However, in Cabbage seed, the best is the circapest in the long run. Therefore, we offer only the highest quality that it is possible to obtain from the most reliable growers.

culture—Sow the seed of early varieties in hot beds or boxes indoors in February and March, transplanting to the open ground in April and May at which time seed of the mid-season varieties may be sown for later transplanting. Seed of the late varieties should be sown in good garden ground early in May and transplanted later. Cabbage should stand 18 to 24 inches apart in rows 30 to 36 inches apart. Cabbage should be thoroughly

cultivated throughout the season.

QUANTITY OF SEED. An ounce should produce about 2,500 plants, ½ lb. enough for one acre.

Early Cabbages

Early Jersey Wakefield This is the most popular of the pointed heads. It forms an edible head very early, about the same as Golden Acre in season. The absence of large spreading outer flavor, distinct from the round head varieties and we strongly recommend it for the home garden. Pkt. 5c; oz. 30c.

3616 Golden Acre The earliest round headed variety, forming a good solid Absence of large outer leaves permits close planting. Pkt. 8c; oz. 40c.

3620 Just Right All-American 1935 Special Mention. A first early, flat1/2 oz. 25c; oz. 40c.

3631 Penn State Ballhead All-American 1934 Award of Merlt. Short stemmed variety, large, hard, solid, blue-green flattened globe. See Page 45. Pkt. 10c; ½ oz. 25c; oz. 45c.

3619 Copenhagen Market The standard early round variety, only a few days later than Wakefield, but much larger and heavier. Heads averaging 8 to 10 lbs. each. Very compact in habit, with few outer leaves, which permit close planting. Earliness, compact growth, large heads and superior quality have made this cabbage very profitable. Pkt. 5c; oz. 25c.

3621 Glory of Enkhuisen Around, solid head and early but about one week later than Copenhagen Market. Matures in about 90 days. A very profitable cabbage both for the early market and for Fall use. Desirable variety for Kraut making. Heads medium sized, close leaved and very good keepers. Pkt. 5c; oz. 25c.

Drumhead Savoy

Late Cabbages

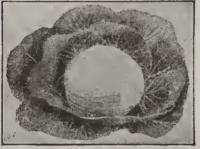

3626 Danish Ballhead For quality, no other winter cabbage equals Ballhead. It is a sure header, very heavy, solid and fine grained. Always brings the highest market prices. One of the best keepers, coming out of the pit in March or April fresh and solid. This is the short stemmed strain which is considered the most desirable. Pkt. Sc; oz. 35c.

3641 Drumhead Savoy Many consider Savoy the finest quality of and the heads solid. If you have never grown Savoy Cabbage, try it this year, you'll like it immensely. Pkt. 5c; oz. 25c.

3630 Early Flat Dutch An early and especially fine Flat Dutch, 10 days to 2 weeks earlier than Premium Flat Dutch. Heads are round, flat and very solid and average a little smaller than the Premium Flat Dutch. It is a very good keeper. Stems are of medium length Pkt. 50: 02, 250. length. Pkt. 5c; oz. 25c.

3628 Premium Late Flat Dutch Probably more largely grown than any other late variety, because everybody knows it is always reliable. Uniform, large flattened heads of fine quality and a good keeper. Largely, grown to supply Kraut factories. Beats all others in tonnage per acre. Pkt. 5c; oz. 25c.

3622 All Head Early As early as most of the early summer cabbages; the deep, flat heads are remarkably solid and uniform in color as well as in shape and size. Also makes a fine winter cabbage if planted late and a splendid sort for kraut-making. Pkt. 5c; oz. 20c.

Copenhagen Market

Disease Resistant Cabbage

In sections where Cabbage "Yellows" is damaging, it pays to plant strains bred for disease resistance. The seed of the two disease-resistant varieties listed below, is gathered from plants grown on diseased soil and which proved immune.

3623 Marion Market Early. This is the disease-resistant Copenhagen Market It is a few days later but otherwise it has all the good points of that variety. Pkt. 10c; ½ oz. 30c; oz. 50c.

3629 Wisconsin No. 8 Hollander Late. A "Yellows" disease-resistant flattened and more leafy than the parent. The heads are round or somewhat flattened and more solid, with splendid keeping qualities. Especially valuable in sections where cabbage plants are effected by "Yellows" disease, as it is practically 100% immune. Pkt. 10c; ½ oz. 25c; oz. 45c.

Danish Ballhead

Premium Late Flat Dutch

3742 Chives

Red Cabbages

abbages and yet it has hard, solid heads, round and very uniform. A delicious cabbage to eat and attractive in color. Pkt. 10c; ½ oz. 25c; oz. 45c.

3637 Mammoth Rock Red Late. The largest and surest heading late Red Cabbage. Deep red in color at the heart. Large, vigorous plant, very hardy with medium length stem. A favorite for coldslaw. Pkt. 5c; 27. 35c.

Chinese Cabbage

While not a true cabbage this vegetable is as easily grown as the true cabbage, and is considered by many superior in quality. It resembles celery to some extent in its habits of growth as well as in flavor. Much esteemed for salads. Sow either early for spring erop or in late summer for fall crop.

Chihli Cabbage

3648 Chihli Produces a long slender head 15 to 18 inches tall, solid and crisp. This is a self-folding variety and hearts are well blanched tender and sweet. Early and very sure heading. Superior to Pe-Tsai. Pkt. Sc; oz. 25c.

Wong-Bok

Shorter and much thicker heads only 8 to 10 inches long, but firm and tightly folded. The thick hearts are full, crisp, and tender and of excellent quality. A self-folding variety. Much esteemed for salads. Pkt. 5c; oz. 25c.

Cauliflower

Many Inferior strains of Cauliflower are offered on the market because prices of the best superselected strains seem high. However in Cauliflower seed, the best is by far the cheapest in the long run and we offer you only the best that our growers can produce. We could have Cauliflower seed grown for us at haif the prices but you would not get half as good results.

CUITURE—Cauliflower is grown much the same way as early Cabbage, the seeds started in hotbeds or boxes in February or early March. Anextra transplanting into other boxes or cold frames before setting outdoors is beneficial. In these set 2 inches apart each way. When the heads begin to form gather the outer leaves and tie together to protect from the hot sun.

QUANTITY OF SEED. One ounce will produce 2000 plants, 5 ounces an acre.

Snowball, "Super" Strain Snowball, "Super" Strain Snowball is the earliest and best for the home gardener who has rich, moist soil, for market and for the greenhouse grower. The plants are compact, with closely growing outer leaves, heads solid, medium large and snowy white. Pkt. 15c; 1/8 oz. 50c; 1/2 oz. \$1.50; 1 oz. \$2.75; 2 ozs. \$4.50; 1/4 lb. \$8.00.

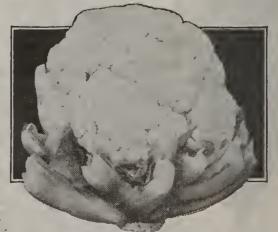

This is a valuable strain that possesses the quality of forming good heads on dry soil and during stretches of dry weather, when other varieties fail. The head is beautiful, large, snow white and is protected by large leaves making it easier to "whiten" than Snowball. Only a trifle later than Snowball, perhaps not quite as good for greenhouse growing, but a wonder for the open ground. A sure header. Pkt. 12c; 1/8 oz. 40c; 1/2 oz. \$1.10; 1 oz. \$2.00; 2 ozs. \$3.50; 1/4 lb. \$6.00.

A small perennial plant of the onion family, readily propagated from seed. The leaves have a delicate onion flavor and are much used in salads and for flavoring soups, stews, etc. Plant forms a small clump which produces an abundance of foliage for frequent cutting. Pkt. Sc; ¼ oz. 25c; oz. 75c.

"French Endive" or

This French Endive or Witloof Chicory Winter Salad.

This French Endive or Witloof Chicory is a most delicious and appetizing salad and is easily grown. Sow the seed in the open June 1st and lift the roots in the fall. For forcing, pack the roots closely together in boxes and cover with 6 inches of sand or light earth, water and place near heater to keep warm. When sprouts break through the surface, they are ready for the table. Serve with French dressing. Pkt. 5c; oz. 30c; 4_lb. 85c.

Early Snowball Cauliflower

Chantenay Carrot

Grow Your Own and Enjoy Their Lusciousness

Carrots deserve a space in your garden. In fact make several plantings so that you can have some early, midseason and late.

CULTURE—For the earliest crop sow seed in April, as soon as the soil is in good workable condition. Later plantings can be made in May and June. The soil should not be heavily fertilized, especially with manure. Cover the seed about ½ inch deep, spacing the rows 12 to 16 inches apart. It is important to thin the plants to stand not closer than 3 inches. Give frequent hoeing and cultivation. Carrots pulled just as soon as sizeable are at their best, without a hard core.

QUANTITY OF SEED. One ounce should sow a 200 ft. row, 2 to 3 lbs. an acre.

3666 Chantenay or Model The suits this variety as it is a model all around carrot. The illustration is typical of its shape and it is smooth, fine grained, of very good eating quality. When fully developed the roots are about 6 inches long and 2½ inches in diameter at the shoulder. Though a medium early variety the roots may be pulled while small so it gives you baby carrots with the earliest. An excellent fall and winter keeper. Pkt. 5c; oz. 10c; ¼ lb. 35c.

3670 Red Cored Chantenay
Also called "Coreless" Chantenay. A selection from the regular Chantenay with decidedly deeper orange color and with small, very tender cores of almost uniform color with the surrounding flesh, making it very desirable for salads or dicing. Size and shape very similar to the regular Chantenay and very uniform in size and appearance. Pkt. Sc; oz. 15c; ¼ lb. 40c.

3662 Danvers Half-Long roots. average 1½ inches in diameter and 5 to 6 inches long, holding their thickness well to the point. A favorite with market gardeners for bunching as size, shape, color and sweetness are ideal. Pkt. 5c; oz. 10c; ½ Ib. 35c.

All-America Selections and Vegetable Novelties Page 45

3668 Orange Coreless This is a beautiful carrot for the home garden and market. In shape it is quite like Nantes but a trifle more tapering, smooth, 7 to 8 inches long and 1¾ to 2 inches across at the shoulder. On real good deeply worked soil the roots are longer (10 to 12 inches). Color is orange red. This carrot is a remarkably good keeper, yet is tender, with a very small core (practically coreless). Pkt. 10c; oz. 20c; ¼ lb. 55c.

Danvers Half-Long Carrot

Scarlet Nantes

3667 Scarlet Nantes

One of the best table carrots, tender and delicious. Nantes is half-long or stump rooted, but instead of tapering like Danvers it is cylindrical in shape and grows about 6 inches long, slender and fine looking. The flesh is orange red, fine grained and free from hard fibre or core. Pkt. Sc; oz. 15c; 1/4 lb. 40c.

3671 Long Orange

An excellent, heavy producing, intermediate-season variety. Roots 10 to 12 inches long about 2½ inches broad at the shoulder, tapering regularly to a point. Color deep orange. Pkt. 5c; 0z. 15c; ½ lb. 35c; lb. \$1.00; 5 lbs. \$4.25.

3672 Imperator A beautiful Carrot of deep, rich orange. Long, and smooth with sloping shoulders and tapered to semi-blunt end. 7 to 8 inches long. The orange flesh is tender and with indistinct core. Of excellent table quality and with the attractiveness to make it a splendid market and shipping variety. The tops are strong enough for good bunching. Pkt. Sc; oz.

15c; 4 lb. 40c.

A beautiful Carrot of deep, rich orange. Long, and smooth orange. Long, and tapered and shipping variety and with the attractiveness to make it a splendid market and shipping variety. The tops are strong enough for good bunching. Pkt. Sc; oz.

15c; 4 lb. 40c.

3664 Oxheart or Guerande Asplendid second early variety of short stocky shape two to three inches in diameter and with abrupt blunt tip making it an excellent variety for shallow or heavy soils. Keeps well in storage holding its quality well, and is a very heavy yielder often producing 15 to 20 tons per acre. Pkt. 5c; oz. 10c; ¼ lb. 35c.

3673 Morse's Bunching

All-American
Gold Medal
1934
A new type developed to fill a demand for a longer and better colored bun-

ching Carrot. Roots are almost cylindrical with rounded shoulders and well stumped, 2 inches in diameter and 9 to 10 inches long. Color deep red-orange, rootsfreefrom wrinkles. Pkt. Sc; oz. 15c; ¼ lb. 40c.

3676 Mastodon Giant White Best and largest stock and poultry feed Carrot grown, and wonderfully heavy yielder. It grows partly out of the ground, making it easy to harvest. Oz. 10c; ¼1b. 30c; lb. 90c.

Orange Coreless Carrot

Celery

CULTURE—Sow seeds early in hotbed or cold frame. As soon as the plants are about 3 inches high, transplant to a nicely prepared bed in the border, or to boxes, setting them 4 to 5 inches apart. When about 8 inches high, and stocky, set them out 6 to 8 inches apart in rows 3 ft. apart and cultivate well during summer. Earth up for blanching in autumn, but never hoe or earth up when the foliage is moist or wet. The late crop may be set out in July.

QUANTITY OF SEED. One ounce should produce 5000 to 7500 plants, 4 ounces enough plants for an acre.

3686 Golden Detroit A selection from Dwarf Golden Self-Blanching and eliminates the faults. Plants heavy, compact and full hearted. Especially valuable for shipping. Pkt. 10c; ½ oz. 30c; oz. 50c.

3681 Golden Plume or Wonderful Golden Plume or Wonderful new celery. It grows quickly, produces semi-dwarf, heavy stalks, thicker than Self-blanching, with a well blanched solid heart. The color is a beautiful golden, and the flavor is par excellence. Not a winter keeper or long shipper, but excellent for nearby markets and home garden. Pkt. 10c; ½ oz. 35c; oz. 60c.

3682 Dwarf Golden Self-Blanching Original Strain. It is growth, with thick, heavily ribbed stalks, which blanch easily to a clear waxen yellow. More extensively grown for both home and market than any other variety. Original strain, best quality. Pkt. Sc; ½ oz. 25c; oz. 40c.

3684 White Plume The earliest and blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Blanches silvery white. Pkt. 5c; oz. 25c.

3685 Giant Pascal A standard fall and winter variety of vigorous, compact growth. Stalks short, thick and broad. Excellent quality for home use, but too tender to stand shipping. Golden yellow heart, and fine nutty flavor. Pkt. 5c; oz. 25c.

Prague Solid, turnip-like roots are highly esteemed for serving like parsnips or turnips or flavoring soups, etc. For winter use store same as turnips. Pkt. 5c; oz. 25c.

Celery, Golden Plume

Cress

3749 Cress Surled or Pepper Grass. Grown extensively as a small salad plant. Sow thickly in rows 1 ft. apart. Ready for table in 30 days so make successive sowings. The leaves are finely cut and feathery with a very refreshing pungent flavor. Pkt. Sc; oz. 15c.

3750 Water Cress A hardy perennial water plant, the leaves of which are used for salads or garnishing. May be grown in a stream of water or small pond. Full directions are printed on each packet. Pkt. 10c; ½ oz. 25c; oz. 40c.

3746 Corn Salad or Fetticus A delicious salad fall, winter or spring use. The plant somewhat resembles Spinach, and is just as easy to grow, being of quick growth and hardy. The leaves form a compact rosette. The leaves are made tender by frost. Serve as Lettuce, or cook like Spinach. One ounce will sow a 50 foot row. Pkt. Sc; oz. 20c; ¼ lb. 60c.

This sort is much better than the common cultivated Dandelions, being very thick in leaf and of a deep green color. Grows into an upright compact tuft of leaves, easy to bunch and tie for blanching. Pkt. Sc; oz. 50c; 1/4 lb. \$1.50.

Celery, Giant Paschal

3712 Kingcrost Golden See Novelty nage 45. Bantam All-American 1934.

All-American 1934.

3700 Golden Bantam The good quality of Golden Bantam is too well known to need long description. Our sales of the past few years show it to be the most popular variety we list. Ears 6 inches long, with 8 rows of broad kernels as sweet as honey. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 80c.

3708 Golden Giant This valuable Golden Sweet Corn was introduced to combine size and earliness. It is a cross between Golden Bantam and Howling Mob, producing heavy stalks, usually carrying two 12 to 14 rowed ears. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3697 Wonder Rantam A larger, more proliferations.

3697 Wonder Bantam A larger, more prolific type of the favorite Golden Bantam. Ears are 8 to 10 inches long and are borne higher on a sturdy stalk. Pkt. 5c; 41b. 12c; lb. 35c; 3 lbs. 90c.

3710 Whipple's Early Yellow This variety is

whipple's Early Yellow riety is shown on the front cover. Ears large, 8 to 10 inches long having 14 to 16 rows of deep, tender kernels of very fine eating quality. Ready to use only a few days later than Golden Bantam—larger eared and more productive. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3719 Golden Evergreen The product of a Golden Bantam and Stowell's Evergreen, this variety combines the fine flavor and quality of the Bantam with the size and uniformity of the Evergreen. Producing 7 to 8 inch ears of 12 to 14 rows of rich golden yellow kernels. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

Pop Corn

CULTURE-Grown like CULTURE—Grown like Sweet Corn, but may be planted closer in the row, or hills 18 to 24 inches apart. Allow the ears to mature thoroughly before cutting. Store on the ear in a cool attic or barn, away from rats or mice. One pound will plant 500 to 600 hills.

3726 Japanese

Japanese Hulless
tractive ears, peculiar in form, being nearly as thick as long. The kernels arc similar to the best strain of white Rice, only longer and slimmer and pearly white in color, but its crowning nerit lies in its popping quality, fine flavor and absence of hull or shell.

Pkt. 5c; 4 lb. 10c; lb. 30c; 3 lbs. 75c.

3732 South American Mushroom A sensational new variety of Pop Corn, that has met with immediate popularity. Of vigorous growth, 6 to 8 feet tall producing two and often three ears, 8 to 9 inches long of deep orange kernels, smooth and round, which pop larger than any corn known, and of a rich creamy yellow, deliciously tasty. Pkt. 5c; ½ lb. 12c; lb. 35c; 3 lbs. 80c.

3734 Golden Baby Rice or Golden Hulless. An excellent small-kerneled variety of pop corn which pops entirely hulless, large and flaky. Of finest quality and flavor. Ears medium short and stocky with closely arranged kernels of a rich golden yellow color. Pkt. 5c; ¼ lb. 10c; lb. 25c; 3 lbs. 65c.

3728 Mammoth White Rice Standard white variety, early and heavy yielding but in quality, superseded by Japanese Hulless, Pkt 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 75c.

3730 Queen's Golden Standard yellow kerneled variety that pops out creamy white. Pkt. 5c; ¼ lb. 10c; lb. 30c; 3 lbs. 75c.

New York Spineless Egg Plant

Sweet Corn

DO YOU KNOW WHY HOME GROWN SWEET CORN ALWAYS TASTES BEST? Because within a few hours after the tender ears are pulled off the stalk they begin to lose their sugar and they rapidly deteriorate in flavor. You can seldom buy absolutely fresh sweet corn—so unless you have grown your own, you probably do not realize how deliciously sweet it can be.

Culture. A constant supply of sweet corn may be had from your garden by planting a succession of early, midseason and late varieties and by planting each of the kinds every week or ten days. Plant after all danger of frost is past and the ground is warm, in rows 2 to 3 feet apart and 8 to 10 inches apart in the row. Corn likes frequent cultivation until the ears are formed.

Quantity of Seed. 1 lb. will plant about 300 hills or 400 to 500 feet of row. 12 to 15 lbs. will plant an acre.

3713 Bradley's Golden Early Market The earliest large true sweet corn good size, 12 rows, 7 to 8 inches long, well filled with broad butter-yellow kernels. Plenty of good qualities-early, yellow, large and delicious. Pkt. 5c; 1/4 lb. 15c; 1 lb. 40c; 3 lbs.\$ 1.00.

Yellow Varieties

3705 Golden Gem The earliest yellow corn, being one week earlier than Sunshine, of more dwarf habit and producing a sweet, 8 rowed ear equal in size to Golden Bantam, although two weeks earlier. Pkt. 5c; 1/4 lb. 12c; lb. 35c; 3 lbs. 90c. weeks earl lbs. 90c.

3701 Early Golden Sunshine

Has good sized 12 rowed ears 7 to 8 inches long and is one week to 10 days earlier than Bantam. Sunshine was developed at North Dakota Experiment Station, where earliness and hardiness are necessary qualifications. Pkt. 5c; ¹/₄ lb. 12c; lb. 35c; 3 lbs. 90c.

3715 All-America Sweet Corn Asgrow Golden Colonel

Yellow Companion to Country Gentleman. See Listing on Novelty Page 45. Pkt. 10c; ¼ lb. 25c; 1 lb. 75c; 3 lbs. \$2.00.

Listing of Varieties. We have listed all the varieties of sweet corn in the order of earliness. Of course the length of time from planting to the edible stage varies with conditions, but the listing is as accurate as possible.

White Varieties
3696 Early May-

The ears are surprisingly large for an early variety, averaging 10 rows of the tender sweet kernels and about 7 inches long. It is of excellent quality. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3608

3698 Mammoth White Cory

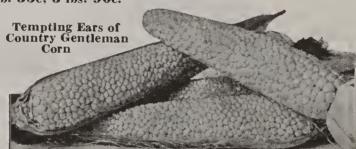

The old favorite extra early sweet corn. Ears 10 to 12 rowed, 17 to 8 inches long, fairly sweet, tender and white. Stalks about 4 feet high, usually producing two nice ears on each stalk. Pkt. 5c; 1/4 lb. 10c; lb. 30c; 3 lbs. 80c.

3709 Black Mexican By many considered the tenderest and sweetest of all. Cooks pure white while young and tender, turning to bluish-black when ripe. Ripens medium early. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs.

3720 Early Evergreen A very desirable garden sort about one week earlier than Stowell's Evergreen. Ears average 7½ to 8 inches long, with 14 to 16 rows of white kernels, deeper and slightly narrower than Stowell's. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs.

known variety which is par excellence when quality is desired. The kernels are so deep that there is little room left for cob. Market gardeners who supply hotels and high class restaurants depend on this for their main crop. The ears are 6 to 7 inches long, small white cob. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

3718 Stowell's Evergreen Select Strain. The standard main crop variety, much used for the home garden, market and canning. It is very tender and sugary, remaining in condition a long time. Our stock is the true deep, broad kerneled strain. Pkt. 5c; ¼ lb. 12c; lb. 35c; 3 lbs. 90c.

New Hybrid Sweet Corns

We are now able to offer for the first time, new strains of Hybrid Sweet Corn that are the results of many years of experimental crossing and breeding.

Increase Yields 50% or more

The advantages to you in planting Hybrid Corns are briefly as follows: They produce vigorous sturdy and disease resistant plants, no weak plants, no nubbins. These desirable features enable this kind of corn to outyield the standard varieties under all sorts of conditions.

The stalks are very uniform and there is a much larger proportion of marketable ears of even size and shape. The uniformity and vigor of the plant growth means uniform maturity so that the gardener can harvest the crop with a minimum of immature or over ripe ears.

immature or over ripe ears.

We recommend the following varleties:

3699 Golden Cross Bantam A true hydroduced by the Purdue Experimental Station. The stalks are sturdy. Ears 7½ to 8 inches long. 10 to 12 rowed and are extremely uniform. Highly resistant to Stewart's disease. Pkt. 5c; ¼ lb. 15c; 1 lb. 45c; 3 lbs. \$1.25.

3707 Top Cross Sunshine A much improved strain of Sunshine. Not quite as early as standard Sunshine but a few days earlier than Golden Cross Bantam. Produces a 12 rowed ear of excellent quality. Pkt. 5c; ½ lb. 15c; 1 lb. 45c; 3 lbs. \$1.25

3706 Top Cross Bantam A few than Golden Cross. Ears 7 to 7½ inches long, 10 to 12 rowed. Resistant to Stewart's disease. Far better than the standard strains of Bantam. ¼ lb. 15c.

Egg Plant

CULTURE—Egg plant likes rich moist soil. Start seed early in hot beds or boxes and transplant once before setting out in the open ground, which should not be until the ground is thoroughly warm. In the garden the plants may be set 2 feet apart in the rows which are 2½ to 3 ft. apart.

QUANTITY OF SEED. One ounce should produce 1500 to 2000 plants, 4 ounces enough for an acre.

3784 New York Spineless The best main crop variety about 10 days later than Black Beauty, but larger and more prolific. Each plant often bears 8 to 10 nice "Eggs" of deep rich purple. Fruits perfectly spineless. Our strain of seed is of Superfine Quality. Pkt. 5c; ¼ oz. 18c; oz. 50c; ¼ ib. \$1.50.

3785 Black Beauty So best for the Northern States. A dwarf growing variety bearing fruits 2 to 3 lbs. in weight. Holds the dark purple color for a long time. About 10 days earlier than New York and not quite as large. Pkt. 5c; ¼ oz. 18c; oz. 50c; ¼ lb. \$1.50.

Extra Long Green Cucumber

BestPickling Cucumbers

3780 National Pickling A superior strain of pickling cucumber developed by the Michigan Agricultural College under the supervision of the National Pickle Packers Assn. Fruits straight and symmetrical, 6 inches long when mature. Pkt. 5c; oz. 15c; 1/4 lb. 50c.

3775 Jersey Pickle Very prolific and exceed-planted for pickles. The fruits are short, smooth, light green and of excellent quality. We recommend Jersey Pickle for the home garden, as it is a good slicer as well as a pickler. Has tapering ends. Pkt. 5c; oz. 15c; 1/4 1b. 50c.

3776 Chicago Pickle Meets the most exacting pickle makers. It is the right size, shape and color, and is a heavy yielder. Has square ends. Pkt. 5c; oz. 15c; 1/4 lb. 50c.

3774 Express Pickler Express is the earliest picking cucumber, bearing a remarkable number of small uniform fruits. Only 3½ to 4 inches long when fully grown. Pkt. Sc; oz. 20c; ¼ lb. 60c.

3777 Boston Pickle Green Prollific. A short fairly smooth symmetrical variety, extremely early and productive. Pkt. 5c; oz. 15c; ¼ lb. 50c.

DO YOU LIKE SLICED CUCUMBERS IN HOT WEATHER? When you can go out in your garden and pick a few nice slicers just before meal time, they taste ever so much better than those purchased outside.

CULTURE—A light warm soil is best for Cucumbers, although they will do very well in most any good well drained garden soil. After all frost danger is past sow the seed in hills 4x4 or 4x6 feet apart. Cover ½ inch deep planting 8 to 10 seeds in each hill. Later when the danger of insects is over remove all but 3 or 4 of the strongest plants.

QUANTITY OF SEED. One ounce should plant about 50 hills, 2 lbs. an acre.

Standard Slicing **Varieties**

3756 Improved White Spine The standard universally satisfactory variety more extensively grown than any other. Normal size 6 to 7 inches long and 2½ inches in diameter. Pkt. 5c; oz. 15c; ¼ lb. 50c.

3758 Davis Perfect Long, slim, smooth and especially attractive for its dark green color. Fruit 10 to 12 inches long and the tender, sparkling, white flesh makes it most desirable for slicing for the table. Pkt. 5c; oz. 15c; 1/4 lb. 50c.

The fruits are of good length, rich dark green, well shaped and with thick white flesh and small seed cavity. A great improvement over White Spine in length and color, retaining its color long after picking. Pkt. Sc; oz. 15c; 1/4 lb. 50c.

3762 Long Green Improved A model in size, form and color. Uniformly long and smooth, deep green in color. A money maker for the market gardener and a universal favorite for home use. Fruit 12 to 15 inches long, flesh solid and crisp with few seeds. Extensively planted as a pickling variety as well as a slicer. Pkt. Sc; oz. 20c; 1/4 lb. 65c.

A Basket of Improved White Spine Cucumbers

Two Fine New Cucumbers

3765 Longfellow Extra Long Slicer. An excellent new variety, long, slender dark green. Under ideal conditions, this variety will grow 12 to 14 inches long by 2½ inches in diameter. The deep green color held well. Pkt. 10c; oz. 30c; ¼ lb. 85c.

3764 Hybrid White Spine This is an ideal variety where an excellent long slicing cucumber is wanted. The fruits are long, slender and uniform in shape and size, with very few seeds and with firm flesh and good keeping quality. The dark green color is held until the fruits are ripe. Though not as long as Longfellow, this variety is more certain to do well under poor conditions, so for the home garden, it is perhaps preferable to Longfellow.

Pkt. Sc; oz. 20c; 41b. 60c.

Hybrid White Spine

Endive

3794 Green Curled The best known variety. Highly prized as a salad during autumn and early win ter. Also may be served like Spinach. Seeds should be sown in July and transplanted in rows in last of August. For early summer use, sow seed in early spring. Blanching may be done by tying up the outer leaves or by covering with straw. Pkt. 5c; oz. 15c; 14 lb. 45c.

3795 Batavian Broad Leaved Full Heart-Broad, deep green waved leaves and

creamy white midribs. Inner leaves form a ner leaves form a cluster head which blanches white, crisp and tender. A distinctly improved type of Batavian with very comwith very com-pact full heart of fine quality. Pkt. Sc; oz. 20c; 8c; oz. 2 1/4 lb. 45c.

Chlcago Pickle

Cucumber Longfellow

3766 All-America 1935 Gold Medal Cucumber, Straight Eight

Straight, symmetrical, almost cylindrical, rounded at ends, ideal dark green, almost devoid of striping and 8 inches long. Fine for market gardeners.

Also Listed on Novelty Page-Pkt. 15c.

Vegetable Seeds Market Gardeners See Page 6

Forms turnip-like bulbs on the stem above the ground. These grow quickly and should be used while young and tender when they are very sweet and nutritious. Simply sow in rows covering $\frac{1}{2}$ inch deep, and thin the plants to stand 6 or 8 inches apart. 3831 Early White Vienna The bulbs are green, early and tender, with small tops—a good forcing strain. Pkt. 5c; oz. 20c; 1/4 lb. 70c.

Kohlrabi Turnip-Rooted Cabbage

3832 Early Purple Vienna The bulbs are surface; the flesh light green. A few days later than white Vienna, a little larger and more heat resistant. Pkt. 5c; oz. 20c; 1/4 lb. 70c.

Kohlrabi, White Vienna

Kale or Borecole

3826 Dwarf Green Curled Quickly grows a mass of tender ular for boiling greens. The plant is quite hardy and freezing seems to improve the quality. The plants with their moss curled, rich green leaves are ornamental to the garden also. Start some seed in early spring and another planting in midsummer. Pkt. 5c; oz. 10c; ½ lb. 25.

3827 Tall Green Curled Scotch Produces an abundance of dark green heavily curled and wrinkled leaves of excellent quality. Grows 24 to 30 inches tall. Pick the lower leaves as they mature allowing plant to grow on to furnish a continuous supply. Pkt. Sc; oz. 12c; ¼ lb. 30c.

Kale, Dwarf Green Curled

New York or Wonderful Lettuce

Lettuce

CULTURE—To be of best quality, Lettuce should be quickly grown. It likes plenty of moisture and fertility and will stand cool, even quite cold soil and weather. Sow seed thickly covering $\frac{1}{2}$ to $\frac{1}{2}$ inch deep in rows 12 to 16 inches apart, thin as soon as well started to stand 6 to 8 inches apart. Heading varieties need slightly more room and transplanting is beneficial. Plants for extra early may be started under glass or in a box in a sunny window. Any sunny corner of the garden may be prepared early and a littlelettuce started. QUANTITY OF SEED. One ounce should sow about a 125 ft. row and produce around 3000 plants, 3 lbs. will produce enough for an acre.

Curled or Loose Leafed

Meading Lettuce

Cabbage or Butterhead Varieties
The varieties of this group have leaves
of thick, buttery texture, with straight or
plain edges.

3854 Creamy Hearts Black Seed.

Reading variety with thick, fleshy light but bright green leaves. Hearts golden yellow, crisp and buttery. Heads somewhat conical when young but large and round when mature. A fine producer and sure-header, very fine for home garden or market use. Pkt. 5c; oz. 15c; 4 lb. 45c.

3847 Temley Evergood White Seed. Forms a head very quickly and has tender, golden yellow inner leaves and heart. It is certainly delicious to eat. The head is medium small but hard and compact. It heads well under almost all conditions. Pkt. 5c; oz. 15c; ¹/₄ lb. 40c.

3848 Big Boston White Seed. A fine big, tender, cabbage-heading lettuce. Sure to please the most critical grower. The most popular of all head lettuces. The heads are medium large, finely shaped with a slight tinge of brown on the outer leaves. Pkt. 5c; oz. 15c; ¼ lb. 45c.

3852 California Cream Butter

(Royal Summer Cabbage or German Butter.) (Black Seed.) A reliable heading variety. The heads are a rich, creamy yellow inside and of a tender buttery flavor. Outer leaves green, spotted brown. Stands hot dry weather remarkably well. Pkt. 5c; oz. 15c; 14 lb. 40c.

3855 May King The earliest heading lettuce. A standard for greenhouse forcing and doing equally as well out of doors in early spring. Very compact heading, of light yellowish-green tinged reddish-brown and the heart blanching a rich golden yellow of excellent quality. Pkt. 5c; oz. 15c; ¼ lb. 40c.

Creamy Hearts

Temley Evergood Lettuce

Big Boston Lettuce

3839 Extra Select Grand Rapids

(Black Seed). In our trial grounds each season this is the first lettuce to reach edible or marketable stage. The big loose heads with bright green crinkled and curled leaves are very attractive, tender and crisp. Used almost exclusively for forcing during the winter, as well as for early crops outdoors. The heads remain fresh several days. Pkt. 5c; oz. 15c; 4b. 50c.

3840 Early Prize Head "The Red Lettucc." (White Seed). One of the best of the thin-leafed varieties for the home garden. Leaves very large, curled or crimped, bright green, tinged with brownish-red at the edges, tender, crisp and sweet. Pkt. 5c; oz. 15c; 41b. 40c.

(White Seed). One of the most satisfactory varieties for early outdoor planting, forming large, loose heads of an attractive light yellowish green. The leaves are ruffled and curled, and always very tender. Pkt. 5c; oz. 15c; ¼ lb. 40c. 3842 Black Seeded Simpson A standard with bunching, non-heading, crisp, light yellowish green leaves. Grows quickly and is of fine quality. Pkt. 5c; oz. 15c; 1/4 lb. 40c.

Crisp Heading Varieties

The varieties of this group have distinct brittle or crisp glossy texture in the leaves and the leaves usually have curled edges.

Cos or Celery Lettuce

3849 New York (Los Angeles or Cabbage or Wonderful). White Seed. One of the largest varieties grown, forming immense heat-resisting heads, during the summer months. Outer leaves dark green, but the heart blanches white, crisp and tender. This variety is shipped and sold by produce men and grocers as Iceberg. Pkt. Sc;

3860 Mixed Lettuce.

3851 Improved Hanson White Seed. In table quality the Hanson is perfection itself, being free from bitter taste. Forms medium sized, tender, crisp heads. Leaves curly with fringed edges. Pkt. 5c; oz. 15c; ¼ lb. 45c.

White Seed. A large crisp heading variety, very firm and solid. Leaves light green, fringed and wavy with edge tipped bronze. The heart is white. Of very good flavor and excellent for home garden but not a shipping variety. Pkt. 5c; oz. 15c; ¼ lb. 45c.

3911 Mushroom Spawn American Spore Culture, Brick Form

This spawn is produced from original spore culture under the French process which permits the indefinite reproduction of selected varieties without dilution of the strain, and free of any trace of parasitic disease. Each brick weighs 1½ to 1½ lbs. and will spawn about 10 square feet of bed. Full cultural directions are supplied with each Brick. We offer the cream white variety which is the preferred. Prices: 1 brick 45c; 5 bricks \$2.00; 10 bricks \$3.50 postpaid.

Easy To Grow

This Book "Modern Mushroom Culture'

by J. F. Styer is a modern work on the subject of mushroom growing. \$1.60 per copy.

3860 Mixed Lettuce This is certainly a bargain packet and very interesting as well. Both loose leaf and heading varieties. Pkt. 5c; oz. 10c; 4lb. 30c; lb.\$1.00.

Aromatic & Pot Herbs

Most of the varieties of herbs thrive best in sandy soil and some are stronger and better flavored when grown on that which is rather poor.

Sow as early as the ground can be made ready, in drills sixteen to eighteen inches apart, taking pains that the soil is fine and pressed firmly over the seed, or they may be planted as a second crop—the seeds sown in beds in April and the plants set out in June. Most of them should be cut when in bloom, wilted in the sun and thoroughly dried in the shade.

3815 Mammoth Dill An annual herb of finely cut fern-like foliage growing to 2 or 2½ feet. Seeds are much used for seasoning. Most popular for making Dill pickles. Pkt. 10c; oz. 15c; ¼lb. 35c; lb. 90c. 3811 ANISE. An annual. Seeds used medicinally and in cooling cordials.
3812 SWEET BASIL. An annual. The leaves and tender tips used in source stews and sauces.

tender tips used in soups, stews and sauces.

3813 CARAWAY. A well known herb. Seeds used in confections, cakes and also medicinally.

3814 CORIANDER. A hardy annual. Seed used for flavoring confections and for garnish-**3816 SWEET MAJORAM.** The leaves and tender shoots used for flavoring either when green or dried.

3817 SAGE. A hardy perennial. Leaves used either green or dried for flavoring.
3818 SUMMER SAVORY.

The young shoots, leaves and flowers are used for seasoning, especially with string beans. Price any above Herbs: Pkt. 10c; 4 pkts. 25c.

3810 A mixture of the most popular varieties of Herbs. Pkt. 10c.

Cos, Romaine or Celery Lettuce

An entirely distinct type of lettuce with stiffly upright leaves and prominent mid-ribs.

3857 Paris White or Trianon A medium folding variety with smooth dark green leaves. Heads compact and solid with well blanched interior. Crisp, sweet and tender. Pkt. 5c; oz. 15c; 1/4 lb. 40c.

All-American Gold Medal 2 feet high and has fine curled leaves which are very tasty for salad. This is the variety that is so popular in the South for fall planting and is much used for winter and spring greens Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

³⁹¹² Mustard Spinach "Tendergreen"

A Japanese plant of the mustard family which has become popular with gardeners for its extremely quick production of edible crop of excellent, mild, tender, mustard-like greens. The large green leaves are ready for use in 4 weeks from planting of seed, and are prepared and used the same as Mustard or Spinach greens. A planting every

greens. A planting every three or four weeks will ingreens throughout the season. Pkt. 5c; oz. 10c; 14 lb. 25c; lb. 75c.

3861 American Flag Leek This vegetable belongs to the onion family and is a fine fall and winter substitute for green onion. The leaves are flat and the stems large and bulbous. Pkt. Sc; oz. 15c; 1/4 lb. 50c; lb. \$1.50.

Leek, American Flag

Dill

Golden Hearts

Just the right size for the table

3866 Emerald Gem Grows just the right size for your table, and is sweet as honey. The melon is not large, but very prolific and early. In shape it is round, slightly flattened at the ends. Skin emerald green under the netting. Flesh bright orange-yellow. Pkt. 5c; oz. 15c; ¼ lb. 10c.

3876 Imperial Muskmelon

A luscious new melon with orange flesh, netted yellow fruit of Rocky Ford size and of excellent flavor and texture. It can be vine-ripened and still both home and market gardeners. Pkt. 10c; oz. 25c; ¼ lb. 70c.

Muskmelons—Cantaloupes

CULTURE—Muskmelons delight in warm, rather rich soil, and it will pay you to dig in each hill a shovelful of well rotted manure. Do not start outside until the soil and weather are warm—so for extra early crops plant some seed in the hotbed or window box. When it is warm enough to plant outside make the hills 3x4 ft. apart. Put ten or a dozen seeds in each hill, covering about 1 inch, and when the plants are well up thin to three or four plants.

Melons left on the vines until they are dead ripe are immeasurably better than any you can buy in the stores. When ready the melons should be a little soft and they will part readily from the stem.

QUANTITY OF SEED. One ounce will plant about 60 hills, 2 to 3 lbs. an acre.

3864 Golden Lake Champlain

Golden Champlain Melon

The Golden Lake Champlain is without question the earliest yellow fleshed melon on the market today. Its vigorous growth, productiveness, hardiness and good quality have been proved beyond any doubt. The flesh is golden yellow, deep and so temptingly sweet. In shape nearly round—medium size and heavily netted. Pkt. 5c; oz. 15c; 14lb. 40c.

3865 Golden Hearts Here is a record to make your mouth water, the medium small, the size much in demand for the fancy hotel trade, averaging 5 to 6 inches in diameter, yet heavy because of the thick flesh and small seed cavity. It ripens right down to the rind. Often there will be as many astwelve melons to the vine. Pkt. 5c; oz. 15c; 1/4lb. 40c.

3874 Benders Surprise Variety for the home garden as well as for the market growing. When ripe, skin is of light greenish yellow and the flesh is rich salmon color, thick and of fine eating quality. Melons are of good size, of quite uniform oval shape and ripen early. Pkt. 5c; oz. 20c; 1/4 lb. 50c.

the best known and most desirable melons to plant. Size medium, large, oval, dee ly ribbed. Color dark green, with lighter bands between the ribs. Flesh very thick, orange salmon, and of superb quality. Pkt. 5c; oz. 15c; ¼ lb.40c. 3870 Extra Early Osage Our strain for the gardener who wants the top prices for the earliest Osage, or who wants the first Osage on his own table. A week earlier than Miller's Cream, a trifle smaller and just as good quality. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3868 Osage or Miller's

Cream Sometimes called the Queen of Melons. One of

Green Fleshed Muskmelons

3879 Ohio Sugar Sweetest green fleshed Melon.
Ohio Sugar is really a green fleshed Tip Top and the best to eat of any green fleshed melon in the market. The flesh is very thick, tender, yet firm and sugary. The melon is round or slightly oval, distinctly ribbed and netted. Pkt. 5c; oz. 15c; ¼ lb. 40c.

3878 Rocky Ford The best known green fleshed variety. Flesh rich green, thick, juicy and of delicious flavor. Our seed is Northern grown, insuring early maturing crops. Pkt. 5c; oz. 15c; 4 lb. 40c.

melon as it matures 3 to 4 weeks later than the other varieties and it will keep for quite some time in storage. It is not adapted to short seasons but where it can be grown to maturity it is certainly delicious. The fruit is quite large, 8 to 10 lbs., nearly round, smooth skin, color almost white turning to a light lemon-yellow as it ripens. Pkt. 5c; oz. 15c; ½ lb. 40c.

Cole's Early Watermelon

3894 Cole's Extra Early Also called Harris riety to grow where seasons are short as it is ready to eat 10 days earlier than the late varieties like Tom Watson. Very hardy and productive, of medium size and nearly round. Skin mottled dark and light green, flesh dark red and very sweet. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c.

3907 New Winter Round, pale yellow when ripening, bright red, sugar-sweet flesh. Take the melons from the garden before frost and store in a cool cellar and they will keep until Thanksgiving Day. Pkt. 5c; oz. 12c; 1/4 lb. 35c; lb. \$1.00.

3908 Citron, Red Seeded Make deserves. Cultural directions printed on packet. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c.

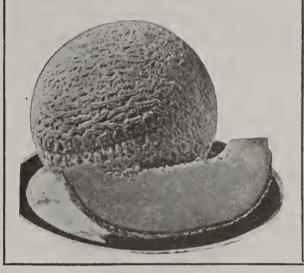

Peanuts

Emerald Gem Muskmelon

3872 Sugar or Honey Rock

A well named melon with deep orange flesh of a delightful flavor that must be eaten to be fully appreciated. Fruits are oval, medium in size, not ribbed but finely netted. Flesh is deep and well colored to the rind. Rind is extremely tough and the flesh firm making it a very fine market melon and one that will hold well on the vines until fully ripe. Pkt. Sc; oz. 20c; ¼ 1b. 50c.

Watermelons

Of late years some very early varieties have been introduced fully equal to the late ones in quality. Even in the northern states it is now possible to grow your own watermelons. Early varieties ripen in about 75 days.

CULTURE:—Watermelons are grown very much like Muskmelons, but the hills require more space, 6x6, or 6x8 ft. After the soil and weather is warm drop a dozen seeds in each hill, covering one inch deep and later thinning out to the three strongest plants. Cultivate as long as possible before the vines cover the ground.

CULTURE—Plant the same time as corn, in rows 2½ ft. apart. Drop the shelled nuts 8-10 in. apart, cover 1 in. deep. When the plants are nearly full grown throw earth up to them. This will cause the nuts to

3948 Extra Early Spanish With this vable even in the North to mature a nice crop of peanuts. The nuts are not extremely large but are solid and sweet. Plant on light sandy soil in full sunshine. Pkt. 10c; 1/4 lb. 20c; lb. 50c.

Halbert's Honey Watermelon

3901 Wondermelon Improved Kleckley's Sweets. Best for general use. Shape and color of Kleckley's Sweets but larger, tougher, stronger rind and of unsurpassed sweetness and flavor. You will like it. Medium early. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

3902 Stone Mountain New, of finest quality, claimed to be sweetest of all large sized melons. Round, dark green, with medium thick rind and flesh of rich crimson, solid and free from stringiness. Prolific, matures in 90 days. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.

3895 Kleckley's Sweets A better melon than old type Kleckley's. Harder rind, suitable for short distance shipping or market and of uniformly large size. Exceptionally sweet and luscious, crisp and of bright scarlet color. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c.

3898 Halbert's Honey Medium large, oval, bright crimson, sweet and melting, without trace of pulp. Rind very thin, flesh ripens uniformly throughout. White seeded Pkt. 5c; oz. 10c; 4 lb. 25c; lb. 75c.

3900 Tom Watson One of the old favorite varieties but still retaining its popularity. Long green, heavy and of large size. Flesh light red and of fine quality. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c.

SLUG SHOT-lb. for 25c. Will Destroy Melon and Cucumber Beetles:

Prizetaker and Red Wethersfield

Onion Seed

DO YOU LIKE ONIONS? There is no reason why you cannot grow plenty for early bunching as green onions and the big bulbs for cooking in fall and winter also. A small space will yield lots of onions and they are easy to grow. The first requisite is good seed, and the second, early sowing. Get your onion seed in as soon as the soil is workable.

CULTURE—Onion seed should be sown as early in the spring as the ground can be worked as they willstand considerable cold weather. Cover in rows ½ to ½ inch deep, the rows 12 to 16 inches apart. Thin the young plants to stand about 2 inches apart or more, depending on the variety and the richness of the soil. Onions like a rich moist loam and will develop more and larger bulbs per foot on that kind of soil.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 4 to 5 lbs. per acre.

White Portugal

Yellow Varieties

3913 Sweet Spanish or Valencia

A variety that will grow immense bulbs in your own garden as tender and sweet as the Spanish Onions that are imported for you. This new onion is globe shaped with light yellow skin and pure white flesh, mild and sweet. A much better keeper than the original Spanish types. From seed planted directly outdoors you can grow bulbs of great size. You can also start the seed inside in flats. They transplant very easily. Pkt. 5c; oz. 35c; ¼ lb. \$1.00.

3914 Prizetaker A splendid large growing or home use. With favorable conditions they may be grown from seed to weigh two pounds or more. Handsome straw-yellow skin, resembling the imported Spanish Onion. The flesh is mild and tender. Pkt. 5c; oz. 35c; ¼ lb. \$1.00.

An excellent producing sets, exceptional keeping quality. The bulbs are deep but flattened and of medium size. Dark yellow skin, with firm flesh.Pkt. 5c; oz. 30c; ¼ lb.\$1.00.

3927 Yellow Dutch or Strasburg The full grown onions are bright yellow bulbs, somewhat flattened, with mild, sweet flesh and fine keeping qualities. A most popular variety for growing yellow onion sets. Pkt. 5c; oz. 30c; ¼ lb. 85c.

Three Splendid Yellow Globe

3918 Yellow Globe Danvers lar variety is very extensively grown for market, in the great onion growing sections. The bulbs are flattened, globe-shaped, of good size, and bright straw-yellow in color. Flesh is white, tinged yellow. Slightly earlier than Southport. Pkt. Sc; oz. 40c; ¼ lb. \$1.25.

3922 Ohio Yellow Globe This type is so named because it helped to make sections of Ohio famous for Onions. It is almost perfect globe sometimes slightly oblong in upper half and flattish at the bottom. The color is a pure deep yellow. Has firm hard flesh and excellent keeping qualities. This type is popular all over the country. It is identical with Michigan Yellow Globe, A trifle later than Danvers, Pkt. Sc; oz. 40c; 14 lb. \$1.25.

3923 Southport Yellow Globe An excellent late or main crop variety similar in size and shape to the other Southports, but with bulbs of rich yellow. Flesh is white, of mild flavor and of very fine keeping quality. A very heavy producer of fine handsome bulbs. Pkt. 10c; 0z. 45c; 4 lb. \$1.35.

Southport Red Globe

Red Varieties

3916 Red Wethersfield This is a popular variety for winter markets. The skin is deep purplish red; flesh white, sometimes slightly tinged pink; mild and sweet. Pkt. 5c; oz. 35c; ¼ lb. \$1.00.

3915 Southport Red Globe A beautiful large Red Onion for fall and winter markets, being an excellent keeper. Medium size, globe-shaped, slightly oblong, deep purplish red in color. Pkt. 5c; oz. 35c; ¼ lb. \$1.00.

Southport Globe Onions

The Southport Onions are excellent and dependable general purpose onions for the home or market garden. They are all of fine appearance, excellent quality and especially good keeping varieties.

Yellow Globe Danvers

White Varieties

3917 Southport White Globe The most attractive white onion grown. Perfect globe shaped, and clear, transparent skin; flesh crisp, fine grained and mild in flavor. Pkt. 10c; oz. 45c; 1/4 lb. \$1.35.

3921 White Portugal Or Silver-skin. Of medium size, flattened and pure white and the most widely planted of the white varieties. Flesh fine grained, firm and hard, and long keeping. Much planted for sets. Pkt. 5c; oz. 35c; 1/4 lb. \$1.00.

3925 White Welsh The best variety in all Onions for bunching or home use, forming fine long white onions of excellent quality and of fine appearance when bunched, but forming no bulb. Pkt. 5c; oz. 30c; 1/4 lb. 85c.

3929 Extra Early White Barletta

One of the earliest. Largely grown for pickling but also makes a good bunching onion. Bulbs small, almost round at pickling stage, becoming slightly flattened as they mature. Flesh white, mild and sweet. Skin silvery white. Pkt. 5c; oz. 35c; 1/4 lb. \$1.00.

Onions For Sets

For those who wish to grow their own onion sets from seed, we would recommend the following varieties: Yellow Dutch or Strasburg, which produces, quickly, sets of exceptional uniformity. Ebenezer or Japanese, for smaller yellow sets or Yellow Globe Danvers.

Okra or Gumbo

A very easily grown vegetable that produces a large crop of fine healthful food. Okra needs a rich well drained soil to give the best results. Sow when apple trees are in bloom and thin to 10 to 12 inches apart. Okra is excellent either stewed or fried and when used for Gumbo soup is very delicious. An ounce of seed will sow 100 feet.

100 feet.
3933 White Velvet Bears slender, white, fleshy pods, which may be cooked like Asparagus or cut up into soups, stews, catsup, etc. The pods are in the best condition if used when 2 to 3 inches long. Pkt. 5c; oz. 12c; 1/4 lb. 25c; lb. 70c.

Parsley

CULTURE—Parsley seed is slow to germinate and soaking a day before sowing will hasten growth. Cover only ¼ inch deep and do not let the soil crust over the surface. Thin the plants to stand 4 to 6 inches apart, and you can start cutting the leaves as soon as they are sizable. Make several sowings of Parsley seed to have a continual supply of fresh leaves

QUANTITY OF SEED. One ounce should sow a 150 ft. row. Our standard packets will contain $\frac{1}{8}$ to $\frac{1}{6}$ ounce of seed.

will contain ½ to ½ ounce of seed.

3936 Lincoln Green Parsley aginable. The seed has been very carefully selected from exhibition plants. For an extra fine curled Parsley you should choose Lincoln Green. The plants are compact. Pkt. Sc; oz. 15c; ½ lb 45c.

3937 Champion Moss Curled The standard curled leaf variety for garnishing soups or stews. Our strain is extra nice fine curled. Pkt. 5c; oz. 12c; ½ lb. 30c; lb. \$1.00.

3939 Plain Leaved The leaves are flat and deeply cut, but not curled, and of deep green color. Used for flavoring and drying. The plant is very hardy. Pkt. 5c; oz. 10c; ½ lb. 30c.

3938 Turnip Rooted Forms an edible root resembling a small parsnip, which is used in flavoring soups, etc. The foliage is like the plain parsley. Pkt. 5c; oz. 12c; ¼ lb. 35c.

Parsnip

CULTURE—Parsnips are easily grown though the seed is slow to germinate. The soil should be worked fine and the seed covered not more than ½ inch. Keep the surface moist to prevent the soil crusting over the seed. It is a good thing to sow a little radish seed right in with the parsnip. These come up quickly breaking the soil and marking the row so that cultivating may begin. Thin out to stand 3 inches apart.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 5 to 6 lbs. an acre.

3944 Large Sugar Improved Hollow Crown or Guernsey. An improved strain of the well known Hollow Crown. Roots are not as long but of greater diameter. Very productive. Large white roots, tender and sweet. Generally considered the best. Then why should we confuse the buyer by listing 3 or 4 other varieties. Pkt. 5c; oz. 12c; 1/4 lb. 35c; lb. \$1.00.

3945 Short Thick Decidedly with short thick roots, only 6 to 8 inches long in the thickened part. Desirable for shallow soil and easy to pull. Flesh tender and sweet. Pkt. 8c; oz. 15c; 1/4 lb. 45c.

1936 Vegetable Novelties See Page 45

Large Sugar Parsnips

Parsley, Lincoln Green

3946 Paramount Parsley All-America 1936 Exceptional new Parsley, deep green, extra triple and finely curled. Pure strain selected for its dark green color and uniformity. Also offered on Novelty Page Pkt. 10c; oz. 20c; ¼ lb. 50c.

Garden Peas

PEAS FROM YOUR OWN GARDEN picked only an hour or two before eating are twice as sweet as those you would purchase. Try them and you will be convinced.

CULTURE—A planting should be made every 10 days from earliest spring until hot weather. Another planting in late summer for fall often gives good results. The extra early smooth seeded varieties are hardy and may be planted as early as the soil can be worked, the wrinkled varieties are hardy and may be planted as early as the soil can be worked, the wrinkled varieties

QUANTITY OF SEED. One pound should sow a 50 ft. row, 120 to 180 lbs. an acre.

Varieties
THE LAXTONIAN GROUP
A group of varieties of comparatively recent introduction. They have very large pods for dwarf varieties and peas of supreme quality.

3953 Laxton's Progress

Perhaps the best of the Laxtonian group. It is a few days earlier than Hundredfold. Pods, 4 inches long, containing 7 to 9 peas. The pods are curved, pointed and of deep green color. 10 to 20 inches tall. This variety will give you edible peasin 8 to 9 weeks after planting. Pkt. 5c; 1/4 lb. 15c; lb. 45c; 3 lbs. \$1.25.

3971 Hundredfold An early large podded dwarf variety, 18 to 20 inches tall. A strain of Laxtonian and to be preferred to Laxtonian or Blue Bantam. The pods are 4 inches long containing 6 to 8 large dark green peas of excellent quality. Ready for picking in about 60 days, only a few days later than Progress. Pkt. 5c; 1/4 lb. 15c; lb. 45c; 3 lbs. \$1.25.

Extra Early Alaska We have discontinued these varieties considering Laxton's Progress and Hundredfold

the best of the group. If you have been growing either one of these three, you may safely shift to Progress or Hundredfold and you will be more than pleased.

3952 May Morn cold, wet soil. It pods up quickly also, so it is possible to have May Morn in edible stage before any other large podded high quality pea, 15 to 18 inches tall, broad 4 inch pods. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

3956 Little Marvel A very fine early dwarf wrinkled pea, with blunt very dark green, 3 inch pods, filled with good quality peas. Only 15 inches high. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

3955 Nott's Excelsior The standard early dwarf wrinkled pea. A sure group but are very freely produced and they bear well, even under adverse conditions. A very fine, highly bred variety of sturdy, compact, dwarf growth, 15 to 18 in. high. Pods chock-full of luscious peas of unusually sweet flavor. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

rld's Record

Hundredfold

NITRAGIN on PEAS

3957 Sutton's Excelsior Only a few days later than Nott's Excelsior, but larger podded and of greater total productiveness. Pkt. 5c; 1/4 lb. 12c; lb. 40c; 3 lbs. \$1.10.

Edible Podded Peas

3981 Mammoth Melting Sugar

Height 4 feet. Well deserves its name. Should be cooked and eaten pods and all, the same as wax beans. Gather the pods when half grown. Pkt. 5c; ¼ lb. 12c; lb. 10c; 3 lbs. \$1.10.

3982 Dwarf Gray Sugar Height 30 in ches. Similar to Melting Sugar but of dwarf growth, 2 3/4 to 3 inches in length. The seeds are round and gray. Pkt. 5c; 1/4 lb. 10c; lb. 35c; 3 lbs. 90c.

Inoculate your Peas, Beans and Sweet Peas

All Legumes-plants that bear their seed in pods form a partnership at the base of the roots with bacteria that are able to secrete nitrogen and give it to the plant it to the plant.

Peas, Beans and Sweet Peas belong to the Legume family and therefore should be inoculated with **NITRAGIN** to stimulate the germs. The Bacteria

will form on the roots like lumps or nodules, making more productive crops.

NITRAGIN is an old reliable Inoculator and is used by Agricultural Colleges. It is packed in a rich soil-like granular medium, easy to mix with your seed. Inoculate for Good Yield.

4340 Garden Package Plenty for a 25c

Early Tall Varieties

As the varieties in this group grow 2½ to 3½ feet tall, they are better when given supports on which to grow. As a rule they bear more pods over a larger period than the real dwarf varieties.

3972 Giant Early Cropper

A Fine New Pea. This is an exception to the rule that the larger podded varieties require a longer season as it is practically as early as Alaska, ready with edible pods in about 8 weeks. The seed is smooth and hardy and can be planted extra early. The pods are large, dark green, 4 inches long and usually contain 7 large, sweet, light-green peas. Pkt. 5c; 1/4 lb. 12c; lb. 40c; 3 lbs. \$1.10.

3970 Gradus An early variety of very fine quality, bearing very profusely pods averaging 4 inches in length, filled with 6 to 9 peas, exceedingly sweet and tender. Vines are vigorous, growing 3 to 3½ feet tall. Peas are ready to use in 55 to 60 days. Seed large and wrinkled. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

The New Pea Glant Early Cropper

3969 World's Record An Improved Gradus from which it gets its superb quality, but it is a much heavier and surer yielder. Vines 2 to 2½ ft. tall, pods handsome dark green 3½ inches long. Pkt. 5e; ¼ lb. 12e; lb. 40e; 3 lbs. \$1.10.

3968 Thomas Laxton carly tall peas, only a few days later than Alaska, vines 2½ ft. tall. Pods long, broad, handsome, packed full of delicious sweet peas. You can pick enough for a nice meal in short order. Out yields the old Gradus by 25 per cent. Pkt. 5c; ¼ lb. 15c; lb. 45c; 3 lbs. \$1.25.

Two Smooth Seeded Extra Earlies

3966 Extra Early Alaska early varieties. Very productive. Peas smooth, bluish green, very fair quality. Height 2½ it. Pkt. 5e; ¼ lb. 10c; lb. 35c; 3 lbs. 90c.

3967 First-in-Market Extra-early, seeded, height 2½ ft. Well filled pods 2 to 2½ inches long. Pkt. 5c; ¼ lb. 10c; lb. 35c; 3

inches long lbs. 30c. Main Crop and Late Peas

Main Crop and Late Peas

3978 Improved Stratagem Large pods of the Telephone type borne on sturdy vines about 2½ feet tall. An ideal late variety to follow the earlier ones. An excellent home garden and a profitable market variety. The long pointed pods average 4½ inches. Pkt. 5c; ¼ lb. 10c; lb. 35c; 3 lbs. 90c.

3975 Telephone The old favorite with very which will measure 4 to 5 inches long and contain 8 to 10 very large peas of delicate light green pods which will measure 4 to 5 inches long and contain 8 to 10 very large peas of delicate light green color and very excellent quality. Vines 4 to 4½ feet tall, very vigorous and productive. A very fine second early variety. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

A dwarf variety ripening somewhat later than Telephone but quite similar in all respects except height of vine and maturing time. Vines about 2 feet tall, bearing an abundance of large full pods of large fine quality peas. Pods 4 to 4½ inches long containing 8 to 9 large dark green peas. Pkt. 5c, 14 lb. 12c; lb. 40c; 3 lbs. \$1.10.

Nott's Excelsior

3974 Alderman, Best Tall Main Crop Height 3½ feet. Of the well known telephone type, but of a darker green color. Very robust and productive. Peas of large size and unsurpassed in quality. Best of the large main-crop varieties. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

Two Delicious New Peas

3973 New Giant Wonder A new variety of Pea of similar form and habit to Nott's Excelsior, though even better as it is not susceptible to wilt. Vines grow 15 to 18 inches tall. Pods are plump, straight, blunt-ended, 3 inches long and thickly filled with large round Peas, dehciously sweet and delicately flavored. Pkt. 5c; 1/4 lb. 15c; lb. 45c; 3 lbs. \$1.25.

We consider this to be the very best early mid-season Pea for home garden and market purposes. The vines are robust, grow 24 to 30 inches tall. Pods 5 to 5½ inches long and ¾ to ¾ inches broad, straight, pointed, smooth, dark green and well filled with 8 to 11 Peas per pod. Received an Award of Merit from British Royal Horticultural Society. Pkt. 5c; ¼ lb. 12c; lb. 40c; 3 lbs. \$1.10.

Callfornia Wonder Pepper

Perfection Plmento

Early Giant Pepper

Tomato Salad

Peppers

CULTURE—Pepper seed must be started early in the hot bed or boxes in the house. The plants cannot stand cold and so should not be planted out in the open until May 15th, or all frost danger is past. Space the plants 18 to 24 inches apart each way, and keep well cultivated. Any good garden soil if not too dry will grow peppers. Do not plant hot varieties next to sweet ones.

QUANTITY OF SEED. One ounce should produce 1500 plants, one packet enough for family garden.

3988 California Wonder The Pepper est flesh. Exceptionally thick flesh, usually ¼ inch and often ¾ inch thick. It is blocky in shape, square in cross section, 4 inches wide and 4½ inches long. Some specimens weigh as much as a pound, deep green then changing to crimson. It reaches full growth with the late sorts, marketable size fruits are ready with the early sorts. A heavy bearer of fruits of fine quality, being free from pungency, sweet and tender. Pkt. 10c; ½ oz. 35c; oz. 65c.

3995 Chinese Giant An early and prolific variety whose large shapely fruits are often 5 to 6 inches through and 4½ to 5 inches deep. Fruits are bright green when young, maturing to a rich scarlet. Pkt. 10c; ¼ oz. 25c; ½ oz. 40c; oz. 75c.

3991 Hungarian Long Hot Wax early hot variety much used for canning and pickling. A light yellow when young, turning to red when mature. The fruits are 2 to 3 inches in diameter and 6 to 7 inches long, with thick flesh. Sometimes called "Banana" pepper. Pkt. 10c; ¼ oz. 25c; oz. 75c.

3992 Small Hot Varieties A mixture of varieties, excellent for pickling peppers, sauce, etc. Pkt. Sc; ½ oz. 20c; oz. 40c.

3989 Early Giant Harris' Early Glant. Not only very large but produces enormous fruits maturing earlier than others of the large varieties. A sweet pepper that will produce big crops even in the northern states where seasons are short. Peppers 5 inches high and 3½ inches thick, deep green turning to brilliant red; flesh thick with sweet, pleasant flavor. Altogether a most valuable market or home garden variety. Pkt. Sc; ½ oz. 30c; oz. 55c.

3990 Oshkosh A new and very fine yellow pepper, producing uniform, smooth, only slightly ribbed, heart-shaped fruits. Plants are of semi-dwarf growth but very productive. Fruits medium sized, rich bright green, maturing to a bright canary-yellow. This is one of the finest salad peppers grown. Pkt. Sc; ½ oz. 30c; oz. 55c.

3985 Perfection Pimento When ripe the fruit is bright crimson, of medium size and shape, ideal for stuffing. The flesh is very thick; and the fruit is smooth. Pkt. 5c; ½ oz. 20c; oz. 35c.

3993 Long Red Cayenne Large Well known, early maturing. Fruits 4 inches long, 1 1/4 to 11/2 inches in diameter and tapering. Pkt. 5c; 1/2 oz. 25c; oz.

3986 Ruby King We have an improved strain of this popular standard variety. It is a very heavy bearer, thick-meated, and of mild flavor. Fruits average about 5 inches long, dark green when young, turning to ruby red when mature. Pkt. 5c; ½ oz. 25c; oz. 45c.

3987 Red Chili Grow bushy plants with numerous small, hot peppers of waxy yellowish green, changing to rich red. Fruits 2 to 2½ inches long, % to ½ inch thick and tapering. Pkt. Sc; ½ oz. 30c; oz. 55c.

3984 Tomato Salad, Sunnybrook
This pepper is almost like a tomato in appearance, being smooth, nearly round and bright scarlet. It is exceptionally mild and sweet and very thick meated. Pkt. 5c; ½ oz. 25c; oz.45c.

3994 World Beater A fine variety in which and large size. The fruits are freely produced, and will measure 3 to 3½ inches through by 4½ to 5 inches in length. Pkt. 5c; ½ oz. 25c; oz. 45c.

Pumpkins

Small Sugar Pie Pumpkin

CULTURE—Grow same as winter squash. One ounce should plant 25 hills, 8 seeds per hill; about 3 pounds

4000 Winter Luxury A very popular and satisfactory variety for the home garden, producing abundantly. The fruits are slightly oval in shape, 10 to 12 inches in diameter and weigh 8 to 10 pounds. The skin is golden russet and finely netted. Flesh is thick, sweet and rich creamy yellow. Pkt. 5c; oz. 15c; 14 lb. 15c.

3996 Small Sugar Pie Is so well known as the best pie pumpkin it requires little description. The fruit is small to medium, with solid fine grained flesh. Pkt. 5c; oz. 10c; ¼ lb. 30c.

3998 Jumbo or King of Mammoths. Fruit enormous size—often 150 to 200 pounds. So grow a few for the county fair. Fair quality for pies and greatforstock food. Pkt. 5c; oz. 15c; ½ lb. 50c.

3999 Connecticut Field or Big Tom

The standard variety grown so often in corn fields to provide feed for cows. A fair pie pumpkin also. The vines bear well of large pumpkins with hard reddish orange shell. Oz. 10c; ¼ lb. 25c; lb. 75c.

4753 GARDEN GUIDE. Fourth edition. A delightful book of 384 pages full of practical information. Chapters devoted to the Flower, the Vegetable, and the Fruit Gardens, also Bulbs, Trees, Lawns, Shrubs, and Water Plants. When and how to plant, prune, spray, harvest, etc. A gem of garden literature. Hustrated. Cloth \$1.60, Paper \$1.05.

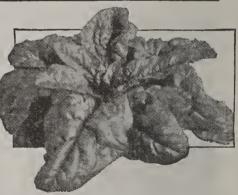

Spinach Selected Strains

Eat Plenty of Spinach There is no more healthful vegetable than Spinach and it is so easy to grow that everyone should plant it.

that everyone should plant it.

CULTURE—Sow the seed in April for spring use, in August for fall use and in September for wintering over. Sow thinly in rows 12 to 15 inches apart, covering the seed about one-half inch; thin the plants to four inches apart in the rows. Spinaeh delights in cool, moist weather.

QUANTITY OF SEED—One ounce should sow a 100 ft. row, 10 lbs.

Sciected Bloomsdale Savory Spinach

All-American
Award of Merit

1935

This new Viking Spinach is a meritorious, medium to dark green, longstanding, giant leaved variety that promises to be far above the average in quality. It is comparable to Nobel Giant Leaved, though darker green and larger leaved. Smooth leaved in summer but inclined to crumple in cool weather. Pkt. 5c.; oz. 10c; 4lb. 25c.

4049 Reselected Bloomsdale Savoy

This is a very valuable variety, with vigorous, rapid Into is a very variable variety, with vigorous, rapid growing, hardy plants, compact in growth. The leaves are large, thick, fleshy and savoyed or crumpled. It produces its first leaves quicker than any other variety of Spinach. Gives big crop in 6 weeks after early spring sowing outdoors. Pkt. 5c; oz. 10c; ¼ lb. 20c.

4047 Long Standing Bloomsdale Not quite as early as Reselected but stands without going to seed 2 to 3 weeks longer. Heat resistant and with dark foliage. Pkt. 5c; oz. 10c; ¼ lb. 20c.

4045 Princess Juliana Ten days later than Bloomsdale but a distinctly long standing variety, very slow to develop flower stalks. Large, crumpled, rich dark green leaves. Valuable for both spring and fall planting. Pkt. 5c; oz. 10c; 14 lb. 20c. 10c; ¼lb. 20c.

4050 Nobel Giant Leaved The best smooth leaved variety for spring and summer sowing. Leaves extra large, smooth and of good texture. Its season is between Bloomsdalc Savoy and Long Standing Bloomsdale. Round Seeded. Pkt. 5c; oz. 10c; ½ lb. 20c. All American 1933. 4048 New Zealand Tetragonia or Everbearing Spinach. The
only variety that will give you good cuttings of spinach
greens all summer. Of fine quality producing its tender
leaves throughout the hottest weather without going
to seed. This is an entirely distinct species, with smaller
leaves, produced in very great abundance. Pkt. 5c;
oz. 12c; 1/4 lb. 30c.

4046 King of Denmark As compared with dale, it is a trifle earlier and remains in condition for use longer. The plants are larger, flatter and more spreading in habit. Pkt. 5c; oz. 10c; ¼ lb. 20c.

An Entirely New Vegetable
3912 Mustard Spinach "Tendergreen" A new vegetable of Japanese origin,
related to the Mustard family. Has a
most delicious flavor, combining the fine qualities
of both Mustard and Spinach.
Chemical analysis of Mustard Spinach shows
plenty of Protein, Mineral Matter, Lime and Iron.
You'll like this new "greens" for its flavor and
healthful qualities. Pkt. 5c; oz. 10c; 1/4 lb. 25c;
lb. 75c.

Scarlet Globe/ Radishes

The Finest Radishes

CULTURE—Radishes are easily grown in nearly any soil but to be at their best they should grow quickly. For this purpose a light sandy loam is perhaps the best, rich but not recently fertilized with stable manure. A freshly manured soil produces ill shaped and often wormy roots. Sow as early as soil can be worked ½ inch deep, the rows 12 to 16 inches apart.

QUANTITY OF SEED—One ounce should sow a 100 ft. row, 8 to 10 lbs. an acre. CULTURE—Radishes are easily grown in nearly

4012 Radish"Comet"All-America 1936 See Page 45.

4005 Extra Select Scarlet

A strain grown from transplanted roots, that is as near 100 percent perfection as it is possible to get. It has a fine scarlet color, sparkling white flesh, tops just large enough for bunching. This is a beautiful oval rooted type—you will be delighted with the uniformity of the roots as you puls them. Pkt. Se; oz. 15e; ¼ lb. 35c.

4006 French Breakfast A most beautiful Radish of true olive white in the lower portion. Pkt. 5c; oz. 10c; ¼ lb. 25c.

4004 Earliest Scarlet Globe This is the most popular of the extra-early globe varieties. It is of rapid growth, brilliant scarlet in color. Regular strain. Pkt. 5c; oz. 10c; ¼ lb. 25c.

4003 Saxa from seed. The roots are bright scarlet, round as a marble, smooth, with very little tap root and a small top. Flesh crisp and juicy. Pkt. 5c; oz. 10c; ¼ lb. 25c.

4007 Sparkler, White Tip A very early and attractive shaped class. Bright scarlet with a distinct white tip. Very popular for home and market. We have a strain that shows a very distinct white base, so that it is one of the prettiest radishes for bunching in existence. Pkt. 5c; oz. 10c; ¼ lb. 25c.

4008 Crimson Giant Globe also called Giant Butter.

4008 Crimson Giant Globe also called Giant Butter. While Giant Globe is not ready quite as quickly as the other round varieties, it grows much larger often 1¾ to 2 inches in diameter, and yet still crisp and firm. These long standing qualities make it valuable for the home gardener or grower. Pkt. 5c; oz.

10c; ¼ lb. 25c.

Sparklet

Acorn, Squash Table

Queen

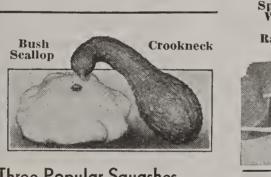

Icicle Radishes

Fine Winter Radishes

It is possible for you to have delicious crisp, solid Radishes for winter and spring. They make tasty salads and can be used as a boiled vegetable. Just sow the seed in June or July. Thin out plants to stand 4 to 6 inches apart in the rows. Keep the Radishes in box of sand in cool place. 4024 China Rosc. Olive shaped, rose color skin, white flesh. 4026 Long Black Spanish. Long shaped, black skin, white flesh. 4027 Round Black Spanish. Black skin, white flesh, round. 4025 Cclestial or Mammoth White China. Very large. 4023 Mixed Winter Radishes.

Prices on all above: Pkt. Sc; oz. 15c; 1/4 lb. 35c; lb. \$1.00.

Three Popular Squashes Summer Varieties

4055 Cocozelle Italian Vegetable Marrow. This is the most delicious and fine flavored summer squash yet grown. It is a bush type of plant, without runners and the fruit is long and slender, marbled with light and dark green. Is best used when 6 to 8 inches long and can be cooked like other summer squashes or sliced and fried in butter. Pkt. 5c; oz. 15c; 1/4 lb. 45c; lb. \$1.25.

4057 Giant Summer Crookneck

The largest and one of the earliest of the summer varieties. Very productive of large, deep, orange, warty fruits often 2 feet long. Flesh is thick, firm and tender. Pkt. 5c; oz. 15c; 1/4 lb. 45c; lb. \$1.25.

4058 Yellow Bush Scallop Golden Custard. A mammoth strain of the Yellow Bush Scallop. Fruits are round and flat with scalloped edges, rich golden yellow and with thick tender flesh of finest quality. Very early. Pkt. 5c; oz. 15c; 1/4 lb. 45c; lb. \$1.25.

4060 Giant Summer Straightneck This novel squash has the "crook" the good qualities without the defects of its parent, Golden Giant Summer Crookneck. It is much easier to pack. The native fruits measure 18 to 20 inches long, deep orange in color, thickly warted, with deeper flesh and thicker more meaty neck than the old "Crookneck" type. Pkt. 5c; oz. 15c; 1/4 lb. 45c; lb. \$1.25.

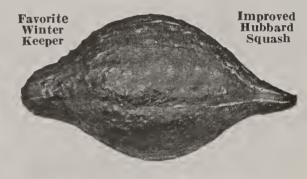

4061 Early White Bush Scallop Patty Pan or Cymling. Very early, 8 inches in diameter, comparatively smooth on the surface and creamy white in color. Flesh white, tender and sweet. Pkt. 5c; oz. 12c; 1/4 lb. 35c; lb. \$1.00.

Squashes

QUANTITY OF SEED. Of the small bush varieties 1 oz. will plant about 40 hills—2 to 3 lbs. per acre. Of the large seed winter varieties like Hubbard, 1 oz. will plant 15 to 20 hills—3 to 4 lbs. per acre.

4072 Buttercup Squash A new Type of Winter Squash Sec Novelty Page 45 Pkt. Sc; oz. 20c

Winter Varieties

4056 Acorn, Table Queen Moines, Queen Ann. The best little squash for "individual" baking or steaming. Dark green, 6 to 8 inches long and 5 to 6 inches in diameter, deeply ribbed, smooth hard shell. Just cut it in half, take out seeds, cook for 20 minutes and enjoy the delicious nutty flavor of this little "Table Queen." It stands ace high among the squashes. Try it, you'll like it. Pkt. 5c; oz. 15c; 1/4 lb. 50c; lb. \$1.40.

4068 Chicago Warted Hubbard A new type of Hubbard produced by careful selection of the large, dark green, warted specimens of good stock. Strong healthy vines, hard, warty, dark green use. Pkt. 5c; oz. 15c; 1/4 lb. 45c; lb. \$1.25.

4069 Blue Hubbard The size and shape of old warted Hubbard, but clear blue green in color. Excels the old Hubbard in flavor and dryness of the flesh. Pkt. 5c; oz. 15c; 1/4 lb. 50c; lb. \$1.40.

4070 Improved Hubbard The most popular Winter Squash. Dekin for pies. Has deep orange flesh. Our strain grows large, has dark green, moderately warted shell end and has been selected to give fruit of greater weight and food value than the ordinary Hubbard. Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.25.

4071 Golden Hubbard Earlier and Smaller than our Improved Hubbard. Flesh thick, deep orange-yellow. Of splendid quality. Pkt. 5c; oz. 15c; 1/4 lb. 45c; lb. \$1.25.

4038 Rhubarb, Victoria A few plants of Rhubarb in a corner ing amount of material for delicious pies and sauces. Rhubarb is very healthful and is easily grown from seed. Sow in early spring, transplanting in early fall to permanent location. Do not pull the stalks the first year after transplanting, thus allowing the plants to become well established. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

4077 Sunflower, Mammoth Russian The best producing known for poultry. Every farmer should plant some of the seed in any out-of-the-way place at any time in May or June. Single heads will often measure 15 to 18 inches across and contain an immense quantity of seed. Hang the heads in the poultry house, where the hens can reach them. Seed for planting, oz. pkt. 5c; ¼ lb. 10c; lb. 25c; 3 lbs. 60c.

Salsify or Vegetable Oyster

CULTURE—Salsify is grown very much like Parsnip though the rows may be spaced a little closer. Do not plant in freshly manured soil as this has a tendency to produce ill shapen roots.

QUANTITY OF SEED. One ounce should show a 50 ft. row.

4041 Mammoth Sandwich Island It is one of the most vegetables. In soup it has a delicious oyster flavor. Also fine if fried in butter, or boiled and made into fritters. It is perfectly hardy and may remain in the garden for spring use. Dig early in the spring however before growth starts. Pkt. 10c; oz. 25c; 1/4 lb. 75c.

Scarlet Dawn Tomato

25c; oz. 40c.

Scarlet Fruited Tomatoes

4084 Special Strain Earliana Sccd from Fruits. This strain has been especially selected for depth, smoothness and uniformity of fruit and yet is earlier than the regular strain. Order Special Strain Earliana Superfine Quality. Pkt. 10c; ½ oz. 30c; oz. 50c.
4083 EARLIANA, REGULAR. Pkt. 5c; ½ oz. 25c; oz. 40c.

Valuable for its long bearing season. You can pick as early as Earliana, and yet keep on picking for a long season after. That is just how the Everbearer behaves. Pkt. 5c; ½ oz. 25c; oz. 40c.

4082 New Burbank Burbank is attractive with size, smooth, well formed and ripening evenly all over. Pkt. Sc; ½ oz. 25c; oz. 45c.

was developed at the North Dakota Experiment Station, where they find it one of the very earliest, and the most solid and meaty early sort ever on trial. At a Canadian Station it outyielded all other sorts. The fruits are slightly flattened, smooth, bright scarlet with solid meat of splendid flavor. Pkt. 10c; ½ oz. 30c; oz. 55c.

4089 Bonny Best In season this fine tomato is such as Earliana. One of the very best scarlet varieties for home garden or market. Fruits are round, smooth, medium size and ripen evenly. Flesh is firm, and vines very productive. Pkt. 5c; ½ oz. 20c; oz. 35c.

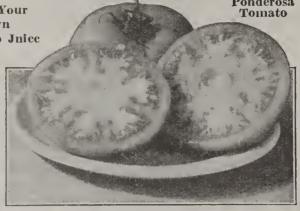

4097 New Stone King of the Reds. The stan-fruit is uniformly large size, smooth, and very solid, and of best table quality. Fine for canning. Pkt. 5c; ½ oz. 20c; oz. 35c.

Tomatoes

CULTURE—Tomato seed should be started early, by March or at least early April in hot beds or in boxes or pots in the house. An extra transplanting into other pots or cold frames is beneficial for root development before finally setting outdoors, when it is warm. Do not crowd tomato plants. You want short stocky plants rather than tall enjudy, ones

QUANTITY OF SEED. One ounce should produce 2500 to 3000 plants. If set 36x24 inches apart you will need about 7200 per acre.

Disease Resistant Tomatoes

All-American Gold Medal 1935 A wonderful new Tomato of the deep Marglobe red color, globe-shaped, earlier and rounder than Pritchard, Scarlet Topper. Received Honorable Mention at the Cornell and the Connecticut Experimental Station trials as well as ranking second in the regular All-American trials. Pkt. 10c; ½ 0z. 65c; 0z. \$1.25.

4095 Marglobe Disease Resistant. This va-U. S. Dept. of Agriculture for its resistance to "wilt" and "nail head rust." It is a scarlet fruited main crop variety; the result of a cross between Marvel and Globe, and has retained the best characteristics of each. Pkt. Sc; ½ oz. 25c; oz. 45c.

All-American Gold Medal

1933

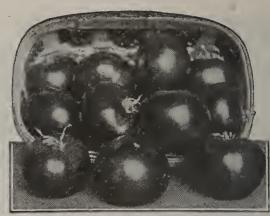

A recently introduced discase resistant variety developed by the late Dr. Pritchard of the U. S. Dept. of Agriculture. The plant is comparatively small but branching and a true self topper. The fruits are medium size, smooth, solid, heavy, globe shaped, rich dark red both outside and inside. Ripens only a few days later than Earliana. Superior tomato in yield and quality. Pkt. Se; ½ oz. 25c; oz. 45c.

4101 Rutger's Discase Resistant. See Novelty

4099Break O'Day A new wilt-resistant Tomato of the U. S. Dept. of Agriculture. Of the same color, shape and size as Marglobe but somewhat earlier. Bright red, extra early and deep globe shaped. Pkt. Sc; ½ oz. 30c; oz. 50c;

Small Fruiting Tomatoes

4123 Small Preserving A mixture comprising Cherry, Peach, Pear, Plum, Currant and Husk Tomatoes. Very desirable for preserves and canning. Pkt. Sc; ½ oz. 25c; oz. 45c.

Tomato, Acme

Purple-Pink Fruited Varieties

4103 Acme The popular purple variety, early ripening of medium size slightly oval and smooth. Acme is a reddish-purple with deep scarlet flesh which is very solid and meaty. Pkt. 5c; ½ oz. 25c; oz. 40c.

4111Beauty A very popular purplish pink variety for medium early or main crop. Vines are vigorous and heavy bearing, while the fruits are medium to large, solid, very smooth and of excellent flavor, and they ripen up well around the stem. Pkt. 5c; ½ oz. 25c; oz. 40c.

4110 Livingston's Globe The most popular market and canning. A very vigorous grower and heavy producer of firm solid fruits. The fruits are very deep, large and heavy of a glossy pink tinged with purple. Pkt. 5c; ½ oz. 25c; oz. 45c.

4108 Ponderosa This is not only the largest, grown. Color glowing purple-crimson. Considered by many the best table variety. Pkt. Sc; ½ oz. 40c; oz. 75c.

4112 Oxheart Oxheart is very large and heavy with thick flesh and few seeds. Gardeners, who have tried it, say it is the best tomato they ever had in flavor and all around quality. Pkt. 10c; ½ oz. 40c; oz. 75c.

Yellow Fruited Tomatoes

4120 Yellow Oxheart
its big heavy meaty fruits. Color of flesh and skin is rich golden yellow. Pkt. 10c; ½ oz. 40c; oz. 75c.

4118 Golden Colossal The Best yellow tomato. You should see the great big delicious fruits of this variety. As large as Ponderosa and quite like it in every way except color, which is golden yellow. The flavor is very sweet. Fine for preserving. Pkt. 10c; ½ oz. 35c; oz. 65c. oz. 65c.

Small Frnited Preserving Tomatoes Grow your own Preserves

Everbearer Tomato

Turnips and Rutabagas

CULTURE—For the early crop sow as early as possible to prepare the soil, covering ½ inch deep in rows 8 inches apart, thinning when small to stand 6 inches apart. A continual supply of tender turnips may be had by sowing a few every two or three weeks until late spring. The seed for the main crop of winter turnips is started in July. Sow either in drills or broadcast.

QUANTITY OF SEED. One ounce should sow a 150 ft. row, 1½ lbs. an acre if drilled, 3 lbs. if broadcast.

4137 Purple Top White Globe This is one of the handsomest and most desirable varieties grown. Our strain has been selected for smoothness, depth of roots and uniformity. Flesh is fine grained and firm. It is best to eat before roots reach full size. Pkt. 5c; oz. 10c; 1/4 lb.

4138 Extra Early White Ball The earliest turnip we have ever seen. Medium sized bulbs crisp and tender, pure white and almost perfectly round are produced in six weeks from seed. Pkt. 5c; oz. 10c; ¼ lb. 25c.

4135 Extra Early Purple Top Milan Flat, of medium size, with bright purple top and few leaves. Flesh white and sweet. The best for early spring planting, also suitable for fall planting. Pkt. 5e; oz. 10e; ½ lb. 30c.

Two Rutabagas or Swede Turnips

Rutabagas have firm flesh and keep well as a winter vegetable. Pack in moist sand in cellar or in pits. Plant Seed in July for winter use.

4145 American Purple Top American Swede. Proshaped roots. Purple above ground and yellow below. Flesh very solid, rich yellow, fine-grained and very sweet. Pkt. 5c; oz. 12c; 1/4 lb. 35c.

4136 Purple Top Strap-Leaf The standard for this part for early or late planting. Flattened, good sized, small top with but few leaves; flesh very fine. Pkt. 5c; oz. 10c; ¼ lb. 25c.

4147 Early Neckless A yellow purple top variety 15 to 20 days earlier than others. Of excellent quality and fine appearance, the roots are round slightly flattened and neckless. Pkt. 5c; oz. 12c; ¼ lb. 35c.

Elephant's Ear, Caladium

5112 Tritoma Pfitzer

Summer Flowering Bulbs **Roots and Tubers**

⁵⁰⁸⁵ Elephant's Ear, Caladium

Escultantum. One of the most effective tropical-like plants. Beautiful for lawn decoration, whether planted singly, in clumps, or for borders of subtropical groups. Especially nice when planted with Cannas. They like a rich deep soil and plenty of water. A single plant will often grow six feet tall with leaves four feet long and three feet wide. Each plant sbould have at least a pail of water every day that it does not rain. Plant Caladiums as a background for shorter growing annual flowers in your garden and you will like the effect. Each 20c; 3 for 50c; 12 for \$1.50.

Dazzling Cannas

See Tritoma at right and Color Plate Page 83

5077 Amaryllis Glant Hybrids
finest of all the Amaryllis for pot growing.
They come in many rich colors from rose
and waite to deep maroon both self colors
and variegations. The largelily like flowers
are very beautiful. We cannot separate the
colors, so if a variety is wanted the more
you order the greater variety you will
get. They give universal satisfaction
when their requirements are understood.
Strong bulbs Each 35c; 3 for 90c;
6 for \$1.60.
Culture—Pot Amaryllis in 6 or 7 inch
pots filled with good garden soil. Add
a bit of bone meal. Keep in a dark,
warm place 4 to 5 weeks for rooting. Then to a sunny window
for flowering period. Give penty of water from the beginning. 5116 Double Dwarf Pearl Tuberose

Amaryllis

One of the most delightfully fragrant and beautiful of the summer flowering bulbs. A long succession of bloom may be secured by starting them in pots early in the greenhouse or hot bed and setting them in the garden as soon as weather permits and also planting other bulbs directly in the garden at the same time. The Pearl is a distinct type of dwarf habit and much larger flowers. It is of strong growth with dark broad foliage. Each bulb produces a spike of beautiful waxy white flowers. If planted in the garden in May they will produce their delightful bloom in August and September. Strong bulbs, 3 for 25c; 6 for 10c; 12 for 75c. Japanese Irises

Finest of all the Iris family. The flowers are of immense size, from 6 to 8 inches, in diameter, and of the most beautiful, delicate shades. Are perfectly hardy and will flower in profusion during June or July. These plants prefer a moist, cool place, but do well in most any location.

6316 SKY NO RYO. Double blue and white.
6317 ASTARTE. Double Dark Violet.
6318 EUMEE. Single dark violet.
6319 GEKK NO NAMI. Glistening pure white with creamy stigmas.

See Color Page 83

Easy to grow in any garden soil. Work the soil up well and keep them watered. Plant about 12 inches to 18 inches apart to allow plenty of room. We give you average height of each variety, color of flower and color of foliage. With this information, you can work out a color scheme which will suit your individual taste. Order your Canna Roots early so you can start them indoors for later transplanting.

5136 City of Portland Warm rose pink, bolding its tone. The great, full-petaled trusses are borne very freely. Green foliage. Height 3½ ft.

5155 King Humbert Orange-scarlet. Orcbid flowering. Its flowers measure six inches in diameter, gigantic trusses, a brilliant orange-scarlet with bright red markings, foliage rich coppery bronze. Height 4½ to 5 ft.

Prices of Any Above Cannas Each 20c; 3 for 55c; 12 for \$1.50.

5163 Queen Helen The flowers of rich goldblotched red, form grand clusters of bloom of very attractive coloring. Green foliage. 4 ft. See Color Plate.

6398 Lily-ofthe-Valley

Universally admired for their dainty little pure white bell shaped flowers and exquisite fragrance. Easily grown, perfectly hardy everywhere, preferring a moist shady location. Give bed a liberal-top-dressing of well decayed manure in fall or early spring, to increase size, number and vigor of the flowers. Clumps, each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.80.

Hardy Garden Lillies

Everyone wants some of the Hardy Lillies in the garden. Their stately loveliness, rich colors, and delightful fragrance place them among the most popular of hardy garden flowers. They succeed best in the hardy border where the soil is well drained and where other foliage shades the soil from the bot sun of midsummer.

of the most popular and undoubtedly the best Known Lily. Flowers are pure white, dotted with crimson spots, with a gold band through the center of each petal. Immense flowers, 6 inches across, of delicious fragrance. Plant 10 inches deep. Stem rooting, blooms July-August. Height 4 to 6 feet. Large bulbs. Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

Chinese Regal Lily

China, so is perfectly hardy. The stems are slender though wiry and the foliage is grass-like. This new Lily resembles Tenuifolium in type and habit, but the color is a pleasing shade of salmon, with orange shadings and occasionally, spotted with crimson. Deliciously fragrant, stem rooting, blooms June-July. Height 2 feet. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6381 Chinese Regal Slender, flexible stems, covered with dense narrow foliage and crowned with a profusion of funnel-shaped blooms of creamy white. The outside of the flower is streaked with brown and shading off to pink, inside is flushed yellow. This Chinese Lily is the most popular garden Lily today. It is stem rooting and should be planted 9 inches deep.

ost popular of hardy garden flowers. They succeed best in the hardy and where other foliage shades the soil from the bots un of midsummer.

July flowering. Height 3 to 5 feet. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6394 Davuricum in clusters at the summit. Native of Siberia and Northern Japan. Thrives in any fair garden soil, prefers the full sun. The bulbs are small and should be planted close together, 5 inches deep. June flowering. Height 2 to 3 feet. Each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.80.

6375 Henryi China. When well established will sometimes have 20 flowers to a stem. Vigorous growth, likes any garden soil including lime. Stem rooting, should be planted 10 inches deep. Blooms July-August. Height 6 to 7 feet. Each 40c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.20.

6409 Rubrum Magnificum Lilies. A vigorous variety. The color is a rich carmine on white ground. Plant 10 inches deep, in good rich top soil. Stem rooting, blooms August-September. Height 4 feet. Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

6415 Tenuifolium Lily from Siberia, with numerous deep orange-scarlet, waxen, recurved flowers. Lovely for rock gardens. Plant 6 inches deep. Blooms in June. Height 18 to 24 inches, Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6412 Tigrinum Splendens Lily. Orange-red, spotted purple, reflex petals and the latest to bloom. Easy to grow. Plant 9 inches deep. Stem rooting. Blooms in September. Height 4 to 5 feet. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6428 Set of 8 Above Hardy Garden Lilies. Total Value \$2.65 for Only \$2.25

Templin-Bradley's Famous Gladiolus

A Rainbow of Color for Your Garden

"Rainbow," because it is probably true that no other family of flowers offers so wide a range of colors, shades and markings as Gladlolus. They are so easy to grow that special skill and training are not necessary for success. They will thrive in any fairly good garden soil.

You will get pleasure from your Glads, both in the garden and in the house, where they are very long-lasting as cut flowers. Long-lasting, too in the heat of summer when many flowers would wilt down rapidly in the house.

It was in 1915 that we started producing our own Gladiolus bulbs for our trade. In the 21 years since, we have watched closely the trend of popularity and have kept right up to the minute with the latest introductions, so that in this list we offer you only the best of the large flowering varieties. This is important to you whether a beginner or an old hand at it. Order from this page and you will have the best in your garden next summer. If you attended any of the major Gladiolus Shows in 1935, you doubtless saw these varieties featured there by exhibitors.

Color Plate Gladiolus, See Page 69

CULTURE: Plant the bulbs or "corms" as they are called, in trenches or in holes about six inches deep and from six to eight inches apart, covering them with loose fine earth, pressing it down well around the bulb. Gladiolus bulbs do well in any good, well drained garden soil, providing it is in a sunny location. Plant the first bulbs right after the last frost in the spring, plant more every two weeks until July 1st and you will have flowers from mid-July until the first frost next Fall.

5533 Betty Nuthall Slightly ruffled flowers of warm coral-pink with orange throat and light featherings of carmine. One of the best of the late introductions. Each 7c; 3 for 18c; 12 for 60c.

5548 Charles Dickens A purple-violet of great richness and depth of color. Blooms are freely produced on long tall spikes, often 5 feet or more tall. A very popular variety of attractive color and form. Each 7c; 3 for 18c; 12 for 60c.

5632 Golden Dream A pure golden yellow flower, of Golden Measure throat is slightly striped wine and the anthers carry a wine stripe. The best yellow to date. Each 5c; 3 for 12c; 12 for 40c.

5726 Mr. W. H. Phipps A delicate La France pink over-laid with salmon-rose. Lower petals lightly striped and splashed ruby. Large flowers, long spikes. Each 7c; 3 for 18c; 12 for 60c.

5986 Color Plate Gladioli Collection

5732 Mary Frey A delicate lavender-pink almost a lilac tone, soft and variety. Each 7c; 3 for 18c; 12 for 60c.

5734 Mrs. P. W. Sisson A clear light pink with just a suggestion of creamy tint. Flowers of large size well arranged on tall spikes. Each 50; 3 for 120; 12 for 400.

5783 Pfitzer's Triumph One of the best Gladiolus ever introduced. Very overcast scarlet with small velvet red marking in throat. Each 7c; 3 for 1Sc; 12 for 60c.

3 for 30c; 12 for 95c.

1 Bulb each of 8 varieties shown on color Page 69

5984 Veilchenblau A large flowered Gladiolus of richest Iris blue coloring. An exceptionally vigorous grower. Each 12c;

Total Value 57c, Only 40c

Four New Gladiolus

5582 Early Dawn Rich geranium-pink and as beautiful as its name. Early and of excellent quality. Large individual blooms on tall spikes. A most colorful flower for cut-flower work. Each 25c; 3 for 65c; 12 for \$1.50.

5595 Excellence A conspicuous and attractive Glad in deep orange-vermilion. It is self colored in effect, but has faint throat markings of a deeper hue. Strong, large, wide-open flowers. Each 12c; 3 for 35c; 12 for \$1.00.

5718 Maid of Orleans The novelty white of this season. Splendid new nilky-white with a distinctive cream hue in the throat. Tall spike with eight to ten large, well arranged, open flowers. Each 25c; 3 for 65c.

5920 Wurtembergia A lovely scarlet with a broad blotch of soft cream. Good substance, well shaped and a fine Glad in every way. Each 25c; 3 for 65c; 12 for \$1.50.

⁵⁹⁹⁵ Set of 4 New Glads, Value 87c, only 60c

Eight Lovely Gladiolus

5558 Commander Koehl The wing petals form a triangle 6½ inches across. Dark red, warm shade of glowing brilliancy. Each 12c; 3 for 30c; 12 for 85c.

5642 Heavenly Blue Clear, delicate laven-refinement. A heavenly shade and a large flower that will make choice cut-flowers. Each 12c; 3 for 30c; 6 for 50c; 12 for 85c.

5725 Moravian

A charming flower of dainty lavender, attractively ruffled. This variety often produces several spikes of flowers from one bulb. Each 12c; 3 for 30c; 6 for 50c.

5723 Morocco The darkest of all the dark red Glads. Well formed large blossoms of beautiful deep velvety dark red, almost black, without any other shade. Flowers are well set on long, straight spikes. A real beauty. Each 12c; 3 for 30c; 6 for 50c; 12 for 85c.

5800 Picardy Sensational flower of delicate apricot-pink. Florets extremely large, slightly ruffled. Each 12c; 3 for 30c.

5826 Red Phipps Tall fine spikes of soft, rich red. Eight or more large florets open at one time. A very fine new variety of charming beauty. Each 25c; 3 for 65c; 6 for \$1.00; 12 for \$1.50.

5848 Schwaben Girl Pure pink, without any other shade or blotch. A fine self-color. Huge spike, 8 to 10 big open flowers with round petals. One of the earliest Glads. Each 25c; 3 for 65c; 12 for \$1.50.

5930 Yvonne A very lovely soft rose shade, with blotch of lilac. An unusual combination of tones. Large, well placed flowers. Each 12c; 3 for 30c; 6 for 50c; 12 for \$5c.

⁵⁹⁹⁶ Set of 8 Lovely Gladiolus Total \$1.22 for \$1.00

100 Gladiolus Bulbs for only \$2.00

10 Each of 10 Leading New Varieties. No Changes. Postpaid. Each variety separately labeled. The most valuable assortment you can buy.

5531 Berty Snow Large flowers of soft lavender with a slight tinge of pink. Excellent substance and well spaced on a good spike. Eight or more open at once. A flower of unusual delicate beauty.

The earliest of all red Glads. Produces a large flower of orange-red on a fine spike with stiff stem. Originated in Holland and is one of the finest bright reds. You'll like its color.

5571 Dr. F. E. Bennett A very striking flower of peach-red overlaid with flame-scarlet. Throat speckled ruby and white. An outstanding variety that will give you gay color for the garden and house. Tall heavy spike.

5645 Helen Wills Large clear white, shading to cream on lower petals. Fine substance, vigorous, straight spikes, fine placement of florets. A Blue Ribbon winner in 1935.

5715 Marmora A most intriguing gladiolus. It is large, stately, and most unusual in colors which are lavender-gray with petunia colored blotch. Heavy substance and perfect placement.

5737 Mrs. Leon Douglas Begonia-rose striped with flame and brilliant scarlet and speckled with ruby-red. Extra strong spikes with many flowers open at a time.

5733 Mrs. Frank Pendleton Deep rose-ing to pale pink. Throat of bright rose with crimson blotch. A striking Glad and one of the choicest blotched varieties ever produced.

⁵⁷³⁹ Mrs. Von Konynenburg

Good blue Glads are extremely scarce and this new Holland variety is most welcome. It is a beautiful lilac-blue, large, good substance, splendid spike and good form.

5802 Primrose Princess A Royal Princess. Its names cannot do it justice. It is of a rich, deep yellow, just the color for cut-flowers, where artistic beauty is desired. Excellent large flowers on long, stiff stems.

5838 Ruth Huntington Beautiful violet-blue with deeper lilac markings on lower petals. Large flowers on tall, strong spikes. A lovely flower of dainty color.

You are offered in this Collection, the leading show winning varieties of carefully grown, clean, healthy, blooming size bulbs. Not sold separately. ⁵⁹⁹¹ 10 Bulbs each above 10 kinds for only \$2.00.

Gladiolus Mixtures

Each year we received many letters telling of the great pleasure and satisfaction our customers have had from our Gladiolus Mixtures. These letters praise the very high quality and splendid assortment, the health, vigor and free blooming of the Gladiolus bulbs. We are justly proud of the mixtures we offer you here.

Templin-Bradley's Glory Mixture
A fine mixture of selected varieties of recent origin
which have proven themselves most desirable and
satisfactory for general garden use.
This Glory Mixture has brought immense pleasure to
thousands of our customers during the past few years.

5985 Garden Beautiful Mixture. 12 for 70c; 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.

"Garden Magic" Book Complete with 12 monthly Calendar News Builetins \$3.50 Single and Double in Many Colors For The Garden or Window Boxes

If you long for a beautifully colored flower which is different from any other class. Tuberous Rooted Begonias will please you. There are two classes—singles which often grow six inches or more across and doubles up to five inches.

The rich, velvety, crinkled foliage is prettier than any other begonia. They do best when direct sun does not hit them from ten to three in mid-summer. But they should not be grown in total shade. Colors are variations in pink, yellow, orange, red, crimson and white. You will seldom find two of exactly the same shade if you plant a hundred bulbs, so the more you plant the more interesting they become.

LONG LIFE

Every year, customers tell us of having kept their Begonia bulbs for many years by digging them in the fall and storing them in fruit or potato cellars.

EASY TO GROW

Tuberous Begonias are easy for the home gardener to handle and florists make big money in growing them. I start mine in shallow boxes of soil in the house about a month before time to set them out in the garden. This permits about three leaves to get fully formed by the time danger from frost has passed. I should hate to have to do without Tuberous Begonias and I know you will feel the same way after you have tried them. You can plant them in the garden or in porch and window boxes.

Single Begonias

We have seen many flowers over 6 inches in diameter. The texture of the petals is not like any other Begonia flower, waxy, yet looks like velvet.

5001 Pure White 5002 Rose or Pink 5003 Shades of Yellow 5006 Dark Crimson

Hardy Native Ferns are rapidly growing In popularity as their value is becoming better known. They are easily grown, and so well adapted for shady locations where little else will succeed. There are usually nooks and corners around the home grounds where the sun seldom strikes, just the place for assorted clumps of Hardy Ferns. The illustration below is from an assorted planting in front of a north porch. Our plants come from northern New England where the temperature often registers away below zero, a guarantee of their hardiness.

6165 Ostrich Plume Fern (Onoclea) R. some fern, as graceful as a palm, and one of the most satisfactory to grow Malar and one of the most satisfactory to grow Malar and one of the most satisfactory to grow Malar and one of the most satisfactory to grow Malar and Mal isfactory to grow. Makes a most effective background for other ferns. The fronds reach a height of two to three

feet, with a width of six to eight inches. Sometimes called "The Palm of the North." In the illustration below the tall ferns in the background are of this variety. One of the most satisfactory ferns for the amateur to grow almost isfaction. Grows in beautiful crowns, requiring considerable room. For a background plant two feet apart, or as single specimens, in partial shade.

6155 Evergreen Wood Fern
(Aspidium Marignale) R. G. A desirable evergreen variety. Its large green fronds have a bluish tinge and are very durable. Cut fronds will keep a long time. It is easily grown and can be adapted to varying conditions. A desirable variety for general use.

6153 Christmas or Dagger Fern

(Polystichum) R. G. A widely known evergreen species, the fronds being largely used by florists. One of the easiest to grow and about the best evergreen, hardy fern we know. Fine for forming an undergrowth among shrubbery. A good fern to plant with other varieties.

Price of all Ferns, Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60

6158 Hayscented or Gossamer Fern

(Dicksonia) R. G. One of the varieties that will grow in either sun or shade. It propagates itself by undeground root stalks, and if planted in rich, porous soil, will soon form masses. This is the best variety to plant where a mass of from 15 to 18 inches high is desired.

Soil for Ferns

Ferns succeed best in a rich, light, loose, fibrous soil, with good drainage. If the soil is inclined to be soggy, raise the fern bed two or three inches above the surrounding surface. Before planting make the soil fine, and if possible lneorporate some leaf mould from the woods. Peat Moss or soil from around some old building, but never use fresh manure of any kind.

A touch of the woods, right at your door step.

6171—Set of 4 Hardy Ferns

6173 Special Collection 40 Ferns 10 each of 4 varieties Only \$3.50

To help you reproduce a corner of nature's woodland right in your own home grounds.

Mrs. I. De Ver Warner

Beautiful Dahlias

It is not many years since the only dahllas were comparatively small and quite uniform in type. By careful breeding, new forms, giant size and remarkable colorings have made the old types obsolete and today there are hundreds of splendid varieties, worthy of a place in any flower show. Dahlia lovers have formed strong Dahlia Societies in almost every state as well as the American Dahlia Society of national scope. These organizations encourage the introduction of new kinds and grade them according to merit. We offer you the following varieties at moderate prices. They have been earcfully grown to bring out the best in cach variety. Instructions for growing, packed with each order, free.

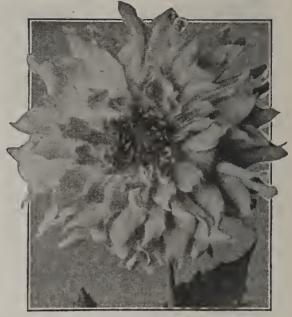

5328 Jersey's Beauty The most beautiful pink Dahlia in existence. It is a rich rose-pink, shaded old gold. Tall, vigorous, profuse bloomer. Each 25c; 3 for 70e.

5382 Margaret Woodrow Wilson Opal-pink, face of petals phlox-pink, Large flower, Each 25c; 3 for 70c.

Hardy Flowering Shrubs

Double Althea

Add Beauty To Your Home

Permanent and increasingly beautiful results are more easily obtained from plantings of hardy flowering shrubs and vines than from any other sort. The small cost in time and money necessary, is well spent in securing a well-kept and attractive home grounds, adding to the beauty and comfort of home and increasing the value of property. Plantings of hardy shrubs once established become an established part of your property almost as permanent as your house and lend that beauty and harmony to the house and surrounding landscape necessary to produce the complete picture of beauty and comfort, interesting and inviting to all who pass by.

Quick results and low cost are two features of the shrubs that we list in the following pages. Strong, healthy roots direct from our nursery that will quickly grow into plants of beauty and at a price that is only possible because of the great number of them that we grow and sell. Just a small amount invested in hardy flowering shrubs, vines or hedge plants will give you results from your expectations and add more in beauty and satisfying comfort to your home than any investment of

equal amount. To start right, buy the best.

Butterfly

Altheas, Rose of Sharon

Very attractive hardy shrubs or small trees, very easily grown and forming very symmetrical plants whether grown as a shrub or to tree form. The Altheas are a very fine hedge subject and with their large gay flowers from July to October are very attractive.

6701 Double White of the pure white double flowering Altheas and very fine for any location. I year size.

Each 20e; 3 for 50e; 6 for 90e.

6702 Double Red (Boule de Feu). Very beautiful, and the freest blooming of all the double Altheas. Excellent for hedge or group use.

1 year size. Each 20e; 3 for 50e; 6 for 90e.

6708 Set of Two Altheas White and Double

One of the most desirable summer flowering shrubs, beginning to bloom in July, it continues until cut by severe frost. The flowers are of a pleasing shade of violet mauve. Succeeds everywhere and blooms freely the first season. In the North it dies down to the ground in winter, forming a new bush each year, 5 to 6 ft. high. In August and September every branch carries a beautiful spike of fragrant flowers that attracts many butterflies, hence the name "Butterfly Bush." See Color Plate Page 52.

6740 Strong blooming slze plants. Each 30e; 3 for 75e; 6 for \$1.35.

6739 "le de France" New Improved Buddleia

wooderful new French introduction is a thrilling beauty with its brilliant rich

This wonderful new French introduction is a thrilling beauty with its brilliant, rich, rosy-purple flowers of such fragrance that it attracts bevies of beautiful Butterflies. The plant grows 3 or 4 feet in height, forming a symmetrical, bushy shrub, every growth of which is terminated by a graceful spike of the lovely flowers, 9 to 12 inches long. Blooms from late July to the end of autumn. Strong blooming size plants. Each 35e; 3 for 90e. See Color Plate Page 69.

7056 Cornus, Florida Rubra

Flowering Dogwood. This very desirable variety of flowering Dogwood bears a mass of deep pink blooms in early Spring before the foliage appears. The foliage throughout the Summer is a very handsome rich green, in the Autumn turning to a bright crimson. They grow into tree form reaching the height of 20 to 30 feet with very graceful and attractive branches. Their bright flowers, handsome foliage and crimson coloring in the Autumn make them very ornamental and attractive throughout a long season. They are an especially attractive tree for the lawn or yard creating much attention. The Cornus likes a moist but well drained soil and does well in either sun or semishade. We are offering them this year at very reasonable prices. Strong. Each \$1.00; 3 for \$2.50; 6 for \$4.50.

See This Barberry in Full Color on Page 52
The foliage is rich bronzy reddish, purple. This new Barberry will form neat, symmetrical clumps that will be an ornament to any lawn. To produce the most brilliant colors it should be planted in full sunshine. As autumn approaches, it becomes more brilliant in color. Perfectly hardy and easy to grow.

Price 2 year, 12 to 18 inch, each 35e; 3 for 90e; 6 for \$1.60.

Japanese Barberry

Berberis Thunbergi. One of the most useful and desirable of all shrubs. Equally as well adapted to border or group planting either mixed with other shrubs or by themselves. And especially valuable as a hedge subject. Their thick luxuriant foliage graceful and informal and the bright red berries carried through the winter make this a very attractive shrub.

berries carried through the winter make this a very attractive shrub.
7020 JAPANESE BARBERRY. 12 to 18 inch.
Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60;
25 or more at 12c each.
7021 JAPANESE BARBERRY. 18 to 24 inch. Each
30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40; 25
or more at 18c each.

7014 Double Pink Flowering Almond

Amygdalus. Very desirable and attractive. Extra early flowering shrubs of rather dwarf habit. Usually 3 to 4 ft. Flowering Almond in height. The branches are completely covered with pretty little double pink flowers in early spring before the lcaves appear. This is an unusually valuable shrub but not grown as widely as it should be. Adapts itself well to any location but is probably best as a single specimeu in a position where it may develop to its fullest beauty. See Color Plate Page 52.

7014, 2 yr. 2 to 3 ft. Each 50c; 3 for \$1.25; 6 for \$2.25.

This is not a shrub, but rather develops into a small tree. It is perfectly hardy everywhere, succeeding nicely in all soils and climates. It would be difficult to describe its wonderful beauty when in bloom, the branches bending under a profusion of delicate pink delightfully fragrant rose-like flowers. The only sweet scented double flowering crab. It will require a little more room than the ordinary flowering shrubs on account of its tree-like habit of growth, and its full beauty can only be known and appreciated when it has plenty of room to develop. It is very often used as a single specimen plant for lawn planting and in this location during its blooming period in May and June presents one of the most gorgeous sights imaginable. See Color Plate Page 52.

Our price, 2 year, only 60e; 3 for \$1.50.

Floyd Bradley "How" Book 25cPer Copy

Chinese Azalea, Mollis

Calycanthus, Sweet Scented Shrub

A universal favorite for a hundred years or more. Also called "Spice Bush" as the bark is quite fragrant. Blooms in June and intermittently throughout the Summer. Delightfully fragrant, chocolate-brown flowers. Height 5 to 6 feet

5 to 6 feet.
7042 2 year, well branched,
15 to 18 inch. Each 40c;
3 for \$1.00; 6 for \$1.80.

7016 Hardy Chinese Azalea Mollis

See Azalea Mollis in Color on Page 52

The Azaleas are one of the most beautiful and popular tamilies of hardy flowering shrubs in cultivation, and the Chinese Mollis is perhaps the most satisfactory and most easily grown of all. Their great charm is in their wonderful array of color, they vary from light yellow to salmon and dark orange, scarcely two plants exactly alike in color. For best effect we suggest planting in groups as the yellow, orange and salmon blend beautifully together. They are perfectly hardy thriving under ordinary garden conditions but do best in a protected location where they will be in partial shade. For best success, prepare the soil to the depth of 15 to 18 inches, using 50 per cent of well rotted leaf-mold from the woods or decayed peat from a swamp or both. Be careful that there is no lime in the soil. Water freely. The plants we offer are strong healthy plants that will give you lovely flowers the following spring.

7016 Strong 12 to 15 Inch size. Each \$1.25; 3 for \$3.15; 6 for \$5.75.

Dentzia, Pride of Rochester

Hardy Flowering Shrubs, Cont. Bush Honeysuckle, Lonicera

The upright Honeysuckles have bright pretty flowers followed by showy berries that last through the fall. Make very desirable bushy screening hedges, and the nucleus of tall shrub groups. These shrubs are not particular as to soil or conditions. They always seem to do well. They will also do well in the shade. •

Tatarica Rosea 6-8 feet. This is very attractive when in blossom, being one of the few early pink-flowering shrubs, followed by bright red berries that stay on all summer.

6737 1 year size, Each 20c; 3 for 50e; 6 for 90.

7037 2 year size, Each 35e; 3 for 90c; 6 for \$1.60.

Deutzia, Pride of Rochester

The Deutzia is a fine showy shrub of great ornamental value coming to us from Japan. Their luxuriant foliage and profusion of attractive flowers have given them a front rank among flowering shrubs. Pride of Rochester is a very profuse bloomer bearing pretty double flowers of pinkish white. The flowers are produced in May and June and frequently to a smaller extent at later intervals.

7065 Heavy 2 year, Each 30c; 3 for 75e; 6 for \$1.35.

Bush Honeysuekle

7108 Hypericum, Goldflower Moserianum A very desirable perennial for the border or lawn, producing long, slender, much branched stems, which are of free, graceful and pendulous habit. The flowers are borne freely from July to late September and are a rich golden yellow, 2 inches or more in diameter, resembling immense single buttercups. The numerous yellow stamens and crimson anthers add much to the attractiveness of the flowers. Of very easy culture and especially useful and desirable for a sunny location. Hypericum is herbaceous dying to the ground each year. 2½ ft. tall. One year, 12 to 18 inches. Each 30c; 3 for 75c; 6 for \$1.35.

Scarlet Japanese Quince

Cydonia Japonica Very popular and desirable shrub completely covered with dazzling scarlet flowers in early spring, May, before the leaves appear, followed by small fruits which are quite fragrant when ripe. The plants have protecting thorns and are very desirable grown as hedges, producing a most brilliant effect when in bloom. The plants grow to a height of 5 to 6 ft. The foliage is dark glossy green. One very nice feature of this shrub is the fact that the branches can be cut any time after the first of the year and brought indoors for foreing into bloom forcing into bloom.
7193 1 year, heavy plants, Each 30c; 3 for 75c.

Hardy Hibiseus

Hardy Hibiscus Mallow Marvels

The most valuable acquisition in hardy herbaceous plants introduced in recent years. Forms large plants or clumps 5 to 6 feet high, and 3 to 4 feet across which produce their many large blooms in the most beautiful colors from white through various shades of pink and red to brilliant crimson. We cannot offer in separate colors.

7103 Strong 2 year plants 18 to 24 inch. Fach.

7103 Strong 2 year plants, 18 to 24 inch. Each 25c; 3 for 65c; 6 for \$1.15.

Hydrangeas

These magnificent hardy American shrubs are of outstanding merit among all flowering shrubs. Their beautiful luxuriant foliage and their attractive massive clusters of bloom, their ease of culture and their adaptability to any use are only part of their valuable characteristics.

Japanese Rose-

Tokio presented Mrs. Taft with 3,000 of these beautiful trees which bloom each spring on the banks of the Potomac in Washington.

The fame of these Flowering Cherries has spread all over our country and we know you will be glad to see that we have listed three of the best varieties here and at a price which makes it possible for you to plant several of them and make your home grounds attractive like Japan and Washington in "Cherry Time."

7260 Hisakura Double deep, apple - blossom pink.

7261 New Red Fine double, deep rose.
7262 Shirofugen pale pink.
Prices on Japan Flowering Cherries.
Each \$1.00; 3 for \$2.50.

7264 Set of 3 Cherries for \$2.50.

Japan in "Cherry Time"

You, too, can have a lovely Japanese Garden if you'll plant some Flowering Cherries.

Oakleaved Hydrangea Quercifolia. See S3. A little known shrub, but of such great merit that it is deserving a place in every garden. Its foliage is heavy and large resembling the oak-leaf in shape. The flowers are produced in large panicles of creamy white which turn as the season advances to vinaceous orange and bronze and finally to a brownish purple. They are quite hardy and will thrive in any good soil. 5 to 6 feet.

6804 Strong plants. 1 year. Each 30c; 3 for 75e; 6 for \$1.35.

Arborescens Grandiflora 3 to 4 ft. White. May and June. Also ealled Hills of Snow or Snowball Hydrangea. The blooms are of the very largest size, of pure snowwhite color and the foliage is finely finished. One of its most valuable characteristics is its long period of bloom from early June through August making it doubly valuable. 6805 One year. Each 20c; 3 for 50c; 6 for 90c. 7105 Two year. Each 40c; 3 for \$1.00; 6 for \$1.80.

Paniculata Grandiflora Grows 4 to 5 ft. high and compact. Blooms in July at a time when few other shrubs are in flower; the flowers remain until destroyed by frost. The flowers are pure white, changing to pink and are borne in immense clusters. Fine for hedges or for foundation plantings. foundation plantings.

6806 One Year. Each 20c; 3 for 50c; 6 for 90e. 7106 Two year. Each 40e; 3 for 75c; 6 for \$1.35.

Forsythia or Golden Bells

An upright growing shrub, often reaching eight feet, with deep green foliage and pendulous trumpet shaped flowers of bright clear yellow. A strong grower and profuse bloomer with long and gracefully arching branches. Blooming in April or early May before foliage has appeared the branches are veritable masses of golden flowers, brightening up the border or garden very attractively long before any other shrubs are ready to bloom. Forsythias are easy to grow, thriving in most any soil, in sun or shade.

7087 Heavy 2 year, Each 40e; 3 for \$1.00; 6 for \$1.80.

New Double French Lilac

Here is an opportunity to procure some of these wonderful Hybrid French Double Lilacs for your home They are quite distinct from our common single Lilacs, being of dwarf, compact growth, and producing their large clusters of perfectly double flowers when only 2 or 3 feet high. Often blooming the second year after planting. They are absolutely sure to bloom freely every year. Scc Color Plate Page 52.

6846 Madam Casimir Perier Large compact panicles of pure white, double, very fragrant flowers.

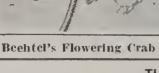

6847 Michael Buchner Dwarf, stocky growth and delicately beautiful trusses of fragrant lilac-blue flowers.

6845 Pres. Grevy Very large panicles often 8 to 10 inches long of beautiful double rich any variety, Strong 1 year, Each 50e; 3 for \$1.25; 6 for \$2.25.

68 18 Set of 3 Double Lilaes, One of each variety for \$1,25.

Hydrangea, Panlculata

The Templin-Bradley Co., Nationwide Seedsmen and Nurserymen, Cleveland, Ohio

Rhus, Smoketree

Hardy Flowering Shrubs, Cont. Rhus, Purple Smoketree

Purple Fringe. A curious large growing shrub forming a broad round-headed bush. Delicate fringe like or feathered flowers in early summer very freely produced. Leaves are a bright pea-green. When in full bloom the appearance is like a cloud of smoke. Very novel and decorative.
6896 One year. Each 30c; 3 for 75c; 6 for \$1.35.

Kolkwitzia or Beautybush

Amabilis. A handsome new shrub which has been introduced to American gardens from China, becoming at once most popular. Will grow 5 to 7 feet tall, very dense and bushy with long arching branches which are densely covered in May with the beautiful lively pink bell shaped flowers. Has all the merits of one of the best decorative ornamentals, excellent form and habits, beautiful profusion of bloom and finest foliage. Will succeed in nearly any location.

6831 Strong plants. Each 50c; 3 for \$1.25.

Mock Orange, Philadelphus Virginalis

Snowberry Symphoricarpos
Racemosus

3 to 4 ft. Neat shrubs of slender, graceful medium
growth, having pretty small pink flowers in June or
July, followed by large clusters of waxy-like snow white
berries throughout the late summer, autumn and early
winter. A very effective shrub for messes in the shrub winter. A very effective shrub for masses in the shrub border, or for foundation planting. Does well under most soil conditions and stands the smoke and dirt of

7215 Two year, 2 to 3 ft. Each 35c; 3 for 90c; 6 for \$1.60.

Coral Berry Current Indian

Although related to Snowberry and similar to it in many ways, Coral Berry is not so upright in growth, and the branches sweep gracefully to the ground, almost trailing in habit. An excellent subject for planting on dry terraces and banks where it thrives in spite of dry and adverse conditions. It also makes a pretty hedge or border. Grows about 4 ft. tall and bears pink flowers in July. The beauty, however, is in the racemes of currant-like scarlet berries which follow the flowers during the fall and winter.

7055 Two year heavy, 2 to 3 feet. Each 30c; 3 for 75c.

African Tamarix

Strong slender shrubs, growing to a height of 8 to 10 feet. Sprays of delicate pink flowers appear in early spring, April and May, before the leaves appear. Blooms at intervals throughout the summer. The foliage is light green, fine and feathery. Very attractive. Excellent in masses with tall shrubs.

6942 One year strong plants, 12 to 18 inch.

6942 One year strong plants, 12 to 18 inch. Each 25c; 3 for 65c.

FrenchPussyWillow

Salix Capre. A cultivated variety of Pussy Willow that is becoming quite popular. Cut the branches during the winter months, place in a vase in a warm room and watch them develop. The buds will begin to unfold and disclose the pretty catkins and in a few days more they will be loaded with a golden pollen. Very easily grown. They delight in a moist soil.

6890 Price extra strong plants, 3 to 4 ft. cut back. Each 25c; 3 for 65c.

See Shrubs in Colors

Snowball, Viburnum

SnowballorViburnum

Opulus Sterilis. The well known and always popular snowball or sometimes called the Guelder Rose. Its large globular clusters of snow white flowers in May and June and its rich dark green foliage have made it one of the most attractive and conspicuous shrubs in the gardens for many generations. They do well in nearly any location even in very dry soil, sun or semi-shade and will often develop to 8 to 10 feet in height and very symmetrical in shape.

7213 Strong Two Year, Each 50c; 3 for \$1.25.

Vitex Large Leaved Chaste Tree 7253

Macrophylla. An interesting flowering shrub. Forms graceful, shapely attractive plants 3 to 4 feet high with nicely divided foliage with aromatic odor. The pretty lavender-blue flowers on long terminal spikes or racemes, begin blooming in July, continuing without interruption until frost.

If you want a really pretty shrub that your neighbors do not have, try this, as we feel sure you will like it. The shrub will bloom better if the tops are cut back to within about 6 inches of the ground

Price, Strong 2 year Plants 50c; 3 for \$1.25.

How to Landscape our Garden How Book. It will help you.

Mock Orange, Virginalis
One of the most popular of our larger growing shrubs for background to other lower growing varieties blooming freely in May and June.

A magnificent new variety that is sure to become popular. The flowers are large usually semi-double; very fragrant and produced in profusion. Decidedly one of the best varieties of Mock Orange.
6857 One year. Each 20c; 3 for 50c.

7157 Strong two year. Each 30c; 3 for 75c.

Weigelas The beautiful trumpet shaped flowers appear in May and June in such profusion as to almost completely hide the

Eva Rathke The most distinct and beautiful of all Weigelas. Color deep carmine red. Dwarf

7258 Two year size. Each 40c; 3 for \$1.00.

Weigela Rosea Pink. May. The most popular Weigela sold today. Its delicate pink bell-shaped blossoms are borne in great profusion along great arching canes. Tall variety.

6956 One year. Each 25c; 3 for 65c.

7256 Two year. Each 40c; 3 for \$1.00.

French Pussy

on Page 69 and 52. Garland Daphne

An Evergreen Shrub of Great Beauty

G760 Daphne Cncorum. This wonderfullittle Hardy Ever Green Shrub is too beautiful to express in words. You just must see its charming beauty to fully appreciate it.

The nature of Daphne is a dwarf, bushy, spreading plant, not over 10 to 12 inches tall, covered with dark green leaves, each branch tipped with a dense cluster of delicately perfumed rose-pink blossoms.

Daphne blooms in the spring and again in the fall, unusual because most shrubs flower only once each year, making it an ideal shrub for edging, in front of Evergreens or for the Rock Garden. Its color is exquisite and the flowers are profuse.

CULTURE. Daphne likes a sunny place, well drained, sandy soil and a little protection with straw during the coldest months. Will withstand zero weather but the protection keeps the evergreen foliage in better condition. Water sparingly in summer. Each 50c; 3 for \$1.25; 6 for \$2.25.

Heather, Erica

One outstanding memory in the minds of all of us who One outstanding memory in the minds of all of us who have lived in or traveled through Scotland, is the memory of the beautiful Scotch Heather that grows so profusely there. The delicate coloring and the abundance of the tiny blooms, give the beautiful hills of Scotland, a gray-mauve, almost mist-like appearance, one we never forget.

Why not plant some of this Heather and bring a bit of Scotland to your own home grounds. We offer you here three varieties. You will like all of them.

6801 VULGARIS The true "Scotch Heather." Pretty bell-shaped flowers of rosy-layender. Dense erect branches.

bell-shaped flowers of rosy-lavender. Dense erect branches, covered with short, close-growing leaves. 10 inches tall. 6802 NANA COMPACTA. Vulgaris. Prostrate and compact growth, dull, rich green little evergreen plant, fine for Rock Gardens. Pink blooms. Plant 9 inches high. 6803 HAMMONDI PINK. A magnificent pink variety which grows strong, making large bushy plant, 10 inches tall.

Price on any above Heather. Each 50c; 3 for \$1.25; 6 for \$2.25.

Cultural

Snowberry

Anthony Waterer Spirea

Hardy Flowering Shrubs, Cont.—Spireas

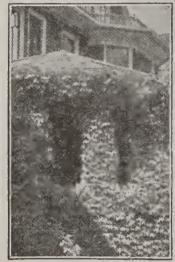

The Spireas are among our most useful and popular shrubs. They are all perfectly hardy and do well under any fair condition. You will find them satisfactory for specimen pianting or massing. We offer several of the best varieties as described below.

Van Houtte Bridal Wreath. 4 to 8 ft. White, May. This is the most useful hardy shrub. The flowers are in flat clusters, usually an inch or more across, produced on spreading, pendent branches often drooping to the ground. In full bloom they are a mass of white and never fail to attract attention. See Color Plate Page 52.
6937 One year, Each 20c; 3 for 50c; 6 for 90c.
7237 Two year, heavy. Each 40c; 3 for \$1.00; 6 for \$1.80.

Anthony Waterer Desirable dwarf growing, pro-fuse blooming shrub, forming neat, round bushes two feet high. Large, flat sprays of rosy crimson flowers from June to September. Useful for bordering porches or clumps of large shrubs. 6921 One year. Each 25c; 3 for 65c; 6 for \$1.15. 7221 Two year. Each 35c; 3 for 90c; 6 for \$1.60.

Spirea Van Houtte or Bridal Wreath

Hardy Climbing Vines

The attractive beauty that may be added to a home by planting a few hardy climbing vines around the porch or on a treilis, arbor or fence is unsurpassed by any other plantings. Their usefulness in covering unsightly fences and buildings and turning them into objects of beauty is far in excess of their small cost. They fit in and grow well in locations where no other plants will grow with success. Every home should have a few, and our list includes only those which will succeed in nearly any location.

8003 Boston lvy Ampelopsis Veitchii
Once it is established it grows rapidly and will stay indefinitely needing only an occasional trimming to keep it within bounds. It is not attacked by disease or insects and the foliage is not injured by smoke and dirt of cities. The glossy leaves turn to a brilliant orange scarlet in the fall. Its greatest value is in its clinging to any brick or stone wall, and will completely cover any house or other building even to the height of 30 to 40 ft. or more. Two year size 35c; 3 for 90c; 6 for \$1.60.

Scarlet Trumpet Vine

7907 Bignonia Radicans A robust climbing vine. Its orange scarlet trumpet-shaped flowers cluster at the tip of branches. Blooms in July. Produces an abundance of beautiful dark green foliage which makes it very desirable for covering summer houses, arbors or rusticfences. It clings tightly with its twining tendrils, which are borne at intervals along the branches. Easily established and grows luxuriantly. Grows to a height of 15 to 20 ft. Strong one year plants 30c; 3 for 75c; 6 for \$1.35.

A very popular hardy deciduous climbing vine unsurpassed for use inshading porches or on arbors. They quickly cover any unsightly object over which they may climb. The flowers are delightfully fragrant.

8030 Hall's Japan an abundance of rich green foliage, which in mild locations is evergreen. Its creamy-white flowers are produced from June to Augustand are very fragrant. Each 25c; 3 for 65c; 12 for \$2.00.

8031 Coral A distinct variety which produces large trumpet shaped flowers in clusters. The flowers are a coral scarlet of mild fragrance and very showy. The foliage is rich and glaucous, making a beautiful covering wherever used. Strong, 2 year plants each 30c; 3 for 75c; 6 for \$1.35.

8033 Set of 2 Varieties, 1 root each for 50c.

Clematis

8014 Paniculata or Snowbank

Sweet-scented Japanese Clematis. Completely covered in September with a mantle of pure-snow-white fragrant flowers. Strong Plants, each 25c; 3 for 65c; 6 for \$1.15.

7911Coral Coccinea An interesting species producing very ball-shaped, coral-red flowers from early June until late fall. Strong roots, each 35c; 3 for 90c; 12 for \$2.80.

Clematis, Paniculata

Large Flowering Clematis
These desirable large flowering Clematis require more careful culture than the small flowered varieties. They require rich deep soil, good drainage, and an abundance of water. They should be planted with the crown 2 to 3 inches below the surface and spread the roots out horizontally.

8012 Jackmanii The best of the purple flowered varieties. Flowers large 4 to 5 inches across and of rich velvety purple, produced more or less through July to September. Each 75c; 3 for \$1.90.

8013 Madame Ed. Andre Large flowers of rich crimson. Each 75c; 3 for \$1.90.

Chinese Wisteria Large pendulous clusters of pea-shaped blossoms of rich purple, which fairly laden the vine in May and early June. They are most beautiful when covering the porch or a large arbor where they will climb higher and higher seemingly with no limit. We are offering grafted roots from blooming vines which are much quicker to establish themselves and bloom than seeding plants.

7975 Strong plants. Each 40c; 3 for \$1.00; 6 or \$1.80.

Wisterla

Polygonum Auberti One of the most desirable and valuable rapid climbing, hardy vines introduced in many years. The plant is a quick growing vine of twining habit, often attaining a height of 25 to 30 ft. in a season, producing more flowers than any other hardy vine we know, throughout the summer and fall months, literally covered with silvery-white foamy sprays. The illustration from a photograph gives a very good idea of the great beauty. If you have a place for a beautiful permanent hardy vine, you will be delighted with this variety. Strong vines 50c; 3 for \$1.25.

Climbing Bitter-Sweet

8009 Celastrus Scandens Handsome glossy folters of beautiful orange crimson fruits retained all winter. Its graceful sprays of derries make charming winter house decorations. A popular vine for covering rough fences, or other unsightly places. 2 year roots. Each 25c; 3 for 65c; 12 for \$2.00.

Hardy Perennial Plants

In talking and writing to us, a great many people each year, say something like this—"I want flowers in my garden but I don't want to have to replant completely every year." That must be why our Hardy Perennial Plant Department has grown so large and remained large even during the depression years.

A garden of Hardy Perennial Plants may be added to from year to year. Plant enough this spring to make a reasonable showing, then round out the planting as time goes on. No home is complete without a well selected assortment of Hardy Perennial Plants. They require little attention, get bigger and better as time goes on and provide an abundance of color in your garden and cut-flowers for your home. They fit into borders, make nice beds by themselves, look well along the foundation of your house, are a necessity for Roek Gardens and round out plantings of flowering shrubbery and roses. Our Hardy Perennial Plants have been earefully grown for you by our own skilled nurserymen. Prices are so low that you cannot afford to omit what you need when you send us your order. Remember, these prices include delivery.

llardy Perennial Plants such as we produce for you, are the types which will do well under the widest range of climatic and soil conditions.

Study carefully the five pages devoted to these Hardy Perennial Plants. Remember, the index in the front of this catalog gives both the common and the botanical names of all plants, so that you can easily locate varieties.

Hardy Aster

Not every plant is suitable for rock gardens. Some are too large, others require a better foot-hold than the small amount of soil between the rocks or over them provides. For this reason and to help you in making your selection if you have a Rock Garden, those Hardy Perennial Plants in the following five pages, which are suitable for Rock Gardens, are indicated by the letters, 'RG' after the name. We were just about the first firm in this country to encourage the making of Rock Gardens and you will find our assortment for this purpose is unexcelled.

Hardy Astilbe See Color Page 69

6003 Achillea Rosy Milfoil. R. G.

Easy to grow, useful for the perennial border, rock garden, wild garden and for cut-flowers. This Achillea Millefolium Roseum has finely cut foliage, pink flowers in dense heads and blooms practically all summer. 12 inches high. Will succeed in any good soil in sunny place. Each 25c; 3 for 65c.

This beautiful perennial should be in every garden. Its blue flowers and dark glossy foliage will add attraction and charm to any part of your garden. They bloom at a time when color is needed and continue for a long period. They will succeed in any good garden soil. A dwarf variety, growing to 30 inches high, producing very large pale blue flowers in September and October. Foliage is very decorative. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Aconttum Napellus

Artemisia Silver King

Makes Attraetive Winter Bouquets

Artemisia-Silver King

6012 Anemone, Windflower

Pulsatilla Rubra. Grows from 9 to 12 inches high and produces reddish-purple flowers during April and May. Very beautiful for mass planting or as a specimen plant in the Rock Garden. Especially fine for borders. Anemones quickly adapt themselves to any locality. Each 20c; 3 for 50c; 6 for 90c.

Is Your Garden Going to the Dogs? If so, spray with DOGZOFF Season's Supply 69c.

Hardy Astilbes

Herbaceous Spirea See Color Page 69.

They succeed best in a rich, deep, moist soil and should be watered freely during their growing season. They will form large clumps, increasing in size and beauty from year to year. They are all very desirable for the garden among other perennials.

6029 GRANDIS ROSEA. Large graceful plumes of light lilac rose. A very fine variety. 4 to 6 feet. Each 30c; 3 for 75e; 6 for \$1.35; 12 for \$2.40.

6031 KRIEMHILDE. Strong vigorous habit producing large plumes of delicate salmon pink. 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6033 QUEEN OF HOLLAND. A new variety of large and strong growth. Very fine pure white plumes 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6027 SET OF THREE ABOVE ASTILBES. Good strong roots. A total value of 90c, will be sent for only 75c.

The following three are of dwarfer habit and besides being exceptionally fine for the garden are fine for forcing iu pots indoors where they produce lovely blooms. They may later be transferred to the gardeu.

6021 AMERICA. Delicate light lavender-pink. One of the most popular varieties, 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40. 6024 GLORIA. A new and beautiful variety. Dense feathery spikes of deep pink. 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

6026 PEACH BLOSSOM. Soft delicate peach blossom pink. One of the most popular. 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40. 6036 SET OF THREE ABOVE ASTILBES. Value 90c, for only 75c.

ARGENTEUM. R. G. (Rock Madwort). For early and continuous bloom the Alyssum is near the head of the list. Their beautiful foliage and plant form adapts them to use in any part of the garden. An especially fine form for the Rock Garden or edging. Lovely yellow flowers in clustered heads produced all summer. Foliage is silvery beneath. 12 to 15 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6009 Anchusa MYOSOTIDIFLORA. R. G. The dwarf Anchusa is indeed a charming plant and very useful in any mixed planting, harmonizing well with any of the other perennials. The most dwarf of this family, producing clusters of beautiful blue Forget-Me-Not like flowers during May and June. 12 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Perennial Chart On Page 35

Color, Height, Blooming Season and other details to help you.

6183 Hardy Ageratum G. Resembles the Annual Ageratum in flower and plant form. This species produces in August and September lovely lavender blue flowers on plants 1½ to 2 feet tall. The foliage is very bright and ornamental throughout the entire season. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Note of all seeds and plants appear in the Index on page 80.

6028 Anthemis-Chamomile A choice perennial and one that will provide you with an abundance of large golden, daisy-like flowers for house and garden all summer. Foliage is finely cut and attractive. Does well in poorest soil. Each 25e; 3 for 65c; 6 for \$1.15.

6042 Aster Alpinus Goliath R. G. Dwarf, compact growth, 6 to 10 inches high. Indispensable for the rockery or the edge of hardy borders. Bears large, showy bluish-purple flowers in May and June. Does best in full sun. Each 35c; 3 for \$1.60; 6 for \$1.75.

Anemone Windflower

Perennial Seeds

We offer a complete assortment of the world's best per-ennial seeds on pages 36 to 43.

Artemisia

Sce Color Plate,
Page 52

As beautiful decorative foliage plants for the hardy border or perennial garden, the Artemisias are without equal. They produce an abundance of light airy foliage that is equally as fine for bouquet use as it is decorative in the garden. Useful as winter bouquets when dried. They will succeed in any good garden soil that is well drained.

6015 Silver King A most beautiful silvery white foliage is produced in long slender sprays, making Silver King the most decorative plant in the entire garden list. When combined with cut flowers it adds a beauty to the bouquet that is amazing. Wherever Silver King is grown it at once makes many enthusiastic friends, you too will like it. Grows to 24 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6016 Lactiflora A most desirable and effective hardy plant for the border, or to plant among shrubbery. Of strong, free growth, with erect stems 3 to 4 feet high, terminated with great panicles of fragrant, creamy-white flowers from late August to October. Quite distinct and desirable. This variety is not hard to grow, thriving best in moist rather rich soil and full sun. Water the plants freely. Each 20e; 3 for 50e; 6 for 90e; 12 for \$1.60.6045 Set of 2 Artemisias Only 35c.

6184 Hardy Aster Michaelmas Dalsy. These are among the showiest of our late flowering hardy plants, producing an abundance of flowers during September and October, when most other hardy flowers are past. They grow freely in any soil and require very little care. Sold only in sets of three colors; white, pink, lavender. Set of 3 for 40c; 3 sets for \$1.00.

Perennial plants are useful in odd corners.

Digitalis, Foxglove

Long Spurred Aquilegia

Perennial Chart See Page 35.

Delphinium, Hardy Larkspur Without doubt the finest and most popular hardy perennial plant known to our garden today. Every garden should have a number of these plants with their

garden should have a number of these plants with their beautiful blue flowers.

6106 BELLADONNA. The beautiful "Belladonna" with its large spikes of clear sky-blue flowers always attracts attention. They bloom continually from July to frost, in delicacy and beauty. Perfectly hardy everywhere. I year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.

6107 BELLAMOSUM. This is a dark blue form of the popular light blue Belladonna, with which it is identical in habit of growth, freedom of bloom and other good qualities, but with intensely rich, deep blue flowers. I year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.

6108 Blackmorc & Langdon's GOLD MEDAL HYBRIDS. Unquestionably the finest strain of mixed hybrids offered. The plants are of strong, vigorous habit, with large flowers on spikes two feet and over long; a grand assortment of colors from delicate sky-blue to deep purple. I year blooming size 25c; 3 for 65c; 6 for \$1.15; doz. \$2.00.

6128 Set of 3 Delphiniums, 50c; 2 Sets 90c.

Campanula, Canterbury Bells
These beautiful hardy plants are a beautiful addition
to the garden and add much color and charm to the
border in late June and July with their masses of
beautifully colored bell-shaped flowers.
6056 CAMPANULA BLUE. A beautiful blue.

Campanula

6057 CAMPANULA PINK. Delicate pink

Either color. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6058 SET OF TWO CANTERBURY BELLS FOR 45c.

6076 Coreopsis

Auriculata Superba.
Perennial Novelty. Produces large yellow flowers, with dark blotch all summer. Each 25c;
3 for 65c; 6 for \$1.15.

Hardy Perennials

brids. A greatly improved strain of the popular old-fashioned Columbines of our grandmothers garden. These Hybrids are the best Aquilcgia or Columbine grown. The colors are marvelous and the long graceful spurs add charm to the flowers. The vigorous plants produce large quantities of blooms for a long season. They grow 2½ feet tall. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60. They grow $2\frac{1}{2}$ feet tall. If for 90c; 12 for \$1.60.

6050 Boltonia Latisquama. Among the showiest hardy plants with large single Aster-like flowers. The plant is in bloom from July through September, with its thousands of flowers open at one time, producing a very striking effect. The flowers are a pleasing shade of pink. Clumps of Boltonia are effective in the rear of the hardy border, as they reach up to a height of 4 to 5 ft. They are excellent also for cutting. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6087 Carnation Crimson King R. G. Beautiful rich red, valuable for cut-flowers and unequalled for color for the perennial border and for the Rock Garden. Will produce double flowers of excellent quality throughout the summer. Each 20c; 3 for 50c; 6 for 90c.

6085 Daisy Double White Swan. Wonderful new variety, without question, the finest Double Daisy grown. Stems 18 to 24 inches long, blooms Decoration Day in normal spring. Makes adorable bouquets. Each 50c; 3 for \$1.25.

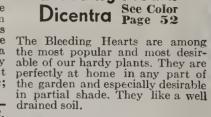

Hardy Larkspur, Delphinium

6090 Chinese Lantern Plant

Physalis Franchetti. A very delightful and popular hardy perennial useful for its bright colored seed pods which are produced in the fall and with the first frosts turn to a brilliant orange red. These pods are quite freely produced at intervals along the branches and when colored resemble a string of fantastic Chinese Lanterns. The stems with the seed pods on can be dried and kept for winter decorations by cutting them after they have turned color and hanging them to dry in a cool airy place that is not too light. As winter decorative bouquets they are unexcelled: they mix well with any of the other dried flowers. Plants grow to 3 feet and should be planted in a location somewhat sheltered from wind. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6100 Digitalis, Foxglove

SHIRLEY. A grand display of thimble-shaped flowers in immense spikes during June and July. Tall growing with large rough foliage. Very showy in the garden. They are of extraordinary size and vigor, growing 5 to 6 ft. tall. The flower heads are over 3 feet long crowded with big, bell shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted with crimson or chocolate. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Bleeding Hearts

Bleeding Heart

Grained soil.

Blee ding Heart

6947 SPECTABILIS. The old fashioned garden
favorite of our grandmothers gardens. Its long graceful
racemes of heart shaped flowers of beautiful nink and
white are very attractive in April and May. The foliage
is fern like and very decorative. This variety is used for
forcing in pots with good success. 2 to 3 feet. Each 50c.
3 for \$1.25; 6 for \$2.25; 12 for \$4.00.
6102 EXIMA (Plumy Bleeding Heart.) Somewhat
more dwarf with more finely cut foliage. Produces an
abundance of pink and white heart shaped flowers in
graceful racemes in April and May and often at
intervals throughout the season, 1½ to 2 feet. Each
25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.
6103 SET OF TWO BLEEDING HEARTS—For
only 50c.

Rock Garden Plants ennial Plants suitable for Garden are marked "R. G."

All of these Hardy Pergrange Plants South Plants South Plants Hardy Pergrange Plants Plants Hardy Pergrange Plants Plants Hardy Pergrange Plants Pla

to September growing about 18 inches tall. Each 20c; 3 for 50c; 6 for 90c; 12 6 for 90c; for \$1.60.

Ranuculus, Buttercup Daisy
6088 Chinese Corydalis CHEILANG. A lovely little plant with beautiful fern-like foliage
bearing long racemes of rich yellow blooms somewhat
resembling the bleeding heart. Of Chinese origin this
plant is very hardy and of easy culture in any well
drained soil. Each 25c; 3 for 65c; 6 for \$1.15;
12 for \$2.00.

6357 Hardy Candytust Iberis, Gibralsirable dwarf plants 8 to 10 inches high with evergreen foliage that is completely covered with dense heads of white flowers in early spring. The hardy Candytusts are very useful and pretty plants for edging the hardy border or for use in the rockery. They are fine also for carpeting among shrubs, tulips or any other similar location. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Burbanks Shasta Daisy

Daisies, Chrysanthemum Maximum

The Daisies are always welcome additions to the garden; their decorative effect in the garden is pronounced because of their free flowering habits and good foliage, and as cut flowers they are always useful.

6053 BURBANKS SHASTA. An improved type, having immense single glistening pure white flowers 3 to 4 inches across on tall stems. Hardy and of easy culture. A wonderfully profuse bloomer, giving you great quantities of good long stemmed flowers. Starts to flower in June and continues more or less freely all summer and fall. 2 to $2\frac{1}{2}$ feet tall. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6122 KOREAN DAISY. A lovely new daisy from Korea, bearinglarge white flowers with golden centers somewhat resembling a glorified Shasta. Extremely hardy, blooming from early October to December. 30 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Price either variety. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6175 SET OF TWO GEUMS FOR 40c.

Geum, Avens

The Geums are very delightful and ornamental plants that are too little known in American gardens. Fine plant form, pretty foliage and brilliantly colored blooms. They enjoy a loamy soil and plenty of moisture during blooming season. Bloom nearly all summer.

6177 LADY STRATHEDEN. Similar to Mrs. Bradshaw except in color which is a rich golden yellow. See Color Plate Page 51.

6178 MRS. BRADSHAW. A splendid variety with large double flowers of a rich fiery red. See Color Plate Page 51.

6169 Heuchera The Shirley R. G. Beautiful plants, producing clusters of bright foliage and slender fairy-like spikes of bright red flowers. Bloom in July and August and make very attractive cut-flowers. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

Kansas Gay Feather Liatris, Blazing Star

6371 Pyenostachya Gay, perfectly hardy perennial which will attract much attention, fill a big place in your border and make exquisite eut-flowers for a tall vase. Rich purple spikes 1 foot long on plants 6 feet tall. Blooms July and August.
6372 Scariosa September blooming type of Kansas Gay Feather. Large, showy purple heads, very imposing form. 4 to 5 feet tall.

Prices on both varieties Prices on both varieties. Each 25c; 3 for 65c; 6 for \$1.15.

Gay Feather

CULTURE -Both varieties thrive well in any good garden soil, in sun or in shade and look best if planted in groups of three or more. May be grown by the pool for an effective color scheme. Bees love their unusual sweetness.

Hardy Gypsophila

A class of hardy plants that is almost indispensable to the garden from which cut flowers are gathered. Gypsophila is one of the finest bouquet trims, being equally good with any flowers.

6181 PANICULATA. (Baby's Breath). Perhaps the best of the hardy Gypsophilas for producing that "mist" effect when used in bouquets. Its numerous tiny white flowers are produced in light feathery panicles with delicate foliage from July to September. Each 20c; 3 for 50c; 6 for 90c: 12 for \$1.60.

6182 BRISTOL FAIRY. A double flowered form of this beautiful flower, with greater vigor and more continuous blooming habit. The tiny double white flowers are produced almost continuously as cut. These are

are produced almost continuously as cut. These are grafted plants and will give you the best results. Each 40c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.20.6174 SET OF 2 GYPSOPHILAS ONLY 50c.

Dianthus, Allwoodi
Suitable for the Rock Garden
Perfectly hardy and perfectly levely little perennials that provide dainty bouquets of delicate beauty. No garden is complete without these popular old Dianthus or Garden Pinks and we offer you here the improved Allwoodi type.

Allwoodi type.
6122 Allwoodi JEAN. White, with crimson center.
6123 Allwoodi MARY. Rose-pink, maroon center.
6124 Allwoodi ROBERT. Old sore, maroon center.
Price of any above. Each 30c; 3 for 75c; 6 for

6444 Hardy Forget-Me-Not Myosotis,
The true "Forget-Me-Not" appealing in its modest
azure beauty and cherished for its sentiment. Bushes
up to 12 inches high and blooms profusely during
early summer. Few spring flowers are more admired
than the lovely Forget-Me-Not, and few flowers are so
well adapted to so many uses and locations. For low
borders or mass bedding they are invaluable, and for
Rock Garden work they are unexcelled. Succeeds best
in deep, rich soil and partial shade. Each 20c; 3
for 50c; 6 for 90c; 12 for \$1.60.

Double Hollyhocks

Stately, majestic hardy plants, from 6 to 8 feet high, which are a necessary part of every old-fashioned garden, and should also find a place interspersed with shrubbery, as clumps on the lawn or in the mixed border, where their colossal spikes of bloom produce bold and showy effects, which cannot be secured with any other flowering plant. The Hollyhock requires a deeply dug, well drained soil. We offer an exceptionally fine strain of Double Hollyhocks in the following colors: White, Newport, Pink, Sunset, Crimson, Lilac and Yellow. Sold only in sets of six, one of each color as above.

6192 Set of six colors, not separately labeled,
\$1.00.

Double Hollyhocks

Heuchera

A rock garden may be large or it may be small and there are perennials to fit

A Clump of Lupines

Lupines

Polyphyllus. One of the most attractive and beautiful hardy perennial plants we know is the Hardy Lupine. They form large clumps 2 feet across, often having 20 to 30 beautiful spikes open at one time. They are at their best in May and June.

Almost any kind of soil suits them.
6458 ORIENTAL SCARLET. Large cup shaped blooms of petals.

petals.
6468 ORIENTAL MRS. PERRY. A very fine variety of orange-

apricot.
6467 SET OF TWO ORIENTAL POPPIESTFOR 45c.
Prices on Oriental Poppies. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6465 Platycodon, Chinese Bellflower
Balloon Flower. A splendid hardy perennial, having tuberous roots and forming bushes 2 feet high, with profusion of pretty five petaled bell-shaped, star-like flowers, 1½ to 2 inches across. The flower buds before opening resemble small balloons. A very desirable plant for every garden. The color varies from dark blue to white. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6466 Plumbago Larpentae R. G.

One of the most desirable border and rock plants, and a very persistent bloomer from July until freezing weather. It grows 6 to 8 inches high and of very spreading habit. During blooming season it is fairly covered with lovely dark blue flowers. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Hardy Primrose, Primula Elatior
While the Primulas are among the most beautiful and interesting of all early blooming plants for the border and rock garden they are still little known and appreciated in American gardens. Give them partial shade and a moist but well drained soil.

6567 MUNSTEAD RED. R. G. Rich mahogany-red flowers often gold laced

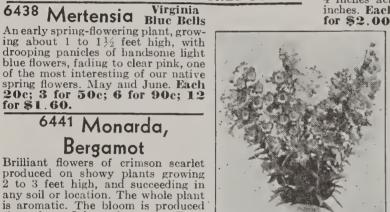

and borne in clustered heads.

6568 MUNSTEAD YELLOW. R. G. Beautiful large flowered yellow shading darker. Very good bloomer.

6470 POLYANTHUS PERFECTION. R. G. The pretty flowers of yellow, crimson, red and brown are borne in clusters 8 to 10 inches above the fine foliage. In a sunny spot they are among the first to bloom in spring.

Price any of above Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6582 Set of 3 above Primulas Only 60c.

Penstemon Beard's Tongue

SET OF THREE NOT SEPARATELY LABELLED FOR ONLY 50c; 3 sets for

Trollius, Globe Flower

The large richly colored Globe Flowers are indeed beautiful and charming. When in full bloom, a group of them with their large nodding heads in rich yellows and orange is a wonderful sight. They grow to 2 feet, begin blooming in May and continue until August. Their foliage is a beautiful dark green with palm-like leaves making very attractive plants for the garden even when out of bloom. Trollius seems to delight in a moist but well drained soil blooming more profusely and continuously with a regular supply of moisture. They are lovely in the Rock Garden where their height is not too great. We are offering five of the finest colors.

6604 SALAMANDER. Large richly colored flowers of a lively rich orange. Very free flowering.

6605 METEOR. Heavy dark orange, several shades darker than Salamander. The richest color of all.

6606 EMPIRE DAY. A lighter shade of orange of great lustre. A very popular and beautiful variety.

6607 GOLDQUELLA. A very rich yellow-orange. Bright and clear. This variety was recently voted an Award of Merit by the R. H. S. of England.

Hardy Chrysanthemums

The well-known autumn flowers of our grandmothers' gardens that produce such an abundance of beautiful flowers at a time when they are most appreciated. In the following we have selected varieties that have proven hardy in the North with slight protection. An assortment of the hardy "Mums" certainly should be in your garden, they give such a wealth of bloom in the fall when flowers are scarce. Bring bouquets into the home where they will keep fresh for a week or more.

Frau Karl Druschki Rose

Hardy Hybrid Perpetual Roses

The plants we offer are all strong, healthy, two year old, field grown, budded stock.

These are the beautiful "June Roses" so unlversally popular. They are the largest and richest ln colors of all Roses, and are perfectly hardy everywhere. In accordance with our established policy, we have selected only six of the best varieties.

8211 Frau Karl Druschki (P. Lambert 1900.) A recent referendum among the members of the American Rose Society brought out the information that this is the most popular Rose in America. Its pure, snowy-white, unshaded blooms are of immense size, sometimes reaching almost 6 inches in diameter and they are of lasting quality, on fine stems, though without fragrance. In addition to its abundant bloom in June, will, if kept growing, produce many flowers throughout the summer and in the autumn. No substitute for "Druschki" has yet appeared.

8213 General Jacqueminot A rich velvety crimson, changing to a scarlet-crimson. This is the best known of all hybrid perpetuals, and is without rival in fragrance and richness of color. Blooms freely.

8221 Magna Charta Flowers are very large and double, of bright pink, suffused with carmine. Deliciously fragrant, growth is strong and erect, foliage good.

8222 Mrs. John Laing Large flowers of clear pink, cupshaped, fragrant and double. Strong growth, healthy foliage and free flowering. One of the best Hybrid Perpetual Roses, giving some flowers in the autumn.

8230 Paul Neyron The largest Rose in cultivation, sometimes called the Peony Rose. Color bright, fresh clear pink. Flowers are very double and full, delightfully fragrant. Blooms almost continuously June to October.

8243 Ulrich Brunner Large, full flowers of grant. Strong, erect growth, large foliage. Flowers freely in early summer. An old and well known variety, almost

Prices on the above Hardy Perpetual Roses. Each 60e; 3 for \$1.50; 6 for \$2.70.

8248 Rose Collection 6 Roses 6 Hybrid Perpetual Total value \$3.60 for \$2.75

Everblooming Hybrid Tea Roses

The Hybrid Tea or Monthly Roses produce their beautiful bloom almost continuously from June until frost. They are the popular roses so much used for bedding and as cut flowers. Our list below includes some of the finest varieties known.

See page \$4. The big number after the name refers to the color plate. These are all hardy, field-grown right here in Northern Ohio and number one grade, which is the finest rose produced. Do not confuse this with cheap, department store roses which are largely produced in the south and not strong enough to stand our Northern winters. They are well worth the price we ask for you cannot buy better roses anywhere, at any price.

8261 Columbia Lively Pink. Large, fully double. Shades darker at maturity. Fragrant and free blooming. Each 75c; 3 for \$1.90.

8263 Dame Edith Helen (12) Blooms are very large, pure glowing pink, intensely fragrant and lasting. Each 75c; 3 for \$1.90.

8266 Duchess of Wellington (4)
Yellow. Opens a rich orange yellow and turns to reddish-gold and lemon. Each 65c; 3 for \$1.65.
8275 Gruss an Teplitz Crimson. Blooms from early June until frost in great clusters. Each 75c; 3 for \$1.90.

8318 Herbert Hoover (9) Pink and Yel-fulpointed buds opening to large flowers of cerise pink, flame, scarlet and yellow. The most dazzling color effect. Each 65c; 3 for \$1.65.

Rich rose-red with darker veining. An adorable rose of medium size, long pointed, double, very long lasting and extremely fragrant. A real addition to your rose collection. Each 75c; 3 for \$1.90.

8288 Joanna Hill Indian-yellow. Very double rose with beautiful indian-yellow center, surrounded by bold buff petals. A most gorgeous color combination and shading. Each 75c; 3 for \$1.90.

8299 Los Angeles (5) Coral Pink. Produces continuous bloom on long-stemmed, luminous flame-pink flowers toned with coral and shaded translucent gold. Each 65c; 3 for \$1.65.

8302 Madame Butterfly (10) Light Plnk. A symphony of bright pink, apricot, gold and white. Full-petalled, prolific and great color-appeal. Each 65c; 3 for \$1.65.

8304 Mme. Edouard Herriot (13) Coral Red. A beautiful variety. Large flowers of coral red, shaded with yellow and bright, rosy-scarlet. Large, long, pointed buds. Each 75c; 3 for \$1.90.

Mrs. Aaron Ward Rose

8306 Mrs. Aaron Ward Orange-yellow. Long, shapely buds opening into semi-double, cup-shaped flowers of deep Indian yellow, varied and shaded. Each 75c; 3 for \$1.90.

8311 Norman Lambert Coppery or-lovely delightfully fragrant rose of medium size and wonderful quality. Each 75c; 3 for \$1.90.

8326 Red Radiance (8) Crimson. Blooms globe shaped, very full and almost continuously. Each 65c; 3 for \$1.65.

8330 Souv. de Claudius Pernet Clear yellow. A clear, untinted, sunflower yellow. Holds color well in bud and full bloom in brightest sun. Each 75c; 3 for \$1.90.

8333 Talisman (11) Coppery Yeled flowers, extremely fragrant, of golden yellow and
copper. One of the most popular of the new roses.
Each 75c; 3 for \$1.90

8339 Wilhelm Kordes Long pointed buds of Fully double, high-centered blooms are of rich goldensalmon tinged with copper. A sensational new variety. Each 75c; 3 for \$1.90.

8352 Color Collection 9 Hybrid Tea Roses Back Cover. Total value \$6.25 for Only \$5.00

Beautiful Hardy Climbing Roses

No other class of Roses is so easlly grown and adds so much to the beauty of the home grounds. Whether it be on a trellis or arbor or at a porch pillar they so quickly make a fine growth and give such a great quantity of delightful bloom, that the place is transformed to a spot of beauty. Our list below includes only those that we know will give you the best results and the greatest beauty. greatest beauty.

8505 Climbing American Beauty Color rosy crimpopular parent, and with same exquisite fragrance, a quality rarely found in climbing roses. Strong growth. Flowers from 3 to 4 inches in diameter, of fine form, and produced in great profusion in May and June. Each 40c; 3 for \$1.00; 6 for \$1.80.

8523 Gardenia Hardy Marechal Niel. A delightfully beautiful variety of very vigorous growth and with rich dark green foliage. Produces an abundance of fine flowers which are a bright yellow in the bud opening to a creamy white with a yellow center. Each 40c; 3 for \$1.00; 6 for \$1.80.

8526 Mary Wallace Introduced by the late Dr. Van Fleet and highly indorsed by The American Rose Society. A strong rapid climber of the Pillar-rose type, and a wonderfully free bloomer. Beautiful pointed buds, and large semidouble flowers 4 inches across. Color clear bright rose pink. Each 40c; 3 for \$1.00; 6 for \$1.80.

8535 Silver Moon Different from all other Roses with beautiful semi-double flowers, pure white in color, petals of great substance and beautifully cupped. The large bunch of yellow stamens in the center add to its attractiveness. Fach 40c; 3 for \$1.00; 6 for \$1.80.

8508 Doctor Van Fleet A climber which combines abso-as the tender sorts of Tea and Noisette classes. This variety shows a mass of beautiful clustered buds, which open out into large, shapely flowers delicate flesh white. Fine for cutting, stems 12 to 18 inches long. Each 40c; 3 for \$1.00; 6 for \$1.80.

8528 Mme. Gregoire Staechelin A new climbing rose of very vigorous habit. Flowers pink with attractively curled petals and, borne on long strong stems. The vigorous foliage of this new variety makes it a very fine subject for trellis or arbor. Each 50c; 3 for \$1.25; 6 for \$2.25.

The Climbing American Beauty

BLAZE New Hardy ROSE

See Its Dazzling Beauty on Back Cover

The most dazzling, blazing, vivid scarlet Climbing Rose ever grown. It blooms frequently, (practically everblooming) produces quantities of Roses, is a vigorous grower, perfectly hardy and gives a wealth of beauty to any garden. Plant one of these startlingly beautiful Blaze Roses on your favorite garden wall, trellis or porch and enjoy its wonderful gay flowers in the house or garden. Blaze Rose can be pruned low for bedding, medium high for shrub use or allowed to grow into a trailing Rose as a climber.

8504 BLAZE ROSE for Only \$1.25

NIGRETTE "The Black Rose"

Unusual and Beautiful, See Back Cover

Nigrette is known as "The Black Rose of Sangerhausen." The flowers are of medium size, deep maroon-black with blackish velvet sheen, giving it the appearance of a black flower. It is the darkest of all Roses, is deliciously fragrant, and is continuously in block. in bloom.

If you want to have an up-to-date Rose Garden, you must plant one of these Nigrette Roses. Nigrette is the sensation of the Rose world today.

8310 NIGRETTE ROSE. Each \$2.00

A Dazzling Beauty Hardy Climbing Rose

8530 Paul's Scarlet Most dazzling scarlet rose ever grown. Winner of the gold medal at the National Rose Society Exhibition. Semi-double flowers, in clusters of 3 to 20 Roses each. Perfectly hardy, continues to bloom long after many other Roses have disappeared. Startingly attractive. Each 40c; 3 for \$1.00.

Hardy Rugosa Roses Eskimo Beauties

This valuable new type of Hardy Rugosa Rose called "Eskimo Beauties" is becoming very popular. They have perfectly double flowers and bloom at intervals throughout the entire season. They are absolutely hardy and are not susceptible to many of the diseases and insects that attack other roses, keeping their foliage clean and fresh through the season. All the pruning you need to do is to trim out dead and superfluous wood. The plants bloom intermittently through the summer.

8551 Agnes A fine Rugosa Rose with fragrant yellow flowers and fine crinkled foliage of rich dark green. The flowers appear at intervals along the branches making it very attractive. Each 50c; 3 for \$1.25; 6 for \$2.25.

8555 F. J. Grootendorst Bearing many bright red flowers with fringed petals, this variety is a mass of color when in bloom. A sturdy and healthy plant, one of the best of the Rugosas. Bears its bright flowers more or less all Summer. Each 35c; 3 for 90c; 6 for \$1.60.

8561 Hansa Aquite distinct color among Rugosa double of a reddish violet, very freely produced on a strong typical Rugosa plant. Very hardy and dependable. Makes a splendid hedge. Each 35c; 3 for 90c; 6 for \$1.60.

8565 New Century Considered by many as troduced. Splendid, very large fully double flowers of clear flesh pink with light red center and each petal bordered with creamy white. Very fragrant. Erect strong growing plants with tough foliage. Each 35c; 3 for 90c; 6 for \$1.60.

8569 Sir Thomas Lipton Snowy white size and unusual quality borne in utmost profusion in spring and to some extent throughout the summer and fall. The plant is large and vigorous making an excellent specimen plant or massing variety. Each 35c; 3 for 90c; 6 for \$1.60.

8554 Dr. E. M. Mills Light primrose with pink suffusion which becomes more pronounced in the later blooms. Cup shaped flowers, semi-double. It flowers along the stem like Hollyhocks. Each 35c; 3 for 90c; 6 for \$1.60.

8574 Set of 6 Rugosas only \$1.50

Everblooming Hardy Cluster Rose

8578 Baby Rambler Entirely disother Roses. Neat, dwarf, compact habit, in bloom continually from June until frost. Pretty, little perfectly double flowers in large clusters. Color brilliant crimson. Perfectly hardy, retaining its glossy green foliage all summer. Grows about 18 inches high. One of the finest ever introduced. 2 year field grown plant. Don't confuse this with the Climbing Ramblers. We have seen a number of beautiful hedges of this variety. Each 35c; 3 for 90c; 6 for \$1.60.

Agawam Niagara Worden No item in this catalog will give you greater satisfaction than this splendid set of Hardy Grape Vines. Every home, if only on a city lot, will provide room to plant them.

8601 Agawam A rich, deep red, almost maare borne in huge bunches. An excellent grape; you'll

8603 Concord The best known and the most popular grape. Its large blueblack berries are most delicious and of finest quality.

8611 Niagara This large amber-white grape is the finest of all the white grapes. The clusters are very compact and the berries sweet and juicy. It ripens at the same time as the Concord.

8618 Worden Similar to Concord but slightly darker, sweeter, and ripens about ten days earlier. A fine variety for the home garden.

Price Above Vines Each 30c; 3 for 75c; 12 for \$2.40 Write for Quantity Prices for Larger Plantings 8619 Set of 4 Strong, Well Rooted, 1 year Grape Vines illustrated Only 80c.

Three New Hardy Hybrid Grapes

See Color Plate on Page 52

8602 Caco (Red) The berries are unusually large, bunches of good size, compact and of good form. Very strong, vigorous growers, hardy, healthy, and prolific. A cross of the two well-known grapes, Catawaba and Concord, has all the good qualities of both without the defects of either. Ripens in September. Price, strong well rooted vines, Each 40c; 3 for \$1.00; doz. \$3.20.

8606 Fredonia A new early blue developed by the New York State Experiment Station. Heavy bearer, good shipper, picks as late as Concord. Big, compact bunches. Each 50c; 3 for \$1.25; 12 for \$4.00.

8614 Portland A new extra early white, also developed at Geneva. Very sweet. Not a good shipper but fine for home table. Each 50c; 3 for \$1.25; 12 for \$4.00.

The New Caco Grape Berry Plants

The New Caco Grape

6 for 50c; 12 for 90c; 25 for \$1.75.

8644 Cumberland Black Raspberry

Eldorado Blackberry

The "BUSINESS BLACK CAP." The best black Raspberry grown. Very hardy everywhere. Heaviest bearing variety in cultivation. Fruit is extra large, jet black, and of superior quality. Ripens medium early. Price: 6 for 45c; 12 for 80c; 25 for \$1.50.

8664 Eldorado Blackberry This popular hardy Blackberry is known everywhere and more largely grown than any other because of its extreme hardiness and dependability. Eldorado can always be depended on for an abundant crop. It is the Blackberry for every fruit grower. Large, sweet and free from core. Price: 6 for 60c; 12 for \$1.10; 25 for \$2.00.

8653 Latham Red Raspberry Large size, fine red color, make the Latham a favorite with growers, merchants and consumers. The plants we offer are absolutely free from "Mosaic Disease," the great enemy of raspberry growers. Price: 6 for 50c; doz. 90c; 25 for \$1.75; 100 for \$5.50; 1000 for \$50.00.

Cumberland Raspberry

Lawn Seeds To Beautify Your Home Grounds

Your lawn is the foundation for all of your other plantings. The trees, shrubs and flowers that you have planted around your home cannot produce the perfect picture of beauty that you desire without the foreground of well-kept lawn. A good lawn is not difficult to produce.

Templin - Bradley's Fine Lawn Mixtures

Any one variety of grass alone will not make a completely satisfactory lawn, as each variety has its peculiar advantage. Thus when several varieties are blended in the proper proportions the advantages of all are combined in your lawn. We have spent years of experimental work in securing the proper varieties and properspent years of experimental work in securing the proper varieties and proportions to use in each mixture for very best results. One pound of our lawn mixtures will sow 200 to 250 sq. ft. of new lawn. For filling in an old lawn use one-half that amount.

Full directions for planting and the care of your lawn will be sent with every 5 lbs. or larger pack-age of seed or will be sent free on request.

Very hardy and adapts itself to nearly any soil, will do well on wet soil and is not averse to any acid soil. Superfine Quality. Lb. 35c; 5 lbs. \$1.60; 10 lbs. \$3.00, delivered.

SHADY NOOK LAWN SEED FOR SHADY PLACES

ALTER AND PRICE OF THE TEMPLIN BRADLET CO
CLEVELAND, O.

4201 Ideal, Our Best Regular Mixture

For a fine permanent lawn. It is a carefully blended mixture of the following varieties of hardy grasses best suited to growing a compact durable evergreen sod; Kentucky Blue Grass, Red Top, Fescues, White Clover and Bent Grass, a combination that insures a fine velvety lawn that will withstand the heat of summer and the cold of winter. Lb. 50c; 3 lbs. \$1.25; 5 lbs. \$2.25; 10 lbs. \$4.25; 25 lbs. \$10.00, delivered.

A special mixture containing varieties that naturally grow in shaded places. Suitable for sowing under shade trees and in shady corners, where the ordinary mixture will not do. The shady lawn must have special care as well as the right kind of seed. Our Lawn Leaflet explains what is necessary. 10. 30c; lb. 55c; 3 lbs. \$1.60; 5 lbs. \$2.50; 10 lbs. \$1.75; 25 lbs. \$11.25, delivered.

4203 Quick Growth Mixture

Makes a good lawn quickly. While not composed of as fine or expensive grasses as Ideal, nevertheless Quick Growth contains enough of these grasses to insure a good lawn after the biennial varieties have run out. Contains white clover. Compares favorably with many of the "best" mixtures on the market. Lb. 40c; 3 lbs. \$1.15; 5 lbs. \$1.75; 10 lbs. \$3.25; 25 lbs. \$7.50, delivered.

4204 Superfine Bent or "Golf Turf" Mixture We highly recommend the use of this mixture as it is made up of the best strains of fine leaved grasses suitable for the "Putting Green" or Lawn. It contains a liberal proportion of Bent Grass as well as other varieties to secure a fine velvety sod throughout the season from early spring until late fall. Lb. S0c; 3 lbs. \$2.35; 5 lbs. \$3.75; 10 lbs. \$7.00, delivered.

4235 Pure White Clause Many prefer to add more Clover when sow-

White Clover flourishes well in almost any soil. Best Quality. 4 lb. 20c; ½ lb. 35c; lb. 65c; 5 lbs. \$3 00; 10 lbs. \$5.50, delivered.

Rough-Stalked Meadow Grass. Succeed in the shade and maintain a good turf under this condition. This grass is a quick grower and preserves its bright green color from early spring until late autumn. An excellent grass to fill out thin spots under trees, etc. Lb. 70c; 5 lbs. \$3.10; 10 lbs. \$6.00, delivered.

4224 German Bent Grass This is produced and imported from Europe as German Mixed Bent and is a natural mixture of several varieties of this type of grass. Contains a certain percentage of the true carpet or creeping Bent, the balance being other closely related varieties. Ask for prices.

varieties. Ask for prices.

4228 Astoria Bent A very fine variety of Bent grass that is being produced in Oregon. This is perhaps the best variety for those who wish to install a Bent lawn by seeding. Astoria Bent produces a lawn of very fine texture, good color and uniform growth, preserving its quality and fine appearance without excessive maintenance. Growth is dwarf and compact, spreading by runners close to the ground. We offer a very select strain. Lb. \$1.35; 5 lbs. \$6.50; 10 lbs. \$12.50, delivered.

4229 Seaside Bent (Coos County Strain). A close heavy turfing grass especially well fitted for putting greens or fine lawns. It is quick growing, spreading by runners or stolens which quickly cover the ground and maintain a thick turf of fine, even texture. Lb. \$1.50; 5 lbs. \$7.25; 10 lbs. \$14.00, delivered.

4230 Rhode Island Bent A native American variety that produces a Quite hardy, enjoying plenty of moisture and tolerant of rather poor soils. The seed is scarce. Ask for prices.

About Bent Grass Lawns

We will be glad to send on your request our special leaflet on the making and maintenance of Bent Lawns.

Will Solve Your House Plant Problems You Feed Your Pets--Don't Starve Your Plants Easy To Apply and the Results Will Please You

Potted plants and ferns soon use up the food in the soil given them when potting, and unless more food is supplied to them when this is exhausted, they merely stand still or gradually decline.

With small applications of Watch-em-Grow at regular intervals, applied according to prescribed directions, these plants will continue luxuriant, healthy, new growth and produce their beautiful bloom regularly as nature intended.

Watch-em-Grow is a clean odorless powder that quickly dissolves in water and is applied just as you water the plants. No trouble, no bother and no mess. When potting plants a teaspoonful of Watch-em-Grow mixed with a gallon of soil will supply sufficient food for the plants for six or eight months.

On rose bushes or other choice plants in the garden Watch-em-Grow is extremely beneficial.

Peat Moss **Improved** Granulated

An organic material that contributes humus content to the soil. It assures moisture to the soil, is capable of absorbing 12 times its weight in moisture Peat Moss lightens heavy clay soil, binds sandy soil, is free from weed seeds or fungus growth of any kind. It is clean, odorless and pleasant to work with. Make fine winter mulch, is fine medium for pecking and storing dahlia and other tubers, roots and fruit. Economical to use. One large bale will spread 300 sq. ft. Splendid for lawn top dressing.

Peat Moss Prices
F. O. B. Cleveland by Freight or Express Small Bale, 2 bushels. 18 lbs. Ea. \$1.25.
Large Balc, 20 bushels. 180 lbs. Ea. \$4.00.

Easy on the hands and easy to wear!

Economical, too—outwear 6 pairs of ordinary fabric gloves, are washable and can be used the year round for garden, housework, yard, painting, furnace, garage, etc. You'll like them.

Sizes for Women (small, medium, large) for Men (small, medium, large). Price, 75 cents a pair, postpaid (2 pr. \$1.40.)

The Proof in the Photograph

The plant on the left was started with regular potting soil and some fertilizer. The plant on the right In addition was treated with a smail amount of "Watch-cm-Grow." These two Cineraria plants were started at the same time under exactly the same conditions, with the single exception of the "Watch-em-Grow." Looks almost too good, doesn't it?

8 oz. Can, 50c.

The Plant on Right Had Watch-em-Grow

Insecticides and Fungicides Our Prices Include Delivery To Your Door

Kill Ants in the Nest!

Antrol is the simplest method for getting rid of Ants. It kills them in the nest, destroying the queen and the entire colony. It is easy to use, controls the sweet and the grease eating Ants, is safe to use and is the most economical and permanent Ant protection to your home. Price Antrol Sets, 4 glass containers and one 4 oz. bottle of Antrol Syrup for S5c.

Antrol Syrup Separately. 4 oz. Bottle 40c; Pint 95c.

Antrol Powder. Shaker twist-top can, 2½ oz. can 30c; 3 cans for 75c.

"Dust Away Your Weeds"

Atlacide is a NON-POISONOUS Weed Killer in dry powder form used to dust on vegetation. The moisture from the air and weeds dissolves the chemical and produces a highly concentrated weed killing solution directly on the weeds. For use in paths, driveways, tennis courts, brick walks, gutters, etc.

Price 1 lb. Sifter Can 55c; 3½ lb. \$1.65; 15 lb. \$3.80.

"BlackLeaf 40"

Safeguard Your Lovely Flowers
Tiny green, red or black Aphis feed upon the tender foliage in your garden and rob your flowers of their beauty.
Have on hand some "Black Leaf 40," the spray that kills Aphis, Thrip, Leaf-Hopper and similar insects.
"Black Leaf 40" is a concentrated solution of Nicotine Sulphate. Mixing 1 part of it with 800 to 1000 parts of water, makes an excellent contact spray. Directions on each container. Price 1 oz. 35c; 5 oz. \$1.05; 1 lb. \$2.35; 2 lbs. \$3.40; 5 lbs. \$6.00.

Improved CERESAN for

Wheat, Oats, Barley
If your seed is smutty, treat it with Ceresan to control the smut, if it is clean, treat it anyway and increase the yield. One-Half Ounce Treats a Bushel.
Price 1 lb. can 85c; 5 lb. can \$3.25.

If you are bothered with dogs, cats or rabbits, "Dogzoff" is the spray you need. A most efficient animal repellant, non-poisonous to plants and animals and not offensive to humans.

"Dogzoff" is applied with any small insect sprayer and one application lasts three to four weeks. It will save its cost many times over around the garden and home.

Price Season's Supply 69c

DUTOX

The best control for striped cucumber beetle, Mexican bean beetle, cabbage worm, Aster beetle and coddling moth.

In practically every vegetable and fruit producing area in this country Dutox has become established among important growers as a control of many beetles and leaf-eating insects. Can be applied as a dust or liquid. I pound can 45c; 6 lb. bag \$1.40.

EVERGREEN

Non-poisonous Insecticide

New Ever Green Spray will protect the beauty of your garden. It will kill chewing and sucking insects, is approved by noted scientists and is used by leading florists.

Ever Green contains pyrethrum which is fatal to destructive insects but is not injurious to man, pets and hirds.

Price 1 oz. 40c; 6 oz. \$1.10; 1 qt. \$2.15; 1 gai. \$11.50.

FLORAGARD

Fungous diseases should be prevented as they are very difficult to control when once started. Black spot, mildew and canker on roses must be prevented first if they are to be controlled.

controlled.

Floragard dusted on the plants regularly throughout the season will control these disease attacks as well as a sure kill for leaf-eating insects.

1 lb. can 50c; 5 lbs. \$1.75.

FISH-OIL SOAP

The best and most efficient soap to be mixed with other insecticides and fungicides as a spreading and penetrating agent. 1 lb. 40c; 5 lbs. \$1.60.

TREE DRIES

FRAIM'S

Tree Dressing Will Save Your Trees

Treatment of cuts and injuries are far more important than the use of fertilizers on trees.

Use Fraim's Tree Dressing and give your trees a chance to live their normal life.

A tree's bark is to it the same as the skin to the human body. Save this bark with Fraim's Tree Dressing. Price 1 qt. 60c; 1 gal. \$1.75.

SLUG SHOT

A well known all purpose insecticide and fungicide to be used as a dust. Can be used on vegetable crops without fear of harm to humans. Especially recommended for cabbage worms, currant worms and bean beetles. I lb. can 30c; 5 lbs. \$1.10.

INOCULATE ALL LEGUMES NITRAGIN Inoculator

Sce Page 57

Inoculate your Garden Peas, Beans, Sweet Peas and Lupines with Nitragin. They need Bacteria Fertilizer. Nitragin is an old reliable Inoculator, well known and widely used by Agricultural Colleges. It is highly recommended for Lupine seed and for use in watering the soil around the roots of Hardy Lupines. Price Garden Pkg. 25c; Large size 50c.

ROSE AID

The most efficient dusting com-pound ever developed for the control of Black Spot, Mildew and Chew-

Rose Aid is a combination of fine Sulphur, Dry Lime, Sulphur-Bentonite and Arsenate of Calcium.

2 Ib. can 60c.

ROSE AID (With Rotenone)

The same product as the above except that rotenone has been added. Rotenone is a powerful insecticide against practically all insects. 1 lb. can 50c.

SELOCIDE Kills Red Spider

Sclocide kills 90% to 100% of Red Spiders in just one application. It also kills the eggs and does not harm the tender plants when properly used.

Selocide contains Selenium, the only material yet found that is a sure kill for Red Spider.

Selocide contains a spreader and is to be sprayed thoroughly on upper and lower sides of the leaves to kill Red Spider only.

Price 1 qt. \$1.40; 1 gal. \$3.50.

SEMESAN

A Superior Disinfectant

Authorities stress the importance of planting clean seeds, free from disease and infection. Semesan is highly recommended as a disinfectant and can be used as a DUST or in LIQUID form.

Why not lay the foundation for a heavy-yielding, healthy and profitable crop this year by using Semesan on all seeds, bulbs, roots and potatoes?

SEMESAN comes under three formulas and we list em as follows:

SEMESAN Regular, for Vegetable Seeds. Price 2 oz. 55c; 1 lb. \$2.60; 5 lbs. \$12.00.

SEMESAN JR. for Seed Corn. Price 4 oz. 40c; 1 lb. \$1.15; 5 lbs. \$5.00.

SEMESAN BEL, for Seed Potatoes. Price 4 oz. 55c; 1 lb. \$1.75; 5 lbs. \$7.25.

SPRA-MULSION

A miscible oil emulsion recommended for use as a dormant spray for fruit trees, shade trees and ornamental shrubs. It will control San Jose, Oyster shell and many other scale insects. I Qt. 55c; I Gal. \$1.10.

TREE TANGLEFOOT

Safe, Dependable, Long Lasting

Tree Tanglefoot is a sticky material for applying in bands around the trunks of trees and vines to combat the climbing and creeping type of destructive insect pests. It remains three to four months, outlasting ten to twenty times any other material. Price 1 lb. can 70c; 5 lbs. \$2.95; 10 lbs. \$5.60.

TRI-OGEN

VOLCK A Powerful Spray

for Insect Pests

Volck is a spray for Scale Insects, Mealy Bugs, White Flies, Red Spiders, Rust Mites and similar insects. It is suitable for all kinds of plants, flowers, vegetables, berries, shrubs, ornamental trees, deciduous and citrus fruits. Price ½ pt. 10c; pt. 60c; qt. 90c; gal. \$2.50.

R. E. BILES BOOK OF Garden Magic" \$3.50 per copy

Hundreds of Helpful Illustrations Like the Above Reduced Specimens Are Yours in "Garden Magic"

Cover Size 10x111/2 in. See other side

Garden Magic

3 Books in One for \$3.50
Garden Manual—Reference Work
Loose-Leaf Scrap Book

THE BOOK OF GARDEN MAGIC is unlike anything ever published. You don't have to get your garden information by tedious study. Hundreds of drawings and actual photographs graphically imprint the "way to do it" upon your mind.

AT A GLANCE: You solve your immediate problem and easily remember what you see.

CONCISE, YET COMPLETE: It tells you how to plan your garden, bit by bit, as you get time. All problems disappear as you glance at the skilfully drawn instructions. Only a few (greatly reduced) are shown on other side. The large, easily read text is printed on fine paper, brief, concise yet complete.

LISTS & CHARTS: Planting lists for every conceivable purpose are arranged for home use. Quick reference charts tell how to select plants and what to do to keep them free from pests.

ALSO A SCRAP BOOK: The loose leaf form allows you to bind your own notes, clippings, articles or pictures where you can find them.

BEAUTIFUL COVER: The loose-leaf cover is a GENUINE TRUSSEL WATER-PROOF ring book GOLD EMBOSSED. Size 10 x 11½ inches. Made to take into the garden with you.

MONTHLY ADDITIONS: A fully illustrated calendar bulletin comes to you each month, free for one year. These tell you what to do at the time you should do it.

Proof

As a proof of its excellence, articles from THE BOOK OF GARDEN MAGIC are regular weekly features of several large newspapers. Botany teachers use it as a practical class room auxiliary text book, Many Garden Clubs base a yearly program upon it. It has been recommended by a state association for home institute study. Hundreds of users write voluntary letters of praise.

Tuberous Rooted Begonias

Read what Mr. Martin Said

Salamanca, N. Y.
"Templin-Bradley Co. August 31st.
Gentlemen:—

Gentlemen:—

The dozen Mixed
Tuberous Rooted Begonia Bulbs I
bot from you last spring have been
just as full of flowers as it is possible
for them to be for several weeks.
Several measured six inches across.
No two colors alike, surely a gorgeous
lot. We are surely more than pleased.

A. W. Martin."
